PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2009 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

Pennsylvania Oil and Gas Locations

Source: Pennsylvania Department of Environmental Protection

Telephone: 814-863-0104

An Oil and Gas Location is a DEP primary facility type related to the Oil & Gas Program. The sub-facility types related to Oil and Gas that are included in this layer are: Land Application -- An area where drilling cuttings or waste are disposed by land application; Well-- A well associated with oil and/or gas production; Pit -- An approved pit that is used for storage of oil and gas well fluids. Some sub facility types are not included in this layer due to security policies.

EDR Site Report™

TABLE OF CONTENTS

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases. The report is divided into three sections:

Section 1: Facility Summary Page 3

Summary of facility filings including a review of the following areas: waste management, waste disposal, multi-media issues, and Superfund liability.

Section 2: Facility Detail Reports Page 4

All available detailed information from databases where sites are identified.

Section 3: Databases and Update Information. Page 5

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

SECTION 1: FACILITY SUMMARY

FACILITY	FACILITY 1
AREA	TIMELESS TOWNS OF AMER HOTEL & MALL 2636 EMMITSBURG RD GETTYSBURG, PA 17325 EDR ID #1007661439 EPA #110000929782
WASTE MANAGEMENT	
Facility generates hazardous waste (RCRA)	NO
Facility treats, stores, or disposes of hazardous waste on-site (RCRA/TSD)	NO
Facility has received Notices of Violations (RCRA/VIOL)	NO
Facility has been subject to RCRA administrative actions (RAATS)	NO
Facility has been subject to corrective actions (CORRACTS)	NO
Facility handles PCBs (PADS)	NO
Facility uses radioactive materials (MLTS)	NO
Facility manages registered aboveground storage tanks (AST)	NO
Facility manages registered underground storage tanks (UST)	NO
Facility has reported leaking underground storage tank incidents (LUST)	NO
Facility has reported emergency releases to the soil (ERNS)	NO
Facility has reported hazardous material incidents to DOT (HMIRS)	NO
WASTE DISPOSAL	
Facility is a Superfund Site (NPL)	NO
Facility has a known or suspect abandoned, inactive or uncontrolled hazardous waste site (CERCLIS)	NO
Facility has a reported Superfund Lien on it (LIENS)	NO
Facility is listed as a state hazardous waste site (SHWS)	NO
Facility has disposed of solid waste on-site (SWF/LF)	NO
MULTIMEDIA	
Facility uses toxic chemicals and has notified EPA under SARA Title III, Section 313 (TRIS)	NO
Facility produces pesticides and has notified EPA under Section 7 of FIFRA (SSTS)	NO
Facility manufactures or imports toxic chemicals on the TSCA list (TSCA)	NO
Facility has inspections under FIFRA, TSCA or EPCRA (FTTS)	NO
Facility is listed in EPA's index system (FINDS)	YES - p4
Facility is listed in a county/local unique database (LOCAL)	NO
POTENTIAL SUPERFUND LIABILITY	
Facility has a list of potentially responsible parties PRP	NO
TOTAL (YES)	1

EDR ID #1007661439

This site is listed in the Federal FINDS database. The FINDS database may contain references to records from government databases included elsewhere in the report.

Please note: the FINDS database may also contain references to out of date records formerly associated with the site.

Registry ID: 110000929782
Facility Name: TIMELESS TOWNS OF AMER HOTEL & MALL
Facility Address: 2636 EMMITSBURG RD
GETTYSBURG, PA 17325
Facility County: ADAMS
EPA Region: 03
Fed. Gov. Facility: No
Indian Tribal Land: No
Environmental Interest/Information System

SDWIS [WS] (Safe Drinking Water Information System (Water System)). Water Systems can have one or more water system facilities. The water system will purchase water from several facilities. Drinking water information is stored in EPA's SDWIS, which contains information about public water systems and their violations of EPA's regulations for safe drinking water. These statutes and accompanying regulations establish maximum contaminant levels (MCL), treatment techniques, and monitoring and reporting requirements to ensure that water provided to customers is safe for human consumption.

PA-EFACTS (Pennsylvania - Environmental Facility Application Compliance Tracking System) is a Department-wide database that provides a holistic view of clients and sites (including facilities) that DEP regulates.

Prg. Sys. ID: 262032
Supplemental Interest: DRINKING WATER PROGRAM
Facility SIC Codes: 4941
Facility NAICS Codes: Not reported

Prg. Sys. ID: PA7010048
Supplemental Interest: WATER TREATMENT PLANT
Facility SIC Codes: Not reported
Facility NAICS Codes: Not reported

Alternative name: TIMELESS TOWNS OF AMERICA INC

SECTION 3: DATABASES AND UPDATE DATES

To maintain currency of the following federal, state and local databases, EDR contacts the appropriate government agency on a monthly or quarterly basis as required.

Elapsed ASTM days: Provides confirmation that this report meets or exceeds the 90-day updating requirement of the ASTM standard.

2009 Enhancements to EDR City Directory Abstract

New for 2009, the EDR City Directory Abstract has been enhanced with additional information and features. These enhancements will make your city directory research process more efficient, flexible, and insightful than ever before. The enhancements will improve the options for selecting adjoining properties, and will speed up your review of the report.

City Directory Report. Three important enhancements have been made to the EDR City Directory Abstract:

1. *Executive Summary.* The report begins with an Executive Summary that lists the sources consulted in the preparation of the report. Where available, a parcel map is also provided within the report, showing the locations of properties researched.
2. *Page Images.* Where available, the actual page source images will be included in the Appendix, so that you can review them for information that may provide additional insight. EDR has copyright permission to include these images.
3. *Findings Listed by Location.* Another useful enhancement is that findings are now grouped by address. This will significantly reduce the time you need to review your abstracts. Findings are provided under each property address, listed in reverse chronological order and referencing the source for each entry.

Options for Selecting Adjoining Properties. Ensuring that the right adjoining property addresses are searched is one of the biggest challenges that environmental professionals face when conducting city directory historical research. EDR's new enhancements make it easier for you to meet this challenge. Now, when you place an order for the EDR City Directory Abstract, you have the following choices for determining which addresses should be researched.

1. *You Select Addresses and EDR Selects Addresses.* Use the "Add Another Address" feature to specify the addresses you want researched. Your selections will be supplemented by addresses selected by EDR researchers using our established research methods. Where available, a digital map will be shown, indicating property lines overlaid on a color aerial photo and their corresponding addresses. Simply use the address list below the map to check off which properties shown on the map you want to include. You may also select other addresses using the "Add Another Address" feature at the bottom of the list.
2. *EDR Selects Addresses.* Choose this method if you want EDR's researchers to select the addresses to be researched for you, using our established research methods.
3. *You Select Addresses.* Use this method for research based solely on the addresses you select or enter into the system.
4. *Hold City Directory Research Option.* If you choose to select your own adjoining addresses, you may pause production of your EDR City Directory Abstract report until you have had a chance to look at your other EDR reports and sources. Sources for property addresses include: your Certified Sanborn Map Report may show you the location of property addresses; the new EDR Property Tax Map Report may show the location of property addresses; and your field research can supplement these sources with additional address information. To use this capability, simply click "Hold City Directory research" box under "Other Options" at the bottom of the page. Once you have determined what addresses you want researched, go to your EDR Order Status page, select the EDR City Directory Abstract, and enter the addresses and submit for production.

Questions? Contact your EDR representative at 800-352-0050. For more information about all of EDR's 2009 report and service enhancements, visit www.edrnet.com/2009enhancements

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

REGISTRATION OF STORAGE TANKS

STATE USE ONLY DATE RECEIVED: _____
AMOUNT RECEIVED: _____

ORDINANCE WITH SECTIONS 303 AND 503 OF THE STORAGE TANK AND SPILL PREVENTION ACT, OWNERS OF REGULATED STORAGE TANKS ARE REQUIRED TO REGISTER THEIR TANKS WITH THE DEPARTMENT AND TO PAY A REGISTRATION FEE.

INSTRUCTIONS

Please type or print in ink all items except "Signature" in Section V. This form is to be completed for each FACILITY which has regulated storage tanks. If there are more than 10 underground or aboveground tanks, photocopy the reverse side of this form, and staple continuation sheets to this form.

Section I. Owner Information - Name, business mailing address and phone number of OWNER of the storage tank(s) at the facility. Please include county and Federal Identification Number, if none include your Social Security Number.

Section II. Type of Owner - Mark the appropriate box.

Section III. Facility Information - Name and physical location (not P.O. Box) of FACILITY. Please include county and township in which FACILITY is located. Include the Facility Identification No. if known.

Section IV. Type of Facility - Mark the appropriate box, if applicable.

Section V. Description of Storage Tanks - This section is for recording information about each regulated storage tank at the facility. Information for aboveground tanks is to be recorded in Part A. Information for underground tanks is to be recorded in Part B.

1. Tank Registration Number - The registration numbers to be recorded for underground tanks are "001", "002", "003", etc. The registration numbers to be recorded for aboveground tanks are "001A", "002A", "003A", etc. The "A" has already been printed on the form for your convenience.
2. Status - Indicate whether the tank is currently in use, temporarily out of use, or permanently out of use. Permanently out of use means properly closed in place with an inert solid material. Do not include tanks which have been removed.
3. Date of Installation - Specify the month and year the tank was completely installed. For instance, "0190", for January, 1990. If unknown, write "0000".
4. Capacity - Specify the total design or maximum capacity of the tank in GALLONS. If unknown, write "unknown".
5. Substance Currently or Last Stored - Indicate the substance(s), currently or last stored. If a hazardous substance, please indicate CERCLA Name and CAS Number. If other is indicated, please specify.
6. Tank Has Been Issued Fire Safety Approval or Permit - Indicate whether the tank has been approved or permitted by the Pennsylvania State Police, Fire Marshal Division; or local agency under their jurisdiction for fire safety.
7. Registration Fee - Determine registration fee due PER TANK as indicated below. A registration fee is NOT required for tanks permanently out of use.
 - A. Aboveground tanks
 1. Up to and including 5,000 gallons - \$50 per tank
 2. 5,001 to and including 50,000 gallons - \$125 per tank
 3. Greater than 50,000 gallons - \$300 per tank
 - B. Underground Tanks - \$50 per tank

Record the total registration fee due for all aboveground tanks in the space provided (A). Record the total registration fee due for all underground tanks in the space provided (B). Record the total registration fee due for all aboveground and underground tanks in the space provided (A + B). Submit a check or money order, for the total registration fee due, made payable to: Dept. of Environmental Resources.

Section VI. Certification - This section is to be completed by the OWNER. Please type or print the name and official title of the OWNER. The OWNER must also sign and record the date the application was examined.

Section VII. Nameplate Information - Complete this section for each aboveground tank greater than 5,000 gallon capacity. Use the same Tank Registration Number as identified in Section VI.

PLEASE SEND COMPLETED ORIGINAL FORM AND CHECK TO: **PA Department of Environmental Resources
Bureau of Water Quality Management

April 6, 1993

Mr. Jeffrey Mulnar
Pa. D.E.R.
One Arafat Blvd.
Harrisburg, Pa. 17110

Dear Mr. Mulnar:

Please be advised that an error was made in the initial registration of our three underground storage tanks. Tank number 3 was listed as a tank "temporary out of use" for the "storage of gasoline" when it should have been listed as a tank "temporary out of use" for the "storage of fuel oil". Subsequent repairs to the furnace that services a building that had been vacant for several years changed the status of this tank from "tempory out of service" to "currently in use".

This error was called to our attention by the certified contractor who has been engaged to remove tank Number2, the 500 gallon tank used for the storage of gasoline that failed the "integrity test" conducted by Petroleum Environmental Technologies, Ltd. on November 25, 1992, as per their report submitted to your attention under date of December 7, 1992.

J. F. Waybrant & Sons, Inc., P.O. Box 4447, Gettysburg, Pa. 17325, the certified contractor engaged to remove tank number 2, contemplates the completion of this project within the next 30 days.

Please note change of name from "Sherton Inn" to "Ramada Inn".

We would ask that you please amend your records accordingly.

Very truly yours,
TIMELESS TOWNS OF THE AMERICAS

Paul B. Fox
Vice President

Ref: UST "integrity test" failure.

Dear Mr. Mulnar,

On November 25, 1992 our firm conducted a UST "integrity test" on an 500 gallon Underground GASOLINE Storage Tank.

Tank Owner: TIMELESS TOWNS OF THE AMERICAS
C/O: Ramada Inn-Gettysburg
2636 Emmitsburg Road, Gettysburg, Pa. 17325
CONTACT: MR. PAUL FOX
PH.# 717-334-8181

The tank fill piping "failed" the testing protocol. We were unable to stabilize the product in the fill pipe section of the system.

We advised the owner representative, of the need to take investigative and or corrective action, to determine the cause of the tank failure.

We also advised him of the requirement to Notify DER of the tank testing results.

Should you have any questions, feel free to contact Mr. Paul Fox at the above mentioned phone number.

I have been advised that it is their intention to move ahead and further investigate this potential problem.

Sincerely,

Edward J. Kraus, POE
DER Certified Installer / Inspector # 00126.

Timeless Towns of America Site
Gettysburg Borough, Adams County

Dear Mr. Fox:

This is to acknowledge that we have reviewed the above referenced closure report and find it acceptable. Accordingly, no further action is necessary at this time. This should not, however, be construed as a waiver of liability for any future problems which may arise as a result of conditions at the site.

Should you have any questions, please feel free to contact us at the above number.

Sincerely,

F. William Nell

Gettysburg, Pennsylvania**

Overview

J.F. Waybrant & Sons (Gettysburg, Pennsylvania; PaDER company certification number 439) was contracted by Timeless Towns of America's Inc. (Gettysburg, Pennsylvania) to provide underground storage tank (UST) closure services at:

Timeless Towns of America's Inc.
2636 Emmitsburg Road
Gettysburg, Pennsylvania
Adams County
Facility Number 01-18771.

The facility is currently operated as a property holding company.

Specifically, the project included the removal of the following tank:

one (1) 500-gallon UST, previously containing gasoline.

The original date of installation of the tank is unknown; however, it is suspected that the tank is approximately 15 years old.

The National Fire Protection Association (NFPA) classifies gasoline as a Class II combustible liquid.

The removed tank was constructed of single-wall steel. Its condition was excellent. There were no visible holes or pits in the tanks. The tanks were bedded in clay and small aggregate. There was some contamination found directly below the fill line of the tank due to overspill conditions.

Additionally, the contract included soil sampling as required by the Pennsylvania Department of Environmental Resources (PaDER) to test for the presence of total petroleum hydrocarbons, and benzene, toluene, ethylbenzene, and xylenes. After the tank was pulled, soil samples were collected by J.F. Waybrant & Sons in accordance with U.S. Environmental Protection Agency (EPA) protocols which are described in "Test Methods for Evaluating Solid Waste—Physical Chemical Methods" (SW-846). The samples were transported to Enviro-Lab, Inc., 1221 Hanover Road, York, Pennsylvania, on May 26, 1993.

Using PaDER's document, "Guidance for Underground Storage Systems in Pennsylvania, Closure/Change in Service, Site Assessment/Remediation" (PaDER, Bureau of Water Quality Management, April 1990), a report was generated following the completion of this contract and forwarded to the regional PaDER office. A copy of the report was sent to Mr. Paul Fox, Timeless Towns of America's Inc. An additional copy of this report is on file at the office of J.F. Waybrant & Sons.

On-site work for this project was completed on June 17, 1993.

Site Location

Timeless Towns of America's Inc. is located at 2636 Emmitsburg Road, Gettysburg, Adams County. (See Site Location Map—Figure 1.) The property is owned and operated by Timeless Towns of America's Inc.

Referring to Figure 2—Site Diagram, the one 500-gallon gasoline tank (removed) was located south of the Ramada Inn on the property, approximately 800 feet from the Ramada Inn and 100 feet from Devonshire Condominiums.

Tank Removal

Specifically, J.F. Waybrant & Sons removed the UST as described in this report. The tank was cleaned and properly disposed of as scrap material by Goetz Excavating (Ortanna, Pennsylvania).

Approximately 100 gallons of a water/gas mixture will be removed by Remtech (Lewisberry, Pennsylvania). The mixture is currently being stored at J.F. Waybrant & Sons.

Mr. Duane R. Sanders, Project Foreman, is a Pennsylvania-certified tank installer (certification number 000340-INST).

Jerry Pitzer and Steve Williams also assisted with this project.

Site Assessment

Duane Sanders conducted a site assessment at the excavation of the UST on May 26, 1993, in accordance with the guidelines as set forth by PaDER. A Photovalc Micro Tip was used to determine the location(s) of contamination. With the exception of a small amount of contamination found under the fill pipe, contamination was not suspected. Soil samples were collected from the pit.

Soil Samples/Laboratory Results

The tank did not contain a concrete pad.

Three soil samples were collected at the tank/soil interface of the tank. An additional set of three samples was collected approximately three feet below the first set of samples. The contaminated soil under the fill line was not removed prior to sampling. A Contamination Notification form is attached to this report. Bedrock and groundwater were not encountered in this closure project.

With the exception of the soil directly under the fill line, the samples collected at the tank/soil interface tested at non-detectable levels. All soil samples collected at the three feet depth and tested for total petroleum hydrocarbons, and benzene, toluene, ethylbenzene, and xylenes, tested at non-detectable limits. J.F. Waybrant & Sons removed approximately four tons of contaminated soil from the UST pit (fill area). PaDER classifies the soil remaining in the pit as Level A soil, or clean fill.

There were approximately four tons of soil suspected of contamination. It has been stockpiled on and covered with plastic awaiting proper disposal by Soil Recyclers (Hunt Valley, Maryland).

All samples were collected using a standard soil auger and placed into 250-milliliter (ml) teflon-lid bottles. Samples were kept at four degrees Celsius (4°C) until delivered to the laboratory. The soil auger was decontaminated after each sample by brushing it with laboratory-grade, non-phosphate detergent and rinsing it with distilled water.

The soil samples were analyzed at Environ-Lab, Inc., a PaDER-certified laboratory, using EPA-approved methods SW-846, 8020/5030/8015 Modified GC/FID.

Safety Precautions

The area surrounding the excavations was protected by orange barrier fence. All Occupational Health and Safety Association (OSHA) regulations regarding safe trench entry were observed by the employees of J.F. Waybrant & Sons.

Soil Removal

There are approximately four tons of soil suspected of contamination for this project site. It is currently on site (on and covered with plastic), awaiting proper disposal by Soil Recyclers (Hunt Valley, Maryland).

Excavated soil was used as fill. The client will finish filling the pit.

Groundwater

Groundwater was not encountered during this project. There are no known wells or springs located within 500 feet of the property. Public water and sewer is used.

Permits

Notification for Closure/Change-in-Service was filed with the Pennsylvania Department of Environmental Resources. A copy is attached to this report. The Pennsylvania One Call System, Inc. was notified prior to project commencement. A Notification for Closure/Change-in-Service is attached.

Conclusion

One UST was removed from the property of Timeless Towns of America's Inc., Gettysburg, Pennsylvania. The excavation was completed on June 17, 1993, during which time samples were taken to a local Pennsylvania-certified laboratory where they were analyzed for total petroleum hydrocarbons, and benzene, toluene, ethylbenzene, and xylenes. The final test results showed that the soil surrounding the UST after over-excavation of approximately four tons of soil was not contaminated beyond PaDER Level A limits. The remaining soil surrounding the excavated tank is considered by PaDER to be clean fill. The tank was cleaned and properly disposed.

The four tons of contaminated soil is scheduled to be disposed of by Soil Recyclers (Hunt Valley, Maryland). All liquids remaining in the tank will be properly disposed of by Remtech (Lewisberry, Pennsylvania).

There are two additional tanks on this site. The first is a 500-gallon UST, registered to contain gasoline, but converted for heating oil. The second is a 10,000-gallon UST, registered and used for heating oil.

There is no additional work planned on this site to comply with state and/or federal regulations.

REGISTRATION OF STORAGE TANKS

STATE USE ONLY

DATE RECEIVED: MAR 09 1990

ACCORDANCE WITH SECTIONS 303 AND 503 OF THE STORAGE TANK AND SPILL PREVENTION ACT, OWNERS OF REGULATED STORAGE TANKS ARE REQUIRED TO REGISTER THEIR TANKS WITH THE DEPARTMENT AND TO PAY A REGISTRATION FEE.

AMOUNT RECEIVED: \$150.00

INSTRUCTIONS

Please type or print in ink all items except "Signature" in Section V. This form is to be completed for each FACILITY which has regulated storage tanks. If there are more than 10 underground or aboveground tanks, photocopy the reverse side of this form, and staple continuation sheets to this form.

- Section I.** Owner Information - Name, business mailing address and phone number of OWNER of the storage tank(s) at the facility. Please include county and Federal Identification Number, if none include your Social Security Number.
- Section II.** Type of Owner - Mark the appropriate box.
- Section III.** Facility Information - Name and physical location (not P.O. Box) of FACILITY. Please include county and township in which FACILITY is located. Include the Facility Identification No. if known.
- Section IV.** Type of Facility - Mark the appropriate box, if applicable.
- Section V.** Description of Storage Tanks - This section is for recording information about each regulated storage tank at the facility. Information for aboveground tanks is to be recorded in Part A. Information for underground tanks is to be recorded in Part B.
1. Tank Registration Number - The registration numbers to be recorded for underground tanks are "001", "002", "003", etc. The registration numbers to be recorded for aboveground tanks are "001A", "002A", "003A", etc. The "A" has already been printed on the form for your convenience.
 2. Status - Indicate whether the tank is currently in use, temporarily out of use, or permanently out of use. Permanently out of use means properly closed in place with an inert solid material. Do not include tanks which have been removed.
 3. Date of Installation - Specify the month and year the tank was completely installed. For instance, "0190", for January, 1990. If unknown, write "0000".
 4. Capacity - Specify the total design or maximum capacity of the tank in GALLONS. If unknown, write "unknown".
 5. Substance Currently or Last Stored - Indicate the substance(s), currently or last stored. If a hazardous substance, please indicate CERCLA Name and CAS Number. If Other is indicated, please specify.
 6. Tank Has Been Issued Fire Safety Approval or Permit - Indicate whether the tank has been approved or permitted by the Pennsylvania State Police, Fire Marshal Division; or local agency under their jurisdiction for fire safety.
 7. Registration Fee - Determine registration fee due PER TANK as indicated below. A registration fee is NOT required for tanks permanently out of use.
 - A. Aboveground tanks
 1. Up to and including 5,000 gallons - \$50 per tank
 2. 5,001 to and including 50,000 gallons - \$125 per tank
 3. Greater than 50,000 gallons - \$300 per tank
 - B. Underground Tanks - \$50 per tank
- Record the total registration fee due for all aboveground tanks in the space provided (A). Record the total registration fee due for all underground tanks in the space provided (B). Record the total registration fee due for all aboveground and underground tanks in the space provided (A + B). Submit a check or money order, for the total registration fee due, made payable to: Dept. of Environmental Resources.
- Section VI.** Certification - This section is to be completed by the OWNER. Please type or print the name and official title of the OWNER. The OWNER must also sign and record the date the application was examined.
- Section VII.** Nameplate Information - Complete this section for each aboveground tank greater than 5,000 gallon capacity. Use the same Tank Registration Number as identified in Section VI.

PLEASE SEND COMPLETED ORIGINAL FORM AND CHECK TO: **PA Department of Environmental Resources
Bureau of Water Quality Management
Registration of Storage Tanks
