Message:

Our ancestors did not bleed and die to have gambling upon this hallowed ground.
Gambling will increase the crime rate and take money from people looking for a get-rich-quick attitude.
Keep Gettysburg a place where families can continue to come and see and feel history not gambling.

As a writer and winner of the Michael Shaara Prize for Fiction, now administered by Gettysburg College, I beg that this terrible, terrible idea be abandoned for good. The Gettysburg Battlefield is sacred ground. No one who has ever walked it, as I have, can doubt that.

Please do not take the first step to ruin this great site of America's history and its victory over slavery.

Gettysburg is a historical landmark of this great country that we live in. I find it a shame that people even think that they would be able to build a casino only a half of a mile from the state park. I remember visiting Gettysburg with my family two summers ago. I was there for the battle reenactment in the summer that they have. I learned so much history that weekend and felt a lot more proud of my american heritage. Please do not let them build a casino and pollute this experience for our future generations.

Sincerely,
John Miles

Please do not ruin one of the greatest historical sites in the United States. The town has seen enough loss over the years, to take away the dedication and honor that the town has for the fallen soldiers would be tragic. Gettysburg battlefield is one of the few preserved Civil War grounds and serves as a reminder to those who wish to remember, an educational treasure for our youth, and a magical place alive with the memories of those who lost their lives. The town of Gettysburg and the surrounding battlefield is a tribute to our history, not a money grubbing business looking to please modern society. A casino and resort does not belong in Gettysburg.

The traffic alone would ruin Emmitsburg Rd. With light traffic now, you can still imagine Picketts Charge. The constant traffic jams would ruin the viewshed of the battlefield. Other businesses would pop up and add to the congestion. Walmart would be next..Confederate Target..Meads Barnes and Nobles... it would mushroom and ruin the still semi-quiet town. My great great grandfather fought for the Union and freedom there. You are gambling with his legacy and all the others who gave their last full measure on that field.

Subject: Petition I love Gettysburg

To: Webmaster

From:
Michelle Davis

Message:

Our family loves the town of Gettysburg for its small town atmosphere, history and uniqueness. A casino in the area would take attention away from the town, not promote it.

I read an article that said visitors of the casino would have to be patrons of the resort in order to gamble. If they have to spend money at the resort in order to gamble they won't be coming into town and spending at our local businesses.

Lastly, I have co-workers that go to Hollywood casino frequently. They go gamble. They don't watch the horse races. They don't shop or eat anywhere but the casino. They just gamble and go home.

How would that help Gettysburg?

Message:

My residence today is far from that of my childhood and youth. I grew up in the small town of Mont Alto, just a half-hour from Gettysburg. With school classes, scouts, and just with family, I loved my visits to the battlefield town. Later I was privileged to attend Gettysburg College (Class of 1974), and grew to love even more about the town than just the Civil War locations.

I still am a great proponent of keeping the memory of such historical events alive and preserving them for generations to come. I often advocate that fellow Californians go to visit the town and surrounding areas of Gettysburg.

There needs to be another Battle of Gettysburg. A casino should not be allowed to be built in, on, or even near such sacred ground. Let the fight continue!

My great-grandfather fought for the Union in that infamous 3 day battle. How dare someone even think about defiling sacred ground for their own greed. Men died most likely very close to where the casino will be. The entire county surrounding Gettysburg should be preserved as hallowed ground. The county has the authority to stop this before it's too late. More bus traffic, and therefore air pollution, through the town and surrounding areas is only going to destroy the sacred monuments which deserve to be preserved. God bless both the Union and CSA soldiers who fought for their cause and lost their lives during the bloodiest battle of the Civil War.

Go elsewhere! Fight to avoid this mockery to history at all cost. It sickens me to think about it.

I fully support banning this casino nearby such an important focal point in American History.

Message:

The Battle at Gettysburg was a very important war fought between the north and the south in the Civil War, a war where men had to take sides for disagreements that were solved by war whether they wanted to or not. It was an exceptional part of our history one that generationally neither young or old should ever forget. When a country forgets what it has learned from its past it will repeat it and with all the lives lost there the thought of a casino on hallowed ground is shameful and disrespectful to say the least. Why is American History disappearing before our eyes everywhere one looks why the destruction, surely there are places nearby to put in this casino where this precious landmark of our past is preserved. Let's not see it destroyed. Seems to me, greed reigns complete. Let's stop it, now!

Sincerely
Laurie McLeod Shoppach

Iam signing the petition against the Casino at Gettysburg becasue I beleive it is a descration of land that is sacred to the country.

At the same time, I beleive that to maintain its sacred status the government needs to provide jobs for the poeple of Adams County so that attempts like this are forestalled in the future.

Message:

I may not live right in the town of Gettysburg but I live close enough to drive there in 25 minutes. I feel that changing the climate of this beautifully historical & educational area is pure greed. Many come there to learn, pay their respects and reflect on what those brave men and women went through in that time in US history. Casinos will definitely change the whole area, not just the proposed location of a casino. It would not, IMO, promote tourism but quite the opposite. It will bring a different climate altogether. Look at Atlantic City! If the economy were not in this current state, there would be a more positive outlook on this matter.

Things will get better for all of us. Be patient. Don't tread on our history! Don't let casinos happen here or all will regret it.

In support of the NoCasino Gettysburg cause it is evident that everyone of the people feel so passionately and strongly about a casino, whether they be the re-enactors or generally the people of Gettysburg who want a quality of life. It was this that got me interestd in the progress of the people involved, trying to stop the casino to these people must not be considered as jumping on some sort of band wagon. Good Luck! Angela

As a frequent visitor to Gettysburg (who hopes to buy an old home up there someday) I oppose any and all attempts to build a resort and casino in the Gettysburg area. It will detract from the historic tourism of the town, it will pollute the area, and it will bring unwanted hordes of traffic.

There's lots of other places to put a resort like this. Why not Harrisburg, or Westminster, or somewhere that can handle the influx of traffic and drain on resources?

DON'T BUILD AT GETTYSBURG. HISTORY LOST IS GONE FOREVER.

I am a casual gambler, and do enjoy visiting a casino at times, but Gettysburg is not that place. A casino does not belong there, its not the answer. People are panicking because of the recession that we are in, casinos are are not doing well either, they are losing incredible amounts of money due to this struggling economy. When the National and State economy starts to bounce back, so will Gettysburg. These are not easy times for anyone, but I do not think a casino will help the area and does belongs there.

While I'm not in disfavor of casinos, they have their place in the entertainment business. However, this is not a business for Gettysburg so close to the hallowed ground where thousands died and suffered.

This place must remain reverent to that fact. I understand that a certain number of townspeople would like an increase in jobs and tax relief, but this is not the path nor the location to accomplish this.

Please rethink this endeavor and consider many of us who come to Gettysburg often to dwell on the history and the devastation that took place here.

Please do not allow this casino to be built! Not only is this site an important element of our nation's history, it is a tribute to the thousands of Americans who lost their lives there. It is hallowed ground and should be left that way. Any one who has ever visited the town of Gettysburg and the battlefield itself feels deep respect for what took place on those 3 long days many years ago. It must be preserved as it is as a reminder to every American that our Country has survived a great catastrophe and should never put itself in that position again! Especially today with the corruption in our government. We must never forget what those lives were lost for and what they gave us in return!!!

I think it disrespectful to our forefathers who fought and died for us in and around Gettysburg. I live near Cherokee, NC and Harrah's has help make the gateway to the Smokies a tourist trap in our quiet and beautiful mountains. It has become a place where sleep is not known by the thousands of visitors to the casino and the lights look like Christmas in NY City.

I feel business's have no regulatory systems in place to make sure this kind of thing doesn't happen, wether it is a casino taking over historical landmarks, or business's ordering their products asia, because its cheaper. Great we lose our money to other countries. Next thing we should do is build a casino 555 ft up on top of the washington memorial. It'll be cool looking, and cheap to build, and half of it is already there. Plus it'll give Americans jobs, just be sure to order the concrete and steel from asia and/or any other country besides ours. Thanks.

It's madness to not preserve that which was so important in gaining freedom for all in this country. Not to mention how this casino would dishonor all those who died there to achieve this freedom. Is nothing sacred?????

Nothing ever seems to take precedent over BIG money and what those who have it want.

Message:

If gambling and other evil deeds are allowed to desecrate the soil of pure American history, then we might as well all kill ourselves now and save the devil some work. Gambling is evil business and has no right to desecrate hallowed ground covered with the deaths of so many of our families. It would be like putting a casino in the middle of a cemetery. The entire meaning of what people will understand when visiting the battlefields will be completely lost if evil comes to play. Our children already receive a corrupted education in our schools; by telling them gambling is just as important as the history of our people and nation, then our people will be lost forever in the hands of the devil. What happens in Gettysburg will determine the fate of the rest of America; one casino on a battlefield will devastate our entire country forever. For the love of God and our country, I vote NO CASINO!

Message:

The crass commercialism demonstrated by the groups that want to have a casino so close to fields of "hallow ground," where young men scared out of their wits yet willing to give the "last full measure" of their devotion to their cause, reveals a callowness of such dimension that it is shameful and disgusting. It is plainly evident that Greed knows no bounds or shame in some people so others have to raise their voices against plans such as a gambling casino on the edge of sacred ground annointed in the blood of 51,000 men.

There are plenty of places in Pa. that do not have the historical background of Gettysburg. What does a casino say about our priorities if we put it so near the battlefield where so many young men gave their lives and where our union was saved. Sureky there is another spot to choose from.

A casino in Gettysbury will have a high social and economic price that will more than offset any gains to be made by such an undertaking.
Remember that the large majority of casino money does not stay in the area but simply further enriches those who are least in need of it.

Gettysburg is hallowed ground, and is NOT at all a place for a casino.
Its bad enough we have the Eisenhower/All Star complex there, but a Casino? Gettysburg is the
place that saved our nation, and deserves to be kept that way. NOT a place for gambling.

Do not destroy the area and dishonor our history by putting a casino near Gettysburg. A great deal of what is wrong with this company comes from forgetting here we came from, and how we got there.....and that is not even considering the failure of our country to respect those that fought and died for this country in order for it to become the great nation it is.

We cannot ruin what is the most important historic site in this land for something of so little consequence as a casino.

Message:

I believe Gettysburg deserves respect because it is hallow ground and those brave soldiers who fought and died for what they believed in deserve to be honored by leaving Gettysburg the way it is. If a casino is built within a 20 mile radius it would destroy Gettysburg's value. Gettysburg is known as being the first real win in the Civil War for the Union with General Meade as the head commander during the battle.

Gettysburg was the first win against the Confederates under the command of General Robert E. Lee who seemed impossible to beat.

Gettysburg needs to be protected and left alone. No person has the right to build near Gettysburg especially if it will destroy the historical value of his site.

Message:

Dear Sir or Madam,

I am writing from Russia and I would like my letter to sound as polite as possible as it is a matter of American People mostly and nobody else.

I have got a message from Mrs. Mary Eisenhower Mery who is my close and most respectful friend but I would not like to attract your attention to her personality now although I could say a lot.

The matter is that I have known from her that a new casino is going to be built near the place of great historic importance – a memorial of Gettysburg National Military Park and Cemetery.

Personally I hate casinos. The policy I sometimes hear for building these places of evil is that we need money for our town and so on and so forth. Yes, we all need money but if I brought students from Russia (which I did a couple of times) I would like to show them the memorial of President Abraham Lincoln (which Mary has helped me to see) and a house of President Eisenhower (which I hope to see) to show significance of these people who are among the fathers of the country.

I understand that it is a long distance vote with no much importance but I would like you to think again before destroying peace and quit of this place.

Thank you for your time and consideration.

Regards,

Alexander Mayorov

The boys of the Blue and Gray that died or were wounded deserve the remembrance of a grateful Nation. They do not deserve the disrespect of GREED. Are these developers natural Americans who may have lost ancestors at this battle, or is it just money? One of the countries current problems started with GREED. Lets keep those battle grounds and others from the Civil War in our Hearts and not in our Pockets.

Message:

Disgracing the Gettysburg battlefield and surrounding area by building a casino would be a black mark on all American Citizens. It's the same as saying I don't care what happened at Gettysburg 140 years ago or I could care less what happened at the beaches of Normandy. Oh, by the way my FREEDOM is my God given right as an American citizen. This is due to me. Well these people better wake up. FREEDOM is not given to anyone, but was earned by hundred of thousands of solders who gave their life on those same battlefields that we are now attempting to disgrace. By approving to put a casino at the doorsteps of Gettysburg would show to the world that indeed, Profit and Money are what we stand for. I'm an astute student of the Civil War and WWII and to defeat your enemy, you first must get to know your enemy. Listen to what Bin Laden is saying about our country, greed, profit and money is all Americans care about. Stop and listen to what he is saying and then look at what's happening at Gettysburg. WE MUST STOP the madness of putting a casino near the Gettysburg's battlefield and show the world we care about tradition, honor and tribute to the memory of the solders who gave their life for something they believed in. Show the world and Bin Laden that Americans care about other issues besides profit and money.

I live in an area where the casino is just down the road. Our people, our area cities, our crime rates, our gambling addictions, our children have all been affected negatively. Don't do this to Gettysburg! It truly is hallowed ground! Put the casino someplace else! Please!!!!!!

Let's get real here. Not only no casino at Gettysburg no anything at Gettysburg! That land belongs to all Americans including those that haven't even been born yet. Once you count the votes of EVERYONE (including the unborn) then you can consider building on land that was central to the formation of this country. Until then, if you have to have your casino, build it over the graves of your own families. Do not desecrate the land that my relatives fought for and ultimately died for.

My friends and family visit with me to Gettysburg several times a year. We come because the views are breathtaking and the history is enriching. We value the lives that were given without hesitation to make Gettysburg a great place to live and visit. A casino would just dirty the purity it gives to us all. Casinos belong in Vegas - a sin city where people CHOOSE to go and gamble. I CHOOSE to spend my time with my family where the air is clean and the livelihoods are cleaner!

Message:

The historic land that endured one of the bloodiest battles in our nation's history should be held sacred. To allow Developers to build a Casino so close to the Gettysburg National Military Park is disrespectful and will bring in the wrong kind of people to the area. PLease do not allow these money hungry developers to do this. Building the Casino in Gettysburg will be a decision you will all live to regret. DON't Do it. Preserve Gettysburg and stop this greedy, irrational idea of a Casino in Gettysburg.

Thank you,

Our battlefields are under constant "attack" from businesses that seem to represent nothing but greed. Is there not some federal legislation to keep these creeps off of the hallowed ground of the Civil War battlefields. If it isn't Gettysburg it's Manassas. I am afraid other of our battlefields coming under the same "attack". If we do not have federal government legislation to protect these sacred lands then that would be our next job. We must preserve and protect these hallowed grounds, and the history of them for future generations.

To Whom It May Concern,

I am looking forward to taking my children to Gettysburg when they are older. I am not sure if I want to do that in an area with casinos. Our trip to New Orleans was ruined by the lesser elements that accompanied the casino there. Not to mention the lack of class in building a gaming lodge so close to where so many were lost.

My family and I have long loved "The Hallowed Ground" of Gettysburg. We have respectfully visited this beautiful park on numerous occasions, and firmly believe that allowing this gambling center to be built on THIS location, trivializes the enormous sacrifices made by BOTH sides in this most-important battle of the Civil War! Move it to Hanover, if you must, but NOT HALLOWED GETTYSBURG!!!

This piece of land is an important part of our history and thus should be treasured and preserved. There are several other vacant pieces of land where casinos can be built. Visitors/US citizens visit our historical landmarks for the history, not to blow their money at casinos.

No Casino at Gettysburg!

To the Pennsylvania Gaming Control Board:

Whereas, Gettysburg National Military Park is a shrine to those who fought and fell during that historic, three-day battle in July 1863 -- arguably the most important battle in American history;

Whereas, heritage tourism contributes significantly to the economic well-being of the Gettysburg community;

Whereas, a gambling casino ½ mile from the battlefield would alter the nature of the community, and adversely impact the experience of visitors who travel to Gettysburg to learn more about this singular time in our nation's history, and its meaning;

We, the undersigned, strongly oppose any license to build a casino in or near Gettysburg, the site of this sacred Civil War battlefield.

Please vote "NO!" to the desecration of the hallowed ground where so many American soldiers valiantly fought and courageously died in a war that transformed our nation.

Please vote "No!" in support of protecting Gettysburg's vibrant heritage tourism industry.

Please vote "No!" to the destruction of a national treasure enjoyed by thousands of Adams County residents and by more than one million annual visitors.

Respectfully submitted by:

Message:

Those thousands of men that fought and died and bled the ground red on July 1,2, and 3rd did NOT die so that a casino could be built on the ground where their lifeblood was spilled. These men, so selfless in their sacrifice would not only look on in horror, but weep at the irony of such a DESECRATION of hallowed ground were they alive today. It is with great honor and pride that I sign this petition, with the hope that those higher up than I remember what was done on such sacred earth. No Casino At Gettysburg.

We need to save this hallowed ground from the enemy that is David LeVan and his casino. I along with many others had relatives that fought here and died during the battle of Gettysburg. We need to fight this as our ancestors fought this over a hundred years ago. This is hallowed ground and we need to preserve it. There are not many national battlefields that are left in this condition, and we need to keep the ones that are left the way they are.

Message:

I believe the location of the proposed casino at the Eisenhower Hotel is a very poor choice. It's too close to the battlefield. The main road from town, Emmitsburg Rd., runs directly through the grounds of Pickett's Charge. The increased traffic and noise, as well as pedestrian safety is a major cause for concern. I have no problem with a casino in general, people need jobs, but it should be on a major roadway off hallowed ground. The original location seemed reasonable to me.

We must preserve this historical place for all to visit and remember and see a part of life as it once was, what history reflects-fight for what is right. A casino does not bring freedom, if you see the need to build such a place, then locate the casino in a area where the county needs this type of establishment and jobs, not in a family oriented tourist town. Message:

A casino in Gettysburg is just unthinkable !
My husband and I come here twice a year every year. There has to be a
stop put to this ! Take it somewhere else.
Please respect the men that fought and died here for our freedom! you
can put a casino anywhere, NOT GETTYSBURG !

Message:

Once we let a casino in, it will open up the loopholes for others to want to develop all kinds of other industries/housing in the area. This needs to be where we stop greed and everything that goes with it. Putting a casino in a cemetery...just unimaginable.

Message:

The proposed casino in Adams County is something that I ardently oppose. As a resident of Pennsylvania, I have reaped the cultural benefits of having the nation's focal point for the Civil War in my backyard, so to speak. This casino will be a detriment to the efforts that generations have made to preserve and protect the shining jewel of central, southern Pennsylvania: Gettysburg.

Like Disney's failed venture to establish an amusement park on the fabled Bull Run battlefield, this endeavor must also result in a crushing defeat for private interests. At no point in our history has one event so shaped the outcome of a nation. Gettysburg did just that.

Like Bull Run, we must realize that some areas of this nation are sacred, and they must be preserved, free from the commercial encroachment that erodes the integrity, green space, and historic feel of the area.

Message:

Where they is big money, there is usually big corruption. A lot of that money will go to winning favor from the politicians at all levels of the Government. The type of clientèle drawn by such establishments are not usually very desirable people. That means more litter, drunk drivers, wild partying, vandalism, more traffic, & potential crime. The so called jobs that will be produced in the long run are not the productive jobs that the Nation, or the local area need. These type of establishments operate on a "get rich quick" dream to entice fools to blow their money with very few ever coming out ahead. The odds of a Casino are all in favor of the house. They have figured out a way to make it legal to steal by inferring there will be big benefits to both the clientèle, & the local economy. The Ohio Lottery was sold to the people as a cure all for school financing. We now have more school districts in financial trouble than ever. Very little of that money goes to schools.

I would recommend checking with Vicksburg National Park to see what positive benefits they have gained from casinos in their area. I would expect more of an impact on Gettysburg because the Park is more spread out around the town & is much more accessible than Vicksburg, in that Vicksburg has a more controlled access point. A lot of the traffic going to the proposed Gettysburg location would naturally pass threw the park to get there.

Gettysburg is one of the most important places in the United States, if not the world. To build a casino there would be a smack in the face to the men who fell there fighting for their respective causes in July of 1863. Building a casino on the site of one of history's most important battles would prove to the rest of the world that Americans value gambling and money over our heritage and history. Lets keep the slot machines and blackjack tables in Las Vegas, and let the monuments and natural beauty of Gettysburg provide visitors with the ultimate jackpot: hallowed ground.

I have gone to Gettysburg for school trips and even for fun because of how intriguing the history is, despite having heard it before. I am someone who actually dislikes history, but for as long as I can remember I have always loved hearing specifically about the Battle of Gettysburg. It is the only bit of history, out of both American history as well as world history, that actually holds my interest!!

A casino next to Gettysburg battlefield will be travesty of historic proportions. As a life long reader of civil war history, one of my goals in life is to travel to Pennsylvania to see this national monument. The last thing I want to see when I get there will be flashing neon lights, las vegas gambling, and what ever other eyesore that comes with as casino. This country is littered with with this worthless activity built on the illusion of getting something for nothing. The proposed casino is obviously trading on the name and attraction of the battlefield, and their greedy and whorish motive is transparent for all to see. Do the right thing and stop this slap in the face to those who gave their lives on this hallowed ground.

Message:

Casinos will not bring the jobs promised to Gettysburg. Trust me, I worked in the casino industry for 22 years and am now unemployed with no prospects of finding a job. While at the casino, I saw 90% of the slot department lose their jobs. Furthermore, as a craps dealer I saw our tables decline from 25 down to 6, a loss of 76%. Because of the deplorable working conditions, a number of co-workers of mine have died from cancer and other health-related issues while in their 40s.

Still think it's a glamorous job? Your mind might change the first time a player urinates on you because he can no longer hold it, but doesn't want to walk away from a hot table. This has happened on at least three occasions where a player urinated into a glass under the rail of the table until it overflowed and ran down the pants leg of a dealer.

I've been taking students to Gettysburg for years, and would hate to see this hallowed ground profaned by casinos. The residents who are in favor of them are being very short-sighted. I lived in NJ for most of my life, and saw firsthand what casinos brought to Atlantic City - the high-paying jobs went to people from Las Vegas, while the locals got to be chambermaids and parking lot attendants. Prostitution, drug use, and violent crime escalated dramatically. Traffic became a major problem. The only people who would profit by casinos in Gettysburg are the casino operators, not the residents.

Please do not allow a Casino and gambling in Gettysburg and surrounding area. Let us maintain the memory of a battle where lives were lost fighting for the things those soldiers believed in and died for, wheter is was the Union or Confederates. Our country must realize how impoortant this battlefield and the area is to the history of our country. Preserve this event without interffering with a casino which only has the purpose of making money off of people who do not think Gettysburg is significant as a Historical place. Listen to everyone pleading for the preservation of Gettysburg. Do not demean Gettysburg making it a destination of gambling rather than a destination for people to learn about and remember the past!

A casino will change the character of Gettysburg forever - why do they want to put one there? Because of the draw the town already has. A casino will have effects on types of people it brings, strip malls taking business away from existing business owners, etc. I know no one who has been back to Cherokee since the casino was put in - the atmosphere totally changed. Go somewhere else and stop the rape of Gettysburg and the Battlefield.

I am Civil War Re-enactor, who has been to the 135th & 145th Anniversary's of the Battle of Gettysburg. I believe it would be a travesty (not to mention a permanent blight) for not only the city and residents of the area, but also "stomp" on the memories of honorable men who gave their lives for our country. Brave men from both the North and the South did more than just their duty on those 3 hard days and nights. To put a casino so close to where they died would greatly deminish who they were and what they did.

To Whom It May Concern:

Please don't destroy the hallowed grounds on or near the town and battlefields of Gettysburg by building an eyesore casino as proposed. Of any other venues you could pick to build, you decide to try to capitalize your profits on the grounds where thousands of Americans fought and died for their respective causes, and trivialize the importance of this revered site to America's history for the almighty dollar. Please reconsider your current proposal and relocate your plan to build a casino much further from Gettysburg than your current course of action. I know I speak for many that feel the same way about this battlefield and keeping it as a sacred memorial to those who died during the War Between the States.
Thank you for your consideration.

It is a sacrilege that a proposed casino wants to build on such hallowed ground as Gettysburg. I'm sure Abraham is turning over in his grave at the possibility we, the people, allow this!

Gettysburg needs to remain a sacred place. I even hate to see gas stations and a McDonald's near Baltimore St. and the National Cemetary. It's UGLY!!! I'm 50 yrs old and I've been to Gettysburg and stayed at the Dobbin House. I even hated seeing a modern day "Holiday Inn" hotel on Baltimore. Right next to the Jennie Wade home. It doesn't fit or go together. And neither does a casino and a Civil War battlefield. IT DOESN'T GO TOGETHER.

Our history is different than the history in Gettysburg but needs to be preserved just the same. There are now two communities in this country that do not want Joseph Lashinger, his company, or his casino's anywhere near them. I'd love to help you in your community in exchange for some help in dealing with this problem in my community.

I beg for someone to please contact me and help us! Thank you!!!

Gettysburg has been a historical town for more than a hundred years, and casino will not make the town more famous then has been before, I am a hundred 100% against this idea, and I believe that the thousands of soldiers who died and faught at the battle of Gettysburg would not accept a casino to be placed in lands that they faught for. There must be other means of bring more business to the town of Gettysburg, and that building a casino will destroy the town's image even more. PLEASE DO NOT ALOUD A CASINO TO BE BUILT ON THESE HISTORIC GROUNDS.

Canadians Against Gettysburg Casino

50,000 Canadians went south to fight in the American Civil War. Thousands of us gave our lives in that war.

The American Civil War had a profound effect on Canada. The war ended in 1865. In founding our country in 1867 we drew deeply on the lessons of that terrible conflict; lessons paid for in American and Canadian blood.

Today, Canadians remember. We read the history. We visit the battlefields. We befriend Americans who share our passion and reverence for this pivotal event. Some of us are living historians of that war.

We believe that placing a casino on the Gettysburg battlefield would be a deep dishonour, and an international embarrassment to the United States. We attach our names in protest.

Already too much "crap" in and around Gettysburg that stains the sacred nature of the battlefields. Of all places on earth, this is the most horrific site/decision for a casino, theme park, or major tourist/travel attraction. Shame!

Casinos are frivolous and not honest places where people go and throw their money away just for their pleasures. It would not be fair to build one of those facilities right next to a historic ground where our ancestors bled and died for their ideals.

To encourage the commercialization of the Gettysburg Memorial in such a way would cheapen and degrade the dignity of the park, deter the public from vacationing at the landmark because of added traffic and increased crime (as goes along with casino areas), and all around brutalize the appreciation of such an important landmark and time in history in the eyes of this country and others.

Having a Casino in Gettysburg is a very bad idea. This is an important area to United States history and therefore should be kept sacred and preserved from the corrupting influence that a casino would no doubt bring. Gettysburg needs to be a place of honor for it's place in American History and for those Americans from both the Northern and Southern States and those who fought there. Please do not ever allow this Casino to be built in or around Gettysburg.

Please do not do anything to detract from the history of the region. A casino within 100 miles would not help the region. No one coming to the casino would benefit Gettysburg coz they're only coming to blow their money on gambling and might, just might, also need gas to get away and maybe food or lodging.

Im not against casinos but Gettysburg is not the place for this to be built. I cant believe this is even a issue. Wonder what mental giant higher up thought of this great money maker. I guess greed rears its head just about every where these days. Building a casino in the most hallowed places is not right .My ancestors died there and the lack of disrespect for them in this is appauling. The lack of common sense here is being overshadow by just plain greed.If this casino is built as much as i love the town and history of gettysburg I in protest will no longer visit the town or battlefield each summer nor will my family. It will hurt me greatly to do so but just the same i will take my dollar elsewhere if the casino is built. Its a shame but when you hit people in the pocket book the "greed" people will understand that . Will Rumsey

It would be a mockery of history to put a casino on this hallowed ground and an insult to those who fought and died here to do so. Message:

The 51,000 men who died at Gettysburg did not die for money. They did not die so that greedy developers could have space to build a cess pit of corruption such as a casino. They did not die for the monetary gain of a few corporate shareholders, and they certainly did not die so some corporate executives could profit from the ruin of other people's lives.

The men who died at Gettysburg were soldiers, fighting to end the conflict that threatened to tear the United States apart. They died so that the United States could remain a nation founded upon the rule of law, liberty for all citizens, and the chance of all human beings to live and dream free of the horrors of slavery.

The Civil War was the United States' bloodiest and most brutal war in all of American history. The conflict that threatened to tear our nation apart must never be allowed to be forgotten or cheapened. We must not now or ever forget the atrocities human beings have brought about, and we must never allow the sacrifices of the people who gave their lives to put an end to evil institutions such as slavery to be forgotten.

A casino less than 1 mile from Gettysburg is nothing less than a shameful, appalling disgrace to the United States and humanity.

I am against this casino being on the hallowed ground where soldiers laid down their lives! Even having something like this nearby the battlefield cheapens the area! It shows that there are some people who are only interested in making money from the locals and any tourists they can lure into their gambling 'palace', and have NO respect for the soldiers, or for that matter, the history of our country! I hope that by signing this I am helping to stop this insult to our nation!

Message:

I believe putting a casino in Gettysburg would be a huge mistake. My family has gone on vacation to Gettysburg for the last 5 years. We love learning the history of the battle, and every year we find places we haven't visited before. If people want to gamble let them go to Vegas, Atlantic City or any where else.

I visited Gettysburg for the first time last year. I am 55 years old and went with my wife, kids, and other family. We had a tremendous time but the think that struck me most, and I don't know how to explain it, was the 'feeling'. I think that would be lost with shopping malls and casinos. What a shame. Does everything need to be ruined?

I live in the West Virginia Panhandle and have worked as a vendor with Penn National Gaming. I can tell if they are involved, they will suck the life out of Gettysburg. Take some time to go beyond the propaganda that the pasted all over Jefferson County and the city of Charles Town and see the lies they have told. Ask any employee of the Casino at Charles Town, and see how poorly they treat their employees. Beware of their tactics by promising to the community and after a couple of years see how many of the promises have "changed" due to company policies. They have ruined Charles Town, please do not let them ruin you, too!

Leave Gettysburg the way it is. There is no need for a casino. It will just take away from the natural roots of the town. Taking ghost tours and seeing what life was like then are some of the reasons people go there. If people want to gamble send them to Vegas or Atlantic City.

Message:

While I would not object to a casino "near" Gettysburg, it should not be anywhere near the battlefield. It has taken far too long for the preservation societies to return the land to something similar to the way it was at the time of the fighting. Putting such a structure so near the battlefield is unthinkable and unacceptable.

Message:

Gettysburg is sacred ground where many of us have deep ties to our ancestors who fought and died there. My Confederate ancestors include Col. John Bowie Magruder who died in Pickett's Charge and others. I am appalled that something like a gambling casino would even be considered on this land where so many many young men died for the Union. This is our history. Put the casino somewhere else. Financial woes and unemployment concerns are certainly not unique to Gettysburg. Preserve the dignity of our historical places.
