This rulemaking will give certificate holders additional operational flexibility in the games that they provide to patrons and is needed to establish the rules of play. Patrons who play these games will benefit from the standardization of the rules of play.

(11) Are there any provisions that are more stringent than federal standards? If yes, identify the specific provisions and the compelling Pennsylvania interest that demands stronger regulations.

There are no corresponding federal standards for any of these provisions in this rulemaking

(12) How does this regulation compare with those of the other states? How will this affect Pennsylvania's ability to compete with other states?

This rulemaking expands the compliment of table games available for play. The Board reviewed all payout tables submitted by the manufacturer/proprietary owner. As all tables submitted were approved, the regulatory requirements contained in this rulemaking should not negatively impact Pennsylvania's ability to compete with other states.

(13) Will the regulation affect any other regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

This regulation will not affect any other regulations of the PGCB nor any other state agency.

(14) Describe the communications with and solicitation of input from the public, any advisory council/group, small businesses and groups representing small businesses in the development and drafting of the regulation. List the specific persons and/or groups who were involved. ("Small business" is defined in Section 3 of the Regulatory Review Act, Act 76 of 2012.)

No other persons or groups were involved in the development and drafting of the regulation.

(15) Identify the types and number of persons, businesses, small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012) and organizations which will be affected by the regulation. How are they affected?

There are currently twelve slot machine licensees that have a certificate to operate table games, all of which will be affected by the regulation in that they will have greater flexibility in the compliment of games available for patron play. Casinos that operate in the Commonwealth of Pennsylvania are not small business as defined in the United States Small Business Administration's Small Business Size Regulations, under 13 CFR Ch. 1 Part 121.

(16) List the persons, groups or entities, including small businesses, that will be required to comply with the regulation. Approximate the number that will be required to comply.

Any of the twelve slot machine licensees that would like to offer the game contained in this rulemaking will be required to comply with the requirements of the rulemaking.

(17) Identify the financial, economic and social impact of the regulation on individuals, small businesses, businesses and labor communities and other public and private organizations. Evaluate the benefits expected as a result of the regulation.

It is not anticipated that this rulemaking will have a negative financial or economic impact on the regulated community. Slot machine licensees will be impacted by this rulemaking as they will have a greater number of options to offer at their facilities.

(18) Explain how the benefits of the regulation outweigh any cost and adverse effects.

This rulemaking will provide operators with more table game options to offer and ensure consistency for patrons in the method of play of the games. It is not anticipated that there will be any adverse effects associated with the approval of these games.

(19) Provide a specific estimate of the costs and/or savings to the **regulated community** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

Certificate holders that decide to offer the game will be required to submit updated rules submission forms and internal controls to reflect any addition. The rules forms are simple checklists that take little time to complete, are available to the operators electronically and are also submitted electronically. Any costs incurred to purchase equipment and train employees should be offset by the proceeds of gaming.

(20) Provide a specific estimate of the costs and/or savings to the **local governments** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

This rulemaking will have no fiscal impact on local governments.

(21) Provide a specific estimate of the costs and/or savings to the **state government** associated with the implementation of the regulation, including any legal, accounting, or consulting procedures which may be required. Explain how the dollar estimates were derived.

The Board does not expect that the requirements of this rulemaking will have any fiscal impact on the Board or any other Commonwealth agency. Internal control procedures and table games rules submission forms will be reviewed by existing Board staff.

(22) For each of the groups and entities identified in items (19)-(21) above, submit a statement of legal, accounting or consulting procedures and additional reporting, recordkeeping or other paperwork, including copies of forms or reports, which will be required for implementation of the regulation and an explanation of measures which have been taken to minimize these requirements.

As stated above, if an operator would like to offer the game contained in this rulemaking, the operator will have to submit updated internal controls, rules submission forms, layout schematics, etc. for approval. The rules submission forms are straightforward checklists and are submitted electronically.

(22a) Are forms required for implementation of the regulation?

Yes, operators will be required to electronically submit a rules submission form for approval before offering the table game.

(22b) If forms are required for implementation of the regulation, **attach copies of the forms here**. If your agency uses electronic forms, provide links to each form or a detailed description of the information required to be reported. **Failure to attach forms, provide links, or provide a detailed description of the information to be reported will constitute a faulty delivery of the regulation.**

Attached are copies of the checklists that operators would be required to complete and electronically submit to the agency prior to offering Cajun Stud or Four Card Prime.

(23) In the table below, provide an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.
