Dear Mr. LeVan:

This letter is in response to support the proposed Mason Dixon Resort and Casino at the Eisenhower Inn and All Star Sports Complex.

The site conforms to the Adams County Comprehensive Plan and local ordinance for the Resort and Casino Project. It is the responsibility of the Commissioners to balance commercial and residential development and preserve our heritage in the County.

In addition to patron spending inside the Resort and Casino Facility, it also will generate significant additional visitor spending outside of the Mason Dixon Resort and Casino at other establishments in the county. Real estate taxes are county's only source of revenue. Economic development expands the tax base in a positive direction and creates jobs within the county while creating revenue in addition to property tax.

Mason Dixon estimates it will create 500 new jobs in the facility and surrounding community. Therefore I support this project because of the positive economic impact through tax revenue and job creations for Adams County, the Gettysburg Area School District and Cumberland Township.

Respectfully,

A handwritten signature in black ink, appearing to read "R. Glenn Snyder".

R. Glenn Snyder
Adams County Commissioner
