There are no corresponding federal standards for any of these provisions in this rulemaking

(12) How does this regulation compare with those of the other states? How will this affect Pennsylvania's ability to compete with other states?

This rule making expands the compliment of table games available for play. The Board reviewed all payout tables submitted by the manufacturer/proprietary owner. As all tables submitted are approved, the regulatory requirements contains in this rulemaking should not negatively impact Pennsylvania's ability to compete with other states.

(13) Will the regulation affect any other regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

This regulation will not affect any other regulations of the PGCB nor any other state agency.

(14) Describe the communications with and solicitation of input from the public, any advisory council/group, small businesses and groups representing small businesses in the development and drafting of the regulation. List the specific persons and/or groups who were involved. ("Small business" is defined in Section 3 of the Regulatory Review Act, Act 76 of 2012.)

No other persons or groups were involved in the development and drafting of the regulation.

(15) Identify the types and number of persons, businesses, small businesses (as defined in Section 3 of

the Regulatory Review Act, Act 76 of 2012) and organizations which will be affected by the regulation. How are they affected?

There are currently thirteen slot machine licensees that have a certificate to operate table games, all of which will be affected by the regulation in a positive manner in that they will have greater flexibility in the compliment of games available for patron play. Casinos that operate in the Commonwealth of Pennsylvania are not small businesses as defined in the United States Small Business Administration's Small Business Size Regulations, under 13 C.F.R. Ch. 1 Part 121.

(16) List the persons, groups or entities, including small businesses, that will be required to comply with the regulation. Approximate the number that will be required to comply.

Any of the thirteen slot machine licensees that would like to offer the games contained in this rulemaking will be required to comply with the requirements of the rulemaking.

Certificate holders that decide to offer the game will be required to submit updated rules submission forms and internal controls to reflect any addition. The rules forms are simple checklists that take little time to complete, and are available to operators electronically and are also submitted electronically. Any costs incurred to purchase equipment and train employees should be offset by the proceeds of gaming.

(20) Provide a specific estimate of the costs and/or savings to the **local governments** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain

how the dollar estimates were derived.

(21) Provide a specific estimate of the costs and/or savings to the **state government** associated with the implementation of the regulation, including any legal, accounting, or consulting procedures which may be required. Explain how the dollar estimates were derived.

The Board does not expect that the requirements of this rulemaking will have any fiscal impact on the Board or any other Commonwealth agency. Internal control procedures and table games rules submission forms will be reviewed by existing Board Staff.

(22) For each of the groups and entities identified in items (19)-(21) above, submit a statement of legal, accounting or consulting procedures and additional reporting, recordkeeping or other paperwork, including copies of forms or reports, which will be required for implementation of the regulation and an explanation of measures which have been taken to minimize these requirements.

As stated above, if an operator would like to offer the games contained in this rulemaking, the operator will have to submit updated internal controls, rules submission forms, layout schematics, etc. for approval. The rules submission forms are straightforward checklists and are submitted electronically.

(22a) Are forms required for implementation of the regulation?

Yes, operators will be required to electronically submit a rules submission form for approval before offering the table game.

(22b) If forms are required for implementation of the regulation, **attach copies of the forms here**. If your agency uses electronic forms, provide links to each form or a detailed description of the information required to be reported. **Failure to attach forms, provide links, or provide a detailed description of the information to be reported will constitute a faulty delivery of the regulation.**

Attached are copies of the checklists that operators would be required to complete and electronically submit to the agency prior to offering Four Card Prime or Cajun Stud.

(23) In the table below, provide an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.

(c) A statement of probable effect on impacted small businesses.

As stated above, none of the thirteen operational slot machine licensees are small businesses.

(27) In conducting a regulatory flexibility analysis, explain whether regulatory methods were considered that will minimize any adverse impact on small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012), including:

- a) The establishment of less stringent compliance or reporting requirements for small businesses;
- b) The establishment of less stringent schedules or deadlines for compliance or reporting requirements for small businesses;
- c) The consolidation or simplification of compliance or reporting requirements for small businesses;
- d) The establishment of performance standards for small businesses to replace design or operational standards required in the regulation; and
- e) The exemption of small businesses from all or any part of the requirements contained in the regulation.

(28) If data is the basis for this regulation, please provide a description of the data, explain in detail how the data was obtained, and how it meets the acceptability standard for empirical, replicable and testable data that is supported by documentation, statistics, reports, studies or research. Please submit data or supporting materials with the regulatory package. If the material exceeds 50 pages, please provide it in a

searchable electronic format or provide a list of citations and internet links that, where possible, can be accessed in a searchable format in lieu of the actual material. If other data was considered but not used, please explain why that data was determined not to be acceptable.

There is no data, as defined under section (3) of the Regulatory Review Act (71 P.S. § 745.3), upon which this rulemaking is based.
