occurred:

(1) A person holding a license, certification, permit or registration issued by the

(m) If the hearing is conducted by the Board, the Board may take one of the following actions upon conclusion of oral arguments and evidentiary presentations:

(1) If the Board finds that the facts and circumstances presented are sufficient to support the issuance of the emergency order, and that dissolution of the emergency order would pose a threat to the public health, safety or welfare, or the public's interest in the effective regulation of gaming demands the action, it may issue an order ratifying or modifying the order of suspension. The Board order may thereafter be appealed under § 494a.11 (relating to appeals).

(2) If the Board finds that there is insufficient cause to continue the emergency order, it may issue an order dissolving the emergency order and the privileges of the person named in the order will be reinstated.

(3) If the Board finds that further hearing is necessary, it may schedule a hearing or refer the matter to the Office of Hearings and Appeals for additional presentation of evidence and testimony of witnesses. In either case, the order of suspension will remain in effect, with or without modification as the Board deems appropriate.

(n) Board orders ratifying or dissolving temporary emergency orders will not have effect upon the power and duty of the Office of Enforcement Counsel to initiate, in its sole discretion, proceedings for violations of the act or this part or upon the outcome of any proceeding so initiated.

(o) Copies of the Board's final order will be served on the person named in the order in accordance with § 491a.5.

(3) An offense under the laws of another jurisdiction which, if committed in this Commonwealth, would be subject to imprisonment for more than 5 years.

(e) An individual may not be employed in this Commonwealth by an applicant for or holder of a license, certification, registration or authorization under this part in any capacity unless the individual is a citizen of the United States or can demonstrate that he holds a current and valid work authorization and is not restricted from working in the capacity for which employment is sought or held.

(f) A denial of an application or nonrenewal, suspension or revocation of a license, permit, certification, registration or authorization may be made for a sufficient cause consistent with the act, this part and the public interest.

§ 421a.3. Investigations; supplementary information.
(a) The Bureau may make an inquiry or investigation concerning an applicant for or holder of a license, permit, certification, registration or authorization or any affiliate, intermediary, subsidiary or holding company of the applicant for or holder of a license, permit, certification, registration or authorization as it may deem appropriate either at the time of the initial application or at any time thereafter.

(b) It is the continuing duty of an applicant and a holder of a license, permit, certification, registration or authorization to provide full cooperation to the Bureau in the conduct of an inquiry or investigation and to provide supplementary information requested by the Bureau.

(c) An applicant for an initial or renewal license, permit, registration, certification or authorization will be required to reimburse the Board for additional costs, based on the actual expenses incurred, in conducting the background investigation.

§ 421a.4. Presuitability determination.

(a) Upon request from an eligible applicant for or holder of a license and upon receipt of an application and appropriate fees, the Bureau will make an inquiry or investigation of a potential purchaser of an applicant for or holder of a license as if the purchaser were an eligible applicant.

(b) The eligible applicant for or holder of a license making the request shall reimburse the costs associated with the inquiry or investigation.

(c) This inquiry or investigation does not replace the application process required under the act and this part which is a requirement for licensure.

§ 421a.5. Undue concentration of economic opportunities and control.

(a) In accordance with section 1102(5) of the act (relating to legislative intent), a slot machine license, management company license or principal license may not be issued to or held by a person if the Board determines that the issuance or holding will result in the undue concentration of economic opportunities and control of the licensed gaming facilities in this Commonwealth by that person.

(b) For purposes of this section, “undue concentration of economic opportunities and control of the licensed gaming facilities” means that a person:

(1) Would have actual or potential domination of the gaming market in this Commonwealth contrary to the legislative intent.

(2) Could substantially impede or suppress competition among licensees.

(3) Could adversely impact the economic stability of the gaming industry in this Commonwealth.
(c) In determining whether the issuance or holding of a license by a person will result in undue concentration of economic opportunities and control of the licensed gaming facilities in this Commonwealth, the Board will consider the following criteria:

(1) The percentage share of the market presently controlled by the person in each of the following categories:

   (i) Total number of slot machine licenses available under section 1307 of the act (relating to number of slot machine licenses).

   (ii) Total gaming floor square footage.

   (iii) Number of slot machines and table games.

   (iv) Gross terminal and table game revenue.

   (v) Net terminal and table game revenue.

   (vi) Number of persons employed by the licensee.

(2) The estimated increase in the market share in the categories in paragraph (1) if the person is issued or permitted to hold the license.

(3) The relative position of other persons who hold licenses, as evidenced by the market share of each person in the categories in paragraph (1).

(4) The current and projected financial condition of the industry.

(5) Current market conditions, including level of competition, consumer demand, market concentration, any consolidation trends in the industry and other relevant characteristics of the market.

(6) Whether the gaming facilities held or to be held by the person have separate organizational structures or other independent obligations.

(7) The potential impact of licensure on the projected future growth and development of the gaming industry in this Commonwealth and the growth and development of the host communities.

(8) The barriers to entry into the gaming industry, including the licensure requirements of the act, and whether the issuance or holding of a license by the person will operate as a barrier to new companies and individuals desiring to enter the market.

(9) Whether the issuance or holding of the license by the person will adversely impact consumer interests, or whether the issuance or holding is likely to result in enhancing the
quality and customer appeal of products and services offered by slot machine licensees to maintain or increase their respective market shares.

(10) Whether a restriction on the issuance or holding of an additional license by the person is necessary to encourage and preserve competition and to prevent undue concentration of economic opportunities and control of the licensed gaming facilities.

(11) Other evidence related to concentration of economic opportunities and control of the licensed gaming facilities in this Commonwealth.

§ 421a.6. (Reserved).

(1) The equipment, device or software is not in compliance with the act, this subpart or technical standards adopted by the Board and published in the Pennsylvania Bulletin and posted on the Board's web site.

(2) The slot machine, or modification thereto, is not compatible with, or compliant with the central control computer and protocol specifications approved by the Department or is unable to communicate with the central control computer for the purpose of
transmitting auditing program information, real time information retrieval and activation and disabling of slot machines.

§ 461a.7. Slot machine minimum design standards.

(a) A slot machine may not be set to pay out less than the theoretical payout percentage, which may not be less than 85%, calculated using the lowest possible wager that could be played for any single play, or equal or exceed 100%, calculated using the highest eligible wager available. The theoretical payout percentage for the total value of slot machine wagers will be calculated using the following:

(1) The defined set of all symbols that will be displayed using spinning reels or video displays, or both.

(2) The finite set of all possible combinations which shall be known as the cycle of the game. All possible combinations in a slot machine cycle shall be independent of each other and of all possible combinations from cycles in other slot machines.

(3) The value of each winning combination that corresponds with the set from paragraph (2) which, whether by reason of skill or application of the element of chance or both, may deliver or entitle the person or persons playing the slot machine to a jackpot.

(4) A payout of merchandise or anything of value provided a cash equivalent award for the merchandise is offered. The value of the cash equivalent will contribute to the calculation of the theoretical payout percentage.

(5) A payout in the form of an annuity will contribute to the calculation of the theoretical payout percentage by dividing the initial or reset amount of the jackpot payout by the number of years over which the jackpot will be paid.

(6) The odds of any winning combination may not exceed 50 million to 1.

(b) The calculation of the theoretical payout percentage will not include:

(1) The amount of any progressive jackpot in excess of the initial or reset amount.

(2) A cash or noncash complimentary issued under § 465.8 (relating to complimentary services or items).

(c) A play offered by a slot machine may not have a theoretical payout percentage which is less than, when calculated to one hundredth of a percentage point, the theoretical payout percentage for any other play offered by that slot machine which is activated by a slot machine wager in a lesser amount than the slot machine wager required for that play. Notwithstanding the foregoing, the theoretical payout percentage of one or more particular plays may be less than the theoretical payout percentage of one or more plays which require a lesser wager provided that:
(1) The aggregate total of the decreases in the theoretical payout percentage for plays offered by the slot machine is not more than 1/2 of 1%.

(2) The theoretical payout percentage for every play offered by the slot machine is equal to or greater than the theoretical payout percentage for the play that requires the lowest possible wager that will activate the slot machine.

(d) The selection from the set of all possible combinations of symbols shall be made applying a pseudo random number generator. At a minimum, a pseudo random number generator must adhere to the following criteria:

(1) The random selection process must meet a 95% confidence interval.

(2) A random number generator must pass a standard chi-squared test for goodness of fit.

(3) Each possible slot machine combination which produces winning or losing slot machine outcomes must be available for random selection at the initiation of each play.

(4) A slot machine payout percentage that may be affected by reason of skill must meet the theoretical payout requirements of this subpart when evaluated by the Board using a method of play that will provide the greatest return to the player.

(5) Once a random selection process has occurred, the slot machine must:

(i) Display an accurate representation of the randomly selected outcome.

(ii) Not make a secondary decision which affects the result shown to the person playing the slot machine.

(e) A slot machine is prohibited from automatically altering any function of the slot machine based on internal computation of the hold percentage.

(f) The available winning combinations and applicable rules of play for a slot machine shall be available at all times the slot machine is idle to the patron playing the slot machine. The award schedule of available winning combinations may not include possible aggregate awards achievable from free plays. A slot machine that includes a strategy choice must provide mathematically sufficient information for a patron to use optimal skill. Information regarding a strategy choice need not be made available for any strategy decisions whenever the patron is not required, in addition to the initial wager, to make an additional wager and, when as a result of playing a strategy choice, the patron cannot lose any credits earned thus far during that game play.

(g) Slot machines approved for use in a licensed facility must be equipped with the following meters that comply with the technical standards adopted by the Board and published in the Pennsylvania Bulletin and posted on the Board's web site:
(1) **Coin in.** A meter that accumulates the total value of all wagers, whether the wager results from the insertion of currency, gaming vouchers, coupons, downloaded credits, credits won or any other means. This meter must:

(i) Not include subsequent wagers of intermediate winnings accumulated during game play sequence such as those acquired from “double up” games.

(ii) For multigame and multidenomination/multigame slot machines, monitor the information necessary, on a per paytable basis, to calculate a weighted average actual payout percentage.

(2) **Coin out.** A meter that accumulates the total value of all amounts directly paid by the slot machine as a result of winning wagers, whether the payout is made directly from the printer by issuance of a gaming voucher, directly to a credit meter or by any other means. This meter may not record amounts awarded as the result of an external bonusing system or a progressive payout.

(3) **Attendant paid jackpots.** A meter that accumulates the total value of credits paid by an attendant resulting from a single winning alignment or combination, the amount of which is not capable of being paid by the slot machine itself. This meter may not record amounts awarded as the result of an external bonusing system or a progressive payout. This meter is to record only amounts specifically listed in the manufacturer's par sheet.

(4) **Attendant paid cancelled credits.** A meter that accumulates the total value of all amounts paid by an attendant resulting from a player initiated cash-out that exceeds the physical or configured capability of the slot machine.

(20) Slot machine paid progressive payout. A meter that accumulates the total value of credits paid as a result of progressive awards paid directly by the slot machine. This meter may not record awards paid as a result of an external bonusing system.

(21) Attendant paid progressive payout. A meter that accumulates the total value of credits paid by a slot attendant as a result of progressive awards that are not capable of being paid by the slot machine. This meter may not include awards paid as a result of an external bonusing system.

(22) Additional requirements. Other meters required by technical standards adopted by the Board and published in the Pennsylvania Bulletin and posted on the Board's web site.

(h) A slot machine that does not meter one or more of the events required to be metered under subsection (g) may be approved when a slot machine licensee's system of internal controls
establishes that the meter is not required to capture all critical transactions occurring on the slot machine.

(i) The meters required under subsection (g) must continuously and automatically increment in units equal to the denomination of the slot machine or, in the case of a slot machine configured for multidenomination play, must display the required information in dollars and cents.

(j) A slot machine approved for use in a licensed facility must be equipped with the following noncumulative meters:

(1) Credits wagered. A meter, visible from the front exterior of a slot machine, known as a credit wagered meter that advises the patron of the total value of amounts wagered in a particular game or round of slot play.

(2) Win meter. A meter, visible from the front exterior of the slot machine, known as a win meter that advises the patron of the total value of amounts won in the immediately concluded game or round of slot play.

(i) Cash out initiated by the patron.

(ii) Attendant paid jackpot.

(iii) Attendant paid cancelled credit.

(4) Credit meter. A meter, visible from the front exterior of the slot machine and specifically labeled as a credit meter, which advises the patron as to the number of credits or monetary value available for wagering on the slot machine. The credit meter need not distinguish between cashable credits and noncashable credits.

(k) A slot machine must have a meter which stores the number of games played, in the manner and for a duration specified in this subpart or in technical standards adopted by the Board and published in the Pennsylvania Bulletin and posted on the Board's web site, since the following events:

(1) Power reset.

(2) Door close.

(3) Game initialization (random access memory (RAM) clear).

(o) A slot machine must be equipped with a device, mechanism or method for detecting, displaying and communicating to a slot monitoring system error conditions. The error conditions detected, displayed and communicated by a slot machine, and the method to be utilized to clear the message with regard to the error condition, must be in accordance with technical standards on tower lights and error conditions under § 461b.2.

(p) A slot machine must, in accordance with section 1324 of the act (relating to protocol information), comply with the comprehensive protocol specifications necessary to enable the slot machine to communicate with the Department's central control computer as that protocol is amended or supplemented, for the purpose of transmitting auditing program information, real time information retrieval and slot machine activation and disabling.

(q) A slot machine must lock up and preclude further play whenever a jackpot occurs that is not able to be paid completely by the slot machine and requires a hand pay. When the jackpot occurs, the slot machine can offer a predetermined number of double-up wagers before the slot machine locks up.

(r) Printers incorporated into a slot machine must be:

   (1) Designed to allow the slot machine to detect and report a low paper level, paper out, presentation error, printer failure and paper jams.

   (2) Mounted inside a lockable compartment within the slot machine.

(s) Seating made available by a slot machine licensee for use during slot play may be fixed and stationary or nonfixed. When fixed and stationary seating is used, it must be installed in a manner that effectively precludes its ready removal by a patron but permits controlled removal, for example for American With Disabilities Act of 1990 (ADA) (42 U.S.C.A. §§ 12101–12213) purposes, by slot operations department personnel. When nonfixed seating is used, the slot machine licensee shall:

   (1) Maintain a minimum aisle width of 48 inches, measured from the seat back to seat back when the nonfixed seating is vacant and is touching or is as close as possible to the slot machine at which the nonfixed seating is being used.
(2) Provide to the Bureau of Gaming Operations copies of a certification obtained from the local building code or fire safety officials or a certification from an architect registered in this Commonwealth that the use of the nonfixed seating complies with all applicable building and fire safety code requirements.

(t) Unless a slot machine licensee's slot monitoring system is configured to automatically record all of the information required by this subsection, the slot machine licensee shall be required to physically house in each slot machine the following entry authorization logs:

(1) A machine entry authorization log that documents each time a slot machine or any device connected thereto which may affect the operation of the slot machine is opened. The log must contain, at a minimum, the date, time, purpose for opening the slot machine or device and the signature and license or permit number of the person opening and entering the slot machine or device. Each log must have recorded thereon a sequence number and the manufacturer's serial number or the asset number corresponding to the slot machine in which it is housed.

The petition must include information demonstrating that the individual satisfies the criteria for exclusion or ejection under section 1514 of the act or this chapter.

(c) In addition to filing the petition for exclusion, if exigent circumstances exist, the Office of Enforcement Counsel may file a request for a temporary emergency order in accordance with § 403a.7 (relating to temporary emergency orders) provided that:
(1) The procedures in § 403a.7(a)—(i) are applicable to requests for temporary emergency orders filed in conjunction with petitions for exclusion.

Upon service of the petition, the person subject to the petition shall have 30 days to demand a hearing before the Board or presiding officer. Failure to demand a hearing within 30 days after service will be deemed an admission of all matters and facts alleged in the Office of Enforcement Counsel's petition for exclusion and preclude the person from having an administrative hearing.

If a formal hearing is demanded by the person named in the petition for exclusion, a hearing will be scheduled as provided in § 491a.8 (relating to hearings generally). At the hearing, the Office of Enforcement Counsel will have the affirmative obligation to demonstrate that the person named in the petition for exclusion satisfies the criteria for exclusion in 4 Pa.C.S. § 1514 or § 511a.3 (relating to criteria for exclusion or ejection). (c) An excluded person who is barred from requesting a hearing concerning his removal from the exclusion list by the 5-year period of exclusion in subsection (a) may petition the Board for early consideration at any time. However, an excluded person may not, within the 5-year period of exclusion, file more than one petition for early consideration.

(d) A petition for early consideration must contain the information required under subsection (b). Upon receipt of the petition, the Office of Enforcement Counsel may file an answer in accordance with § 493a.5.

(e) The Board will consider the following criteria when making its decision on a petition for early consideration:

(1) Whether there are extraordinary facts and circumstances warranting early consideration of the excluded person's request for removal from the exclusion list.

(c) Each gaming chip manufacturer shall submit sample color disks to the Bureau of Gaming Operations that identify all primary and secondary colors to be used for the manufacture of value chips for certificate holders in this Commonwealth. Once a gaming chip manufacturer has received approval for a primary or secondary color, those colors shall be consistently manufactured in accordance with the approved samples. At that time, a marker button denoting the value of a stack of 20 Roulette chips of the same color and design shall be placed in the slot, receptacle or other device. For example, a marker button with 100 imprinted on it would be placed in the receptacle to designate that, during the patron’s play on that occasion, the Roulette chips of that color and design are each worth $5.

(c) An impressment of the Roulette chips assigned to each Roulette table shall be completed by a floorperson or above at least once every 3 months as specified in the certificate holder’s internal controls required under § 465a.2 (relating to internal control systems and audit protocols). (a) Cards used to play table games authorized under this subpart must be in decks of 52
cards with each card identical in size and shape to every other card in the deck. Nothing in this
section prohibits a manufacturer from manufacturing decks of cards with one or more jokers
contained therein. Jokers may not be used by the certificate holder in the play of any game unless
authorized by the rules of the game.

(b) Each deck must be composed of cards in four suits: diamonds, spades, clubs and

and 2. The face of the ace, king, queen, jack and 10 may contain an additional marking, approved
in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and
equipment), which will permit a dealer, prior to exposing his hole card at the game of Blackjack,
to determine if the value of the hole card gives the dealer a Blackjack.

(d) The backs of each card in a deck must be identical and no card may contain any
marking, symbol or design that will enable a person to know the identity of any element printed
on the face of the card or that will in any way differentiate the back of the card from any other
card in the deck.

(e) The backs of all cards in a deck shall be designed to diminish, as far as possible, the
ability of any individual to place concealed markings thereon.

(f) The design placed on the backs of cards used by certificate holders must contain the

The boxes of decks of cards shall then be inspected by an assistant table games shift manager or above and one employee from the security department to assure that the seals on each box are intact, unbroken and free from tampering. Boxes that do not satisfy these criteria shall be inspected at this time to assure that the decks of cards contained therein conform to the requirements of this chapter and there is no evidence of tampering. Boxes satisfying these criteria, together with boxes having unbroken, intact and untampered seals shall then be placed for storage in a storage area, the location and physical characteristics of which shall be approved by the Bureau of Casino Compliance in accordance with § 601a.10(f) (relating to approval of table game layouts, signage and equipment). A certificate holder may have separate cabinets or storage areas for decks of cards to be used at the game of Poker. The location and physical characteristics of the cabinets or separate storage areas shall be approved by the Bureau of Casino Compliance in accordance with § 601a.10(f).

(b) Approved storage areas must have two separate locks. The security department shall maintain one key and the table games department shall maintain the other key. The floorperson or above shall verify the inspection.

(i) If while inspecting the cards in accordance with subsection (h), the dealer finds that a card is unsuitable for use, a card is missing from the deck or an extra card is found, the following procedures shall be observed:

If the certificate holder maintains a separate storage area for Poker cards, a Poker shift manager or above may collect all extra decks in the card reserve for the game of Poker. If collected, all sealed decks shall either be cancelled, destroyed or returned to the storage area.

(q) When the envelopes or containers of used cards and reserve cards with broken seals are returned to the security department, the cards shall be inspected for tampering, marks, alterations, missing or additional cards or anything that might indicate unfair play as follows:

(1) For cards used in Blackjack, Spanish 21, Baccarat, Midibaccarat or Minibaccarat, the certificate holder shall inspect either:

   (i) All decks used during the day.

   (ii) A sample of decks selected at random or in accordance with an approved stratification plan, provided that the procedures for selecting the sample size and for assuring a proper selection of the sample have been submitted to the Bureau of Gaming Operations and approved in accordance with § 465a.2.

information obtained as soon as possible and the request for written documentation is included in

(c) When the ball comes to rest in a compartment, the dealer shall announce the number of the compartment and shall place a point marker on that number on the Roulette layout.

(d) If a certificate holder offers the Five Adjacent Number Wager, the dealer shall then move 1/5 of each winning Five Adjacent Number Wager from the Roulette wheel replica to the box on the main Roulette layout that contains the single number corresponding to the compartment in which the Roulette ball came to rest.

(e) After placing the point marker on the layout and, if applicable, complying with subsection (d), the dealer shall first collect all losing wagers and then pay off all winning wagers in accordance with § 617a.4 (relating to payout odds).

§ 617a.6. Irregularities.

(a) If the ball is spun in the same direction as the wheel, the dealer shall announce “no spin” and attempt to remove the Roulette ball prior to it coming to rest in one of the compartments.

(b) If the Roulette ball does not complete four revolutions around the track of the wheel, the dealer shall announce “no spin.” The dealer shall inspect the ball for any signs of damage and if the ball is damaged, ask the floorperson or above for a new Roulette ball with which to continue gaming at the table.
(c) If the Roulette ball leaves the wheel during the spin, the dealer shall announce “no
spin.” The dealer shall inspect the ball for any signs of damage and if the ball is damaged, ask
the floorperson or above for a new Roulette ball with which to continue gaming at the table.

(d) If a foreign object enters the wheel prior to the ball coming to rest, the dealer shall
announce “no spin” and attempt to remove the Roulette ball from the wheel prior to it coming to
rest in one of the compartments.

(a) Big Six Wheel gaming shall be conducted at a circular wheel at least 5 feet in
diameter. Except as provided in subsection (c), the rim of the wheel must be divided into 54
equally spaced sections with 23 sections containing a $1 symbol, 15 sections containing a $2
symbol, 8 sections containing a $5 symbol, 4 sections containing a $10 symbol, 2 sections
containing a $20 symbol, 1 section containing a picture of a flag, the name or logo of the
certificate holder or other unique symbol, and 1 section containing a picture of a joker or other
unique symbol. The sections must be covered with glass.

(b) Except as provided in subsection (c), the sections required under subsection (a) must
be arranged clockwise around the rim of the wheel in the following order: joker, $1, $2, $1, $5,$2, $1, $10, $1, $5, $1, $2, $1, $20, $1, $2, $1, $5, $2, $1, $10, $1, $2, $5, $1, $2, $1, flag or
logo, $2, $5, $2, $1, $2, $1, $10, $1, $5, $1, $2, $1, $20, $1, $2, $1, $5, $2, $1, $10, $1, $2, $5,$1, $2 and $1.
(c) With prior approval in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment), a certificate holder may use symbols that depict fruit or other themed symbols in lieu of the dollar symbols specified in subsections (a) and (b).

(d) Each section of the wheel must also display the payout odds in § 619a.3 (relating to payout odds) for the wager. For example, the payout odds for the $2 or other approved symbol are 2 to 1. That section of the wheel must therefore display a 2.

(e) The wheel must contain a clapper capable of selecting a particular section of the wheel upon the conclusion of the spin.

(f) Each Big Six Wheel table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g).

(g) The layout for a Big Six Wheel table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) and contain, at a minimum:

1. The name or logo of the certificate holder.

2. Specific betting areas for the placement of wagers including:

   i. Symbols for $1, $2, $5, $10 and $20 or other approved symbols in accordance with subsection (c).

   ii. A flag, the name or logo of the certificate holder or other unique symbol as it appears on the wheel.

   iii. A joker or other unique symbol as it appears on the wheel.

3. The payout odds for each of the permissible wagers.

§ 619a.2. Wagers and rotation of the wheel.

(a) Prior to the spin of the wheel, the dealer shall announce “no more bets.”

(b) The wheel shall be spun by the dealer in either direction and must complete at least three revolutions to constitute a valid spin.

(c) A wager shall be settled in accordance with the wager’s position on the layout when the clapper comes to rest in a section of the wheel.

(d) If the clapper comes to rest between two numbers or symbols upon completion of the spin of the wheel, the spin shall be void and the dealer shall respin the wheel.
Upon completion of the spin, the dealer shall first collect all losing wagers and then pay off all winning wagers in accordance with § 619a.3 (relating to payout odds).

§ 619a.3. Payout odds.

A certificate holder shall pay out winning Big Six Wheel wagers at no less than the odds in the following paytable:

accepts the responsibility of paying all winning Pai Gow wagers.

*Co-banking*—When the bank and the dealer each cover 50% of all winning Pai Gow wagers.

*Setting the hands*—The process of forming a high hand and a low hand from the four tiles dealt.

*Supreme Pair*—The Six (2-4) tile and the Three (1-2) tile that forms the highest ranking hand.

*Value*—The numerical point value assigned to a pair of tiles in accordance with § 621a.3 (relating to Pai Gow tiles; ranking of hands, pairs and tiles; value of the hand).

§ 621a.2. *Pai Gow table; Pai Gow shaker; physical characteristics.*

(a) Pai Gow shall be played at a table having betting positions for six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Pai Gow table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) A separate betting area designated for the placement of the Pai Gow wager for each player.

(3) A separate area, located to the left of the dealer, for the placement of four tiles which shall be referred to as the Dead Hand.

(c) Each Pai Gow table must have a drop box with a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g).
(d) Pai Gow shall be played with a Pai Gow shaker, approved in accordance with § 601a.10(a), used to shake three dice before each hand of Pai Gow is dealt to determine the starting position for the dealing of the Pai Gow tiles. The Pai Gow shaker shall be the responsibility of the dealer and may not be left unattended at the table. The Pai Gow shaker must be designed and constructed to maintain the integrity of the game and:

1. Be capable of housing three dice that when not being shaken must be maintained within the Pai Gow shaker. Dice that have been placed in a Pai Gow shaker for use in gaming may not remain on a table for more than 24 hours.
2. Be designed to prevent the dice from being seen while being shaken.
3. Have the name or logo of the certificate holder imprinted or impressed thereon.

(e) If a certificate holder elects to use a computerized random number generator as permitted under § 621a.6 (relating to procedures for dealing the tiles), the random number generator shall be approved by the Bureau of Gaming Laboratory Operations in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use.

§ 621a.3. Pai Gow tiles; ranking of hands, pairs and tiles; value of the hand.

(a) Each tile used in the game of Pai Gow must comply with the requirements in § 603a.18 (relating to Pai Gow tiles; physical characteristics) and contain the identifying spots listed in subsection (h).

(b) Tiles used in Pai Gow shall be changed at least every 12 hours.

(c) When comparing high hands or low hands to determine the higher ranking hand, the determination shall first be based upon the rank of any permissible pair of tiles which are in the hands. A hand with a permissible pair of tiles shall rank higher than a hand which does not contain a permissible pair. The permissible pairs of tiles and their rank, with the Supreme Pair being the highest or first ranking pair, are as follows:

<table>

Eighteenth Two (1-1) and Nine (4-5)

Gongs

Nineteenth Twelve (6-6) and Eight (2-6)
Twentieth Two (1-1) and Eight (2-6)

(d) When comparing two high hands or two low hands that are of identical permissible pair rank, the hand shall be considered a copy hand and the dealer or, if applicable, the bank shall win the hand.

(e) Except as provided in subsection (g), when comparing the rank of high hands or low hands which do not contain any of the pairs listed in subsection (c), the higher ranking hand shall be determined on the basis of the value of the hands. The value of a hand shall be a single digit number from zero to nine and shall be determined by adding the total number of spots which are contained on the two tiles which form the hand. If the total of the spots is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the value of the hand. Examples of this rule are as follows:

(1) A hand composed of a Two (1-1) and a Six (3-3) has a value of 8.

(2) A hand composed of an Eleven (5-6) and a Seven (1-6) has a numeric total of 18 but a value of 8 since the left digit in the number 18 is discarded.

(f) If the tiles which form the Supreme Pair are used separately, the numeric total of the 1-2 tile may be counted as a 3 or a 6 and the numeric total of the 2-4 tile may be counted as a 3.
or a 6. When the 1-2 tile is counted as 6, its individual ranking under subsection (h) shall be fifteenth instead of seventeenth and when the 2-4 tile is counted as 3, its individual ranking shall be seventeenth instead of fifteenth.

(g) When comparing high hands or low hands which are of identical value, the hand with the highest ranking individual tile shall be considered the higher ranking hand. If, however, the numeric value of the tiles results in a zero-zero tie, both hands, regardless of the highest ranking tile, are equally bad and the dealer or, if applicable, the bank shall be considered the higher ranking hand.

(h) The individual ranking for each tile, from highest rank to lowest rank, is as follows:

<table>

(i) If the highest ranking tile in each hand being compared is of identical rank after the application of subsection (h), the hand shall be considered a copy hand, and the hand of the dealer or, if applicable, the bank shall be considered the higher ranking hand.

§ 621a.4. Opening of the table for gaming; mixing procedures.
(a) After receiving one set of tiles at the table, the dealer shall sort and inspect the tiles and the floorperson assigned to the table shall verify the inspection. Nothing in this section precludes a certificate holder from cleaning the tiles prior to the inspection required herein. The tiles at the gaming table shall be inspected as follows:

(1) Each set of tiles shall be sorted into pairs to assure that the Supreme Pair and all 15 matched and unmatched pairs, as identified in § 621a.3 (relating to Pai Gow tiles; ranking of hands, pairs and tiles; value of the hand), are in the set.

(2) Each tile shall be placed side by side to determine that all tiles are the same size and shading.

(3) The back and sides of each tile shall be examined to assure that it is not flawed, scratched or marked in any way.

   (i) If the dealer finds that certain tiles are unsuitable for use, a floorperson or above shall bring another set of tiles to the table from the reserve in the pit stand.

   (ii) The unsuitable set of tiles shall be placed in a sealed envelope or container, identified by table number, date and time and signed by the dealer and floorperson or above.

(b) Following the inspection of the tiles and the verification by the floorperson assigned to the table, the tiles shall be turned face up, placed into 16 pairs and arranged according to rank starting with the Supreme Pair. The tiles shall be left in pairs for visual inspection by the first player to arrive at the table.

(c) After the first player arriving at the table is afforded an opportunity to visually inspect the tiles, the tiles shall be turned face down on the table and mixed thoroughly.

(d) The dealer shall mix the tiles with the heels of the hands. The dealer shall mix the tiles in a circular motion with one hand moving clockwise and the other hand moving counterclockwise. Each hand shall complete at least eight circular motions to provide a random mixing. The dealer shall then randomly pick up four tiles with each hand and place them side by side in stacks in front of the table inventory container, forming eight stacks of four tiles.

(e) If during the stacking process described in subsection (d), a tile is turned over and exposed to the players, the entire set of tiles shall be remixed.

(f) After each round of play has been completed, the dealer shall turn all of the tiles face down and mix the tiles in accordance with subsection (d).

(g) If there is no gaming activity at the Pai Gow table, the tiles shall be turned face up and placed into 16 pairs according to rank starting with the Supreme Pair. Once a player arrives at the table, the dealer shall follow the procedures in subsections (c) and (d).
§ 621a.5. Wagers.

(a) Wagers at Pai Gow shall be made by placing value chips or plaques on the appropriate areas of the Pai Gow layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at the Pai Gow table may place a wager. Once a player has placed a wager and received tiles, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and treated as losing wagers.

(c) All wagers at Pai Gow shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 621a.6 (relating to procedures for dealing the tiles). A wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) Except as provided in § 621a.9(f) (relating to player bank; co-banking; selection of bank; procedures for dealing), a certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), permit a player to wager on two adjacent betting areas at a Pai Gow table. If a certificate holder permits a player to wager on adjacent betting areas, the tiles dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 621a.6. Procedures for dealing the tiles.

(a) After the dealer has completed mixing and stacking the tiles, the dealer shall either:

(1) Announce “no more bets” and use a computerized random number generator that automatically selects and displays a number.

(2) Announce “no more bets” and shake the Pai Gow shaker at least three times to cause a random mixture of the dice. The dealer shall then remove the lid covering the Pai Gow shaker and place the uncovered Pai Gow shaker on the designated area of the table layout. After removing the lid covering the Pai Gow shaker, the dealer shall total the dice.

(b) The dealer shall then announce the total of the dice or the number displayed by the computerized random number generator. The total or number shall determine which player receives the first stack of tiles.

(c) To determine the starting position for dealing the tiles, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, and the Dead Hand, beginning with the dealer as number one and continuing around the table in a
counterclockwise manner, until the count matches the total of the three dice or the number displayed by the computerized random number generator. Examples are as follows:

(1) If the dice total nine, the dealer would receive the first stack of four tiles.

(2) If the dice total 15, the sixth wagering position would receive the first stack of four tiles.

(d) The dealer shall deal the first stack of four tiles, starting from the right side of the eight stacks, to the starting position as determined in subsection (c) and, moving counterclockwise around the table, deal all other positions including the Dead Hand and the dealer a stack of tiles, regardless of whether there is a wager at the position. The dealer shall place a marker on top of his stack of tiles immediately after they are dealt.

(e) After all the stacks of tiles have been dealt, the dealer shall, without exposing the tiles, collect any stacks dealt to a position where there is no wager and place the stacks with the Dead Hand on the layout to the left of the dealer in front of the table inventory container.

(f) If a Pai Gow shaker is utilized, once all tiles have been dealt and any tiles dealt to positions with no wagers have been collected, the dealer shall place the cover on the Pai Gow shaker and shake the shaker once. The Pai Gow shaker shall then be placed to the right of the dealer.

§ 621a.7. Alternative dealing procedures.

As an alternative to the procedure in § 621a.6 (relating to procedures for dealing the tiles), the dealer or the player acting as the bank or co-bank may, if specified in the certificate holder’s Rules Submission under § 601a.2 (relating to table games Rules Submissions), choose any of the following dealing styles:

1. **House Way From the Left.** The dealer shall indicate the use of House Way From the Left by pushing forward the first stack of tiles on the dealer’s left. The dealer shall deliver the stack pushed forward to the starting position. The remaining stacks of tiles shall be delivered from the dealer’s left to right.

2. **Cup Say (pick four) From the Right.** The dealer shall indicate the use of Cup Say From the Right by pushing forward the first two stacks of tiles on the dealer’s right. The dealer shall deliver the top two tiles from each of the two stacks pushed forward to the starting position. The four remaining tiles pushed forward shall be delivered to the next position. The remaining stacks of tiles shall be delivered from the dealer’s right to left in the same manner as the first two stacks.

3. **Cup Say (pick four) From the Left.** The dealer shall indicate the use of Cup Say From the Left by pushing forward the first two stacks of tiles on the dealer’s left. The dealer shall deliver the top two tiles from each of the two stacks pushed forward to the starting position. The four remaining tiles pushed forward shall be delivered to the next position. The remaining
stacks of tiles shall be delivered from the dealer’s left to right in the same manner as the first two stacks.

(4) *Jung Quat (take the heart).* The dealer shall indicate the use of Jung Quat by pushing forward the fourth stack of tiles from the dealer’s right and the fourth stack of tiles from the dealer’s left (the two center stacks of the eight). The dealer shall deliver the top two tiles from each of the two stacks pushed forward to the starting position. The four remaining tiles pushed forward shall be delivered to the next position. The remaining stacks shall be pushed together and the two new center stacks shall be pushed forward and delivered in the same manner as the first two stacks. This procedure shall be repeated until all eight stacks of tiles have been delivered.

(5) *Chee Yee (chop the ears).* The dealer shall indicate the use of Chee Yee by pushing forward the first stack of tiles on the dealer’s right and the first stack of tiles on the dealer’s left. To deliver the tiles, the dealer shall center the two stacks pushed forward in front of the remaining stacks. The dealer shall deliver the top two tiles from each of the two centered stacks to the starting position. The four remaining tiles from the two centered stacks shall be delivered to the next position. The dealer shall then center and deliver the first stack remaining on the dealer’s right and the first stack remaining on the dealer’s left in the same manner. This procedure shall be repeated until all eight stacks of tiles have been delivered.

(6) *Pin Say (slice four) From the Right.* The dealer shall indicate the use of Pin Say From the Right by removing the top tile of the first stack of tiles on the dealer’s right and placing it diagonally across the top of the second, third and fourth stacks of tiles from the dealer’s right. The dealer shall deliver the top tile from each of the first four stacks on the dealer’s right to the starting position (the diagonal tile plus the three tiles it covers). The top tile from each of the first four stacks on the dealer’s left shall be delivered to the next position. The top tile remaining on each of the first four stacks on the dealer’s right shall be delivered to the third position and the top tile remaining on each of the first four stacks on the dealer’s left shall be delivered to the fourth position. This procedure shall be repeated until four tiles have been delivered to all eight positions.

(7) *Pin Say (slice four) From the Left.* The dealer shall indicate the use of Pin Say From the Left by removing the top tile of the first stack of tiles on the dealer’s left and placing it diagonally across the top of the second, third and fourth stacks of tiles from the dealer’s left. The dealer shall deliver the top tile from each of the first four stacks on the dealer’s left to the starting position (the diagonal tile plus the three tiles it covers). The top tile from each of the first four stacks on the dealer’s right shall be delivered to the next position. The top tile remaining on each of the first four stacks on the dealer’s left shall be delivered to the third position and the top tile remaining on each of the first four stacks on the dealer’s right shall be delivered to the fourth position. This procedure shall be repeated until four tiles have been delivered to all eight positions.

(8) *Dragon Head and Phoenix Tail From the Right.* The dealer shall indicate the use of Dragon Head and Phoenix Tail From the Right by placing all four tiles in the first and second stacks from the dealer’s right directly on top of the four tiles in the third and fourth stacks
from the dealer’s right and then pushing forward the top two tiles in each of the eight-tile stacks that are created (forming the dragon head). The dealer shall deliver the four tiles pushed forward to the starting position. The top tile from each of the four stacks of four tiles to the dealer’s left (the phoenix tail) shall be delivered to the next position. The dealer shall deliver the top two tiles from each of the two stacks on the dealer’s right to the third position and the top tile from each of the four stacks on the dealer’s left to the fourth position. This procedure shall be repeated until four tiles have been delivered to all eight positions.

(9) Dragon Head and Phoenix Tail From the Left. The dealer shall indicate the use of Dragon Head and Phoenix Tail From the Left by placing all four tiles in the first and second stacks from the dealer’s left directly on top of the four tiles in the third and fourth stacks from the dealer’s left and then pushing forward the top two tiles in each of the eight-tile stacks that are created (forming the dragon head). The dealer shall deliver the four tiles pushed forward to the starting position. The top tile from each of the four stacks of four tiles to the dealer’s right (the phoenix tail) shall be delivered to the next position. The dealer shall deliver the top two tiles from each of the two stacks on the dealer’s left to the third position and the top tile from each of the four stacks on the dealer’s right to the fourth position. This procedure shall be repeated until four tiles have been delivered to all eight positions.

§ 621a.8. Procedures for completion of each round of play; setting of hands; payment and collection of wagers; payout odds; vigorish.

(a) After the dealing of the tiles has been completed, each player shall set his hands by arranging the tiles into a high hand and low hand. After setting the hands the tiles shall be placed face down on the layout immediately behind that player’s betting area and separated into two distinct hands.

(b) Each player at the table shall be responsible for setting his own hands and no other person except the dealer may touch the tiles of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the requesting player of the manner in which the certificate holder requires the hands of the dealer to be set. Each player shall be required to keep the four tiles in full view of the dealer at all times. Once each player has set a high hand and low hand and placed the two hands face down on the layout, the player may not touch the tiles again.

(c) After all players have set their hands and placed the tiles on the table, the four tiles of the dealer shall be turned over and the dealer shall set his hands by arranging the tiles into a high and low hand. The high hand shall be placed on the layout face up in a vertical position and the low hand shall be placed on the layout face up perpendicular to the high hand.

(d) The dealer shall set his hands as follows:

(1) If the dealer has the Supreme Pair, it shall be played as the Supreme Pair.

(2) If possible, the dealer shall always play a pair, Wong or Gong as set forth in § 621a.3 (relating to Pai Gow tiles; ranking of hands, pairs and tiles; value of the hand).
(3) If the dealer does not have any of the combinations in paragraph (1) or (2), the dealer shall play any two tiles together which have a value equal to nine, eight or seven.

(4) If the dealer does not have any of the combinations in paragraph (1), (2) or (3), the dealer shall play the highest ranking tile with the lowest ranking tile.

(e) A player may surrender his wager after the hands of the dealer have been set. The player shall announce his intention to surrender prior to the dealer exposing either of the two hands of that player as provided in subsection (g). Once the player has announced his intention to surrender, the dealer shall immediately collect the wager from that player and collect the four tiles dealt to that player and stack them face down on the right side of the table in front of the table inventory container without exposing the tiles to any other player at the table.

(f) After the dealer has set a high and low hand and collected the wagers and tiles that are surrendered under subsection (e), the dealer shall reveal both hands of each player, beginning with the player farthest to the right of the dealer and continuing around the table in a counterclockwise direction. The dealer shall compare the high hand of the player to the high hand of the dealer and the low hand of the player to the low hand of the dealer and shall announce if the wager of that player wins, loses or is a tie.

(g) A wager shall lose and be immediately collected if the high hand of the player is identical in rank or lower in rank than the high hand of the dealer, and the low hand of the player is identical in rank or lower in rank than the low hand of the dealer, or has a value of zero.

(h) A wager shall tie and be returned to the player if:

(1) The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is identical in rank to the low hand of the dealer, lower in rank than the low hand of the dealer or has a value of zero.

(2) The high hand of the player is identical in rank to the high hand of the dealer or lower in rank than the high hand of the dealer, but the low hand of the player is higher in rank than the low hand of the dealer.

(i) A wager shall win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is higher in rank than the low hand of the dealer.

(j) After settling the player’s wager, the dealer shall immediately collect the tiles of that player and place the tiles face up to the right of the dealer in front of the table inventory container.

(k) A certificate holder shall pay each winning Pai Gow wager at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to 5% of the amount won. When collecting the vigorish, the certificate holder may round off the vigorish to 25¢ or the next highest multiple of 25¢. A certificate holder shall collect the vigorish from a player at the time the winning payout is made.
Tiles collected by the dealer shall be picked up in order and in a way so that they can be readily arranged to reconstruct each hand in the event of a question or dispute.

§ 621a.9. Player bank; co-banking; selection of bank; procedures for dealing.

(a) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to all players at a Pai Gow table the opportunity to bank the game. If the certificate holder elects this option, the provisions of this section control for any round of play in which a player is the bank. The other provisions of this chapter apply to the extent that they do not conflict with the provisions of this section.

(b) A player may not be the bank at the start of the game. For the purposes of this section, the start of the game means the first round of play after the dealer is required to restack and mix the tiles in accordance with § 621a.4 (relating to opening of the table for gaming; mixing procedures).

(c) After the first round of play, each player at the table shall have the option to either be the bank or pass the bank to the next player. The dealer shall offer the bank to each player, starting with the player farthest to the dealer’s right and continuing around the table in a counterclockwise manner, until a player accepts the bank. The dealer shall place a marker designating the bank in front of the player who accepts the bank. If the first player offered the bank accepts, the player seated to the right of the bank shall be offered the bank first on the next round of play. A player may not bank two consecutive rounds of play. If no player accepts the bank, the round of play shall proceed in accordance with the rules of play provided in this chapter.

(d) Before a player may bank a round of play, the dealer shall confirm that:

(1) The player placed a wager against the dealer during the last round of play in which there was no player banking the game.

(2) The player has sufficient value chips or plaques on the table to cover all of the wagers placed by other players at the table for that round of play.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2, offer the bank the option of co-banking the round of play. If the certificate holder offers this option, it shall be made available to all players at the table. If the bank wishes to use this option and co-bank 50% of the winning Pai Gow wagers, the bank must specifically request to co-bank with the dealer. The dealer shall place a marker designating the player co-banking that round of play. When the dealer is co-banking, the dealer shall be responsible for setting the hand of the bank in the manner as specified in the certificate holder’s Rules Submission under § 601a.2. When co-banking is in effect, the dealer may not place a wager against the bank.

(f) If a player is the bank, the player may wager on only one betting area.
(g) Once the tiles have been mixed and formed into stacks as required under § 621a.4, the bank shall have the option to cut the tiles one time. If the bank does not wish to cut the tiles, there may not be a cut. Upon direction from the bank, the dealer may move the tiles in one of the following ways:

(1) One or more adjacent stacks of four tiles to the right or left end of the original eight stacks of tiles.

(2) Two or more adjacent stacks of four tiles, of which at least one stack is moved to one end and the other stacks are moved to the opposite end of the original eight stacks of tiles.

(h) Once the dealer has determined that a player may be the bank, as required under subsection (d), and the tiles have been mixed, stacked and, if applicable, cut, the dealer shall, unless co-banking is in effect, remove value chips from the table inventory container in an amount equal to the banker’s last wager made against the dealer or in an amount as specified in the certificate holder’s Rules Submission. This amount shall be the amount the dealer wagers against the bank. The bank may direct that the sum wagered by the dealer be a lesser amount or that the dealer place no wager during that round of play. Any amount wagered by the dealer shall be placed in front of the table inventory container. Immediately upon receipt of the four tiles dealt to the dealer under subsection (k), the dealer shall place his wager on top of these tiles, instead of the marker otherwise required under § 621a.6 (relating to procedures for dealing the tiles), before dealing the remaining tiles. If co-banking is in effect, the dealer may not remove any value chips from the table inventory container under this subsection.

(i) Once the dealer has announced “no more bets,” the bank may, by issuing a verbal instruction to the dealer, choose to have the dealer deliver the stacks using any one of the styles of delivery described in § 621a.7 (relating to alternative dealing procedures). If the bank does not choose a style of delivery, the dealer shall use the procedure in § 621a.6(d) to deliver the stacks. The bank shall then shake the Pai Gow shaker at least three times to cause a random mixture of the dice. Once the bank has completed shaking the Pai Gow shaker, the dealer shall remove the lid covering the Pai Gow shaker and place the uncovered Pai Gow shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total. If the bank inadvertently removes the lid, the Pai Gow shaker shall be covered and reshaken by the bank.

(j) To determine the starting position for dealing the tiles, the dealer shall count each betting position, the dealer and the Dead Hand, in order, regardless of whether there is a wager at the betting position, beginning with the bank as number one and continuing around the table in a counterclockwise manner until the count matches the total of the three dice.

(k) The dealer shall deal the first stack of four tiles, in accordance with the selected style of delivery, to the starting position as determined in subsection (j) and, moving counterclockwise around the table, deal all other positions including the Dead Hand and the dealer a stack of tiles, regardless of whether there is a wager at the position. The dealer shall place his wager or marker, as applicable, on top of his stack of tiles immediately after the tiles are dealt.
(l) After all the stacks of tiles have been dealt, the dealer shall, without exposing the tiles, collect any stacks dealt to a position where there is no wager and place the stacks with the Dead Hand on the layout to the left of the dealer in front of the table inventory container.

(m) Once all tiles have been dealt and any tiles dealt to positions with no wagers have been collected, the dealer shall place the cover on the Pai Gow shaker and shake the shaker once. The Pai Gow shaker shall then be placed to the right of the dealer.

(n) If the tiles dealt to the dealer have not been previously collected, after each player has set his two hands and placed them on the table layout, the two hands of the dealer shall then be set. Once the dealer has formed a high and low hand and placed the hands face up on the appropriate area of the table layout, the dealer shall expose the hands of the bank and determine if the hands of the dealer are higher in rank than the hands of the bank. If the dealer wins, the tiles of the dealer shall be stacked face up to the right of the table inventory container with the amount wagered by the dealer against the bank placed on top. If the dealer’s hand is a tie with the banker’s hand, the dealer shall return the amount wagered by the dealer against the bank to the table inventory container. If the dealer loses, the amount wagered by the dealer against the bank shall be moved to the center of the layout.

(o) If a player is banking the round of play, once the dealer has determined the outcome of the wager of the dealer against the bank, if any, the dealer shall, starting with the player farthest to the dealer’s right and continuing around the table in a counterclockwise manner, expose the hands of each player. The dealer shall compare the high and low hand of each player to the high and low hand of the bank and announce if the wager shall win, lose or tie. Losing wagers shall be immediately collected and placed in the center of the table. All winning wagers, including the dealer’s wager, shall be paid by the dealer with the value chips located in the center of the table. If this amount becomes exhausted before all winning wagers have been paid, the dealer shall collect from the bank an amount equal to the remaining winning wagers and place that amount in the center of the layout. The remaining winning wagers shall be paid from the amount in the center of the layout. If, after collecting all losing wagers and paying all winning wagers, there is a surplus in the center of the table, this amount shall be charged a 5% vigorish in accordance with § 621a.8 (relating to procedures for completion of each round of play; setting of hands; payment and collection of wagers; payout odds; vigorish). Once the vigorish has been paid, the remaining amount shall be given to the bank.

(p) Immediately after a winning wager of the dealer is paid, this amount and the dealer’s original wager shall be returned to the table inventory container.

(q) Each player who has a winning wager against the bank shall pay a 5% vigorish on the amount won, in accordance with § 621a.8.

(r) If a player and the dealer are co-banking the round of play, once the dealer has set the co-bank hand under subsection (e), the dealer shall, starting with the player farthest to the dealer’s right and continuing around the table in a counterclockwise manner, expose the hands of each player. The dealer shall compare the high and low hand of each player to the high and low hand of the bank and announce if the wager shall win, lose or tie. Losing wagers shall be
immediately collected and placed in the center of the table. All winning wagers shall be paid by
the dealer with the value chips located in the center of the table. If this amount becomes
exhausted before all winning wagers have been paid, the dealer shall collect from the co-bank an
amount equal to 1/2 of the remaining winning wagers and place that amount in the center of the
layout. The dealer shall remove an amount equal to 1/2 of the remaining winning wagers from
the table inventory container and place that amount in the center of the layout. The remaining
winning wagers shall be paid from the total amount in the center of the layout. If, after collecting
all losing wagers and paying all winning wagers, there is a surplus in the center of the table, this
amount will be counted and the dealer shall place 1/2 of this amount into the table inventory
container. The dealer shall collect a 5% vigorish, in accordance with § 621a.8 on the remaining
amount. Once the vigorish has been paid, the remaining amount shall then be given to the co-
bank.

§ 621a.10. Irregularities; invalid roll of the dice.

(a) If the dealer uncovers the Pai Gow shaker and all three dice have not landed flat on
the bottom of the shaker, the dealer shall call a “no roll” and reshake the dice.

(b) If the dealer uncovers the Pai Gow shaker and a die or dice fall out of the shaker, the
dealer shall call a “no roll” and reshake the dice.

(c) If the dealer incorrectly totals the dice and deals the tiles to the wrong positions, all
hands shall be void, all wagers shall be returned to the players and the dealer shall reshuffle the
tiles.

(d) If the dealer exposes any of the tiles dealt to a player, the player may void the hand.
The player shall make the decision to either play out the hand or to void the hand without
looking at his unexposed tiles. If the player elects to void his hand, any wagers placed by the
player shall be returned to the player.

(e) If a tile in the dealer’s hand, the bank’s hand, if applicable, the Dead Hand or any
position where there is no wager, is exposed, all hands shall be void, all wagers shall be returned
to the players and the tiles shall be reshuffled.

(f) If the dealer or the bank, if applicable, does not set his hands in the manner as
specified in the certificate holder’s Rules Submission under § 601a.2 (relating to table games
Rules Submissions), the hands shall be reset in accordance with the certificate holder’s Rules
Submission and the round of play shall be completed.

A certificate holder may allow a supplemental wager in support of a Don’t Pass or Don’t Come Bet in an amount calculated as to provide a winning player with winnings not in excess of up to ten times the amount originally wagered on the Don’t Pass or Don’t Come Bet. The original Pass, Don’t Pass, Come or Don’t Come Bet and any supplemental wager allowed in accordance with this subsection shall be paid at the same odds as the original and supplemental wagers are paid under subsections (a)—(d).

(f) A certificate holder may accept a supplemental wager that exceeds an amount that is otherwise authorized by this section or posted as the maximum wager permitted if the excess amount of the supplemental wager is necessary to facilitate the payouts permitted by this section.

§ 623a.7. Dice retention and selection.

(a) A set of five dice shall be present at the Craps or Mini-Craps table during gaming. Control of the dice at a Craps table, or at a Mini-Craps table with an optional stickperson, shall be the responsibility of the stickperson at the table. Control of the dice at a Mini-Craps table without an optional stickperson shall be the responsibility of the dealer at the table. The stickperson or Mini-Craps dealer shall retain all dice, except those in active play, in a dice cup at the table.

(b) At the commencement of play:
(1) For Craps, the stickperson shall offer the set of dice to the player immediately to the left of the boxperson at the table. If that player rejects the dice, the stickperson shall offer the dice to each of the other players in turn clockwise around the table until one of the players accepts the dice.

(2) For Mini-Craps, the dealer or the optional Mini-Craps stickperson shall offer the set of dice to the player immediately to his left at the table. If that player rejects the dice, the dealer or stickperson shall offer the dice to each of the other players in turn clockwise around the table until one of the players accepts the dice.

(c) The first player to accept the dice when offered shall become the shooter who shall select and retain two of the dice offered. The remaining dice of the set shall be returned to the dice cup which shall:

(1) For Craps, be placed immediately in front of the Craps stickperson.

(2) For Mini-Craps, be placed immediately in front of the Mini-Craps dealer or stickperson.

(d) A set of five dice used at a Craps or Mini-Craps table shall be changed at least once every 24 hours. A new set of dice shall be used when a Craps or Mini-Craps table is reopened for gaming, if a die goes off the table during play and is lost or if the dice show signs of tampering or alteration or are otherwise marked, chipped, scratched or no longer suitable for play.

§ 623a.8. Throw of the dice; invalid roll of the dice.

(a) After selection of the dice, the shooter shall make a Pass Bet or Don’t Pass Bet after which the shooter shall throw the two selected dice so that they leave the shooter’s hand simultaneously and in a manner which causes the dice to strike the end of the table farthest from the shooter.

(b) A roll of the dice shall be invalid when either or both of the dice go off the table or when one die comes to rest on top of the other.

(c) The individuals listed in subsection (d) shall have the authority to invalidate a roll of the dice by calling “no roll” for any of the following reasons:

(1) The dice do not leave the shooter’s hand simultaneously.

(2) Either or both of the dice fail to strike the end of the table farthest from the shooter.

(3) Either or both of the dice come to rest on the chips constituting the Craps bank of chips located in front of the boxperson.
(4) Either or both of the dice come to rest in the dice cup in front of the Craps stickperson, in front of the Mini-Craps dealer or stickperson or on one of the rails surrounding the table.

(5) The use of a cheating, crooked or fixed device or technique in the roll of the dice.

(6) The Craps boxperson or stickperson, or the Mini-Craps dealer or stickperson, considers the throw to be improper.

(d) A throw of the dice which results in the dice coming into contact with any chips or plaques on the table, other than the Craps bank of chips located in front of the boxperson, will not be a cause for a call of “no roll.”

(e) “No roll” may be called:

(1) In Craps, by a boxperson or stickperson.

(2) In Mini-Craps, by the dealer, stickperson or floorperson.

§ 623a.9. Point throw; settlement of wagers.

(a) When the dice come to rest from a valid throw, the Craps stickperson or the Mini-Craps dealer or stickperson shall at once call out the sum of the numbers on the uppermost or skyward sides of the two dice. Only one face on each die shall be considered uppermost or skyward.

(b) In the event either or both of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the side directly opposite the side that is resting on the chips or other object shall be considered uppermost or skyward. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be rethrown.

(c) In the event of a dispute as to which face is uppermost:

(1) In Craps, the boxperson shall have discretion to determine which face is uppermost or to order the throw be void and the dice be rethrown.

(2) In Mini-Craps, the floorperson shall have discretion to determine which face is uppermost or to order the throw be void and the dice be rethrown.

(d) In Craps, after calling the throw, the stickperson shall collect the dice and bring them to the center of the table between himself and the boxperson. All wagers decided by that throw shall then be settled, following which the stickperson shall pass the dice to the shooter for the next throw. When collecting the dice and passing them to the shooter, the stickperson shall use a stick designed for that purpose.
(e) In Mini-Craps, after calling the throw, the dealer or stickperson shall collect the dice and bring them to the center of the table. All wagers decided by that throw shall then be settled, following which the dealer or stickperson shall pass the dice to the shooter for the next throw. When collecting the dice and passing them to the shooter, the dealer or stickperson shall use a stick designed for that purpose.

§ 623a.10. Continuation of shooter; selection of new shooter.

(a) It shall be the option of the shooter, after any roll, either to pass the dice or remain the shooter except that:

(1) The shooter shall pass the dice upon throwing a loser 7.

(2) The Craps boxperson or the Mini-Craps dealer may order the shooter to pass the dice if the shooter unreasonably delays the game, repeatedly makes invalid rolls or violates either the act or this part.

(b) If a shooter, after making the come out point, elects not to place another Pass Bet or Don’t Pass Bet, and other Come Bets or Don’t Come Bets remain on the table, the Craps stickperson or the Mini-Craps dealer or stickperson shall offer the dice to the player immediately to the left of the previous shooter, as provided for in subsection (c). If there are no other players at the table, or if no other players at the table elect to make a Pass Bet or Don’t Pass Bet to shoot the dice and continue the game, the previous shooter shall be allowed to shoot the dice without making a Pass Bet or Don’t Pass Bet only for the purpose of effecting a decision on the remaining Come Bets or Don’t Come Bets. The on/off marker shall be placed on the Don’t Pass Line in the off position in front of the shooter to indicate that the shooter is rolling the dice only to effectuate a decision for the Come Bets or Don’t Come Bets remaining on the layout. Once the remaining Come Bets or Don’t Come Bets have been decided or a player wishes to place a Pass Bet or Don’t Pass Bet, the game shall proceed in accordance with § 623a.8 (relating to throw of the dice; invalid roll of the dice).

(c) When a voluntary or compulsory relinquishment of the dice occurs by the shooter, the Craps stickperson or the Mini-Craps dealer or stickperson shall offer the complete set of five or more dice to the player immediately to the left of the previous shooter and, if he does not accept, to each of the other players in turn clockwise around the table.

(d) The first player to accept the dice when offered shall become the new shooter who shall select and retain two of the dice offered. The remaining dice of the set shall be returned to the dice cup which shall be placed immediately in front of the Craps stickperson or the Mini-Craps dealer or stickperson.

§ 623a.11. Additional procedures and rules for the Fire Bet.

(a) If a certificate holder elects to offer the Fire Bet in the game of Craps as permitted under § 623a.3 (relating to wagers), the following additional procedures shall be observed:
(1) Each player shall, prior to a new shooter’s initial come out roll, place his Fire Bet on the numbered designated area for the placement of Fire Bets that is closest to his position at the Craps table.

(2) When there is a voluntary or compulsory surrender of the dice by a shooter under § 623a.10 (relating to continuation of shooter; selection of new shooter) prior to the throwing of a loser 7, any pending Fire Bet shall be settled upon the successor shooter throwing a loser 7.

(3) Once all Fire Bets are placed, the dealer shall bring in each Fire Bet in numerical order and place it on the corresponding number of the designated area in front of the boxperson, where the Fire Bets shall remain until they are either lost or paid.

(4) With each individual point made by a shooter, the dealer shall place a Fire Bet point marker inscribed with the total number of different unique points made by the shooter in the area of the table layout containing the number of the point (4, 5, 6, 8, 9 or 10) which was just made. Each Fire Bet point marker must be visually distinguishable from and have a diameter larger than any authorized value chip. Fire Bet point markers shall be maintained by the boxperson or dealers at the Craps table.

(5) Fire Bets shall be collected or paid, as applicable, upon a shooter throwing a loser 7.

(6) Once four different unique points are made, the surveillance department shall be notified for the purpose of confirming all Fire Bets and payouts.

(b) If a certificate holder elects to offer the Fire Bet in the game of Craps under § 623a.3, the following additional rules shall apply:

(1) The minimum wager shall be $1 and the maximum wager shall be $5 and all wagers shall be made in increments of $1.

(2) When a shooter makes the same point total more than once, the total number of different unique points made for purposes of settling a Fire Bet do not increment.

(3) The four or more different unique points required to win a Fire Bet are not required to be made in any specific order or combination.

If a certificate holder elects to offer Bonus Craps as permitted under § 623a.3 (relating to wagers), the following additional rules and procedures apply:

(1) Prior to a new shooter's initial come out roll, each player may place one or more of the permissible wagers described in § 623a.3(43).
(2) The dealer shall place each player's wagers in the corresponding designated area in front of the boxperson, where the wagers must remain until they are either collected or paid.

(3) With each point made by a shooter, the dealer shall place a marker button inscribed with the point value in the area of the table layout containing the point value of the throw (2, 3, 4, 5, 6, 8, 9, 10, 11 or 12) which was just made. Each button must be visually distinguishable from and have a diameter larger than an authorized value chip. Marker buttons shall be maintained by the boxperson or dealers at the Craps table.

(4) Once all numbers necessary for the wager have been thrown and marked on the layout with the marker buttons, the dealer will pay the winning wagers in accordance with § 623a.5(h) (relating to payout odds). For example, if a player placed an All Small Wager and an All Or Nothing At All Wager and all of the numbers 2 through 6 were thrown and marked before a 7 was thrown, the dealer shall pay the winning All Small Wager but leave the marker buttons on the layout until either all other numbers necessary for the All Or Nothing At All Wager are thrown or the shooter throws a 7.

(5) If a 7 is thrown at any time, including a 7 on the come out roll, the dealer shall collect all Bonus Craps wagers and remove all marker buttons from the Bonus Craps area of the layout.

(6) The numbers required to win are not required to be made in a specific order or combination.

§ 625a.5. Procedures for opening and dealing the game.

(a) Prior to opening the Sic Bo table for gaming activity, the floorperson assigned to the Sic Bo table shall inspect the following items to insure that each is in proper working order:

(1) The electrical device which causes the winning combinations on the Sic Bo table to be illuminated when the numeric value of each die has been entered by the dealer. At a minimum, the inspection shall be completed by entering three numeric values into the electrical device and verifying that all winning combinations are properly illuminated.

(2) The automated dice shaker, if one is in use. At a minimum, the inspection shall be completed by operating the device three times and verifying that the dice are being properly tossed.

(b) At the commencement of each round of play, the dealer shall either:

(a) If all three dice do not land flat on the bottom of the Sic Bo shaker after being tossed, the dealer shall call a “no roll” and all wagers placed shall be returned to the players.

(b) If the electrical device which causes the winning combinations to be illuminated when the numeric value of each die has been entered by the dealer or the area of the Sic Bo table which depicts all permissible wagers under § 625a.3 (relating to wagers) malfunctions after the manual Sic Bo shaker has been uncovered or the automated Sic Bo dice shaker has tossed the dice, the dealer shall, in the presence of a floorperson or above, collect losing wagers and pay winning wagers. If a separate rack is used, the rack shall be placed in front of the table inventory container during gaming activity.

(d) Each Minibaccarat table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each Minibaccarat table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 627a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Minibaccarat shall be played with six to eight decks of cards that are identical in appearance and two cover cards.

(b) If an automated card shuffling device is utilized, Minibaccarat shall be played with 12 to 16 decks of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(c) The decks of cards opened for use at a Minibaccarat table shall be changed at least once every 24 hours.

§ 627a.4. Opening of the table for gaming.
(a) After receiving six or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, they shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked.

(d) If an automated card shuffling device is utilized and two batches of cards are received at the table, all the decks in one batch of cards shall be spread for inspection on the table separate from the decks in the other batch of cards. After the first player is afforded an opportunity to visually inspect the cards, each batch of cards shall separately be turned face down on the table and stacked.

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 627a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each dealing shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. If the cards have been manually shuffled, the dealer shall leave the entire stack of cards intermixed but not entirely squared off (leave them feathered) so that the floorperson can verify that the shuffle did not result in any uneven distribution of cards.

(b) After the cards have been shuffled and, when applicable, reshuffled, the dealer shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table and, working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.
(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut by the next person entitled to cut the cards, as determined by subsection (b). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) Prior to commencement of play, the dealer shall remove and expose the first card from the dealing shoe and place it, and an additional number of cards, drawn face down, equal to the face value of the first card drawn, in the discard rack. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

(g) If there is no gaming activity at a Minibaccarat table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack, and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player is afforded an opportunity to visually inspect the cards:

1. If there is no automated shuffling device in use, the cards shall be mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section.

2. If an automated shuffling device is in use, the cards shall be stacked and placed into the automated shuffling device to be shuffled. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if:

   i. The automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

   ii. The shuffled cards have been secured, released and prepared for play in accordance with procedures submitted to the Bureau of Gaming Operations and approved in accordance with § 465a.2 (relating to internal control systems and audit protocols).

§ 627a.6. Value of cards; Point Count of hand.

(a) The value of the cards in each deck shall be as follows:

1. Any card from 2 to 9 shall have its face value.

2. Any 10, jack, queen or king shall have a value of zero.

3. Any ace shall have a value of one.

(b) The Point Count of a hand shall be a single digit number from 0 to 9 and determined by totaling the value of the cards in the hand. If the total of the cards in a hand is a two-digit
number, the left digit of the number shall be discarded and the right digit shall constitute the Point Count of the hand. Examples of this rule are as follows:

(1) A hand composed of an ace, 2 and 4 has a Point Count of 7.

(2) A hand composed of an ace, 2 and 9 has a total of 12 but a Point Count of only 2 since the left digit of the number 12 is discarded.

§ 627a.7. Wagers.

(a) The following are permissible wagers in the game of Minibaccarat:

(1) A wager on the Banker's Hand which shall:

   (i) Win if the Banker's Hand has a Point Count higher than that of the Player's Hand unless EZ Baccarat is being played and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

   (ii) Lose if the Banker's Hand has a Point Count lower than that of the Player's Hand.

(ii) Lose if in the first two cards dealt to the player's hand and the banker's hand, neither the player's hand nor the banker's hand contains a pair.

(b) Wagers at Minibaccarat shall be made by placing value chips or plaques on the appropriate areas of the Minibaccarat layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(c) A wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

§ 627a.8. Hands of player and banker; procedure for dealing initial two cards to each hand.

(a) There shall be two hands dealt in the game of Minibaccarat, one of which shall be designated the Player's Hand and the other designated the Banker's Hand.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.”

(c) The dealer shall then deal an initial four cards from the dealing shoe in accordance with one of the following options selected by the certificate holder in its Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) The dealer shall remove cards from the dealing shoe with his left hand and place them face up on the appropriate area of the layout with his right hand. The second and fourth cards dealt shall constitute the first and second cards of the Banker's Hand and placed under the area designated for the Banker's Hand.

The first and third cards dealt shall constitute the first and second cards of the Player's Hand and placed on the area designated for the Player's Hand. The second and fourth cards dealt shall constitute the first and second cards of the Banker's Hand and placed underneath the right corner of the dealing shoe until the Player's Hand is called as provided in § 627a.9 (relating to procedure for dealing a third card). The second and fourth cards shall then be turned face up and placed on the area designated for the Banker's Hand.

(d) Prior to dealing a third card to the Player's or Banker's Hand, the dealer shall settle all House Money Wagers as follows:

(1) If a player placed a House Money Wager, beginning from the dealer's right and moving counterclockwise around the table, the dealer shall collect all losing House Money

(ii) A player may not touch the winning House Money payout. The dealer shall either hand the entire winning House Money payout to the player or place all or a portion thereof, as authorized by the certificate holder, on the area designated for the placement of the player's wager on the Player's or Banker's Hand.

(2) After settling the House Money Wagers, the game shall resume by dealing any third cards that are required to be dealt in accordance with §c627a.9.

(e) Players may not touch, handle, remove or alter any cards used to play Minibaccarat.

§ 627a.9. Procedure for dealing a third card.

(a) After the dealer positions the cards in accordance with § 627a.8(c)(1) or (2) (relating to hands of player and banker; procedure for dealing initial two cards to each hand), the dealer shall announce the Point Count of the Player’s Hand and the Banker’s Hand.

(b) Following the announcement of the Point Counts of each hand, the dealer shall determine whether to deal a third card to each hand in accordance with § 627a.10 (relating to rules for determining whether a third card shall be dealt).

   (1) Draw (take a third card) if the Player’s Hand has a Point Count of less than 6.

   (2) Stay (not take a third card) if the Player’s Hand has a Point Count of 6 or more.

(c) If the Point Count of the Player’s Hand and the Banker’s Hand is 0 to 7 on the first two cards, the Banker’s Hand shall draw or stay in accordance with the following requirements:

   (1) If the Player’s Hand does not receive a third card, the Banker’s Hand shall be dealt a third card if the Point Count of the Banker’s Hand is 5 or less.

   (2) If the Player’s Hand is dealt a third card and:

      (i) The Banker’s Hand has a Point Count of less than 3, the Banker’s Hand shall be dealt a third card.

      (ii) The Banker’s Hand has a Point Count of 7, the Banker’s Hand may not be dealt a third card.

   (d) In Table 1, the first vertical column labeled “Point Count of Banker’s Hand After Two Cards” refers to the Point Count of the Banker’s Hand after the first two cards have been dealt to the Banker’s Hand.

   (e) In Table 1, the first horizontal row at the top labeled “Value of the Third Card Drawn by Player’s Hand” refers to the value of the third card drawn by the Player’s Hand, not the Point Count of the Player’s Hand.
(f) In Table 1, the letter “D” means that the Banker’s Hand shall draw a third card and the letter “S” means that the Banker’s Hand shall stay.

(g) To use Table 1, first find the Point Count of the Banker’s Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player’s Hand. The symbol located where the intersection occurs determines whether the Banker’s Hand shall draw a third card or stay. For example, if the Point Count of the Banker’s Hand after two cards is 5 and the value of the third card drawn by the Player’s Hand is 4, the table shows that the Banker’s Hand shall draw a third card.

§ 627a.11. Announcement of result of round; payment and collection of wagers.

(a) After each hand has received all the cards to which it is entitled under §§ 627a.8, 627a.9 and 627a.10 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer shall announce the final Point Count of each hand indicating which hand has won the round. If two hands have equal Point Counts, the dealer shall announce “tie hand.” If the table is designated for play as an EZ Baccarat table and the Point Counts of the Banker’s Hand and the Player's Hand result in a Dragon 7 or a Panda 8, the dealer shall announce “Dragon 7” or “Panda 8.”

(b) After the result of the round is announced, the dealer shall first collect each losing wager. After the losing wagers are collected, the dealer shall, starting at the highest numbered player position at which a winning wager is located, mark or collect the vigorish owed by that player, unless the table is designated for play as an EZ Baccarat table in which vigorish is not collected. Immediately thereafter, the dealer shall pay that player's winning wager and then, proceeding in descending order to the next highest numbered player position at which a winning wager is located, repeat this procedure until the vigorish owed by each player is either marked or collected and each winning wager is paid.

(c) At the conclusion of a round of play, the dealer shall remove all cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 627a.12. Payout odds; vigorish.

(a) A winning wager made on the Player's Hand shall be paid at odds of 1 to 1.

(b) A winning Tie Wager shall be paid at odds of at least 8 to 1.

(c) A winning wager made on the Banker's Hand shall be paid at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to 5% of the amount won unless the certificate holder is offering EZ Baccarat in which vigorish is not collected. When collecting the vigorish, the certificate holder may round off the vigorish to 25¢ or the next highest multiple of 25¢.
(d) A dealer shall collect the vigorish from a player in accordance with one of the following procedures selected by the certificate holder in its Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) At the time the winning payout is made.

(2) At a later time, provided that:

(i) The outstanding vigorish shall be collected prior to the reshuffling of the cards in a dealing shoe or when the player leaves the gaming table, whichever occurs first.

(ii) The amount of the vigorish shall be tracked by placing a coin or marker button, which contains the amount of the vigorish owed, in the rectangular space on the layout that is imprinted with the number of the player owing the vigorish.

(iii) The coin or marker button may not be removed from the layout until the vigorish owed is collected.

(e) If a certificate holder offers the Dragon Bonus Wager, in accordance with § 627a.7(a)(4) (relating to wagers), a vigorish may not be extracted on a winning Dragon Bonus Wager. Winning Dragon Bonus Wagers shall be paid out at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

\[
\begin{array}{|c|c|c|c|}

(f) A winning Dragon 7 Insurance Wager, as described in § 627a.7(a)(5), shall be paid at odds of 40 to 1.

(g) A winning Panda 8 Insurance Wager, as described in § 627a.7(a)(6), shall be paid at odds of 25 to 1.

(h) If a certificate holder offers the House Money Wager and the player elects to take the payout, the player shall be paid in accordance with the following paytable:

§ 627a.13. Irregularities.

(a) Except as provided in subsection (b), a card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

(b) A third card dealt to the Player’s Hand that is not disclosed, when a third card is not authorized under § 627a.10 (relating to rules for determining whether a third card shall be dealt), shall become the third card of the Banker’s Hand if the Banker’s Hand is required to draw under § 627a.10(c). If the Banker’s Hand is required to stay, the card dealt in error shall become the first card of the next hand of play.

(c) If a third card dealt to the Player’s Hand, when a third card is not authorized under § 627a.10, is disclosed at the time it is dealt or is found face up in the dealing shoe, the dealer shall use the disclosed card as the third card of the Banker’s Hand if the Banker’s Hand is required to draw under § 627a.10(c). If the Banker’s Hand is required to stay, the dealer shall, in accordance with one of the following procedures designated in the certificate holder’s Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Place the disclosed card and one additional card, drawn face down from the dealing shoe, into the discard rack without disclosing the additional card.

(2) Use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and placed in the discard rack upon completion of the dealing procedures.

(d) Except as provided in subsection (c), if a card is disclosed at the time it is dealt or a card is found face up in the dealing shoe, the dealer shall use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and placed in the discard rack upon completion of the dealing procedures.

(e) If there are insufficient cards remaining in the dealing shoe to complete a round of play, that round shall be void and all wagers shall be returned. A new round shall commence after the entire set of cards are reshuffled and placed in the dealing shoe.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Dragon 7--A Banker's Hand which has a Point Count of 7 with a total of three cards dealt and the Player's Hand which has a Point Count of less than 7.

Panda 8--A Player's Hand which has a Point Count of 8 with a total of three cards dealt and the Banker's Hand which has a Point Count of less than 8.

§ 629a.2. Midibaccarat table physical characteristics.
(a) Midibaccarat shall be played on a table having numbered positions for no more than nine seated players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Midibaccarat table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

1. The name or logo of the certificate holder.

2. Separate areas designated for the placement of wagers on the Banker's Hand, Player's Hand and Tie Hand for each player.

3. The payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds shall be posted at each Midibaccarat table.

4. An area designated for the placement of cards for the Player's Hand and Banker's Hand.

5. If a certificate holder offers the Dragon Bonus Wager, authorized under § 629a.7(a)(4) (relating to wagers), separate areas designated for the placement of the Dragon Bonus Wager for each player.

6. If a certificate holder offers EZ Baccarat in which vigorish is not collected:
   (i) Separate areas designated for the placement of the Dragon 7 Insurance Wager, authorized under § 629a.7(a)(5), for each player.
   (ii) Inscriptions that advise patrons that a wager on the Banker's Hand that results in a Dragon 7 shall push and be returned to the player. If the information is not inscribed on the layout, a sign containing the information shall be posted at each Midibaccarat table.
   (iii) Separate areas designated for the placement of the Panda 8 Insurance Wager, authorized under § 629a.7(a)(6), for each player.

7. If a certificate holder offers the House Money Wager, authorized under § 629a.7(a)(7), separate areas designated for the placement of the House Money Wager for each player.

8. Numbered areas that correspond to the seat numbers for the purpose of marking vigorish unless the dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), collects the vigorish from a player at the time the winning payout is made or the table is designated for play as an EZ Baccarat table in which vigorish is not collected.
(c) If marker buttons are used for the purpose of marking vigorish, the marker buttons shall be placed in the table inventory container or in a separate rack designed for the purpose of storing marker buttons. If a separate rack is used, the rack shall be placed in front of the table inventory container during gaming activity.

(d) Each Midibaccarat table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each Midibaccarat table must have a discard bucket on the dealer's side of the table.

§ 629a.3. Cards; number of decks.

(a) Midibaccarat shall be played with six to eight decks of cards that are identical in appearance and two cover cards.

(b) The decks of cards opened for use at a Midibaccarat table shall be changed after the play of each dealing shoe.

§ 629a.4. Opening of the table for gaming.

(a) After receiving six or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked.

(d) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(c) do not apply.

§ 629a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), the dealer shall shuffle the cards so that they are randomly intermixed. If the cards have been manually shuffled, the dealer shall leave the entire stack of cards intermixed but not entirely squared off (leave them feathered) so that the floorperson can verify that the shuffle did not result in any uneven distribution of cards.
(b) After the cards have been shuffled, the dealer shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table and, working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut by the next person entitled to cut the cards, as determined by subsection (b). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) Prior to commencement of play, the dealer shall remove and expose the first card from the dealing shoe and place it, and an additional number of cards, drawn face down, equal to the face value of the first card drawn, in the discard bucket. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

§ 629a.6. Value of cards; Point Count of hand.

(a) The value of the cards in each deck shall be as follows:

1. Any card from 2 to 9 shall have its face value.

2. Any 10, jack, queen or king shall have a value of zero.

3. Any ace shall have a value of one.

(b) The Point Count of a hand shall be a single digit number from 0 to 9 and shall be determined by totaling the value of the cards in the hand. If the total of the cards in a hand is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the Point Count of the hand. Examples of this rule are as follows:

1. A hand composed of an ace, 2 and 4 has a Point Count of 7.

2. A hand composed of an ace, 2 and 9 has a total of 12 but a Point Count of only 2 since the left digit of the number 12 is discarded.
§ 629a.7. Wagers.

(c) A wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

§ 629a.8. Hands of player and banker; procedure for dealing initial two cards to each hand.

The dealer shall then hand the two cards of the Player's Hand, face down, to the player with the highest wager on the Player's Hand. After viewing the Player's Hand, the player shall return the two cards, face up, to the dealer, who shall place the cards face up on the area designated for the Player's Hand and announce the Point Count of the Player's Hand.

(2) The dealer shall then hand the two cards of the Banker's Hand, face down, to the player with the highest wager on the Banker's Hand. (i) If a player placed a House Money Wager, after the initial two cards of the Player's Hand and Banker's Hand have been turned face up on the layout, beginning from the dealer's right and moving counterclockwise around the table, the dealer shall collect all losing House Money wagers and pay all winning wagers in accordance with § 629a.12(h) (relating to payout odds; vigorish) provided that, at a player's discretion, the player may add the winning House Money payout to the player's original wager on the Player's or Banker's Hand in accordance with the following:

(A) All of the winning House Money payout or, if specified in the certificate holder's Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions), only a specified portion of the winning House Money payout shall be added to the area designated for the placement of the player's original wager on the Player's or Banker's

(B) A player may not touch the winning House Money payout. (ii) After settling the House Money Wagers, the game shall resume by dealing any third cards that are required to be dealt.

(4) Any third card required to be dealt to the Player's Hand shall be placed face down on the area designated for the Player's Hand. If two or more players wager an equally high amount on the Banker's Hand, the player making the wager who is closest to the dealer, moving counterclockwise around the table, shall be handed the Banker's Hand and any third card required to be dealt.

(d) The dealer or floorperson assigned to the table may require any player to relinquish the right to turn over the cards in accordance with subsection (c) if the player unreasonably delays the game. If the voluntary or compulsory relinquishment of that right occurs, the dealer shall offer it to the player immediately to the right of the previous player. If the player does not accept it or there is not a player in that position, the dealer shall offer it to each of the other players in turn, moving counterclockwise around the table for the remainder of that round of play. If no player accepts the cards, the dealer shall turn the cards over and place them on the designated areas of the layout.

§ 629a.9. Procedure for dealing a third card.

(a) After the dealer positions the cards in accordance with § 629a.8(c) (relating to hands of player and banker; procedure for dealing initial two cards to each hand), the dealer shall announce the Point Count of the Player’s Hand and the Banker’s Hand.
(b) Following the announcement of the Point Counts of each hand, the dealer shall
determine whether to deal a third card to each hand in accordance with § 629a.10 (relating to
rules for determining whether a third card shall be dealt). Any third cards required shall be dealt
as provided in § 629a.8(c).

(c) In no event may more than one additional card be dealt to either hand.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a
round of play or appears during play, the cover card shall be removed and placed to the side and
the hand will be completed. Upon completion of that hand, the dealer shall announce “last hand.”
At the completion of one more hand, the cards shall be replaced with new decks of cards.

§ 629a.10. Rules for determining whether a third card shall be dealt.

(a) If either the Player’s Hand or the Banker’s Hand is a Natural, no more cards may be
dealt to either hand.

(b) If the Point Count of the Player’s Hand and the Banker’s Hand is 0 to 7 on the first
two cards, the Player’s Hand shall:

   (1) Draw (take a third card) if the Player’s Hand has a Point Count of less than 6.

   (2) Stay (not take a third card) if the Player’s Hand has a Point Count of 6 or
more.

   (c) If the Point Count of the Player’s Hand and the Banker’s Hand is 0 to 7 on the first
two cards, the Banker’s Hand shall draw or stay in accordance with the following requirements:

   (1) If the Player’s Hand does not receive a third card, the Banker’s Hand shall be
dealt a third card if the Point Count of the Banker’s Hand is 5 or less.

   (2) If the Player’s Hand is dealt a third card and:

      (i) The Banker’s Hand has a Point Count of less than 3, the Banker’s
Hand shall be dealt a third card.

      (ii) The Banker’s Hand has a Point Count of 7, the Banker’s Hand may
not be dealt a third card.

      (iii) The Banker’s Hand has a Point Count of 3, 4, 5 or 6, the Banker’s
Hand shall be dealt or not dealt a third card in accordance with Table 1 as follows:

(d) In Table 1, the first vertical column labeled “Point Count of Banker’s Hand After Two Cards” refers to the Point Count of the Banker’s Hand after the first two cards have been dealt to the Banker’s Hand.

(e) In Table 1, the first horizontal row at the top labeled “Value of the Third Card Drawn by Player’s Hand” refers to the value of the third card drawn by the Player’s Hand, not the Point Count of the Player’s Hand.

(f) In Table 1, the letter “D” means that the Banker’s Hand shall draw a third card and the letter “S” means that the Banker’s Hand shall stay.

(g) To use Table 1, first find the Point Count of the Banker’s Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player’s Hand. The symbol located where the intersection occurs determines whether the Banker’s Hand shall draw a third card or stay. For example, if the Point Count of the Banker’s Hand after two cards is 5 and the value of the third card drawn by the Player’s Hand is 4, the table shows that the Banker’s Hand shall draw a third card.

§ 629a.11. Announcement of result of round; payment and collection of wagers.

(a) After each hand has received all the cards to which it is entitled under §§ 629a.8, 629a.9 and 629a.10 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer shall announce the final Point Count of each hand indicating which hand has won the round. If two hands have equal Point Counts, the dealer shall announce “tie hand.” If the table is designated for play as an EZ Baccarat table and the Point Counts of the Banker’s Hand and the Player’s Hand result in a Dragon 7 or a Panda 8, the dealer shall announce “Dragon 7” or “Panda 8.”

(b) After the result of the round is announced, the dealer shall first collect each losing wager. After the losing wagers are collected, the dealer shall, starting at the highest numbered player position at which a winning wager is located, mark or collect the vigorish owed by that player, unless the table is designated for play as an EZ Baccarat table in which vigorish is not collected. Immediately thereafter, the dealer shall pay that player's winning wager and then, proceeding in descending order to the next highest numbered player position at which a winning wager is located, repeat this procedure until the vigorish owed by each player is either marked or collected and each winning wager is paid.
(c) At the conclusion of a round of play, the dealer shall remove all cards from the table and place the cards in the discard bucket.

§ 629a.12. Payout odds; vigorish.

(a) A winning wager made on the Player's Hand shall be paid at odds of 1 to 1.

(b) A winning Tie Wager shall be paid at odds of at least 8 to 1.

(c) A winning wager made on the Banker's Hand shall be paid at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to 5% of the amount won unless the certificate holder is offering EZ Baccarat in which vigorish is not collected. When collecting the vigorish, the certificate holder may round off the vigorish to 25¢ or the next highest multiple of 25¢.

(d) A dealer shall collect the vigorish from a player in accordance with one of the following procedures selected by the certificate holder in its Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) At the time the winning payout is made.

(2) At a later time, provided that:

   (i) The outstanding vigorish shall be collected prior to beginning play with a new dealing shoe of cards or when the player leaves the gaming table, whichever occurs first.

   (ii) The amount of the vigorish shall be tracked by placing a coin or marker button, which contains the amount of the vigorish owed, in the rectangular space on the layout that is imprinted with the number of the player owing the vigorish.

   (iii) The coin or marker button may not be removed from the layout until the vigorish owed is collected.

(e) If a certificate holder offers the Dragon Bonus Wager, in accordance with § 629a.7(a)(4) (relating to wagers), a vigorish may not be extracted on a winning Dragon Bonus Wager. Winning Dragon Bonus Wagers shall be paid out at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

§ 629a.13. Irregularities.

(a) Except as provided in subsection (b), a card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

(b) A third card dealt to the Player’s Hand that is not disclosed, when a third card is not authorized under § 629a.10 (relating to rules for determining whether a third card shall be dealt), shall become the third card of the Banker’s Hand if the Banker’s Hand is required to draw under § 629a.10(c). If the Banker’s Hand is required to stay, the card dealt in error shall become the first card of the next hand of play.

(c) If a third card dealt to the Player’s Hand, when a third card is not authorized under § 629a.10, is disclosed at the time it is dealt or is found face up in the dealing shoe, the dealer shall use the disclosed card as the third card of the Banker’s Hand if the Banker’s Hand is required to draw under § 629a.10(c). If the Banker’s Hand is required to stay, the dealer shall, in accordance with one of the following procedures designated in the certificate holder’s Rules Submission under § 601a.2 (relating to table games Rules Submissions):

1. Place the disclosed card and one additional card, drawn face down from the dealing shoe, into the discard bucket without disclosing the additional card.

2. Use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and placed in the discard bucket upon completion of the dealing procedures.
(d) Except as provided in subsection (c), if a card is disclosed at the time it is dealt or a card is found face up in the dealing shoe, the dealer shall use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and shall be placed in the discard bucket upon completion of the dealing procedures.

(e) If there are insufficient cards remaining in the dealing shoe to complete a round of play, that round shall be void and all wagers shall be returned. A new round shall commence after the entire set of cards has been replaced and the new set of cards have been placed in the dealing shoe.

§ 631a.2. Baccarat table physical characteristics.

(a) Baccarat shall be played on a table having numbered positions for 10 to 14 seated players.

(b) The layout for a Baccarat table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) Separate areas designated for the placement of wagers on the Banker's Hand, Player's Hand and Tie Hand for each player.

(4) An area designated for the placement of cards for the Player's Hand and Banker's Hand.

(5) If a certificate holder offers the Dragon Bonus Wager, authorized under § 631a.8(a)(4) (relating to wagers), separate areas designated for the placement of the Dragon Bonus Wager for each player.

(6) If a certificate holder offers EZ Baccarat:

(i) Separate areas designated for the placement of the Dragon 7 Insurance Wager, authorized under § 631a.8(a)(5), for each player.

(ii) Inscriptions that advise patrons that a wager on the Banker's Hand that results in a Dragon 7 shall push and be returned to the player. If the information is not inscribed on the layout, a sign containing the information must be posted at each Baccarat table.

(iii) Separate areas designated for the placement of the Panda 8 Insurance Wager, authorized under § 631a.8(a)(6), for each player.

(8) Numbered areas that correspond to the seat numbers for the purpose of marking vigorish unless the dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), collects the vigorish from a player at the time the winning payout is made or the table is designated for play as an EZ Baccarat table in which vigorish is not collected.
(c) If marker buttons are used for the purpose of marking vigorish, the marker buttons shall be placed in the table inventory container or in a separate rack designed for the purpose of storing marker buttons. If a separate rack is used, the rack shall be placed in front of the table inventory container during gaming activity.

(d) Each Baccarat table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each Baccarat table must have a discard bucket on dealer's side of the table.

§ 631a.3. Cards; number of decks.

(a) Baccarat shall be played with six to eight decks of cards that are identical in appearance and two cover cards.

(b) The decks of cards opened for use at a Baccarat table shall be changed after the play of each dealing shoe.

§ 631a.4. Opening of the table for gaming.

(a) After receiving six or more decks of cards at the table, the dealer calling the game shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked.

(d) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(c) do not apply.

§ 631a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), one or more of the dealers shall wash and stack the cards, after which each of the dealers shall shuffle the stack of cards independently.
(b) After shuffling the cards and, when applicable, reshuffling them, the dealer calling the game shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table or, in the case of a reshuffle, the last curator and working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut by the next person entitled to cut the cards, as determined by subsection (b). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) Prior to commencement of play, the dealer shall remove and expose the first card from the dealing shoe and place it, and an additional number of cards, drawn face down, equal to the face value of the first card drawn, in the discard bucket. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

§ 631a.6. Value of cards; Point Count of hand.

(a) The value of the cards in each deck shall be as follows:

(1) Any card from 2 to 9 shall have its face value.

(2) Any 10, jack, queen or king shall have a value of zero.

(3) Any ace shall have a value of one.

(b) The Point Count of a hand shall be a single digit number from 0 to 9 and determined by totaling the value of the cards in the hand. If the total value of the cards in a hand is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the Point Count of the hand. Examples of this rule are as follows:

(1) A hand composed of an ace, 2 and 4 has a Point Count of 7.
(2) A hand composed of an ace, 2 and 9 has a total value of 12 but a Point Count of only 2 since the left digit in the number 12 is discarded.

§ 631a.7. Dealing shoe; selection of the player to deal cards.

(a) Cards used to play Baccarat shall be dealt from a manual dealing shoe specifically designed for that purpose.

(b) After the cards have been shuffled and placed in the dealing shoe, the dealer calling the game shall offer the dealing shoe to the player in seat number one at the table. If that player rejects the dealing shoe or if there is no one in seat number one, the dealer shall offer the dealing shoe to each of the other players in turn, moving counterclockwise around the table, until one of the players accepts the dealing shoe.

(c) The player that accepts the dealing shoe shall be designated as the curator.

(d) Notwithstanding subsections (b) and (c), the dealer may act as the curator if either:

(1) A player who accepts the dealing shoe and any other player to whom the dealing shoe is relinquished under § 631a.14 (relating to continuation of curator as dealer; selection of a new curator) designates the dealer calling the game as the curator.

(2) No player to whom the dealing shoe is offered accepts the dealing shoe.

§ 631a.8. Wagers.

(a) The following are permissible wagers in the game of Baccarat:

(1) A wager on the Banker's Hand which shall:

each hand.

(a) There shall be two hands dealt in the game of Baccarat, one of which shall be

face up to the Player's Hand and then to the Banker's Hand by the curator.
(d) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), elect to use the following procedures in lieu of the procedures in subsection (c) and § 631a.10(a) (relating to procedure for dealing a third card), after all four cards have been dealt:

(1) The curator shall place the Banker's Hand underneath the right corner of the dealing shoe.

(2) The dealer calling the game shall then hand the two cards of the Player's Hand, face down, to the player with the highest wager on the Player's Hand. After viewing the Player's Hand, the player shall return the two cards, face up, to the dealer calling the game, who shall place the cards face up on the area designated for the Player's Hand and announce the Point Count of the Player's Hand.

(3) The dealer calling the game shall then hand the two cards of the Banker's Hand, face down, to the player with the highest wager on the Banker's Hand. (4) Any third card required to be dealt to the Player's Hand shall be placed face down on the area designated for the Player's Hand. The dealer calling the game shall then hand the card, face down, to the player who was handed and returned the Player's Hand. After viewing the card, the player shall return the card, face up, to the dealer calling the game, who shall place the card face up on the area designated for the Player's Hand.

(5) Any third card required to be dealt to the Banker's Hand shall be placed face down on the area designated for the Banker's Hand. The dealer calling the game shall then hand the card, face down, to the player who was handed and returned the Banker's Hand. After viewing the card, the player shall return the card, face up, to the dealer calling the game, who shall place the card face up on the area designated for the Banker's Hand.

(6) If two or more players wager an equally high amount on the Player's Hand, the player making the wager who is closest to the dealer calling the game, moving counterclockwise around the table, shall be handed the Player's Hand and any third card required to be dealt. If two or more players wager an equally high amount on the Banker's Hand, the player making the wager who is closest to the dealer calling the game, moving counterclockwise around the table, shall be handed the Banker's Hand and any third card required to be dealt.

(7) In the event there are no wagers on the Player's Hand, the dealer calling the game shall turn the Player's Hand face up and any additional card required to be dealt. In the event there are no wagers on the Banker's Hand, the dealer calling the game shall turn the Banker's Hand face up and any additional card required to be dealt.
(e) After the initial two cards of the Player's Hand and Banker's Hand have been turned face up on the layout but prior to dealing a third card in accordance with subsections (c) and (d), the dealer shall settle all House Money Wagers as follows:

(1) If a player placed a House Money Wager, beginning from the dealer's right and moving counterclockwise around the table, the dealer shall collect all losing House Money wagers and pay all winning wagers in accordance with § 631a.13(h) (relating to payout odds; vigorish) provided that, at a player's discretion, the player may add the winning House Money payout to the player's original wager on the Player's or Banker's Hand in accordance with the following:

(i) All of the winning House Money payout or, if specified in the certificate holder's Rules Submission filed in accordance with § 601a.2, only a specified portion of the winning House Money payout shall be added to the area designated for the placement of the player's original wager on the Player's or Banker's Hand. The player's original wager and the House Money payout which was added to the player's original wager shall then be settled based on the outcome of the player's wager on the Player's or Banker's Hand.

(ii) A player may not touch the winning House Money payout. The dealer shall either hand the entire winning House Money payout to the player or place all or a portion thereof, as authorized by the certificate holder, on the area designated for the placement of the player's wager on the Player's or Banker's Hand.

(2) After settling the House Money Wagers, the game shall resume by dealing any third cards that are required to be dealt in accordance with subsection (c) or (d)(4).

(f) The dealer or floorperson assigned to the table may require any player to relinquish the right to turn over the cards in accordance with subsection (d) if the player unreasonably delays the game. If the voluntary or compulsory relinquishment of that right occurs, the dealer shall offer it to the player immediately to the right of the previous player. If the player does not accept it or there is not a player in that position, the dealer shall offer it to each of the other players in turn, moving counterclockwise around the table for the remainder of that round of play. If no player accepts the cards, the dealer shall turn the cards over and place them on the designated areas of the layout.

§ 631a.10. Procedure for dealing a third card.

(a) Except as provided in § 631a.9(d) (relating to hands of player and banker; procedure for dealing initial two cards to each hand), after the initial four cards have been dealt and the dealer calling the game places the cards face up in front of himself, the dealer calling the game shall announce the Point Count of the Player’s Hand and the Banker’s Hand.

(b) Following the announcement of the Point Counts of each hand, the dealer calling the game shall instruct the curator whether to deal a third card to either or both hands in accordance with § 631a.11 (relating to rules for determining whether a third card shall be dealt). Any third cards required shall be dealt as provided in § 631a.9(c) or (d).
(c) In no event may more than one additional card be dealt to either hand.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. Upon completion of that hand, the dealer calling the game shall announce “last hand.” At the completion of one more hand, the cards shall be replaced with new decks of cards.

§ 631a.11. Rules for determining whether a third card shall be dealt.

(a) If either the Player’s Hand or the Banker’s Hand is a Natural, no more cards may be dealt to either hand.

(b) If the Point Count of the Player’s Hand and the Banker’s Hand is 0 to 7 on the first two cards, the Player’s Hand shall:

(1) Draw (take a third card) if the Player’s Hand has a Point Count of less than 6.

(2) Stay (not take a third card) if the Player’s Hand has a Point Count of 6 or more.

(c) If the Point Count of the Player’s Hand and the Banker’s Hand is 0 to 7 on the first two cards, the Banker’s Hand shall draw or stay in accordance with the following requirements:

(1) If the Player’s Hand does not receive a third card, the Banker’s Hand shall be dealt a third card if the Point Count of the Banker’s Hand is 5 or less.

(d) In Table 1, the first vertical column labeled “Point Count of Banker’s Hand After Two Cards” refers to the Point Count of the Banker’s Hand after the first two cards have been dealt to the Banker’s Hand.

(e) In Table 1, the first horizontal row at the top labeled “Value of the Third Card Drawn by Player’s Hand” refers to the value of the third card drawn by the Player’s Hand, not the Point Count of the Player’s Hand.

(f) In Table 1, the letter “D” means that the Banker’s Hand shall draw a third card and the letter “S” means that the Banker’s Hand shall stay.

(g) To use Table 1, first find the Point Count of the Banker’s Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player’s Hand. The symbol located where the intersection occurs determines whether the Banker’s Hand shall draw a third card or stay. For example, if the Point Count of the Banker’s Hand after two cards is 5 and the value of the third card drawn by the Player’s Hand is 4, the table shows that the Banker’s Hand shall draw a third card.

(a) After each hand has received all the cards to which it is entitled under §§ 631a.9, 631a.10 and 631a.11 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer calling the game shall announce the final Point Count of each hand indicating which hand has won the round. If the two hands have equal Point Counts, the dealer shall announce “tie hand.” If the table is designated for play as an EZ Baccarat table and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7 or a Panda 8, the dealer shall announce “Dragon 7” or “Panda 8.”

(b) After the result of the round is announced, the dealer or dealers responsible for the wagers on the table shall first collect each losing wager. After the losing wagers are collected, the dealer or dealers responsible for the wagers on the table shall, starting at the highest numbered player position at which a winning wager is located, pay that player's winning wager and immediately thereafter mark or collect the vigorish owed by that player unless the table is designated for play as an EZ Baccarat table in which vigorish is not collected. The dealer shall then proceed in descending order to the next highest numbered player position at which a winning wager is located and repeat this procedure until each winning wager is paid and the vigorish owed by each player, if any, is either marked or collected.

(c) At the conclusion of a round of play, the dealer shall remove all cards from the table and place the cards in the discard bucket.
§ 631a.13. Payout odds; vigorish.

(a) A winning wager made on the Player's Hand shall be paid at odds of 1 to 1.

(b) A winning Tie Wager shall be paid at odds of at least 8 to 1.

(c) A winning wager made on the Banker's Hand shall be paid at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to 5% of the amount won, unless the certificate holder is offering EZ Baccarat in which vigorish is not collected. When collecting the vigorish, the certificate holder may round off the vigorish to 25¢ or the next highest multiple of 25¢.

(d) A dealer shall collect the vigorish from a player in accordance with one of the following procedures selected by the certificate holder in its Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) At the time the winning payout is made.

(2) At a later time, provided that:

(i) The outstanding vigorish shall be collected prior to beginning play with a new dealing shoe of cards or when the player leaves the gaming table, whichever occurs first.

(ii) The amount of the vigorish shall be tracked by placing a coin or marker button, which contains the amount of the vigorish owed, in the rectangular space on the layout that is imprinted with the number of the player owing the vigorish.

(iii) The coin or marker button may not be removed from the layout until the vigorish owed is collected.

(e) If a certificate holder offers the Dragon Bonus Wager, in accordance with § 631a.8(a)(4) (relating to wagers), a vigorish may not be extracted on a winning Dragon Bonus Wager. Winning Dragon Bonus Wagers shall be paid out at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

§ 631a.14. Continuation of curator as dealer; selection of a new curator.

(a) The curator, after any round of play, may either pass the dealing shoe or remain as curator except that:

(1) The curator shall pass the dealing shoe whenever the Banker’s Hand loses.

(2) The dealer calling the game or a floorperson or above may order the curator to pass the dealing shoe if the curator unreasonably delays the game or repeatedly makes invalid deals.

(b) When a voluntary or compulsory relinquishment of the dealing shoe occurs, the dealer shall offer the dealing shoe to the player immediately to the right of the previous curator and, if that player does not accept the dealing shoe or there is no player in that position, the dealer shall offer the dealing shoe to each of the other players in turn, moving counterclockwise around the table. The first player to accept the dealing shoe when offered shall become the new curator.

§ 631a.15. Irregularities.

(a) Except as provided in subsection (b), a card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

(b) A third card dealt to the Player’s Hand that is not disclosed, when a third card is not authorized under § 631a.11 (relating to rules for determining whether a third card shall be dealt), shall become the third card of the Banker’s Hand if the Banker’s Hand is required to draw under § 631a.11(c). If the Banker’s Hand is required to stay, the card dealt in error shall become the first card of the next hand of play.
(c) If a third card dealt to the Player’s Hand, when a third card is not authorized under § 631a.11, is disclosed at the time it is dealt or is found face up in the dealing shoe, the dealer calling the game shall use the disclosed card as the third card of the Banker’s Hand if the Banker’s Hand is required to draw under § 631a.11(c). If the Banker’s Hand is required to stay, the dealer calling the game shall, in accordance with one of the following procedures designated in the certificate holder’s Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Place the disclosed card and one additional card, drawn face down from the dealing shoe, into the discard bucket without disclosing the additional card.

(2) Use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with the rules of this chapter and placed in the discard bucket upon completion of the dealing procedures.

(d) Except as provided in subsection (c), if a card is disclosed at the time it is dealt or a card is found face up in the dealing shoe, the dealer shall use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and placed in the discard bucket upon completion of the dealing procedures.

(e) If there are insufficient cards remaining in the dealing shoe to complete a round of play, that round shall be void and all wagers shall be returned. A new round shall commence after the entire set of cards has been replaced and the new set of cards have been placed in the dealing shoe.

If more than one player at the table has won a progressive payout that is 100% of the jackpot amount on the progressive meter, each player shall share the maximum amount equally.

(p) A player shall win the Blackjack Wager and be paid in accordance with the payout odds in § 633a.13(a) if:

(1) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 21.

(2) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(3) The player has a Blackjack and the dealer's hand has a total point count of 21 in more than two cards.

(q) A Blackjack Wager shall tie and be returned to the player if the total point count of the player's hand is the same as the dealer's. A player's Blackjack Wager shall be lost if the dealer has a Blackjack and the player's hand has a total point count of 21 in more than two cards.

(r) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2:
(1) Collect all losing wagers and then pay off all winning wagers.

(2) Pay off all winning wagers and collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any winning wagers by using value chips collected from a losing wager.

(s) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(t) Except as provided in § 633a.12(b), players and spectators may not handle, remove or alter any cards used to play Blackjack.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer’s hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player’s initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips, when, because of the limitation of the value of chip denominations, half the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 633a.13(b) (relating to payout odds; payout limitation).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

(e) Notwithstanding the requirements of subsection (a)—(d), a certificate holder may, if selected in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer a player who has Blackjack the option to be paid even money on the Blackjack Wager instead of making an Insurance Wager. If the player elects to be paid even money, the dealer shall pay out the Blackjack Wager at odds of 1 to 1 and remove the player’s cards.

§ 633a.9. Surrender.

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering 1/2 his wager. All decisions to surrender shall be made prior to the player indicating whether he wishes to double down as permitted under § 633a.10 (relating to Double Down Wager), split pairs as permitted under § 633a.11 (relating to splitting pairs), stand or draw. If the first card dealt to the dealer:
(1) Is not an ace or 10 value card, the dealer shall immediately collect 1/2 of the wager and return 1/2 to the player.

(2) Is an ace or 10 value card, the dealer will either:

   (i) Place the player's wager on top of the player's cards. When the dealer's second card is revealed, the hand will be settled by immediately collecting the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack. The player's cards shall then be collected.

   (ii) Immediately after utilizing the card reader device in accordance with § 633a.7(h) (relating to procedure for dealing the cards; completion of each round of play), the hand shall be settled by immediately collecting the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player of the dealer does not have Blackjack. The player's cards shall then be collected.

(b) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (a) and § 633a.8 (relating to Insurance Wager).

§ 633a.10. Double Down Wager.

(a) Except when a player has a Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his original Blackjack Wager, on the first two cards dealt to him or the first two cards of any split pair. Only one additional card shall be dealt to the hand on which the player has elected to double down.

(b) If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall collect only the amount of the original Blackjack Wager of the player and may not collect the additional Double Down Wager.

(c) Upon a player’s election to make a Double Down Wager, the dealer shall deal the one additional card face up or face down and place it sideways on the layout.

§ 633a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Blackjack Wager. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player’s decisions with respect to the first incomplete hand on the dealer’s left before proceeding to deal any cards to the second hand.
(c) After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect that hand. A certificate holder shall specify in its Rules Submission required under § 601a.2 (relating to table games Rules Submissions) the number of additional times a patron may split pairs, including aces.

(d) If the dealer obtains Blackjack after a player splits pairs, the dealer shall collect only the amount of the original wager of the player and may not collect the additional amount wagered in splitting pairs.

(a) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer Blackjack Switch in accordance with the following requirements:

1. A player shall make two equal Blackjack Wagers by placing value chips on the two designated betting areas prior to the first card being dealt.

2. In addition to the two equal Blackjack Wagers, a player may make an additional Super Match Wager in accordance with § 633a.6(e)(7) (relating to wagers).

3. Two hands shall then be dealt to each player in accordance with the dealing procedures in § 633a.7 (relating to procedure for dealing the cards; completion of each round of play).

4. As each player’s point total is announced, the player shall indicate whether he wishes to switch the second card of each hand dealt. A player may also double down as permitted under § 633a.10 (relating to Double Down Wager), split pairs as permitted under § 633a.11 (relating to splitting pairs), stand or draw additional cards.

5. The round of play shall then be completed in accordance with the dealing procedures in § 633a.7. However, if the dealer’s hand:

   (i) Has a total point count of 21 in more than two cards and the player has Blackjack, the winning Blackjack Wager shall be paid at odds of 1 to 1.

   (ii) Is a Blackjack and the player’s hand is a Blackjack, the Blackjack Wager shall tie and be returned to the player.

   (iii) Is a Blackjack and the player has switched to a Blackjack, the player’s hand shall have a total point count of 21 and the player’s Blackjack Wager shall be lost.

   (iv) Has a total point count of 21 or 22 and the player has switched to a Blackjack, the player’s Blackjack Wager shall be returned to the player.
(v) Has a total point count of 22 and a player’s hand has a total point count of 21 or less, the player’s Blackjack Wager shall be returned to the player.

(b) A certificate holder may, if specified in its Rules Submission under § 601a.2, deal Blackjack from the hand and allow the players to touch the cards in accordance with the following requirements:

1. No more than two decks of cards shall be used in the game.

2. An automated shuffling device shall be used to shuffle the cards.

3. After the procedures required under § 633a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the deck or decks of cards on top of a cover card and then place the deck or decks of cards and the cover card in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

4. The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout.

5. Prior to commencement of each round of play, the dealer shall remove the first card and place it in the discard rack. The dealer shall then, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise direction, deal the cards as follows:

(i) One card face down to each box on the layout in which a Blackjack Wager is contained.

(ii) One card face up to the dealer.

(iii) A second card face down to each box in which a wager is contained.

(iv) A second card face down to the dealer.

6. After two cards have been dealt face down to each player and the dealer, each player shall, with one hand, examine his cards. All players shall keep their cards in full view of the dealer at all times. Each player, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise direction, shall then indicate whether he wishes to surrender as permitted under § 633a.9 (relating to surrender), double down as permitted under § 633a.10, split pairs as permitted under § 633a.11, stand or draw additional cards. If a player:

(i) Indicates that he wishes to surrender, double down or split a pair, the dealer shall turn over the player’s two cards and complete the dealing procedures in accordance with § 633a.7.
(ii) Is dealt additional cards which cause the total point count to exceed 21, the player shall immediately discard his cards.

(7) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player’s decision.

(8) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn over the hole card and draw any additional cards in accordance with § 633a.7(m). The dealer shall announce the dealer’s total point count after each additional card is dealt.

(9) After all additional cards have been dealt, the dealer shall turn over each player’s two cards and shall settle all remaining wagers in accordance with § 633a.7.

The maximum payout amount shall be at least $25,000 or the maximum amount that one patron could win per round when betting the maximum possible wager, whichever is greater. If a certificate holder establishes a maximum payout, and more than one player at a table has a winning hand of queen of hearts pair and dealer Blackjack or king of spades pair and dealer Blackjack, each player shall share the maximum payout amount proportionately to the amount of the player's respective wager. Any maximum payout limit established by the certificate holder shall apply only to payouts of Royal Match 21 Wagers and King's Bounty Wagers.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack or in a segregated area of the double shoe.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(f) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack or in a segregated area of the double shoe shall be shuffled and cut according to the procedures in § 633a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.
(g) If no cards are dealt to a player’s hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player’s hand, at the player’s option, the dealer shall deal the second card to the player after all other players have received a second card.

(h) If a double shoe is used, any round of play drawn from the incorrect side of a double shoe shall be treated as if it were drawn from the correct side of the shoe and concluded.

(i) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player’s option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player’s hand dead and return the player’s original Blackjack Wager.

(j) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorperson or above, shall:

1) If the particular card reader device in use provides any player with the opportunity to determine the value of the hole card, call all hands dead, collect the cards and return each player’s wager.

2) If the particular card reader device in use does not provide any player with the opportunity to determine the value of the hole card, continue play.

(k) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(l) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(m) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

6. Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers must be posted at each Spanish 21 table.

(c) Each Spanish 21 table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Spanish 21 table must have a card reader device attached to the top of the dealer’s side of the table. The floorperson assigned to the Spanish 21 table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Spanish 21 table must have a discard rack securely attached to the top of the dealer’s side of the table. The height of the discard rack must either:
(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 635a.3. Cards; number of decks; value of cards.

(a) Spanish 21 shall be played with six or eight decks of cards that are identical in appearance and at least one cover card. The decks shall consist of 48 cards, with the 10 of each suit removed from each deck during the inspection required under § 635a.4 (relating to opening of the table for gaming).

(b) The decks of cards opened for use at a Spanish 21 table shall be changed at least once every 24 hours.

(c) The value of the cards shall be as follows:

(1) Any card from 2 to 9 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11, unless that value would give a player or the dealer a score in excess of 21, in which case, the ace shall have a value of 1.

§ 635a.4. Opening of the table for gaming.

(a) After receiving the decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) If the decks contain the 10 of any suit, the dealer and a floorperson shall ensure that these cards are removed from the decks, torn in half and placed in the box, envelope or container that the decks came from.

(c) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(d) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 635a.5 (relating to shuffle and cut of the cards).
(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a), (c) and (d) do not apply.

§ 635a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer’s hand during the last round of play, the player at the farthest point to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the discretion of the floorperson, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be cut either by the player who last cut the cards or by
the next player entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe as provided in § 635a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Spanish 21 table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table for inspection face down unless a player requests that the cards be spread face up on the table. After the first player at the table is afforded an opportunity to visually inspect the cards, the procedures in § 635a.4(d) (relating to opening of the table for gaming) and this section shall be completed.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 635a.6. Wagers.

(a) Wagers at Spanish 21 shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the Spanish 21 layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(b) After the cards have been shuffled as required under § 635a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any person, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent rounds of play at that gaming table until either:

(1) The certificate holder chooses to permit the player to begin wagering again.

(2) A reshuffle of the cards has occurred.

(c) All wagers, except an Insurance Wager under § 635a.8 (relating to Insurance Wager), a Double Down Wager under § 635a.10 (relating to Double Down Wager; rescue) or a wager on split pairs under § 635a.11 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) To participate in a round of play and compete against the dealer’s hand, a player shall place a Spanish 21 Wager.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player who placed a Spanish 21 Wager in
accordance with subsection (d) the option of placing a Match-the-Dealer Wager that either of the player's initial two cards will match the rank of the dealer’s up card.

(f) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Spanish 21 Wager in one round of play.

§ 635a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards used to play Spanish 21 shall be dealt from a dealing shoe located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 635a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the first two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand shall be completed. The dealer shall then collect and reshuffle the cards in accordance with § 635a.5.

(e) At the commencement of each round of play, the dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards as follows:

1. One card face up to each box on the layout in which a Spanish 21 Wager is contained.

2. One card face up to the dealer.

3. A second card face up to each box in which a wager is contained.

4. A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt or before a card reader device is utilized, the dealer shall, starting with the player farthest to the dealer’s right and continuing around the table in a
counterclockwise direction, settle all Match-the-Dealer Wagers by collecting all losing wagers and paying all winning wagers as follows:

(1) If either of the player’s initial two cards match the rank of the dealer’s up card, the dealer shall pay the winning Match-the-Dealer Wager in accordance with § 635a.12(e) (relating to payout odds). Any card with a point value of 10 (a jack, queen or king) must only match an identical card without regard to value.

(2) If both of the player’s initial two cards match the rank of the dealer’s up card, the player shall be paid for each matching card.

(g) After settling the player’s optional wagers in accordance with subsection (f), if the dealer’s first card is an ace, king, queen or a jack, the dealer shall, after offering the Insurance Wager in accordance with § 635a.8 (relating to Insurance Wager), determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, no additional cards shall be dealt and each player’s Spanish 21 and Insurance Wagers, if applicable, shall be settled.

(h) After the procedures in subsection (g) have been completed, if necessary, the dealer shall start with the player farthest to the dealer’s left and continue around the table in a clockwise direction and if the player:

(1) Has Blackjack and the dealer’s up card is:

   (i) A 2, 3, 4, 5, 6, 7, 8 or 9, the dealer shall announce and pay the Blackjack and remove the player’s cards.

   (ii) An ace, king, queen or jack but the dealer’s hole card will not give the dealer a Blackjack, the dealer shall announce the player’s Blackjack but make no payment nor remove any cards until all other cards are dealt to the players and the dealer reveals the hole card.

(2) Does not have Blackjack, the player shall indicate whether he wishes to surrender, as permitted under § 635a.9 (relating to surrender), double down as permitted under § 635a.10 (relating to Double Down Wager; rescue), split pairs as permitted under § 635a.11 (relating to splitting pairs), stand or draw additional cards.

   (i) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player’s decision.

   (j) A player may elect to draw additional cards whenever his point count total is less than 21, except that the player:

      (1) Having Blackjack or a hard or soft total of 21 may not draw additional cards.
(2) Electing to make a Double Down Wager may draw only one additional card.

(k) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hold card face up. Any additional cards required to be dealt to the hand of the dealer, in accordance with subsection (l), shall be dealt face up. The dealer shall announce the dealer’s total point count after each additional card is dealt.

(l) Except as provided in subsection (m), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21.

(m) A dealer may not draw additional cards to his hand, regardless of the point count, if decisions have been made on all players’ hands and the point count of the dealer’s hand will not have an effect on the outcome of the round of play.

(n) A player shall win the Blackjack Wager and be paid in accordance with the payout odds in § 635a.12(a)—(c) if:

(1) The total point count of the player’s hand is 21 or less and the total point count of the dealer’s hand is in excess of 21.

(2) The total point count of the player’s hand exceeds the total point count of the dealer’s hand without exceeding 21.

(3) The player has a Blackjack and the dealer’s hand has a total point count of 21 in two or more cards.

(4) The total point count of the player’s hand and the dealer’s hand is 21 in more than two cards.

(o) Except as provided in subsection (n)(3) and (4), a Spanish 21 Wager shall tie and be returned to the player if the total point count of the player’s hand is the same as the dealer’s. A player’s Spanish 21 Wager shall be lost if the dealer has a Blackjack and the player’s hand has a total point count of 21 in more than two cards.

(p) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder’s Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers and then pay off all winning wagers.

(2) Pay off all winning wagers and collect all losing wagers beginning with the player farthest to the dealer’s right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any winning wagers by using value chips collected from a losing wager.
(q) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(r) Players and spectators may not handle, remove or alter any cards used to play Spanish 21.

§ 635a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen or jack.

(b) An Insurance Wager shall be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 the player's initial Spanish 21 Wager. A player may wager an amount in excess of 1/2 the initial Spanish 21 Wager to the next unit that can be wagered in chips when, because of the limitation of the value of chip denominations, half the initial Spanish 21 Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 635a.12(d) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

§ 635a.9. Surrender.

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering 1/2 of his Spanish 21 Wager. All decisions to surrender shall be made prior to the player indicating whether he wishes to double down as permitted under § 635a.10 (relating to Double Down Wager; rescue), split pairs as permitted under § 635a.11 (relating to splitting pairs), stand or draw. If the first card dealt to the dealer is:

(1) Not an ace or 10 value card, the dealer shall immediately collect 1/2 of the wager and return 1/2 to the player.

(2) An ace or 10 value card, the dealer shall place the player’s wager on top of the player’s cards. When the dealer’s second card is revealed, the hand shall be settled by immediately collecting the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack.

(b) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (a) and § 635a.8 (relating to Insurance Wager).
§ 635a.10. Double Down Wager; rescue.

(a) Except when a player has Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his original Spanish 21 Wager. A player may double down on two or more cards dealt to him or two or more cards of any split pair. Only one additional card shall be dealt to the hand on which the player has elected to double down. The one additional card shall be dealt face up and placed sideways on the layout.

(b) If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall collect only the amount of the original Spanish 21 Wager of the player and may not collect the additional Double Down Wager.

(c) A winning Double Down Wager shall be paid in accordance with § 635a.12(a) (relating to payout odds). The additional payouts in § 635a.12(b) and (c) are not applicable to winning Double Down Wagers.

(d) After the additional card required under subsection (a) has been dealt to the hand, a player may “rescue” (take back) the Double Down Wager and forfeit his original wager, as long as the additional card does not result in the hand having a total point count in excess of 21.

§ 635a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Spanish 21 Wager. For example, if a player has two 7s or a king and a jack, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player’s decisions with respect to the first incomplete hand on the dealer’s left before proceeding to deal any cards to the second hand.

(c) After a second card is dealt to a split pair hand, the player shall indicate his decision to stand, draw or double down with respect to that hand. A certificate holder shall specify in its Rules Submission under § 601a.2 (relating to table games Rules Submissions) the number of additional times a patron may split pairs, including aces.

(d) If the dealer obtains Blackjack after a player splits pairs, the dealer shall collect only the amount of the original wager of the player and may not collect the additional amount wagered in splitting pairs.

(e) The additional payouts provided in § 635a.12(b) and (c) (relating to payout odds) are not applicable to a winning wager on a split hand.

(a) Except as provided in subsections (b) and (c), the certificate holder shall pay each winning Spanish 21 Wager at odds of 1 to 1 with the exception of Blackjack which shall be paid at odds of 3 to 2.

(b) Except when a player has made a Double Down Wager under § 635a.10 (relating to Double Down Wager; rescue), in which case all of the following wagers shall be paid at odds of 1 to 1, a certificate holder shall pay the following payout odds for winning Spanish 21 Wagers:

1. Three cards consisting of 6, 7 and 8 of mixed suits shall be paid at odds of 3 to 2.

2. Three cards consisting of 6, 7 and 8 of the same suit shall be paid at odds of 2 to 1, except that three cards consisting of the 6, 7 and 8 of spades shall be paid at odds of 3 to 1.

3. Three cards consisting of three 7s of mixed suits shall be paid at odds of 3 to 2.

4. Three cards consisting of three 7s of the same suit shall be paid at odds of 2 to 1, except that three cards consisting of three 7s of spades shall be paid at odds of 3 to 1.

5. Five cards totaling 21 shall be paid at odds of 3 to 2.

6. Six cards totaling 21 shall be paid at odds of 2 to 1.

7. Seven or more cards totaling 21 shall be paid at odds of 3 to 1.

(c) In addition to the payouts under subsection (b)(4), a winning hand that consists of three 7s of the same suit, when the dealer’s exposed card is also a 7 of any suit, shall be paid an additional fixed payout in accordance with the following requirements:

1. If the player’s original wager was $5 or more but less than $25, the player shall receive an additional payout of $1,000.

2. If the player’s original wager was $25 or more, the player shall receive an additional payout of $5,000.

3. All other players at the table who placed a wager during that round of play shall also be paid an additional fixed payout of $50.

4. The additional fixed payouts are not applicable if a Double Down Wager was made on a winning hand or the winning hand had been split under § 635a.11 (relating to splitting pairs).

(d) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.
(e) The certificate holder shall pay out winning Match-the-Dealer Wagers at the odds in the following paytables:

1) If six decks of cards are being used:

<table>
<thead>
<tr>
<th>Hand</th>
<th>Payout</th>
</tr>
</thead>
<tbody>
<tr>
<td>Each matching card of the same suit</td>
<td>9 to 1</td>
</tr>
<tr>
<td>Each matching card of a different suit</td>
<td>4 to 1</td>
</tr>
</tbody>
</table>

2) If eight decks of cards are being used:

<table>
<thead>
<tr>
<th>Hand</th>
<th>Payout</th>
</tr>
</thead>
<tbody>
<tr>
<td>Each matching card of the same suit</td>
<td>12 to 1</td>
</tr>
<tr>
<td>Each matching card of a different suit</td>
<td>3 to 1</td>
</tr>
</tbody>
</table>

§ 635a.13. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe during the dealing of the cards, the round of play shall be void and the cards shall be reshuffled.

(b) If a 10 card of any suit is found in the shoe, it may not be used in the game and shall be removed from the shoe and torn in half by a floorperson and placed in the box, envelope or container that the decks came from. If more than one 10 card is found in the shoe during the dealing of the cards, the round of play shall be void and the decks of cards shall be removed from play.

(c) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(d) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(e) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(f) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.
(g) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut in accordance with § 635a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(h) If no cards are dealt to the player’s hand, the player’s hand is dead and the player shall be included in the next deal. If only one card is dealt to the player’s hand, at the player’s option, the dealer shall deal the second card to the player after all other players have received a second card.

(i) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player’s option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player’s hand dead and return the player’s original Spanish 21 Wager.

(j) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen or jack, the dealer, after notification to a floorperson or above, shall, if the particular card reader device in use:

1. Provides any player with the opportunity to determine the value of the hole card, call all hands dead, collect the cards and return each player’s wager.

2. Does not provide any player with the opportunity to determine the value of the hole card, continue play.

(k) If a card reader device malfunctions, the dealer may not continue dealing the game of Spanish 21 at that table until the card reader device is repaired or replaced.

(l) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(m) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the device or shoe must be covered or have a sign indicating that it is out of order placed on the device or shoe before any other method of shuffling or dealing may be utilized at that table.

(b) If an automated card shuffling device is being used, one deck shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(c) The two decks of cards that are alternated in and out of play shall be changed at least every 12 hours and rotated with other decks in accordance with § 603a.15(j) (relating to cards; physical characteristics).

§ 637a.4. Opening of the table for gaming.

(a) After receiving two decks of cards at the table, the dealer shall inspect each deck for any defects. The floorperson or above shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first two players seated at the table. The cards shall be spread out according to suit and in sequence.

(c) After the first two players seated at the table are afforded an opportunity to visually inspect the cards, each deck shall separately be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Each deck of cards shall then be shuffled in accordance with § 637a.5 (relating to shuffle and cut of the cards).

(2) If the cards were shuffled manually or were preshuffled, cut the deck by placing the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack.

(c) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(d) If there is no gaming activity at the Poker table which is open for gaming, each deck of cards at the table shall be spread out on the table face up. After the first two players who arrive at the table are afforded an opportunity to visually inspect both of the decks, the procedures in § 637a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

In Triple Draw 2-7 Lowball Poker, the order of highest to lowest rank shall be: 2, 3, 4, 5, 6, 7, 8, 9, 10, jack, queen, king and ace. All suits shall be considered equal in rank.

(d) The ranking of a five-card low hand shall be the inverse of the rankings for a five-card high hand as set forth in subsection (b). In games except Triple Draw Lowball 2-7 Poker, straights and flushes will not be considered for purposes of determining a winning hand at low Poker.
(e) When comparing two hands that are of identical rank under subsection (b) or (d), or which do not contain the hands authorized for that game, the hand that contains the highest ranking card as provided in subsection (a) or (c), whichever is applicable, which is not in the other hand shall be considered the higher ranking hand. If the hands are of identical rank after the application of this subsection, the hands will be considered tied and the pot shall be divided equally among the players with the tied hands.

(f) In all games of Poker, a hand shall be ranked according to the cards actually in the player’s hand and not by the player’s opinion or statement of the hand’s value.

§ 637a.7. Poker overview; general dealing procedures for all types of Poker.

(a) Poker shall be conducted in a separate area of the licensed facility designated specifically for the operation of Poker as approved by the Board or the Board’s Executive Director in accordance with § 467a.1 (relating to gaming floor plan).

(c) A player shall bet on the cards that the player holds in his hand. All bets by a player shall be placed by the dealer in the designated area of the table known as the pot. A player may be required to place an Ante or Blind Bet prior to the receipt of any cards. After each round of cards is dealt, a betting round shall be conducted. Each player shall decide whether to continue contending for the pot by calling or raising the bet of the other players.

(d) The object of Poker is for a player to win the pot either by making a bet that no other player elects to call or, depending on the type of Poker being played, by having the highest ranking high hand, the highest ranking low hand or both the highest ranking high and low hands in accordance with § 637a.6 (relating to Poker rankings). If two or more players are still in contention for a pot after all cards have been dealt and the final betting round has been completed, there shall be a showdown among those players to determine which player has the winning hand.

(e) The following procedures shall be utilized by the dealer when dealing the game of Poker:

(1) The dealer shall place the stacked deck of cards in either hand. After the dealer has chosen which hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept in front of the dealer at all times and as level with the Poker table as possible. If during a round of play the deck shall be set down to handle a transaction, the dealer shall place a marker button on top of the deck until the transaction has been completed.
(2) The dealer shall verbalize or physically indicate the action that is occurring at the Poker table with regard to the conduct of the game and instruct each player as to the player’s various turns to act and options.

(3) All burn cards required under this chapter must be kept separate from the pile of discarded cards.

(4) The dealer shall either:

   (i) Count the entire deck of cards at least once every 5 rounds of play to determine if 52 cards are present. The dealer may count the stub in the games of Hold 'Em Poker and Omaha Poker.

   (ii) Utilize an automated card shuffling device, submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval), which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present.

(5) If a count of the deck or stub indicates that the number of cards in the deck is incorrect, the deck shall be removed from the table.

(6) At the completion of a round of play, the dealer shall award the pot to the winning player or players after a showdown or to the last remaining player if all other players have folded. Prior to pushing the pot to the winner and collecting the winning hand, the dealer shall:

   (i) Collect the cards from all losing players. The losing hands shall be counted by the dealer to determine that the proper number of cards has been returned.

   (ii) Award all side pots.

   (iii) Collect the rake in accordance with § 637a.17 (relating to Poker revenue).

   (iv) Collect, if applicable, any amount required to be contributed to a Bad Beat or High Hand Jackpot payout fund in accordance with §§ 637a.15 and 637a.16 (relating to Bad Beat payout; posting of rules; contributions; counting and displaying of payout amount; procedures for implementation; and High Hand Jackpot payout; posting of rules; contributions; counting and displaying of payout amount; procedures for implementation).

§ 637a.8. Placement of bets; minimum and maximum bets.

(b) A player may participate in the betting during a round of play in accordance with the following requirements:

(1) A player may bet only with the table stakes that were already on the Poker table in front of the player when the round of play commenced.

(2) A player may add to his table stakes only between rounds of play and, except as provided in paragraph (6), may not remove any of his table stakes from the Poker table at any time during a round of play.

(3) Currency that is available for use by a player may be utilized in accordance with this section to initiate, call or raise a bet if the currency is expeditiously converted into value chips, tournament chips or plaques by the dealer.

(4) To participate in a round of play, a player shall be required to have an amount of currency, value chips, tournament chips or plaques available on the Poker table prior to the start of the round of play which is sufficient to make any Ante, Blind or Forced Bet required by the Poker game being played and at least one bet at the posted table minimum.

(5) A player who satisfies the requirements in paragraph (4) but depletes his funds on the Poker table prior to the completion of a round of play shall be deemed All-in as follows:

   (i) An All-in player shall retain a financial interest in the outcome of the round of play, but eligible to win only the amount of the pot to which he contributed.

   (ii) An All-in player shall continue to receive all cards to which he would normally be entitled.

   (iii) Betting shall continue unimpeded among the other players by generating a separate side pot which only those players shall be eligible to win.

(6) If a player indicates an intent to temporarily leave a Poker table during a round of play, without relinquishing his seat at the table, a floorperson or above shall do either of the following:

   (i) Determine the amount of the player’s table stakes prior to the player’s departure from the table and verify that the amount of the player’s table stakes have not been changed upon the player’s return to the table.

   (ii) Maintain the player’s table stakes on the table surface using a nontransparent cover until the player’s return.

(c) A player’s verbal statement of “fold,” “check,” “call” or “raise” or a player’s announcement of a specific bet, which is within the rules of the Poker game being played and the
minimum and maximum betting limits for the Poker table, shall be binding on the player if it is the player’s turn to act.

(d) A player who announces a bet or raise of a certain amount but places a different amount of value chips, tournament chips or plaques in the pot shall be required to correct his bet or raise to the announced amount in accordance with the instructions of the dealer.

(e) A player shall be considered to have placed a bet if the player:

(1) Pushes value chips, tournament chips or plaques forward to indicate the intent of placing a bet.

(2) Places value chips, tournament chips or plaques at a sufficient distance from the player and towards the pot to make it obvious that the value chips, tournament chips or plaques are intended as a bet.

(3) Places currency into the pot to be exchanged for chips in accordance with subsection (b)(3).

(f) A player may not make a bet and thereafter attempt to increase the amount of the bet unless the player:

(1) Indicates at the time the bet is being made that the bet is not yet complete.

(2) Puts the proper amount of value chips, tournament chips or plaques into the pot to call a bet and also indicates his intention to raise.

(g) Subject to the posted table betting limits, a player who announces “raise” may continue to bet value chips, tournament chips or plaques until both of his hands come to rest in front of the pot.

(h) The dealer shall ensure that no player touches any of the value chips, tournament chips or plaques once they are placed into the pot.

(i) Unless a raise has been verbally announced by a player, the player who puts a single value chip or tournament chip into the pot that is larger than required is assumed to have only called the preceding bet and to be awaiting change from the dealer.

(j) Unless specifically posted to the contrary, a player may raise after the player has previously checked in a betting round.

(k) The certificate holder shall post a sign specifying any restrictions with regard to the maximum number of raises that may be permitted for any round of betting and the minimum and maximum bets in effect at each Poker table. If all players at a Poker table agree to increase the minimum bet at the table, the minimum bet posted at the table need not be followed. The certificate holder shall include in its Rules Submission under § 601a.2 (relating to table games
Rules Submissions) any restrictions with regard to the maximum number of raises that may be permitted for any round of betting, provisions specifying the maximum amount that the minimum bet may be increased and how the dealer will determine that all of the players have agreed to the increased minimum bet amount.

§ 637a.9. Permissible Poker games; announcement of available games and seats.

(a) A certificate holder that offers Seven-card Stud High, Seven-card Stud Low, Seven-card Stud High-low Split or Seven-card Stud High-low Split Eight or Better Poker shall observe the procedures in this section.

(b) No more than eight players may participate in a Seven-card Stud Poker game. Each player who elects to participate in a round of play may be required to place an Ante bet. The rules governing the placement of an Ante bet and the amount of the Ante bet, if any, shall be specified in the certificate holder’s Rules Submission under § 601a.2 (relating to table games Rules Submissions) and posted on a sign at each Poker table.

(c) Starting with the first player to the dealer’s left and continuing around the table in a clockwise manner, the dealer shall deal two rounds of cards face down and one round of cards face up to each player.
(d) After each player has been dealt three cards in accordance with subsection (c), the first betting round shall commence with one player making a Forced Bet. The amount of the Forced Bet shall be specified in the certificate holder’s Rules Submission under § 601a.2 and posted at the Poker table. The player required to place the Forced Bet shall be determined by comparing the up card of each player. In the event that two or more up cards are of the same rank, the up cards shall then be ranked by suit with the highest to lowest ranked suits in the following order: spades, hearts, diamonds and clubs. The Forced Bet shall be made by the player with the:

1. Lowest ranked up card for Seven-card Stud High Poker.

2. Highest ranked up card for Seven-card Stud Low Poker.

3. Highest ranked up card for Seven-card Stud High-low Split Poker. To determine the highest ranked up card, an ace shall be ranked below a two.

4. Lowest ranked up-card for Stud High-low Split Eight or Better Poker. To determine the lowest ranked up-card, an ace shall be considered the highest ranking card.

(e) Following the placement of the Forced Bet, each subsequent player, starting with the player to the left of player who placed the Forced Bet and continuing around the table in a clockwise manner, may fold, call or raise the bet. After the last player has responded to the most recent bet, the betting round shall be considered complete.

(f) Upon completion of the first betting round, the dealer shall burn the top card of the deck and then, starting with the first remaining player to the dealer’s left, deal a fourth card face up to each player who made or called the last bet. The next betting round shall commence as follows:

1. For Seven-card Stud High, Seven-card Stud High-low Split or Seven-card Stud High-low Split Eight or Better Poker, the player with the highest ranking high hand showing shall be required to bet or check.

2. For Seven-card Stud Low, the player with the highest ranking low hand showing shall be required to bet or check.

3. If the highest ranking hand showing is held by two or more players, the player closest to the left of the dealer shall be required to bet or check.

(g) Following the initial bet or check required under subsection (f), each subsequent player, proceeding in a clockwise rotation, may fold, call, raise or, if the preceding players have not made a bet, check. Once a bet has been made, the next player in a clockwise rotation may fold, call or raise. After the last player has responded to the most recent bet, the betting round shall be considered complete.
(h) The dealer shall then deal two additional rounds of cards face up and one round of cards face down to each player who made or called the last bet. Prior to each round of cards being dealt, the dealer shall burn the top card of the deck. Notwithstanding the foregoing, if insufficient cards remain in the deck to give each remaining player either a sixth or seventh card, the top card of the deck shall be burned and a common card shall be dealt face up in the center of the table. If there is either one or no card remaining in the deck when a common card is to be dealt, the dealer shall shuffle the burn cards, burn a card and then deal the common card. The dealing of each round of cards or, if applicable, each common card under this subsection shall be followed by a betting round conducted in accordance with subsections (f) and (g).

(i) If more than one player remains in the round of play after the final betting round has been completed, a showdown shall be used to determine the winner of the pot. Each player remaining in the game shall form a five-card Poker hand from the seven cards dealt to the player. The winner of the pot shall be:

(1) In Seven-card Stud High Poker, the player with the highest ranking five-card high hand.

(2) In Seven-card Stud Low Poker, the player with the highest ranking five-card low hand.

(3) In Seven-card Stud High-low Split Poker or Seven-card Stud High-low Split Eight or Better Poker:

   (i) The player with the highest ranking five-card high hand and the player with the highest ranking five-card low hand, subject to subsection (j), shall divide the pot equally. If a pot cannot be divided equally, the excess amount, which may not exceed $1, shall be given to the player with the highest ranking high hand.

   (ii) If a tie exists between two or more players for the highest ranking high hand, the high hand share of the pot shall be divided equally among the tied players. If the high hand share of the pot cannot be divided equally among the tied players, the excess, which may not exceed $1, shall be given to the player with the highest ranking high card by suit.

   (iii) If a tie exists between two or more players for the highest ranking low hand, the low hand share of the pot shall be divided equally among the tied players. (j) In Seven-card Stud High-low Split Eight or Better Poker, a winning low-hand may not contain a pair, a three-of-a-kind or a four-of-a-kind or a 9, 10, jack, queen or king. In the
event that none of the hands of the remaining players satisfies this requirement, the entire pot
shall be awarded to the player with the highest ranking high hand.

(k) In Seven-card Stud High-low Split Poker and Seven-card Stud High-low Split Eight
or Better Poker, the player may form two different hands of five cards each out of the player’s
seven available cards, enabling that player to contend for both the high hand and low hand share
of the pot. A player may use the same five-card grouping to make a high hand and a low hand.
For example:

1. A hand consisting of a 2, 3, 4, 5 and 6 would qualify as a straight for purposes
of the high hand and as a high ranking low hand.

2. A hand consisting of five cards of the same suit, none higher than an 8, would
qualify as a flush for purposes of the high hand and as a high ranking low hand.

(l) In Seven-card Stud High-low Split Poker and Seven-card Stud High-low Split Eight
or Better Poker, an ace may be used concurrently as a low hand card to make up a low hand and
as a high card to make up a high Poker hand.

(m) Notwithstanding the requirements in subsection (c), if the certificate holder is
offering Super Seven-card Stud High-low Split Eight or better, starting with the first player to the
dealer's left and continuing around the table in a clockwise manner, the dealer shall deal four
rounds of cards face down and one round of cards face up to each player. After examining the
cards, each player shall discard two cards. The first betting round shall commence in accordance
with subsection (d).

round of play.

the placement of an Ante bet and the amount of the Ante bet, if any, shall be specified in the
certificate holder’s Rules Submission under § 601a.2 (relating to table games Rules
Submissions) and posted on a sign at each Poker table.

(c) A button shall be used to indicate the order in which the cards shall be dealt and the
order in which players shall bet in accordance with following procedures:

1. At commencement of play, the button shall be placed in front of either:

   (i) The first player to the right of the dealer.

   (ii) The player randomly determined by rank of a single card dealt.
(2) Thereafter, the button shall rotate around the table in a clockwise manner after each round of play.

Notwithstanding the foregoing, an ace may be used to complete a straight flush or straight formed with a 2, 3, 4 and 5, but may not be combined with any other sequence of cards (for example, queen, king, ace, 2 and 3). All suits shall be equal in rank.

(b) The permissible five-card Poker hands at the game of Caribbean Stud Poker, in order of highest to lowest rank, shall be:

1. A royal flush, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit.

2. A straight flush, which is a hand, other than a royal flush, consisting of five cards of the same suit in consecutive ranking, with king, queen, jack, 10 and 9 being the highest ranking straight flush and a 5, 4, 3, 2 and ace being the lowest ranking straight flush.

3. A four-of-a-kind, which is a hand consisting of four cards of the same rank, with four aces being the highest ranking four-of-a-kind and four 2s being the lowest ranking four-of-a-kind.

4. A full house, which is a hand consisting of a three-of-a-kind and a pair, with three aces and two kings being the highest ranking full house and three 2s and two 3s being the lowest ranking full house.

5. A flush, which is a hand consisting of five cards of the same suit, not in consecutive order, with an ace, king, queen, jack, 9 being the highest ranking flush and a 2, 3, 4, 5 and 7 being the lowest ranking flush.

(9) A pair, which is a hand containing two cards of the same rank, with two aces being the highest ranking pair and two 2s being the lowest ranking pair.

(c) When comparing two hands that are of identical Poker hand rank under subsection (b), or that contain none of the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered the higher ranking hand. If the hands are of identical rank after the application of this subsection, the hands shall be considered a tie.

§ 639a.7. Wagers.

(a) Wagers at Caribbean Stud Poker shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at the Caribbean Stud Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Bet Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 639a.8, § 639a.9 or § 639a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 639a.11(b) (relating to procedure for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Caribbean Stud Poker:

   (1) A player shall compete against the dealer's five-card Poker hand by placing an Ante Wager, then a Bet Wager, in accordance with § 639a.11(b).

   (2) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player at a Caribbean Stud Poker table the option to make an additional Progressive Payout Wager that the player will receive a Progressive Payout Hand. After placing an Ante Wager, a player may make the additional Progressive Payout Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

   (3) A certificate holder may, if specified in its Rules Submission under § 601a.2, offer to each player at a Caribbean Stud Poker table the option to make an additional Caribbean Stud Bonus Wager that the player's cards will form a five-card Poker hand with a rank of a pair of 10s or better. After placing an Ante Wager, a player may make the additional Caribbean Stud Bonus Wager by placing a value chip on the designated betting area prior to the dealer announcing “no more bets.”
(4) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Caribbean Stud Poker table the option to make an additional Five Card Hand Bonus Wager that the player's five-card Poker hand or the dealer's five-card Poker hand, or both, will contain a flush or better as defined in § 639a.6(b) (relating to Caribbean Stud Poker rankings). After placing an Ante Wager, a player may make the additional Five Card Hand Bonus Wager on the player's hand or the dealer's hand, or both, by using the electronic wagering device designated for that player. Each player shall be responsible for verifying that the player's Five Card Hand Bonus Wager has been accepted.

(e) A player may not wager on more than one player position at a Caribbean Stud Poker table.

§ 639a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 639a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face down to each player who placed an Ante Wager in accordance with § 639a.7(d)(1) (relating to wagers).

(2) One card face up to the area designated for the placement of the dealer’s hand.

(3) A second card face down to each player directly on top of that player’s first card.
(4) A second card face down to the area designated for the placement of the dealer’s hand to the right of the dealer’s first card.

(5) A third, fourth and fifth card, in succession, face down to each player and the dealer directly on top of the preceding card.

(e) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 639a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 639a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of
Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards as follows:

1. One card face down to each player who has placed an Ante Wager in accordance with § 639a.7(d)(1) (relating to wagers).

2. One card face up to an area designated for the placement of the dealer’s hand.

3. A second card face down to each player directly on top of that player’s first card.

4. A second card face down to the area designated for the placement of the dealer’s hand to the right of the dealer’s first card.

5. A third, fourth and fifth card, in succession, face down to each player and the dealer directly on top of the preceding card.

(c) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 639a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:
(1) After the procedures required under § 639a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed an Ante Wager in accordance with § 639a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer’s cards and spread the cards face down on the layout so the top card of the stack is to the dealer’s right and the bottom card is to the dealer’s left. The dealer shall turn the bottom card of the stack (the card on the dealer’s far left) face up on the area designated for the placement of the dealer’s cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 639a.11. Procedure for completion of each round of play.
(a) After the dealing procedures required under § 639a.8, § 639a.9 or § 639a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Caribbean Stud Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep the five cards in full view of the dealer at all times.

(3) After each player has made a decision regarding the Bet Wager as required under subsection (b), the player's cards shall be placed face down on the appropriate area of the layout and the player may not touch the cards again.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to make a Bet Wager in an amount equal to two times the amount of the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player has placed an Ante Wager and a Caribbean Stud Bonus Wager, a Progressive Payout Wager or a Five Card Hand Bonus Wager but does not make a Bet Wager, the player shall forfeit all wagers except the Five Card Hand Bonus Wager and does not forfeit the right to receive an Envy Bonus Payout, if applicable.

(c) After each player who has placed an Ante Wager has either placed a Bet Wager on the designated area of the layout or forfeited his wager and hand, the dealer shall collect all forfeited wagers and associated cards and place the cards in the discard rack. The dealer shall then reveal the dealer's four hole cards and place the cards so as to form the highest possible ranking five-card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the five cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and form the highest possible ranking five-card Poker hand for each player.

(3) If the dealer's highest ranking five-card Poker hand:

(i) Is lower than an ace-king, the dealer shall return each player's Bet Wager and pay out the player's Ante Wager made by the player in accordance with the payout odds in § 639a.12(a) and (b) (relating to payout odds; rate of progression).

(ii) Is an ace-king or better, and the player's highest ranking five-card Poker hand:
(A) Is ranked lower than the dealer's five-card Poker hand, the dealer shall immediately collect the Ante and Bet Wagers made by the player.

(B) Is ranked higher than the dealer's five-card Poker hand, the dealer shall pay the Ante and Bet Wagers made by the player in accordance with the payout odds in § 639a.12(a) and (b).

(C) Is equal in rank to the dealer's five-card hand, the dealer shall return the Ante and Bet Wagers made by the player.

(4) The dealer shall settle any Caribbean Stud Bonus Wager made by the player by determining whether the player's five-card Poker hand qualifies for a payout in accordance with § 639a.12(c). A winning Caribbean Stud Bonus Wager shall be paid irrespective of whether the player's five-card Poker hand outranks the dealer's hand.

(5) After settling a player's Ante, Bet and Caribbean Stud Bonus Wagers, the dealer shall then settle the Progressive Payout Wager, if offered by the certificate holder. A winning Progressive Payout Wager shall be paid irrespective of whether the player's five-card Poker hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Verify that the appropriate light on the progressive table game system has been illuminated.

(iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(iv) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 639a.12(d). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(v) Pay any Envy Bonus won in accordance with § 639a.12(d)(6) if Paytable D in § 639a.12(d)(1) is selected by the certificate holder. Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Caribbean Stud Poker table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one other player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(6) After settling a player's Ante, Bet and Caribbean Stud Bonus Wagers, the dealer shall settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. A winning Five Card Hand Bonus Wager shall be paid
irrespective of whether the player's hand outranks the dealer's hand. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).

(iii) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 639a.12(e). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(d) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 639a.12. Payout odds; rate of progression.

(a) A certificate holder shall pay each winning Ante Wager at odds of 1 to 1.

(b) A certificate holder shall pay winning Bet Wagers in accordance with the following odds:

(b) If an automated card shuffling device is utilized, Four Card Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Four Card Poker shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 641a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 641a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).
(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 641a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

   (1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 641a.8, § 641a.9 or § 641a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

   (2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Four Card Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 641a.4(c) (relating to opening of the table for gaming) and this section shall be completed.
(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(c) When comparing two Poker hands that are of identical rank under subsection (b), or that contain none of the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered the
higher ranking hand. If the hands are of equal rank after the application of this section, the hands shall be considered a tie.

(d) When the certificate holder offers a payout based on the rank of a five-card Poker hand, the rank of the hands must be:

§ 641a.7. Wagers.

(b) Only players who are seated at a Four Card Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Play Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 641a.8, § 641a.9 or § 641a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 641a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Four Card Poker:
(1) A player may compete solely against the dealer's Four Card Poker hand by placing an Ante Wager then a Play Wager, in accordance with § 641a.11(b), in an amount from one to three times the amount of the player's Ante Wager.

(2) A player may compete solely against a posted paytable by placing an Aces Up Wager.

(3) A player may compete against both the dealer's Four Card Poker hand and the posted paytable by placing an Ante Wager and an Aces Up Wager in accordance with paragraphs (1) and (2).

(4) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player at a Four Card Poker table the option to make an additional Four-Card Progressive Payout Wager that the player will receive a Four-Card Progressive Payout Hand. After placing an Ante Wager or an Aces Up Wager, or both, a player may make the additional Four-Card Progressive Payout Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Four-Card Progressive Payout Wager has been accepted.

(5) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Four Card Poker table the option to make an additional Five-Card Progressive Payout Wager that the player will receive a Five-Card Progressive Payout Hand. After placing an Ante Wager or an Aces Up Wager, or both, a player may make the additional Five-Card Progressive Payout Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Five-Card Progressive Payout Wager has been accepted.

(6) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Four Card Poker table the option to make an additional Bad Beat Bonus Wager that either the player's hand contains a two pair or better and the dealer's hand outranks the player's hand, or the dealer's hand contains a two pair or better and the player's hand outranks the dealer's hand. After placing an Ante Wager or an Aces Up Wager, or both, a player may make the additional Bad Beat Bonus Wager by placing a value chip onto the designated area of the layout for that player. Winning wagers shall be paid out based on the rank of the losing hand.

(7) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Four Card Poker table the option to make an additional Five Card Hand Bonus Wager that the player's five-card Poker hand or the dealer's five-card Poker hand, or both, will contain a flush or better as defined in § 641a.6(d) (relating to Four Card Poker rankings). After placing an Ante Wager, a player may make the additional Five Card Hand Bonus Wager on the player's hand or the dealer's hand, or both, by using the electronic wagering device designated for that player. Each player shall be responsible for verifying that the player's Five Card Hand Bonus Wager has been accepted.
(e) A certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 641a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 641a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed a wager in accordance with § 641a.7 (relating to wagers) and to the dealer until each player who placed a wager has five cards and the dealer has six cards. All cards dealt to the players and the first five cards dealt to the dealer shall be dealt face down. The dealer’s sixth card shall be dealt face up. The dealer’s fifth and sixth cards shall be dealt consecutively.

(e) After five cards have been dealt to each player and six cards to the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.
If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 5 cards or the dealer has more or less than 6 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 641a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

1. An automated shuffling device shall be used to shuffle the cards.

2. After the procedures required under § 641a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

3. Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed a wager in accordance with § 641a.7 (relating to wagers) and to the dealer until each player who placed a wager has five cards and the dealer has six cards. All cards dealt to the players and the first five cards dealt to the dealer shall be dealt face down. The sixth card dealt to the dealer shall be dealt face up. The dealer’s fifth and sixth cards shall be dealt consecutively.

(c) After five cards have been dealt to each player and six cards have been dealt to the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct
number of cards are still present in the deck. The dealer shall determine the number of cards in
the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place
the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the
dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or
less than 5 cards or the dealer has more or less than 6 cards) but 52 cards remain in the deck, all
hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt,
all hands shall be void, all wagers shall be returned to the players and the entire deck of cards
shall be removed from the table.

§ 641a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements
shall be observed:

(1) After the procedures required under § 641a.5 (relating to shuffle and cut of
the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no
more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being
offered, use the progressive table game system or the electronic wagering system to prevent the
placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any
Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the
layout in front of the table inventory container, verify that the number of value chips wagered
equals the number of Progressive Payout Wagers accepted by the progressive table game system.
The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing
shoe face down to the player farthest to the dealer’s left who has placed a wager in accordance
with § 641a.7 (relating to wagers). As the remaining stacks are dispensed to the dealer by the
automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face
down to each of the other players who has placed a wager in accordance with § 641a.7. The
dealer shall then deliver a stack of five cards face down to the area designated for the placement
of the dealer’s cards. When the automated dealing shoe dispenses the next sequence of five
cards, the dealer shall remove the stack and spread the cards face down on the layout so that the
top card of the stack is to the dealer’s right and the bottom card is to the dealer’s left. The dealer
shall turn the bottom card of the stack (the card on the dealer’s far left) face up on the dealer’s
hand. The dealer shall collect the remaining four cards of that stack and place the cards in the
discard rack without revealing the cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with
subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as
provided in subsection (d), place the cards in the discard rack without exposing the cards.
(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 5 cards or the dealer has more or less than 6 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe that automatically reshuffles the cards, the dealer’s six cards may be dispensed before the five cards are dispensed to each player.

§ 641a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 641a.8, § 641a.9 or § 641a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Four Card Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards and placed the cards face down on the layout, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Play Wager in an amount from one to three times the amount of the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player:

(1) Has placed an Ante Wager and an Aces Up Wager but does not make a Play Wager, the player shall forfeit the Ante Wager but may not forfeit the Aces Up Wager.

(2) Has placed an Ante Wager and a Four or Five-Card Progressive Payout Wager but does not make a Play Wager, the player shall forfeit both the Ante Wager and the Progressive Payout Wager but may not forfeit the eligibility to receive an Envy Bonus under § 641a.12(d) or (e) (relating to payout odds; Envy Bonus; rate of progression).
(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his Ante Wager and hand, the dealer shall collect all forfeited wagers and associated cards and place the cards in the discard rack. The dealer shall then reveal the dealer's cards and select the four cards that form the highest possible ranking Four Card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the five cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and select the four cards that form the highest possible ranking Poker hand for each player.

(3) If a player's highest ranking Four Card Poker hand is ranked:
   
   (i) Lower than the dealer's Four Card Poker hand, the dealer shall immediately collect the Ante and Play Wagers made by the player.

   (ii) Higher than or equal to the dealer's Four Card Poker hand, the dealer shall pay the Ante and Play Wagers and any Ante Bonus in accordance with the payout odds in § 641a.12(a) and (b).

(4) After settling a player's Ante and Play Wagers, the dealer shall settle any Aces Up Wagers by determining whether the player's Four Card Poker hand qualifies for a payout in accordance with § 641a.12(c). A winning Aces Up Wager shall be paid irrespective of whether the player's Four Card Poker hand outranks the dealer's hand.

(5) The dealer shall then settle the player's Four or Five-Card Progressive Payout Wager, if offered by the certificate holder. For the Five-Card Progressive Wager, the dealer shall form the highest ranking five-card Poker hand from the five cards dealt to each player. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

   (i) Verify that the hand is a winning hand.

   (ii) Verify that the appropriate light on the progressive table game system has been illuminated.

   (iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

   (iv) Pay the winning Four-Card Progressive Payout Wager in accordance with the payout odds in § 641a.12(d) or the winning Five-Card Progressive Payout Wager in accordance with the payout odds in § 641a.12(e). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be
paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.

(v) Pay any Envy Bonus as follows:

(A) A player making a Four-Card Progressive Payout Wager shall receive a Four-Card Envy Bonus when another player at the same Four Card Poker table is the holder of a Four-Card Envy Bonus Qualifying Hand. Players are entitled to multiple Four-Card Envy Bonuses if more than one other player is the holder of a Four-Card Envy Bonus Qualifying Hand. A player is not entitled to a Four-Card Envy Bonus for his own hand or the hand of the dealer. Four-Card Envy Bonus payouts shall be made in accordance with the payouts in § 641a.12(d)(5).

(B) A player making a Five-Card Progressive Payout Wager shall receive a Five-Card Envy Bonus when another player at the same Four Card Poker table is the holder of a Five-Card Envy Bonus Qualifying Hand. Players are entitled to multiple Five-Card Envy Bonuses if more than one other player is the holder of a Five-Card Envy Bonus Qualifying Hand. A player is not entitled to a Five-Card Envy Bonus for his own hand or the hand of the dealer. Five-Card Envy Bonus payouts shall be made in accordance with the payouts in § 641a.12(e)(5).

(6) After settling any Aces Up Wagers, the dealer shall settle a player's Bad Beat Bonus Wager. A player shall win a Bad Beat Bonus payout, in accordance with § 641a.12(f), based on the rank of the losing hand if:

(i) The player's hand contains a two pair or better and the dealer's hand outranks the player's hand.

(ii) The dealer's hand contains a two pair or better and the player's hand outranks the dealer's hand.

(7) After settling a player's Aces Up Wagers, the dealer shall settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. The dealer shall form the highest ranking five-card Poker hand of the player and the dealer. For the dealer's hand, the dealer shall form the highest ranking five-card Poker hand from the first five cards dealt to the dealer. A winning Five Card Hand Bonus Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).
(iii) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 641a.12(g). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(d) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 641a.12. Payout odds; Envy Bonus; rate of progression.

(a) A certificate holder shall pay each winning Ante Wager and Play Wager at odds of 1 to 1.

(b) If the deck of cards used by the certificate holder contains two jokers, the dealer and a floorperson shall ensure that only one joker is utilized and that the other joker is torn in half and placed in the box, envelope or container that the deck came from. After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence and include the one joker.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 645a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 645a.5. Shuffle and cut of the cards; procedures for determining the starting position for dealing cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by the floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall:
(1) If the cards were shuffled using an automated card shuffling device, determine the starting position in accordance with subsection (i), then deal the cards in accordance with § 645a.8, § 645a.9 or § 645a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with the procedures in subsections (c) – (e).

(c) Upon completion of a manual shuffle, the dealer shall place the stack of cards on top of one of the cover cards. The dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (d). If no player accepts the cut, the dealer shall cut the cards.

(d) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player who accepts the bank under § 645a.12 (relating to player bank; co-banking; selection of bank; procedures for dealing), if offered by the certificate holder. If the bank refuses the cut, the cards shall be offered to the player to the right of the bank, and continuing around the table in a counterclockwise manner, until a player accepts the cut.

(3) The player at the farthest position to the right of the dealer, if there is no bank. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(e) The player or dealer making the cut shall place the second cover card in the stack at least ten cards from the top or the bottom of the deck. Once the second cover card has been inserted, the dealer shall take the second cover card and all the cards on top of the second cover card and place them on the bottom of the stack. The dealer shall then remove the first cover card and place it on the bottom of the stack. The dealer shall remove one of the cover cards and either place it in the discard rack or use it as an additional cover card to be inserted four cards from the bottom of the deck. The dealer shall then determine the starting position in accordance with subsection (i) and deal the cards in accordance with § 645a.8, § 645a.9 or § 645a.10.

(f) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards, or by the next person entitled to cut the cards, as determined under subsection (d).

(g) If there is no gaming activity at a Pai Gow Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards:
(1) If there is no automated shuffling device in use, the cards shall be mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section.

(2) If an automated shuffling device is in use, the cards shall be stacked and placed into the automated shuffling device to be shuffled. The deck of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the deck of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if the automated card shuffling device stores a single deck of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(i) To determine the starting position for the dealing of cards, the certificate holder shall use one of the following:

(1) A Pai Gow Poker shaker in accordance with the following procedures:

(i) The dealer shall shake the Pai Gow Poker shaker at least three times to cause a random mixture of the dice. If a player is the bank, in accordance with § 645a.12, the player shall shake the Pai Gow Poker shaker instead of the dealer. The dealer shall ensure that the bank shakes the Pai Gow Poker shaker at least three times.

(ii) The dealer shall then remove the lid covering the Pai Gow Poker shaker and place the uncovered shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total. If a player is the bank and the player inadvertently removes the lid, the Pai Gow Poker shaker shall be covered and reshaken by the bank.

(iii) To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice. If a player is the bank, when counting the betting positions to determine the starting position for dealing the cards, the bank, instead of the dealer, shall be considered number one.

(iv) After the dealing procedures required under § 645a.8, § 645a.9 or § 645a.10 have been completed, the dealer shall place the cover on the Pai Gow Poker shaker and shake the shaker once. The Pai Gow Poker shaker shall then be placed to the right of the dealer.

number one and continuing around the table in a counterclockwise manner until the count matches the number displayed by the random number generator. If a player is the bank in accordance with § 645a.12, when counting the betting positions to determine the starting position for dealing the cards, the bank, instead of the dealer, shall be considered number one.

(j) After the starting position for a round of play has been determined, a certificate holder may mark that position with an additional cover card or similar object approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment).

(b) Only players who are seated at a Pai Gow Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers at Pai Gow Poker shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 645a.8, § 645a.9 or § 645a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). A wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place a Pai Gow Poker Wager.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player who placed a Pai Gow Poker Wager, in accordance with subsection (d), the option of placing the following additional wagers:

If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 645a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 645a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager, Emperor's Treasure Wager or Dynasty Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 645a.5(i).
(d) The dealer shall then deal the first card to the starting position as determined in subsection (c) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has seven cards. Each card dealt shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(e) After seven cards have been dealt to each position and the dealer, the dealer shall remove the stub from the manual dealing shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(f) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 645a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 645a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus Wager, Emperor's Treasure Wager or Dynasty Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips
wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall then determine the starting position for dealing the cards using one of the procedures authorized under § 645a.5(i).

(c) The dealer shall then deal the first card to the starting position as determined in subsection (b) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has seven cards.

(d) After seven cards have been dealt to each position and the dealer, the dealer shall determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 645a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures under § 645a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus Wager, Emperor's Treasure Wager or Dynasty Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers
and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures authorized under § 645a.5(i).

(c) After the starting position for delivering the cards has been determined, the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer.

(d) After seven cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 645a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 645a.8, § 645a.9 or § 645a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Pai Gow Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands of the dealer to be set in accordance with the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions).

(2) Each player shall keep his seven cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.
(b) Each player shall set his hands by arranging the cards into a high hand and a low hand. When setting the two hands, the five-card high hand must be equal to or higher in rank than the two-card low hand. For example, if the two-card hand contains a pair of sevens, the five-card hand must contain at least a pair of sevens and the three remaining cards.

(c) After all players have set their hands and placed the cards on the table, the seven cards of the dealer shall be turned over and the dealer shall set his hands by arranging the cards into a high and low hand. The certificate holder shall specify in its Rules Submission under § 601a.2 the manner in which the hands of the dealer shall be set. The dealer shall then place the two hands face up on the appropriate area of the layout. If a player is acting as the bank in accordance with § 645a.12 (relating to player bank; co-banking; selection of bank; procedures for dealing), after all players have set their hands and placed the cards on the table, the bank shall turn over his seven cards and set the two hands by arranging the cards in a high and low hand on the appropriate area of the layout.

(d) Unless a player has placed an optional wager authorized under § 645a.7(e)(1)—(5) (relating to wagers), a player may surrender his wager after the hands of the dealer or the bank have been set. The player shall announce his intention to surrender prior to the dealer exposing either of the two hands of that player as provided in subsection (e). Once the player has announced his intention to surrender, the dealer shall immediately collect the Pai Gow Poker Wager from that player and collect the seven cards dealt to that player without exposing the cards to anyone at the table. If any Qualifying Wagers have been placed, the cards of the player shall remain on the table until collected in accordance with subsection (h). The dealer shall verify that seven cards were collected by counting them face down on the layout prior to placing them in the discard rack.

(e) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the high and low hand of each player to the high and low hand of the dealer and shall announce if the Pai Gow Poker Wager of that player wins, loses or is a tie.

(f) A Pai Gow Poker Wager will:

(1) Lose and will immediately be collected if:

   (i) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

   (ii) The high hand of the player is identical in rank to the high hand of the dealer or the low hand of the player is identical in rank to the low hand of the dealer and the other hand of the player is identical in rank or lower in rank than the other hand of the dealer.

   (iii) The high hand of the player was not set so as to rank equal to or higher than the low hand of that player.
(iv) The two hands of the player were not otherwise set correctly in accordance with this chapter.

(v) Notwithstanding subparagraphs (i)—(iv), if the table is designated for play as an EZ Pai Gow Poker table in which vigorish is not collected and if the dealer has a Queen's Dragon, the player's Pai Gow Poker Wager shall push and be returned to the player.

(2) Tie and will be returned to the player if:

(i) The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is identical in rank to the low hand of the dealer or lower in rank than the low hand of the dealer.

(ii) The high hand of the player is identical in rank to the high hand of the dealer or lower in rank than the high hand of the dealer, but the low hand of the player is higher in rank than the low hand of the dealer.

(iii) The dealer has a Queen's Dragon and the table is designated for play as an EZ Pai Gow Poker table in which vigorish is not collected.

(3) Win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is higher in rank than the low hand of the dealer provided that if the table is designated for play as an EZ Pai Gow Poker table and the dealer has a Queen's Dragon, the player's Pai Gow Poker Wager shall push and be returned to the player. The dealer shall pay the winning Pai Gow Poker Wager in accordance with the payout odds in § 645a.13(a) (relating to payout odds; Envy Bonus; rate of progression; payout limitation).

(g) Except as provided in subsection (h), after settling the player's Pai Gow Poker Wager, the dealer shall place the cards of the player in the discard rack.

(h) After settling the player's Pai Gow Poker Wager, the dealer shall rearrange the seven cards of any player who placed an optional wager, in accordance with § 645a.7(e)(1)—(5), to form the highest ranking hand and be responsible for creating the hand for purposes of all optional wagers offered by the certificate holder. If any player at the table has placed a Qualifying Wager, the dealer shall rearrange the cards of all players regardless of whether the player placed a Fortune Bonus, Emperor's Treasure or Dynasty Bonus Wager. After rearranging the player's seven cards, the dealer shall:

A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.
(iii) After all Envy Bonuses have been paid, the dealer shall collect all remaining cards and place them in the discard rack.

(6) Settle the player's Dynasty Bonus Wager as follows:

   (i) If a player:
(A) Does not have a three-of-a-kind or better as described in § 645a.6(b) and (g), the dealer shall collect the Dynasty Wager and place the cards of the player in the discard rack.

(B) Has a three-of-a-kind or better, the dealer shall pay the winning Dynasty Wager in accordance with § 645a.13(g). If the player has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(C) Did not place a Dynasty Wager but has an Envy Bonus Qualifying Hand and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Dynasty Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 645a.13(g) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(7) Settle the player's Protection Wager. If the player's hand does not contain a high card of a 9, 10, jack, queen, king or ace, or the hand contains a pair or better, as described in § 645a.6(b), the dealer shall collect the Protection Wager and place the cards of the player in the discard rack. If the player's hand does not contain a pair or better but contains a high card of a 9, 10, jack, queen, king or ace, the dealer shall pay the winning wager in accordance with § 645a.13(h).

(8) Settle the player's Red/Black Wager. If the player wagered on red and the player's hand does not contain four or more red cards, or if the player wagered on black and the player's hand does not contain four or more black cards, the dealer shall collect the Red/Black Wager and place the cards of the player in the discard rack. If a player's hand does contain four or more of the cards of the player's chosen color, the dealer shall pay the winning Red/Black Wager in accordance with § 645a.13(i).

(i) Notwithstanding the requirements in subsection (h), if the certificate holder offers more than one optional wager, the dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

(j) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 645a.12. Player bank; co-banking; selection of bank; procedures for dealing.
(a) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to all players at a Pai Gow Poker table the opportunity to bank the game. If the certificate holder elects this option, the provisions of this section control for any round of play in which a player is the bank. All other provisions of this chapter apply to the extent that they do not conflict with the provisions in this section.

(b) A player may not be the bank at the start of the game. For the purposes of this section, the start of the game means the first round of play after the dealer is required to shuffle the cards in accordance with § 645a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards).

(c) After the first round of play, each player at the table shall have the option to either be the bank or pass the bank to the next player. The dealer shall offer the bank to each player, starting with the player farthest to the dealer’s right and continuing around the table in a counterclockwise manner, until a player accepts the bank. The dealer shall place a marker designating the bank in front of the player who accepts the bank. If the first player offered the bank accepts, the player seated to the right of the bank shall be offered the bank first on the next round of play. A player may not bank two consecutive rounds of play. If no player accepts the bank, the round of play shall proceed in accordance with the rules of play provided in this chapter.

(d) Before a player may bank a round of play, the dealer shall confirm that:

(1) The player placed a Pai Gow Poker Wager against the dealer during the last round of play in which there was no player banking the game.

(2) The player has sufficient value chips or plaques on the table to cover all of the Pai Gow Poker Wagers placed by other players at the table for that round of play.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2, offer the bank the option of co-banking the round of play. If the certificate holder offers this option, it shall be made available to all players at the table. If the bank wishes to use this option and co-bank 50% of the winning Pai Gow Poker Wagers, the bank must specifically request to co-bank with the dealer. The dealer shall place a marker designating the player co-banking that round of play. When the dealer is co-banking, the dealer shall be responsible for setting the hand of the bank in the manner as specified in the certificate holder’s Rules Submission under § 601a.2. When co-banking is in effect, the dealer may not place a wager against the bank.

(f) If a player is the bank, the player may wager on only one betting area.

(g) Once the dealer has determined that a player may be the bank, as required under subsection (d), the dealer shall shuffle the cards in accordance with § 645a.5. The dealer shall then, unless co-banking is in effect, remove value chips from the table inventory container in an amount equal to the banker’s last Pai Gow Poker Wager made against the dealer or in an amount as specified in the certificate holder’s Rules Submission. This amount shall be the amount the dealer wagers against the bank. The bank may direct that the sum wagered by the dealer be a
lesser amount or that the dealer place no wager during that round of play. Any amount wagered by the dealer shall be placed in front of the table inventory container.

(h) The dealer shall then determine the starting position for dealing the cards in accordance with § 645a.5(i) and deal the cards in accordance with § 645a.8, § 645a.9 or § 645a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(i) If the dealer placed a wager against the bank, after each player has set his two hands and placed them on the table layout, the two hands of the dealer shall then be set. Once the dealer has formed a high and low hand and placed the hands face up on the appropriate area of the table layout, the dealer shall expose the hands of the bank and determine if the hands of the dealer are higher in rank than the hands of the bank. If the bank did not set his hands correctly, the dealer shall reset the bank’s hands in accordance with the certificate holder’s Rules Submission under § 601a.2. If the dealer wins, the cards of the dealer shall be stacked face up to the right of the table inventory container with the amount wagered by the dealer against the bank placed on top. If the dealer loses, the amount wagered by the dealer against the bank shall be moved to the center of the layout.

(j) If a player is banking the round of play, once the dealer has determined the outcome of the Pai Gow Poker Wager of the dealer against the bank, if any, the dealer shall, starting with the player farthest to the dealer’s right and continuing around the table in a counterclockwise manner, expose the hands of each player. The dealer shall compare the high and low hand of the player to the high and low hand of the bank and announce if the wager shall win, lose or tie. Losing wagers shall be immediately collected and placed in the center of the table. All winning Pai Gow Poker Wagers, including the dealer’s wager, shall be paid by the dealer with the value chips located in the center of the table. If this amount becomes exhausted before all winning Pai Gow Poker Wagers have been paid, the dealer shall collect from the bank an amount equal to the remaining winning wagers and place that amount in the center of the layout. The remaining winning wagers shall be paid from the amount in the center of the layout. If, after collecting all losing wagers and paying all winning Pai Gow Poker Wagers, there is a surplus in the center of the table, this amount shall be charged a 5% vigorish in accordance with § 645a.13(a) (relating to payout odds; Envy Bonus; rate of progression; payout limitation). Once the vigorish has been paid, the remaining amount shall be given to the bank.

(k) Immediately after a winning Pai Gow Poker Wager of the dealer is paid, this amount and the dealer’s original wager shall be returned to the table inventory container.

(l) If a player and the dealer are co-banking the round of play, once the dealer has set the co-bank’s hand under subsection (e), the dealer shall, starting with the player farthest to the dealer’s right and continuing around the table in a counterclockwise manner, expose the hands of each player. The dealer shall compare the high and low hand of the player to the high and low hand of the bank and announce if the wager shall win, lose or tie. Losing wagers shall be immediately collected and placed in the center of the table. All winning Pai Gow Poker Wagers
shall be paid by the dealer with the value chips located in the center of the table. If this amount becomes exhausted before all winning Pai Gow Poker Wagers have been paid, the dealer shall collect from the bank an amount equal to 1/2 of the remaining winning wagers and place that amount in the center of the layout. The dealer shall remove an amount equal to 1/2 of the remaining winning wagers from the table inventory container and place that amount in the center of the layout. The remaining winning wagers shall be paid from the total amount in the center of the layout. If, after collecting all losing wagers and paying all winning Pai Gow Poker Wagers, there is a surplus in the center of the table, this amount will be counted and the dealer shall place 1/2 of this amount into the table inventory container. The dealer shall collect a 5% vigorish, in accordance with § 645a.13(a), on the remaining amount. Once the vigorish has been paid, the remaining amount shall then be given to the bank.

(m) Each player who has a winning Pai Gow Poker Wager against the bank shall pay to the dealer, in accordance with § 645a.13(a), a 5% vigorish on the amount won.

(n) If the certificate holder offers an optional wager authorized under § 645a.7(e)(1)—(4) (relating to wagers), the optional wager shall be resolved in accordance with § 645a.11(g)—(j) (relating to procedures for completion of each round of play) and the dealer, not the bank, shall pay all winning optional wagers.

§ 645a.13. Payout odds; Envy Bonus; rate of progression; payout limitation.

(a) A certificate holder shall pay each winning Pai Gow Poker Wager at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to 5% of the amount won. When collecting the vigorish, the certificate holder may round off the vigorish to 25¢ or the next highest multiple of 25¢. A certificate holder shall collect the vigorish from a player at the time the winning payout is made.

(b) The certificate holder shall pay out winning Fortune Bonus Wagers and Envy Bonus payouts at the odds and amounts in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures

(b) Prior to dealing the cards and after all Ante and Texas Hold 'Em Bonus Wagers have been placed, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or Five Card Hand Bonus Wager is being offered, use the progressive table game system or electronic wagering system to prevent the placement of additional Progressive Payout or Five Card Hand Bonus Wagers. If Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time, face down, to each player who placed an Ante Wager in accordance with § 647a.7(d)(1) (relating to wagers) and to the dealer, under a cover card, until each player who placed an Ante Wager and the dealer have two cards.

After all community cards have been dealt, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 647a.9. Procedure for dealing the cards from the hand.
(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 647a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) The dealer shall announce “no more bets” and, if the Progressive Payout Wager or Five Card Hand Bonus Wager is being offered, use the progressive table game system or electronic wagering system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container. The dealer shall then deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager in accordance with § 647a.7(d)(1) (relating to wagers) and to the dealer, under a cover card, until each player who placed an Ante Wager and the dealer have two cards.

(c) After two cards have been dealt to each player and to the area designated for the placement of the dealer’s hand, the dealer shall deal the five community cards in accordance with § 647a.11(c), (e) and (f) (relating to procedure for completion of each round of play). After all community cards have been dealt, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.
§ 647a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 647a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or Five Card Hand Bonus Wager is being offered, use the progressive table game system or electronic wagering system to prevent the placement of additional Progressive Payout Wagers. If Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of two cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed an Ante Wager in accordance with § 647a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack of two cards face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of two cards face down under a cover card to the area designated for the dealer’s cards.

(c) After each stack of two cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the remaining cards from the automated dealing shoe and, following the procedures in § 647a.9(a)(2) (relating to procedure for dealing the cards from the hand), deal from his hand the five community cards in accordance with § 647a.11(c), (e) and (f) (relating to procedure for completion of each round of play). After all five community cards have been dealt, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards
were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe which automatically reshuffles the cards, the five community cards may be dispensed before the two cards are dispensed to each player and to the dealer. The community cards shall then be revealed in accordance with § 647a.11(c), (e) and (f).

§ 647a.11. Procedure for completion of each round of play.

(a) After the dealing procedures required under § 647a.8, § 647a.9 or § 647a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Flop Wager prior to the dealing of the Flop. The player may either fold or place a Flop Wager equal to twice the amount of the player's Ante Wager. If a player:

(1) Places a Flop Wager, the wager shall be placed in the area designated for the Flop Wager.

(2) Folds, the player's Ante Wager shall be collected by the dealer and placed in the table inventory container. If the player:

(C) A Five Card Hand Bonus Wager, the dealer shall place the cards of the player face down on the table pending resolution of the Five Card Hand Bonus Wager in accordance with subsection (j).

(c) After each player has either placed a Flop Wager or folded, the dealer shall burn the next card. The dealer shall then deal the Flop face up to the designated area for the community cards.

(d) After the Flop has been dealt, the dealer shall, beginning with the player farthest to the dealer's left who has placed a Flop Wager and moving clockwise around the table, ask each player who has placed a Flop Wager if he wishes to place a Turn Wager prior to the dealing of the Turn card. The player may either check and remain in the game or place a Turn Wager in an amount equal to the player's Ante Wager.

(e) Once all remaining players have either placed a Turn Wager or checked, the dealer shall burn the next card. The dealer shall then deal the Turn card face up to the designated area for the community cards.

(f) After the Flop and Turn cards have been dealt, the dealer shall, beginning with the player farthest to the dealer's left who has placed a Flop Wager and moving clockwise around the table, ask each player if he wishes to place a River Wager prior to the dealing of the River card. The player may either check and remain in the game or place a River Wager in an amount equal to the player's Ante Wager.

(h) After the five community cards have been dealt, the dealer shall remove the cover card on top of the dealer's cards and turn his two cards face up on the layout. The dealer shall then select five cards using the dealer's two cards and the five community cards to form the highest ranking five-card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right who has placed a Flop Wager and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the two cards of each player who has placed a Flop Wager face up on the layout.

(2) The dealer shall examine the cards of the player and select the five cards using the player's two cards and the five community cards to form the highest ranking five-card Poker hand. The wagers of each player shall be resolved one player at a time regardless of outcome. If a player's five-card Poker hand:
(i) Is ranked lower than the dealer's five-card Poker hand, the dealer shall immediately collect the Ante, Flop, Turn and River Wagers made by the player.

(ii) Is ranked higher than the dealer's five-card Poker hand, the dealer shall pay the Ante, Flop, Turn and River Wagers in accordance with the payout odds in § 647a.12 (relating to payout odds; payout limitation). The player's Ante Wager will be returned if the player's winning hand is not a straight or higher or a flush or higher as specified in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions).

(iii) Is equal in rank to the dealer's five-card hand, the dealer shall return the player's Ante, Flop, Turn and River Wagers.

(3) After settling a player's Ante, Flop, Turn and River Wagers, the dealer shall settle any Texas Hold 'Em Bonus Wager made by the player by determining whether the player's two cards qualify for a payout in accordance with § 647a.12(b).

(i) The dealer shall then settle the Progressive Payout Wager, if offered by the certificate holder. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand and be based on the rank of the player's two cards and the three-card Flop. If a player has won a progressive payout, the dealer shall:

(1) Verify that the hand is a winning hand.

(2) Verify that the appropriate light on the progressive table game system has been illuminated.

(3) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(4) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 647a.12(d). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.

(5) Pay any Envy Bonus won in accordance with § 647a.12(d). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Ultimate Texas Hold 'Em Poker table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one other player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(j) The dealer shall settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. A winning Five Card Hand Bonus shall be
paid irrespective of whether the player's hand outranks the dealer's hand and based on the rank of the player's or the dealer's two cards and the three-card Flop. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:

(1) Verify that the hand is a winning hand.

(2) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).

(3) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 647a.12(e). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(k) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 647a.12. Payout odds; payout limitation.

Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Three Card Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first
player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 649a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Play Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 649a.8, § 649a.9 or § 649a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). After placing an Ante Wager or a Pair Plus Wager, or both, a player may make the additional Progressive Payout Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

5. A certificate holder may, if specified in its Rules Submission under § 601a.2, offer to each player at a Three Card Poker table the option to make an additional Six Card Bonus Wager that the three cards dealt to the dealer and the three cards dealt to the player will form a five-card Poker hand with a rank of a three-of-a-kind or better. If the certificate holder has selected paytable E in § 649a.12(f) (relating to payout odds; Envy Bonus; rate of progression), the three cards dealt to the dealer and the three cards dealt to the player shall be used to form a six-card Poker hand for purposes of the Super Royal payout. After placing an Ante Wager or a Pair Plus Wager, or both, a player may make the additional Six Card Bonus Wager by placing a value chip on the designated betting area prior to the dealer announcing “no more bets.”

6. If specified in its Rules Submission under § 601a.2, certificate holder may offer to each player at a Three Card Poker table the option to make an additional Five-Card Progressive Payout Wager that the player will receive a Five-Card Progressive Payout Hand. After placing an Ante Wager or a Pair Plus Wager, or both, a player may make the additional Five-Card Progressive Payout Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Five-Card Progressive Payout Wager has been accepted.

7. If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Three Card Poker table the option to make an additional Five Card Hand Bonus Wager that the player's five-card Poker hand or the dealer's five-card Poker hand, or both, will contain a flush or better as defined in § 649a.6(d) (relating to Three Card Poker rankings). After placing an Ante Wager or a Pair Plus Wager, or both, a player may make the additional Five Card Hand Bonus Wager on the player's hand or the dealer's hand, or both, by using the
electronic wagering device designated for that player. Each player shall be responsible for verifying that the player's Five Card Hand Bonus Wager has been accepted.

(e) Notwithstanding subsection (d)(1)—(3), a certificate holder may offer a version of Three Card Poker requiring:

(1) As a precondition to the placement of a Pair Plus Wager, the placement of an Ante Wager in an amount equal to or greater than the Pair Plus Wager.

(2) As a precondition to the placement of a Pair Plus Wager, the placement of an Ante Wager in an amount equal to at least 1/2 the Pair Plus Wager.

(3) The compulsory placement of an Ante Wager and a Pair Plus Wager, provided that one wager may be placed in an amount up to a maximum of five times the amount of the other wager without regard to which wager is the greater of the two.

(f) A certificate holder shall specify in its Rules Submission under § 601a.2, the number of adjacent boxes on which a player may place a wager in one round of play.

§ 649a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 649a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and, if a Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed a wager in accordance with § 649a.7 (relating to wagers) and to the dealer until each player who placed a wager and the dealer have three cards. All cards shall be dealt face down. If a player has placed a Five Card Hand Bonus Wager or a Five-Card Progressive Payout Wager, the dealer
shall deal an additional two cards face down on the table to a dedicated area to the right of the dealer.

(e) After three cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 649a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 649a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and, if a Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.
(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed a wager in accordance with § 649a.7 (relating to wagers) and to the dealer until each player who placed a wager and the dealer have three cards. All cards shall be dealt face down. If a player has placed a Five Card Hand Bonus Wager or a Five-Card Progressive Payout Wager, the dealer shall deal an additional two community cards face down on the table to a dedicated area to the right of the dealer.

(c) After three cards have been dealt to each player and the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 649a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 649a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if a Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.
(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed a wager in accordance with § 649a.7 (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed a wager in accordance with § 649a.7. The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards. If a player has placed a Five Card Hand Bonus Wager or a Five-Card Progressive Payout Wager, after removing the stub from the automated dealing shoe, the dealer shall deal an additional two community cards face down on the table to a dedicated area to the right of the dealer. Except as provided in subsection (d), the dealer shall then place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards is still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 649a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 649a.8, § 649a.9 or § 649a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

1. Each player who wagers at Three Card Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

2. Each player shall keep his three cards in full view of the dealer at all times.
(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Play Wager in an amount equal to the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player:

(1) Has placed an Ante Wager and a Pair Plus Wager but does not make a Play Wager, the player shall forfeit both the Ante Wager and the Pair Plus Wager.

(2) Has placed an Ante Wager and a Three or Five-Card Progressive Payout Wager but does not make a Play Wager, the player shall forfeit both the Ante Wager and the Progressive Payout Wager but may not forfeit the eligibility to receive an Envy Bonus under § 649a.12(e) or (h) (relating to payout odds; Envy Bonus; rate of progression).

(3) Has placed an Ante Wager, a Pair Plus Wager and a Six Card Bonus or Five Card Hand Bonus Wager, but does not make a Play Wager, the player shall forfeit both the Ante Wager and the Pair Plus Wager but does not forfeit the Six Card Bonus or Five Card Hand Bonus Wager.

(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his Ante Wager and hand, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed a Six Card Bonus or Five Card Hand Bonus Wager, and place the cards in the discard rack. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking Three Card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the three cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and form the highest possible ranking Three Card Poker hand for each player.

(3) If the dealer's highest ranking Three Card Poker hand:

   (i) Is lower than a queen high, the dealer shall pay each player's Ante Wager and return the player's Play Wager.

   (ii) Is a queen high or better, and the player's highest ranking Three Card Poker hand is ranked:

       (A) Lower than the dealer's Three Card Poker hand, the dealer shall immediately collect the Ante and Play Wagers made by the player.
(B) Higher than the dealer's Three Card Poker hand, the dealer shall pay the Ante and Play Wagers and any Ante Bonus in accordance with the payout odds in § 649a.12(a) and (b).

(C) Equally with the dealer's Three Card Poker hand, the dealer shall return the player's Ante and Play Wagers.

(4) After settling the player's Ante and Play Wagers, the dealer shall settle any Pair Plus Wagers by determining whether the player's Three Card Poker hand qualifies for a payout in accordance with § 649a.12(d). A winning Pair Plus Wager shall be paid irrespective of whether the player's Three Card Poker hand outranks the dealer's hand.

(5) The dealer shall then settle the Progressive Payout Wager, if offered by the certificate holder. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Verify that the appropriate light on the progressive table game system has been illuminated.

(iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(iv) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 649a.12(e). If a player has won a progressive payout that is 100% of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.

(v) Pay any Envy Bonus won in accordance with § 649a.12(e). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Three Card Poker table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one other player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(6) The dealer shall then settle the Six Card Bonus Wager, if offered by the certificate holder. A winning Six Card Bonus Wager shall be paid irrespective of the outcome of the player's Ante Wager or Pair Plus Wager. The dealer shall arrange the dealer's three cards and the player's three cards to form the highest ranking five-card Poker hand for each player. If a player has a three-of-a-kind or better, as described in § 649a.6(d) (relating to Three Card Poker rankings), the dealer shall pay the winning Six Card Bonus Wager in accordance with the payout odds in § 649a.12(f). If the certificate holder has selected paytable E in § 649a.12(f), the three
cards dealt to the dealer and the three cards dealt to the player shall be used to form a six-card Poker hand for purposes of the Super Royal payout.

(7) If the certificate holder offers the Five-Card Progressive Payout Wager, after settling all other wagers, the dealer shall expose the two additional community cards dealt in accordance with §§ 649a.8(d), 649a.9(b) and 649a.10(c) and form the highest ranking five-card Poker hand of the player from the player's three cards and the two community cards. If a player has won a progressive payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Verify that the appropriate light on the progressive table game system has been illuminated.

(iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(iv) Pay the winning Five-Card Progressive Payout Wager in accordance with the payout odds in § 649a.12(h)(1). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.

(v) Pay any Five-Card Envy Bonus won in accordance with § 643a.12(h)(5). Players making a Progressive Payout Wager shall receive a Five-Card Envy Bonus when another player at the same Three Card Poker table is the holder of a Five-Card Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one player is the holder of a Five-Card Envy Bonus Qualifying Hand. A player is not entitled to a Five-Card Envy Bonus for his own hand.

(8) If the certificate holder offers the Five Card Hand Bonus Wager, after settling all other wagers, the dealer shall then settle the Five Card Hand Bonus Wager and any Magic Card or Lucky Bonus payouts. The dealer shall expose the two additional community cards dealt in accordance with §§ 649a.8(d), 649a.9(b) and 649a.10(c) and form the highest ranking five-card Poker hand of the player and the dealer from the player's or dealer's three cards and the two community cards. A winning Five Card Hand Bonus Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).
(iii) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 649a.12(i). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(d) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 649a.12. Payout odds; Envy Bonus; rate of progression.

(a) A certificate holder shall pay each winning Ante Wager and Play Wager at odds of 1 to 1.

(b) A player placing an Ante Wager and a Play Wager shall be paid a bonus on the Ante Wager, at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions), regardless of whether the player’s Three Card Poker hand outranks the dealer’s hand:

After the first player is afforded an opportunity to visually inspect the cards, each batch of cards shall separately be turned face down on the table and stacked.

the stack. The dealer shall then insert the second cover card in the stack at a position at least 1/4
of the way in from the bottom of the stack. The stack of cards shall then be inserted into the
dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing
shoe, a floorperson or above may require the cards to be recut if the floorperson or above

fairness of the game. If a recut is required, the cards shall be recut either by the player who last
cut the cards, or by the next player entitled to cut the cards, as determined under subsection
(c)(4). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(g) If there is no gaming activity at the Casino War table which is open for play, the
cards shall be removed from the dealing shoe and the discard rack and spread out on the table
face down unless a player requests that the cards be spread face up on the table. After the first

(e) Players and spectators may not handle, remove or alter any cards used to play Casino War.

§ 651a.9. Procedures for completion of each round of play; collection and payment of wagers.

(a) After the dealing procedures required under § 651a.8 (relating to procedure for dealing the cards) have been completed, the dealer shall, starting from his right and continuing around the table in a counterclockwise direction, compare the rank of each player’s card with that of the dealer’s card and settle all Initial and Tie Wagers as follows:

(1) If a player’s card is lower in rank than the dealer’s card, the dealer shall immediately collect the Initial Wager and Tie Wager, if applicable.

(2) If a player’s card is higher in rank than the dealer’s card, the player shall win his Initial Wager and lose his Tie Wager, if applicable.
(3) If the player’s card and the dealer’s card are of equal rank (a tie hand), the player shall select one of the options in subsection (c) as to his Initial Wager and win his Tie Wager, if applicable.

The dealer shall then return the remaining 1/2 of the Initial Wager to the player. The dealer shall then proceed around the table in a clockwise direction, repeating the process for each player with a tie hand who selects this option.

   (2) The player may place a War Wager in an amount equal to the player’s Initial Wager, in accordance with subsection (e).

(d) After settling Initial Wagers and Tie Wagers on the original deal, the dealer shall collect the cards of all players except for the cards of those players with a tie hand who have elected to go to War. The collected cards shall be placed in the discard rack in a manner that permits the reconstruction of each hand of the original deal in the event of a question or dispute.

(e) If any player elects to place a War Wager upon the occurrence of a tie hand, the dealer shall confirm the placement of the War Wager prior to dealing additional cards. The player’s card and the dealer’s card from the original deal shall remain exposed during the War deal. The dealer shall offer any player who has elected to go to War the opportunity to also place a Tie Wager on the War deal.

(f) The War deal shall begin with the dealer removing three cards from the shoe face down and, without revealing the rank of the three cards to anyone, placing them in the discard rack and then dealing the next card face up to the player farthest to the dealer’s left who has placed a War Wager. The dealer shall place the player’s War card on the table adjacent to the player’s card from the original deal. The dealer shall then proceed around the table in a clockwise direction, repeating the process for each player who has placed a War Wager and the dealer.

(g) After the dealing procedures required under subsection (f) have been completed, the dealer shall, beginning from the dealer’s right and proceeding around the table in a counterclockwise direction, compare the rank of each player’s War card to the dealer’s War card and settle all War and Tie Wagers as follows:

(3) If the player’s War card and the dealer’s War card are of equal rank, the Initial Wager shall be returned to the player and the player shall win his War Wager and his Tie Wager, if applicable.

(h) Losing Initial, War and Tie Wagers shall be collected by the dealer and placed in the table inventory container. Winning War and Tie Wagers shall then be paid in accordance with the payout odds in § 651a.10(a)(2) and (3). Each betting position must contain an electronic wagering system for the placement of the Five Card Hand Bonus Wager. The system must include a mechanism, such as a lockout button, that prevents the placement of any Five Card Hand Bonus Wagers that a player attempts to place after the dealer has begun dealing the cards. If the certificate holder is offering a Five Card Hand Bonus Wager on multiple linked tables or games in the same licensed facility, the progressive table game must comply with § 605a.8 (relating to linked progressive table games).

(e) Each Ultimate Texas Hold 'Em Poker table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). (f) Each Ultimate Texas Hold 'Em Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 653a.3. Cards; number of decks.

(b) If an automated card shuffling device is utilized, Ultimate Texas Hold 'Em Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Ultimate Texas Hold 'Em Poker shall be changed at least every:
(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 653a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 653a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 653a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal or deliver the cards in accordance with § 653a.8, § 653a.9 or § 653a.10 (relating to procedure for
dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at an Ultimate Texas Hold ’Em Poker table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 653a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(e) A player may not wager on more than one player position at an Ultimate Texas Hold 'Em Poker table.

§ 653a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 653a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.
(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 653a.7(d)(1) (relating to wagers) and to the dealer, under a cover card, until each player who placed the required wagers, and the dealer have two cards.

(e) After two cards have been dealt to each player and to the area designated for the placement of the dealer’s hand, the dealer shall deal the five community cards in accordance with § 653a.11 (relating to procedures for completion of each round of play). After all community cards have been dealt, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 653a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.
(2) After the procedures required under § 653a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 653a.7(d)(1) (relating to wagers) and to the dealer, under a cover card, until each player who placed the required wagers, and the dealer have two cards.

(c) After two cards have been dealt to each player and to the area designated for the placement of the dealer’s hand, the dealer shall deal the five community cards in accordance with § 653a.11 (relating to procedures for completion of each round of play). After all community cards have been dealt, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 653a.10. Procedures for dealing the cards from an automated dealing shoe.
(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

1. After the procedures required under § 653a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

2. Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed the required wagers in accordance with § 653a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed a required wager in accordance with § 653a.7(d)(1). The dealer shall then deliver a stack of two cards face down under a cover card to the area designated for the placement of the dealer’s cards.

(c) After each stack of two cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the remaining cards from the automated dealing shoe and, following the procedures in § 653a.9(a)(2) and (b) (relating to procedure for dealing the cards from the hand), deal from his hand the five community cards in accordance with § 653a.11 (relating to procedures for completion of each round of play). After all five community cards have been dealt, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.
(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe which automatically reshuffles the cards, the five community cards may be dispensed before the two cards are dispensed to each player and to the dealer. The community cards shall then be revealed in accordance with § 653a.11.

§ 653a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 653a.8, § 653a.9 or § 653a.10 (relating to procedure for dealing the cards from a manual shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

   (1) Each player who wagers at Ultimate Texas Hold 'Em Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

   (2) Each player shall keep his cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer’s left and moving clockwise around the table, ask each player if he wishes to place a Play Wager prior to the dealing of the Flop. The player may either check or place a Play Wager in an amount equal to three or four times the amount of the player’s Ante Wager. If a player:

   (1) Places a Play Wager, the wager shall be placed in the area designated for the Play Wager.

   (2) Checks, the player shall remain in the game and defer his decision to place a Play Wager until after the Flop is dealt.

(c) Once all players have either placed a Play Wager or checked, the dealer shall burn the next card. The dealer shall then deal the Flop face up to the designated area for the community cards.

(d) After the Flop has been dealt, the dealer shall, beginning with the player farthest to the dealer’s left and moving clockwise around the table, ask each player who has not already placed a Play Wager if he wishes to place a Play Wager prior to the dealing of the final two community cards. The player may either check or place a Play Wager in an amount equal to two times the amount of the player’s Ante Wager. If a player:

   (1) Places a Play Wager, the wager shall be placed in the area designated for the Play Wager.

   (2) Checks, the player shall remain in the game and defer his decision to place a Play Wager until after the next two community cards are dealt.
(e) Once all players have either placed a Play Wager or checked, the dealer shall burn the next card. The dealer shall then deal the next two cards in the deck face up to the designated area for the community cards.

(f) After the final two community cards have been dealt, the dealer shall, beginning with the player farthest to the dealer’s left and moving clockwise around the table, ask each player who has not already placed a Play Wager whether he wishes to fold or place a Play Wager equal in amount to the player’s Ante Wager. If a player:

(1) Places a Play Wager, the wager shall be placed in the area designated for the Play Wager.

(2) Folds, the Ante and Blind Wagers of the player shall be collected by the dealer and placed in the table inventory container. If the player:

   (i) Has also placed a Trips Wager, the dealer shall place the cards of the player face down underneath the player’s Trips Wager pending its resolution at the conclusion of the round of play.

   (ii) Has not placed a Trips Wager, the dealer shall immediately collect the player’s cards and place them in the discard rack.

(g) After each player has either folded or placed a Play Wager, the dealer shall remove the cover card and turn his two cards face up on the layout. The dealer shall then select five cards from the dealer’s two cards and the five community cards to form the highest ranking five-card Poker hand and announce the dealer’s hand to the players.

(h) If the dealer’s highest ranking five-card Poker hand:

(1) Is lower than a pair, the dealer shall, starting with the player farthest to the dealer’s right who has placed a Play Wager and proceeding in a counterclockwise manner around the table, return each player’s Ante Wager and resolve the Blind and Play Wagers in accordance with paragraph (2).

(2) Is a pair or better, the dealer shall, starting with the player farthest to the dealer’s right who has placed a Play Wager and proceeding in a counterclockwise manner around the table, turn the two cards of each player who has placed a Play Wager face up on the layout. The dealer shall select five cards from the player’s two cards and the five community cards to form the highest ranking five-card Poker hand and shall announce the player’s hand. The wagers of each player shall be resolved one player at a time regardless of outcome. If a player’s five-card Poker hand:

   (i) Is ranked lower than the dealer’s five-card Poker hand, the dealer shall immediately collect the Ante, Blind and Play Wagers made by the player.
(ii) Is ranked higher than the dealer’s five-card Poker hand, the dealer shall pay the Ante, Blind and Play Wagers made by the player in accordance with the payout odds in § 653a.12(a) and (b) (relating to payout odds; Envy Bonus; rate of progression; payout limitation). The player’s Blind Wager shall be returned if the player’s winning hand is not a straight or better or a flush or better depending on the paytable selected by the certificate holder.

(iii) Is equal in rank to the dealer’s five-card hand, the dealer shall return the player’s Ante, Blind and Play Wagers.

(i) After settling a player’s Ante, Blind and Play Wagers, the dealer shall settle any Trips Wager made by the player by determining whether the player’s five-card Poker hand qualifies for a payout in accordance with § 653a.12(c). A winning Trips Wager shall be paid irrespective of whether the player’s five-card Poker hand outranks the dealer’s hand.

(j) The dealer shall then settle the Progressive Payout Wager, if offered by the certificate holder. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand and be based on the rank of the player's two cards and the three-card Flop. If a player has won a progressive payout, the dealer shall:

1. Verify that the hand is a winning hand.
2. Verify that the appropriate light on the progressive table game system has been illuminated.
3. Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.
4. Pay the winning Progressive Payout Wager in accordance with the payout odds in § 653a.12(d). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.
5. Pay any Envy Bonus won in accordance with § 653a.12(d). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Ultimate Texas Hold 'Em Poker table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one other player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(k) The dealer shall settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. A winning Five Card Hand Bonus shall be paid irrespective of whether the player's hand outranks the dealer's hand and based on the rank of the player's or the dealer's two cards and the three-card Flop. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:
(1) Verify that the hand is a winning hand.

(2) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).

(3) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 653a.12(e). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(l) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 653a.12. Payout odds; Envy Bonus; rate of progression; payout limitation.

(a) A certificate holder shall pay each winning Ante Wager and Play Wager at odds of 1 to 1.

(b) A certificate holder shall pay the player’s winning Blind Wager in accordance with the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

Any maximum payout limit established by the certificate holder shall apply only to payouts of Ultimate Texas Hold 'Em Poker Wagers placed under § 653a.7(d)(1) and (2) (relating to wagers) but does not apply to payouts for Progressive Payout Wagers placed under § 653a.7(d)(3) or the Five Card Hand Bonus Wager under § 653a.7(d)(4).

(b) The layout for a Mississippi Stud table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

The progressive table game system must include:

(1) A wagering device at each betting position that acknowledges or accepts the placement of the Progressive Payout Wager.

(f) Each Mississippi Stud table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 655a.3. Cards, number of decks.

(a) Except as provided in subsection (b), Mississippi Stud shall be played with one deck of cards and one cover card.
(b) If an automated card shuffling device is utilized, Mississippi Stud may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continually alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Mississippi Stud shall be changed at least:

(1) Every 4 hours if the cards are dealt by hand.

(2) Every 8 hours if the cards are dealt from a manual or automated dealing shoe.

§ 655a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 655a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspections and removal from use), subsections (a)—(d) do not apply.

§ 655a.5. Shuffle and cut of the cards.
(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated card shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall do the following:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 655a.8, § 655a.9 or § 655a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for the commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Mississippi Stud table that is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player is afforded an opportunity to visually inspect the cards, the procedures in § 655a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 655a.6. Mississippi Stud hand rankings.
(a) The rank of the cards used in Mississippi Stud, in order of highest to lowest rank, must be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: king, queen, ace, 2 and 3). All suits shall be equal in rank.

(b) The permissible five-card Poker hands in the game of Mississippi Stud, in order of highest to lowest rank, must be:

(1) A royal flush, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit.

(2) A straight flush, which is a hand, other than a royal flush, consisting of five cards of the same suit in consecutive ranking.

(3) A four-of-a-kind, which is a hand consisting of four cards of the same rank.

(4) A full house, which is a hand consisting of a three-of-a-kind and a pair.

(5) A flush, which is a hand consisting of five cards of the same suit, not in consecutive order.

(6) A straight, which is a hand consisting of five cards of more than one suit and of consecutive rank.

(7) A three-of-a-kind, which is a hand consisting of three cards of the same rank.

(8) Two pairs, which is a hand consisting of two pairs.

(1) A mini-royal, which is straight flush of an ace, king and queen.

(2) A straight flush, which is three cards of the same suit in consecutive rank.

(3) A Three-of-a-kind, which is three cards of the same rank.

(4) A straight, which is three cards of consecutive rank.

(5) A flush, which is three cards of the same suit.

(6) A pair, which is two cards of the same rank.
§ 655a.7. Wagers.

(a) Wagers at Mississippi Stud shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate betting areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at the Mississippi Stud table may place a wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante, Progressive Payout, Three Card Bonus and Five Card Hand Bonus Wagers shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 655a.8, § 655a.9 or § 655a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 655a.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer announces “no more bets” and begins dealing the cards.

(d) The following wagers may be placed in the game of Mississippi Stud:

(1) A player shall place an Ante Wager to participate in a round of play.

(2) In accordance with § 655a.11(b), (d) and (f), 3rd Street, 4th Street and 5th Street Wagers.

(3) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player at a Mississippi Stud table the option to make an additional Progressive Payout Wager that the player will receive a Progressive Payout Hand. After placing an Ante Wager, a player may make an additional Progressive Payout Wager by placing a value chip into the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

(4) A certificate holder may, if specified in its Rules Submission under § 601a.2, offer to each player at a Mississippi Stud table the option to make an additional Three Card Bonus Wager that the three community cards will form a three-card Poker hand of a pair or better as defined in § 655a.6(c) (relating to Mississippi Stud hand rankings).

(5) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Mississippi Stud table the option to make an additional Five Card Hand Bonus Wager that the player's five-card Poker hand will contain a flush or better as defined in § 655a.6(b). After placing an Ante Wager, a player may make the additional Five Card Hand Bonus Wager by using the electronic wagering device designated for that player. Each player shall be responsible for verifying that the player's Five Card Hand Bonus Wager has been accepted.
(e) A player may not wager on more than one player position at a Mississippi Stud table.

§ 655a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 655a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) Two cards face down to each player who placed an Ante Wager in accordance with § 655a.7(d)(1) (relating to wagers).

(2) Three cards face down to the area designated for the placement of the community cards.

(e) After two cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.
If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 655a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

   (1) An automated shuffling device shall be used to shuffle the cards.

   (2) After the procedures required under § 655a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

   (3) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall then collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

   (b) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards as follows:

       (1) Two cards face down to each player who placed an Ante Wager in accordance with § 655a.7(d)(1) (relating to wagers).

       (2) Three cards face down to the area designated for the placement of the community cards.

   (c) After two cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

   (d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct
number of cards are still present in the deck. The dealer shall determine the number of cards in
the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place
the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the
dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or
less than 2 cards or the area designated for the placement of the community cards has more or
less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be
returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be
returned to the players and the entire deck of cards shall be removed from the table.

§ 655a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements
shall be observed:

(1) After the procedures required under § 655a.5 (relating to shuffle and cut of
the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealing shoe dispensing any stacks, the dealer shall announce “no
more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being
offered, use the progressive table game system or the electronic wagering system to prevent the
placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. The dealer
shall then collect any Progressive Payout Wagers and, on the layout in front of the table
inventory container, verify that the number of value chips wagered equals the number of
Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then
place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing
shoe face down to the player farthest to the dealer’s left who has placed an Ante Wager in
accordance with § 655a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the
dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table,
deliver a stack face down to each of the other players who has placed an Ante Wager.

(c) After each stack of two cards has been dispensed and delivered in accordance with
this section, the dealer shall remove the remaining cards from the automated dealing shoe and,
following the procedures in § 655a.9(a)(2) (relating to procedure for dealing the cards from the
hand), deal from his hand the three community cards. Except as provided in subsection (d), after
all three community cards have been dealt, the dealer shall place the stub in the discard rack
without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck
after the completion of each shuffle and indicates whether 52 cards are present is not being used,
the dealer shall count the stub at least once every 5 rounds of play to determine that the correct
number of cards are still present in the deck. The dealer shall determine the number of cards in
the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place
the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the
dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or
less than 2 cards or the area designated for the placement of the community cards has more or
less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be
returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be
returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is
utilizing an automated dealing shoe that automatically reshuffles the cards, the three community
cards may be dispensed before the two cards are dispensed to each player.

§ 655a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 655a.8, § 655a.9 or § 655a.10 (relating
to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards
from the hand; and procedures for dealing the cards from an automated dealing shoe) have been
completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Mississippi Stud shall be responsible for his own
hand and no person other than the dealer and the player to whom the cards were dealt may touch
the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(3) A player may not exchange or communicate information regarding his hand
prior to the dealer revealing all of the community cards. Any violation shall result in a forfeiture
of all wagers on that round by such person.

(b) After each player has examined his cards and replaced them face down on the layout,
the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise
around the table, ask each player who placed an Ante Wager if he wishes to place a 3rd Street
Wager in an amount equal to one, two or three times the amount of the player's Ante Wager or
fold. If a player folds, the Ante Wager shall be immediately collected and placed in the table
inventory container and the folded hand shall be collected and placed in the discard rack unless
the player made a Progressive Payout, Three Card Bonus or Five Card Hand Bonus Wager in
which case the cards shall be left on the table until all wagers are resolved in accordance with
subsection (i).

(c) Once all players have either placed a 3rd Street Wager or folded, the dealer shall turn
over and reveal the first community card.
(d) Each player shall then either place a 4th Street Wager in an amount equal to one, two or three times the amount of the player's Ante Wager in the designed 4th Street betting area or fold. If a player folds, the Ante Wager and 3rd Street Wager shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout, Three Card Bonus or Five Card Hand Bonus Wager in which case the cards shall be left on the table until all wagers are resolved in accordance with subsection (i).

(e) Once all remaining players have either placed a 4th Street Wager or folded, the dealer shall turn over and reveal the second community card.

(f) Each player shall then either place a 5th Street Wager in an amount equal to one, two or three times the amount of the player's Ante Wager in the designed 5th Street betting area or fold. If a player folds, the Ante Wager and the 3rd Street and 4th Street Wagers shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout, Three Card Bonus or Five Card Hand Bonus Wager in which case the cards shall be left on the table until all wagers are resolved in accordance with subsection (i).

(g) Once all remaining players have either placed a 5th Street Wager or folded, the dealer shall turn over and reveal the third community card.

(h) If a player has placed an Ante Wager and a Progressive Payout or Three Card Bonus Wager but does not make a 3rd Street, 4th Street or 5th Street Wager, the player shall forfeit the Ante Wager, the Progressive Payout Wager and, if applicable, the 3rd Street and 4th Street Wagers but may not forfeit the eligibility to receive an Envy Bonus under § 655a.12(c)(5) (relating to payout odds; Envy Bonus; rate of progression), a Three Card Bonus payout under § 655a.12(d) or a Five Card Hand Bonus payout under § 655a.12(e).

(i) Beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn over and reveal the player's cards. The dealer shall then evaluate and announce the best possible five-card Poker hand that can be formed using the player's two cards and the three community cards. The wagers of each remaining player shall be resolved one player at a time regardless of outcome. All wagers shall be settled as follows:

1. All losing wagers shall immediately be collected by the dealer and placed in the table inventory container and the player's cards shall be collected and placed in the discard rack.

2. If the player's five-card Poker hand is a pair of 6s, 7s, 8s, 9s or 10s, the player's hand is a push. The dealer may not collect or pay the wagers, but shall immediately collect the cards of that player.

3. All winning Mississippi Stud wagers shall be paid in accordance with the payout odds in § 655a.12(a).
(4) After settling the player's Mississippi Stud Wager, the dealer shall settle the Progressive Payout, Three Card Bonus or Five Card Hand Bonus Wager, if offered by the certificate holder, as follows:

   (i) If a player has won the progressive payout, the dealer shall:

      (A) Verify that the hand is a winning hand.

      (B) Verify that the appropriate light on the progressive table game system has been illuminated.

      (C) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

      (D) Pay the winning Progressive Payout Wager in accordance with § 655a.12(c)(1). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

      (E) Pay any Envy Bonus won in accordance with § 655a.12(c)(5). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Mississippi Stud table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand.

   (ii) If a player has won the Three Card Bonus, the dealer shall pay the winning Three Card Bonus Wager in accordance with § 655a.12(d).

   (iii) If a player placed a Five Card Hand Bonus Wager, the dealer shall settle any Magic Card or Lucky Bonus payouts and any winning Five Card Hand Bonus wagers as follows:

      (A) Verify that the hand is a winning hand.

      (B) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).

      (C) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 655a.12(e). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has
won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(j) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 655a.12. Payout odds; Envy Bonus; rate of progression.

Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 657a.8, § 657a.9 or § 657a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall
take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Crazy 4 Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 657a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 657a.7. Wagers.

Wagers at Crazy 4 Poker shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

Only players who are seated at a Crazy 4 Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.
All wagers, except the Play Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 657a.8, § 657a.9 or § 657a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 657a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

The following wagers may be placed in the game of Crazy 4 Poker:

1. A player shall compete against the dealer's four-card Poker hand by placing both an Ante Wager and a Super Bonus Wager in equal amounts, then a Play Wager, in accordance with § 657a.11(b).

2. In addition to the Ante and Super Bonus Wagers, a player may compete against a posted paytable by placing a Queens Up Wager.

A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player at a Crazy 4 Poker table the option to make an additional Four-Card Progressive Payout Wager that the player will receive a Four-Card Progressive Payout Hand. After placing the Ante and Super Bonus Wagers, a player may make the additional Four-Card Progressive Payout Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

4. A certificate holder may, if specified in its Rules Submission under § 601a.2, offer to each player at a Crazy 4 Poker table the option to make an additional Five-Card Progressive Payout Wager that the player will receive a Five-Card Progressive Payout Hand. Each player shall be responsible for verifying that the player's respective Five-Card Progressive Payout Wager has been accepted.

5. If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Crazy 4 Poker table the option to make an additional Five Card Hand Bonus Wager that the player's five-card Poker hand or the dealer's five-card Poker hand, or both, will contain a flush or better as defined in § 657a.6(d) (relating to Crazy 4 Poker rankings). After placing Ante and Super Bonus Wagers, a player may make the additional Five Card Hand Bonus Wager on the player's hand or the dealer's hand, or both, by using the electronic wagering device designated for that player. Each player shall be responsible for verifying that the player's Five Card Hand Bonus Wager has been accepted.

A player may not wager on more than one player position at a Crazy 4 Poker table.

§ 657a.8. Procedure for dealing the cards from a manual dealing shoe.
(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 657a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 657a.7(d)(1) (relating to wagers) and to the dealer until each player and the dealer have five cards.

(e) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 657a.9. Procedure for dealing the cards from the hand.
(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 657a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 657a.7(d)(1) (relating to wagers) and to the dealer until each player and the dealer have five cards.

(c) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.
§ 657a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 657a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed a wager in accordance with § 657a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed a wager in accordance with § 657a.7(d)(1). The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer’s cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards is still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 657a.11. Procedures for completion of each round of play.
(a) After the dealing procedures required under § 657a.8, § 657a.9 or § 657a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

1. Each player who wagers at Crazy 4 Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

2. Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer’s left and moving clockwise around the table, ask each player who placed Ante and Super Bonus Wagers if he wishes to forfeit the Ante and Super Bonus Wagers and end his participation in the round of play or make a Play Wager in an amount equal to the player’s Ante Wager. A player who has a pair of aces or better may place a Play Wager in an amount up to three times the player’s Ante Wager. If a player:

1. Has placed Ante, Super Bonus and Queens Up Wagers but does not make a Play Wager, the player shall forfeit all three wagers.

2. Has placed Ante, Super Bonus and Four or Five-Card Progressive Payout Wagers but does not make a Play Wager, the player shall forfeit all three wagers but may not forfeit the eligibility to receive an Envy Bonus under § 657a.12(d)(5) or (e)(5) (relating to payout odds; Envy Bonus; rate of progression).

(c) After each player who has placed Ante and Super Bonus Wagers has either placed a Play Wager on the designated area of the layout or forfeited his wagers and hand, the dealer shall collect all forfeited wagers and associated cards and place the cards in the discard rack. The dealer shall then reveal the dealer’s cards and place the cards so as to form the highest possible ranking four-card Poker hand. After the dealer’s cards are turned face up, the dealer shall, beginning with the player farthest to the dealer’s right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

1. The dealer shall turn the five cards of each player face up on the layout.

2. The dealer shall examine the cards of the player and form the highest possible ranking four-card Poker hand for each player.

3. If the dealer’s highest ranking four-card Poker hand:

   i. Is ranked lower than a king, the dealer shall return each player’s Ante Wager and pay out the Play and Super Bonus Wagers made by the player in accordance with the payout odds in § 657a.12(a) and (b). The player’s Super Bonus Wager shall be returned if the player’s winning hand is not a straight or better.
(ii) Is a king or better, and the player’s highest ranking four-card Poker hand is ranked:

(A) Lower than the dealer’s four-card Poker hand, the dealer shall immediately collect the Ante and Play Wagers made by the player but shall pay out the Super Bonus Wager made by the player in accordance with the payout odds in § 657a.12(b).

(B) Higher than the dealer’s four-card Poker hand, the dealer shall pay the Ante, Play and Super Bonus Wagers made by the player in accordance with the payout odds in § 657a.12(a) and (b). The player’s Super Bonus Wager will be returned if the player’s winning hand is not a straight or better.

(C) Is equal in rank to the dealer’s four-card hand, the dealer shall return the Ante and Play Wagers and pay out the Super Bonus Wager in accordance with the payout odds in § 657a.12(b). The player’s Super Bonus Wager will be returned if the player’s winning hand is not a straight or better.

(d) After settling the player’s Ante, Play and Super Bonus Wagers, the dealer shall settle a Queens Up Wager by determining whether the player’s four-card Poker hand qualifies for a payout in accordance with § 657a.12(c). A winning Queens Up Wager shall be paid irrespective of whether the player’s four-card Poker hand outranks the dealer’s hand.

(e) After settling a player's Ante, Play, Super Bonus and Queens Up Wagers, the dealer shall then settle the Four-Card or Five-Card Progressive Payout Wager, if offered by the certificate holder. For the Five-Card Progressive Payout Wager, the dealer shall form the highest ranking five-card Poker hand from the five cards dealt to each player. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

(1) Verify that the hand is a winning hand.

(2) Verify that the appropriate light on the progressive table game system has been illuminated.

(3) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(4) Pay the winning Four-Card Progressive Payout Wager in accordance with the payout odds in § 657a.12(d)(1) or the winning Five-Card Progressive Payout Wager in accordance with the payout odds in § 657a.12(e)(1). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(5) Pay any Envy Bonus as follows:
(i) Players making a Four-Card Progressive Payout Wager shall receive a Four-Card Envy Bonus when another player at the same Crazy 4 Poker table is the holder of a Four-Card Envy Bonus Qualifying Hand. Players are entitled to multiple Four-Card Envy Bonuses if more than one other player is the holder of a Four-Card Envy Bonus Qualifying Hand. A player is not entitled to a Four-Card Envy Bonus for his own hand or the hand of the dealer. Four-Card Envy Bonus payouts shall be made in accordance with the payouts in § 657a.12(d)(5).

(ii) Players making a Five-Card Progressive Payout Wager shall receive a Five-Card Envy Bonus when another player at the same Crazy 4 Poker table is the holder of a Five-Card Envy Bonus Qualifying Hand. Players are entitled to multiple Five-Card Envy Bonuses if more than one other player is the holder of a Five-Card Envy Bonus Qualifying Hand. A player is not entitled to a Five-Card Envy Bonus for his own hand or the hand of the dealer. Five-Card Envy Bonus payouts shall be made in accordance with the payouts in § 657a.12(e)(5).

(f) After settling a player's Ante, Play, Super Bonus and Queens Up Wagers, the dealer shall then settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. A winning Five Card Hand Bonus Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:

1. Verify that the hand is a winning hand.
2. Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).
3. Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 657.12(f). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(g) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 657a.12. Payout odds; Envy Bonus; rate of progression.

(b) If the deck of cards used by the certificate holder contains two jokers, the dealer and a floorperson shall ensure that only one joker is utilized and that the other joker is torn in half and placed in the box, envelope or container that the deck came from. After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence and include the one joker.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, they shall be shuffled in accordance with § 659a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.
§ 659a.5. Shuffle and cut of the cards; procedures for determining the starting position for dealing cards.

Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack provided, however, that the certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, determine the starting position in accordance with subsection (g), then deal the cards in accordance with § 659a.8, § 659a.9 or § 659a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with subsection (c).

(c) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play. The dealer shall then determine the starting position in accordance with subsection (g), and deal the cards in accordance with § 659a.8, § 659a.9 or § 659a.10.

(d) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(e) If there is no gaming activity at a Fortune Asia Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 659a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(f) A certificate holder may utilize a dealing shoe or other device designed to automatically reshuffle the cards provided that the device is submitted and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (c)—(e) do not apply.
(g) To determine the starting position for the dealing of cards, the certificate holder shall use one of the following:

(1) A shaker in accordance with the following procedures:

(i) The dealer shall shake the shaker at least three times to cause a random mixture of the dice.

(ii) The dealer shall then remove the lid covering the dice and place the uncovered shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total.

(iii) To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice.

(iv) After the dealing procedures required under § 659a.8, § 659a.9 or § 659a.10 have been completed, the dealer shall place the cover on the shaker and shake the shaker once. The shaker shall then be placed to the right of the dealer.

(2) A computerized random number generator to select and display a number from 1 to 7. To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the number displayed by the random number generator.

(c) All wagers at Fortune Asia Poker shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 659a.8, § 659a.9 or § 659a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 659a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance. Once the procedures required under § 659a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position
for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 659a.5(g). The dealer shall then deal the first card to the starting position as determined in § 659a.5(g) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has seven cards. Each card dealt shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(d) After seven cards have been dealt to each position and the dealer, the dealer shall remove the stub from the manual dealing shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 659a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.
(2) After the procedures required under § 659a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:

   (i) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

   (ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

   (b) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 659a.5(g). The dealer shall then deal the first card to the starting position as determined in § 659a.5(g) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has seven cards.

   (c) After seven cards have been dealt to each position and the dealer, the dealer shall determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

   (d) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

   (e) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 659a.10. Procedures for dealing the cards from an automated dealing shoe.

   (a) If the cards are dealt from an automated dealing shoe, after the procedures under § 659a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe. Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and:
(1) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures under § 659a.5(g). After the starting position for delivering the cards has been determined in accordance with § 659a.5(g), the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer.

(c) After seven cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(d) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(e) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 659a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 659a.8, § 659a.9 or § 659a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Fortune Asia Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands of the dealer to be set in accordance with the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions).
(2) Each player shall keep his seven cards in full view of the dealer at all times.

(3) Once each player has set his three hands and placed them face down on the appropriate area of the layout, the player may not touch the cards again.

(b) Each player shall set his hands by arranging the cards into a high hand, a medium hand and a low hand. When setting the three hands, the four-card high hand must be higher in rank than the two-card medium hand and the medium hand must be higher in rank than the one-card low hand. For example, if the two-card medium hand contains a pair of sevens, the four-card high hand must contain at least a pair of sevens and the two remaining cards.

(c) After all players have set their hands and placed the cards on the table, the seven cards of the dealer shall be turned over and the dealer shall set his hands by arranging the cards into a high hand, medium hand and low hand. The certificate holder shall specify in its Rules Submission under § 601a.2 the manner in which the hands of the dealer shall be set. The dealer shall then place the three hands face up on the appropriate area of the layout.

(d) Unless a player has placed an optional wager in accordance with § 659a.7(e) (relating to wagers), a player may surrender his wager after the hands of the dealer have been set. The player shall announce his intention to surrender prior to the dealer exposing any of the three hands of that player as provided in subsection (e). Once the player has announced his intention to surrender, the dealer shall immediately collect the Fortune Asia Poker Wager from that player and collect the seven cards dealt to that player without exposing the cards to anyone at the table. If any Qualifying Wagers have been placed, the cards of the player must remain on the table until collected in accordance with subsection (h). The dealer shall verify that seven cards were collected by counting them face down on the layout prior to placing them in the discard rack.

(e) After the dealer has set a high hand, medium hand and a low hand, the dealer shall reveal all three hands of each player, beginning with the player farthest to the dealer’s right and continuing around the table in a counterclockwise direction. The dealer shall compare the high, medium and low hand of each player to the high, medium and low hand of the dealer and shall announce if the Fortune Asia Poker Wager of that player wins or loses.

(f) A Fortune Asia Poker Wager will:

(1) Lose and will immediately be collected if:

   (i) Any two of the player's three hands are identical or lower in rank than the dealer's corresponding hands.

   (ii) Any one of the player's three hands is identical in rank to the corresponding hand of the dealer and one of the player's remaining hands is lower in rank than the dealer's corresponding hand.

   (iii) The high hand of the player was not set so as to rank higher than the medium hand of that player.
(iv) The medium hand of the player was not set so as to rank higher than the low hand of that player.

(v) The three hands of the player were not otherwise set correctly in accordance with this chapter.

(2) Win if any two of the player's three hands are higher in rank than the dealer's corresponding hands. The dealer shall pay the winning Fortune Asia Poker Wager in accordance with the payout odds in § 659a.12(a) (relating to payout odds).

(g) Except as provide in subsection (h), after settling the player's Fortune Asia Poker Wager, the dealer shall place the cards of the player in the discard rack.

(h) If a player placed a Fortune Bonus, Insurance or Progressive Payout Wager, after settling the player's Fortune Asia Poker Wager, the dealer shall rearrange the seven cards of any player and form the highest ranking hand and shall be responsible for creating the hand. If any player at the table placed a Qualifying Wager, the dealer shall rearrange the cards of all players regardless of whether the player placed a Fortune Bonus Wager. After rearranging the player's seven cards, the dealer shall settle the player's Fortune Bonus, Insurance or Progressive Payout Wagers as follows:

(1) For the player's Fortune Bonus Wager:

(i) If a player:

   (A) Does not have a straight or higher, as described in § 659a.6(d) (relating to Fortune Asia Poker rankings) or three pair or higher, depending on the payout table selected by the certificate holder, the dealer shall collect the Fortune Bonus Wager and place the cards of the player in the discard rack.

   (B) Has a straight or higher, or three pair or higher, depending on the payout table selected by the certificate holder, the dealer shall pay the winning Fortune Bonus Wager in accordance with § 659a.12(b) and place the cards of the player in the discard rack. If the player has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

   (C) Did not place a Fortune Bonus Wager but has an Envy Bonus Qualifying Hand, and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Fortune Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 659a.12(b) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Fortune Asia
Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(2) For the player's Insurance Wager, if a player:

   (i) Has a pair or better, the dealer shall collect the player's Insurance Wager and place the cards of the player in the discard rack.

   (ii) Does not have a pair or better, but has a card ranked a 9-high or better, the dealer shall pay the winning Insurance Wager in accordance with § 659a.12(c). The dealer shall then place the cards of the player in the discard rack.

(3) For the player's Progressive Payout Wager, if a player:

   (i) Does not have a full house or better, as described in § 659a.6(e), the dealer shall collect the Progressive Payout Wager and place the cards of the player in the discard rack.

   (ii) Has a full house or better, the dealer shall:

      (A) Verify that the hand is a winning hand.

      (B) Verify that the appropriate light on the progressive table game system has been illuminated.

      (C) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

      (D) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 659a.12(d). If a player has won a progressive payout that is a percentage of the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory, the cards of that player shall remain on the table until the necessary documentation has been completed.

      (i) Notwithstanding the card collection requirements in subsection (h), if the certificate holder offers more than one optional wager, the dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

      (j) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

   (a) A certificate holder shall pay each winning Fortune Asia Poker Wager at odds of 1 to 1.
(b) The certificate holder shall pay out winning Fortune Bonus Wagers and Envy Bonus payouts at the odds and amounts in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

_Extra point roll_—An additional throw that occurs after a touchdown or Trips TD is scored.

§ 661a.2. Three Dice Football table; physical characteristics.

(a) Three Dice Football shall be played on an oblong table with rounded corners, high walled sides and wagering locations for a maximum of 16 players.

(b) The layout for a Three Dice Football table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) Specific areas designated for the placement of wagers authorized under § 661a.3(b) and (d) (relating to wagers).

(3) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds for all permissible wagers shall be posted at each Three Dice Football table.

(4) A football field containing two end zones, two 10 yard lines and two 20 yard lines. Each yard, from 1 through 23, shall also be labeled in the center of the football field.

(5) An area designated for the following:

(i) 1st Down.

(ii) 2nd Down.

(iii) 3rd Down.

(iv) 1st & Goal.

(v) 2nd & Goal.

(vi) 3rd & Goal.

(vii) Extra Point.

(6) An area designated for the game length, labeled 1 through 6.

(c) Each Three Dice Football table must have a drop box and tip box attached to the table in locations approved by the Bureau of Casino Compliance in accordance with § 601a.10(g).
§ 661a.3. Wagers.

(a) Wagers shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the layout. Verbal wagers accompanied by cash may not be accepted.

(b) The following full game wagers are authorized in Three Dice Football:

   (1) A Touchdown Wager which shall win if a touchdown or Trips TD is scored.

   (2) A Defense Wager which shall win if a touchdown or Trips TD is not scored.

   (3) An Extra Point Wager which shall win if a touchdown or Trips TD is made and on the extra point roll either:

      (i) One or more of the three dice shows a 1.

      (ii) Any triple, other than three 1s, is rolled.

   (4) A Quick Strike TD Wager which shall win if a touchdown or Trips TD is scored in 4 downs or fewer.

   (5) A Game Changer Wager which shall win if a Trips TD or a turnover occurs.

   (6) The following Game Length Wagers which shall win if the game lasts exactly:

      (i) One play.

      (ii) Two plays.

      (iii) Three plays.

      (iv) Four plays.

      (v) Five plays.

      (vi) Six plays.

(c) The full game wagers authorized in subsection (b) shall be placed prior to the start of each new game and may not be increased or withdrawn after the first throw of the dice.

(d) The following single play wagers are authorized in Three Dice Football:

   (1) A Trips TD Wager which shall win if a Trips TD is scored.
(2) A Penalty Wager which shall win if a penalty or turnover occurs.

(3) A Turnover Wager which shall win if a turnover occurs. A turnover on downs does not qualify.

(4) A Cover Three Wager which shall win if a Trips TD is scored or a penalty or turnover occurs.

(5) A No Gain Wager which shall win if zero yards are gained or if a penalty or turnover occurs.

(6) A Big Play Wager which shall win if 7 yards or more are gained or if a Trips TD is scored.

(7) An Over Four Yards Wager which shall win if 5 yards or more are gained or if a Trips TD is scored.

(8) An Under Four Yards Wager which shall win if 3 yards or less are gained or if a penalty or turnover occurs. A Trips TD does not qualify.

(e) The single play wagers authorized in subsection (d) may be placed at any time during the game prior to the Quarterback's throw of the dice. Single play wagers shall be settled after each throw of the dice.

§ 661a.4. Dice; physical characteristics, retention and selection.

(a) The physical characteristics of the dice used in Three Dice Football must comply with the requirements of § 603a.12(a) (relating to dice; physical characteristics) except a set of four green and two red dice must be present at the table during gaming. Control of the dice at the table is the responsibility of the stickperson. The stickperson shall retain all dice, except those in active play, in a dice cup at the table.

(b) At the commencement of play, the stickperson shall offer the set of dice to the player immediately to the left of the stickperson. If that player rejects the dice, the stickperson shall offer the dice to each of the other players in turn clockwise around the table until one of the players accepts the dice.

(c) The first player to accept the dice when offered shall become the Quarterback who selects and retains two of the green dice and one red die offered. The remaining dice of the set shall be returned to the dice cup which shall be placed immediately in front of the stickperson.

(d) A set of dice used at a Three Dice Football table shall be changed at least once every 24 hours. A new set of dice shall be used when a Three Dice Football table is reopened for gaming, if a die goes off the table during play and is lost or if the dice show signs of tampering or alteration or are otherwise marked, chipped, scratched or no longer suitable for play.
§ 661a.5. Throw of the dice; invalid roll of the dice.

(a) After selecting the Offensive and Defensive Dice, the Quarterback shall throw the three selected dice so that they leave the Quarterback's hand simultaneously and in a manner which causes the dice to strike the end of the table farthest from the Quarterback.

(b) A roll of the dice shall be invalid if any of the dice go off the table or if one die comes to rest on top of the other.

(c) The stickperson shall have the authority to invalidate a roll of the dice by calling “no roll” for any of the following reasons:

   (1) The dice do not leave the Quarterback's hand simultaneously.

   (2) Any of the dice fail to strike the end of the table farthest from the Quarterback.

   (3) Any of the dice come to rest on the chips constituting the bank of chips located in front of the stickperson.

   (4) Any of the dice come to rest in the dice cup in front of the stickperson or on one of the rails surrounding the table.

   (5) The use of a cheating, crooked or fixed device or technique in the roll of the dice.

   (6) The stickperson considers the throw to be improper.

(d) A throw of the dice which results in the dice coming into contact with any chips or plaques on the table, other than the bank of chips located in front of the stickperson, is not a cause for a call of “no roll.”

(e) When the dice come to rest from a valid throw, the stickperson shall at once call out the numbers on the uppermost or skyward sides of the three dice. Only one face on each die shall be considered uppermost or skyward.

(f) In the event any of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the side directly opposite the side that is resting on the chips or other object shall be considered uppermost or skyward. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be rethrown.

(g) In the event of a dispute as to which face is uppermost, the stickperson has discretion to determine which face is uppermost or to order the throw be void and the dice be rethrown.

(h) After calling the throw, the stickperson shall collect the dice and bring them to the center of the table. All wagers decided by that throw shall then be settled. The stickperson shall
then pass the dice to the Quarterback for the next throw. When collecting the dice and passing them to the Quarterback, the stickperson shall use a stick designed for that purpose.

§ 661a.6. Rules of the game; settlement of wagers.

(a) Immediately prior to the commencement of each round of play, the dealer shall place the Down Puck on the area of the table layout designated for the 1st Down. The Yard Marker shall be placed on the football field in the 20 yard line circle. The Game Length Puck shall be placed on the area of the table layout designated for Play 1.

(b) Prior to the first throw of the dice, each player shall place a wager authorized under § 661a.3(b) or (d) (relating to wagers). Prior to each subsequent roll of the dice, a player may place any single play wager authorized under § 661a.3(d).

(c) Each roll of the dice shall determine the result of each down as follows:

(1) If the total of the Offensive Dice is greater than the value of the Defensive Die, a gain of yards has occurred. The dealer shall subtract the value of the Defensive Die from the total of the Offensive Dice and move the Yard Marker down the field toward the end zone the total number of yards earned during that down. For example, if the total of the Offensive Dice is 10 and the value of the Defensive Die is 2, the dealer shall move the Yard Marker toward the end zone 8 yards from its previous position on the field. The dealer shall then place the Down Puck on the next down and the Game Length Puck to the next play.

(2) If the total of the Offensive Dice is less than the value of the Defensive Die, a penalty has occurred which shall result in the loss of only 1 yard and the loss of the current down. The dealer shall move the Yard Marker back 1 yard from its previous position on the field, place the Down Puck on the next down and the Game Length Puck to the next play.

(3) If the total of the Offensive Dice is equal to the value of the Defensive Die, a gain or penalty has not occurred. The dealer shall place the Down Puck on the next down and the Game Length Puck to the next play.

(4) If the Quarterback rolls a turnover, the dealer shall announce the turnover and end the game.

(5) If the Quarterback rolls a Trips TD, the dealer shall move the Yard Marker to the end zone and end the game.

(d) After each down, the dealer shall settle all single play wagers placed in accordance with § 661a.3(d). The value of the dice determines the outcome of single play wagers, not the actual yards moved on the field. The dealer shall then announce the number of downs and the distance to the end zone.

(e) The Quarterback shall have three downs to either score a touchdown, Trips TD or earn a 1st & Goal. A 1st & Goal is earned by reaching the 10 yard line. If after three downs:
(1) The Quarterback has not scored a touchdown, Trips TD or earned a 1st & Goal, the game ends.

(2) The Quarterback has earned a 1st & Goal, the Quarterback has three more downs to score a touchdown or a Trips TD.

(f) If the Quarterback:

(1) Scores a touchdown or a Trips TD, the dealer shall first collect all Defense Wagers then settle all single play wagers, placed in accordance with § 661a.3(d), and all full game wagers, placed in accordance with § 661a.3(b), with the exception of the Touchdown and Extra Point Wagers. If any player at the table has placed an Extra Point Wager, the Quarterback shall then throw an extra point roll. The dealer shall then pay out winning Touchdown Wagers and settle the Extra Point Wagers.

(2) Does not score a touchdown or a Trips TD, the dealer shall first collect all Touchdown and Extra Point Wagers and pay out winning Defense Wagers. The dealer shall then settle all single play wagers, placed in accordance with § 661a.3(d), and the remaining full game wagers placed in accordance with § 661a.3(b).

(g) All winning wagers shall be paid in accordance with § 661a.8 (relating to payout odds).

§ 661a.7. Continuation of Quarterback; selection of new Quarterback.

(a) If a game ends in a touchdown or Trips TD, the Quarterback shall retain the dice. If the game ends with defense winning, the stickperson shall offer the dice to the player to the immediate left of the previous Quarterback. If the player does not accept the dice, the stickperson shall offer the dice to each of the other players in turn clockwise around the table.

(b) The first player to accept the dice when offered shall become the new Quarterback who shall select and retain two of the green dice and one of the red die offered. The remaining dice of the set shall be returned to the dice cup which shall be placed immediately in front of the stickperson.

§ 663a.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

*High hand*—The three-card hand that is formed from the five cards dealt so as to have a point value higher than the two-card low hand.

*Low hand*—The two-card hand that is formed from the five cards dealt so as to have a point value lower than the three-card high hand.

*Setting the hands*—The process of forming a high hand and low hand from the five cards dealt.

§ 663a.2. Five Card Hi-Lo table; physical characteristics.

(a) Five Card Hi-Lo shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Five Card Hi-Lo table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.
(2) A separate betting area designated for the placement of the Ante Wager for each player.

(3) A separate betting area designated for the placement of the Play Wager for each player.

(4) Two separate areas designated for the placement of the high and low hands of each player.

(5) If the certificate holder offers the optional Tie Wager authorized under § 663a.7(e)(1) (relating to wagers), a separate area designated for the placement of the Tie Wager for each player.

(6) If the certificate holder offers the optional Poker Bonus Wager authorized under § 663a.7(e)(2), a separate area designated for the placement of the Poker Bonus Wager for each player.

(7) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Five Card Hi-Lo table.

(c) Each Five Card Hi-Lo table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Five Card Hi-Lo table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 663a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Five Card Hi-Lo shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Five Card Hi-Lo may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.
(3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Five Card Hi-Lo shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 663a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 663a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 663a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by the floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.
(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 663a.8, § 663a.9 or § 663a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Five Card Hi-Lo table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 663a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards, provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval), prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(f) do not apply.

§ 663a.6. Five Card Hi-Lo rankings.

(a) Each card dealt must have a point value. The point value of all nonface cards is their denomination. Jacks, queens and kings have a point value of 10. Aces have a point value of 11 if played in the high hand and a point value of 1 if played in the low hand.

(b) If the certificate holder offers the Poker Bonus Wager, authorized under § 663a.7(e) (relating to wagers), the winning five-card Poker hands must be:
(1) A royal flush, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit.

(2) A straight flush, which is a hand, other than a royal flush, consisting of five cards of the same suit in consecutive ranking. An ace may be used to complete a straight flush formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: queen, king, ace, 2 and 3).

(3) A four-of-a-kind, which is a hand consisting of four cards of the same rank regardless of suit.

(4) A full house, which is a hand consisting of a three-of-a-kind and a pair.

(5) A flush, which is a hand consisting of five cards of the same suit, not in consecutive order.

(6) A straight, which is a hand consisting of five cards of consecutive rank, regardless of suit. An ace may be used to complete a straight formed with a king, queen, jack and 10 or a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: queen, king, ace, 2 and 3).

(7) A three-of-a-kind, which is a hand consisting of three cards of the same rank, regardless of suit.

(8) Two pairs, which is a hand consisting of two pairs.

(9) One pair of 6s, 7s or better, depending on the paytable selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions), which is a hand consisting of two cards of the same rank.

§ 663a.7. Wagers.

(a) Wagers at Five Card Hi-Lo shall be made by placing value chips, plaques or other Board-approved wagering instruments, as defined in § 603a.10 (relating to permissible wagering; exchange and redemption of gaming chips and plaques), on the appropriate areas of the Five Card Hi-Lo layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Five Card Hi-Lo table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers at Five Card Hi-Lo shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 663a.8, § 663a.9 or § 663a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).
A wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place an Ante Wager.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player who placed an Ante Wager, in accordance with subsection (d), the option of placing the following additional wagers:

1. A Tie Wager that the total point value of either the high hand or the low hand of the player, or both, will tie the high or low hand of the dealer.

2. A Poker Bonus Wager that the five cards dealt to the player will form a five-card Poker hand with a rank of a pair of 6s or better or a pair of 7s or better, as described in § 663a.6(b) (relating to Five Card Hi-Lo rankings), depending on the pay table selected by the certificate holder.

(f) A certificate holder may, if specified in its Rules Submission under § 601a.2, permit a player to wager on two adjacent betting areas at a Five Card Hi-Lo table. If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 663a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 663a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.”

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager in accordance with § 663a.7(d) (relating to wagers) and to the dealer until each player and the dealer have five cards.
(e) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 663a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 663a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager in accordance with § 663a.7(d) (relating to wagers) and to the dealer until each player and the dealer have five cards.

(c) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.
(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 663a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 663a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 663a.7(d) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards is still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.
(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 663a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 663a.8, § 663a.9 or § 663a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Five Card Hi-Lo table shall be responsible for setting his own hands and a person other than the dealer and the player to whom the cards were dealt may not touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to forfeit the Ante Wager and end his participation in the round of play or make a Play Wager in an amount equal to the player's Ante Wager. If a player:

(1) Has placed an Ante Wager and a Tie Wager but does not make a Play Wager, the player shall forfeit both wagers.

(2) Has placed an Ante Wager and a Poker Bonus Wager but does not make a Play Wager, the player shall forfeit the Ante Wager but does not forfeit the Poker Bonus Wager.

(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his wagers and hand, the dealer shall collect all forfeited wagers and associated cards and place the cards in the discard rack. If a player has placed a Poker Bonus Wager but did not place a Play Wager, the dealer shall leave the player's cards and the Poker Bonus Wager on the table until the wager is resolved in accordance with subsection (j).

(d) Each player who placed a Play Wager shall then set his hands by arranging the cards into a high hand and a low hand. When setting the two hands, the player shall add the point value
of the cards placing the three higher value cards in the high hand and the two lower value cards in the low hand, provided that a player may place up to one ace in his low hand. For example, if a player is dealt an ace, jack, 10, 9 and 2, the high hand may contain the jack, 10 and 9 for a total point value of 29 and the two-card low hand would contain the ace and 2 for a total point value of 3.

(e) After all players have set their hands and placed the cards on the table, the five cards of the dealer shall be turned over and the dealer shall set his hands by arranging the cards into a high and low hand, provided that aces shall be placed in the dealer's high hand unless the dealer was dealt four aces. The dealer shall then place the two hands face up on the appropriate area of the layout.

(f) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the total point value of the high and low hand of each player to the high and low hand of the dealer and shall announce if the Ante and Play Wagers of that player win, lose or are a tie.

(g) Ante and Play Wagers must:

1) Win if the high hand of the player is higher in point value than the high hand of the dealer and the low hand of the player is lower in point value than the low hand of the dealer. The dealer shall pay the winning Ante and Play Wagers in accordance with the payout odds in § 663a.12(a) (relating to payout odds).

2) Lose and will immediately be collected if the high hand of the player ties or is lower in point value than the high hand of the dealer and the low hand of the player ties or is higher in point value than the low hand of the dealer.

3) Tie and will be returned to the player if:

   i) The high hand of the player is higher in point value than the high hand of the dealer, but the low hand of the player is identical in point value or higher in point value than the low hand of the dealer.

   ii) The high hand of the player is identical in total point value to the high hand of the dealer or lower in total point value than the high hand of the dealer, but the low hand of the player is lower in total point value than the low hand of the dealer.

(h) A player may also qualify for an additional Ante Bonus Payout, regardless of the outcome of the player's Ante and Play Wagers in subsection (g), if a player has three or more aces in the player's hand. Ante Bonus Payouts shall be paid in accordance with § 663a.12(b).

(i) Except as provided in subsection (j), after settling the player's Ante and Play Wagers, the dealer shall place the cards of the player in the discard rack.
(j) After settling the player's Ante and Play Wagers, the dealer shall settle the player's optional wagers as follows:

(1) If a player placed a Tie Wager in accordance with § 663a.7(e)(1) (relating to wagers), the dealer shall:

(i) Pay winning Tie Wagers in accordance with § 663a.12(c) if the high hand or low hand, or both, of the player is identical in point value with the high hand, low hand, or both, of the dealer.

(ii) Collect all losing Tie Wagers if neither the high hand nor the low hand of the player is identical in point value with the high hand or low hand of the dealer.

(2) If a player placed a Poker Bonus Wager in accordance with § 663a.7(e)(2), the dealer shall rearrange the five cards of the player to form the highest ranking Poker hand in accordance with § 663a.6(b) (relating to Five Card Hi-Lo rankings). After rearranging the player's five cards, the dealer shall settle the player's Poker Bonus Wager as follows:

(i) If a player has a pair of 6s or better or a pair of 7s or better, depending on the paytable selected by the certificate holder, the dealer shall pay the winning Poker Bonus Wager in accordance with § 663a.12(d).

(ii) If a player does not have a pair of 6s or better or a pair of 7s or better, depending on the paytable selected by the certificate holder, the dealer shall collect the Poker Bonus Wager.

(k) If a player has placed more than one optional wager, the dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

(l) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(a) A certificate holder shall pay each winning Ante and Play Wager at odds of 1 to 1.

(b) The certificate holder shall pay an Ante Bonus Payout based on the amount of the player's Ante Wager at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):
Hand | Paytable A | Paytable B

§ 663a.13. Irregularities.

(f) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe shall be covered or have a sign indicating that the automated card shuffling device or automated dealing shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.

§ 665a.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Blackjack—An ace and any card having a value of 10 dealt as the initial two cards to a player or the dealer.

Card reader device—A device which permits the dealer to determine if the hole card will give the dealer a Blackjack.

Hard total—The total point count of a hand which does not contain aces or which contains aces that are each counted as 1 in value.

Hole card—The second card dealt face down to the dealer.

Soft total—The total point count of a hand containing an ace when the ace is counted as 11 in value.

§ 665a.2. Double Attack Blackjack table; card reader device; physical characteristics; inspections.
(a) Double Attack Blackjack shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Double Attack Blackjack table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) A separate betting area designated for the placement of the Bet Wager and the Double Attack Wager for each player.

(3) The following inscriptions:

   (i) Blackjack pays even money.

   (ii) Insurance pays 5 to 2.

   (iii) Dealer shall draw to 16 and stand on all 17s or other similar language approved by the Executive Director in accordance with § 601a.10(a).

(4) If the certificate holder offers the optional Bust It Wager authorized under § 665a.6(e) (relating to wagers), a separate area designated for the placement of the Bust It Wager for each player.

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Blackjack table.

(c) Each Double Attack Blackjack table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Double Attack Blackjack table must have a card reader device attached to the top of the dealer's side of the table. The floorperson assigned to the Double Attack Blackjack table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Double Attack Blackjack table must have a discard rack securely attached to the top of the dealer's side of the table. The height of each discard rack must either:
(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 665a.3. Cards; number of decks; value of cards.

(a) Except as provided in subsection (b), Double Attack Blackjack shall be played with an eight-deck batch of cards that are identical in appearance and at least one cover card. The decks shall consist of 48 cards, with the 10 of each suit removed from each deck during the inspection required under § 665a.4 (relating to opening of the table for gaming) or as provided in § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use).

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Double Attack Blackjack shall be played with two batches of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with eight decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Double Attack Blackjack table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

(1) Any card from 2 to 9 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.
§ 665a.4. Opening of the table for gaming.

(a) After receiving the decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) If the decks contain the 10 of any suit, the dealer and a floorperson shall ensure that these cards are removed from the decks, torn in half and placed in the box, envelope or container that the decks came from.

(c) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(d) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 665a.5 (relating to shuffle and cut of the cards).

(e) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)–(c) separate from the decks in the other batch of cards.

(f) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a) and (c)–(e) do not apply.

§ 665a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.
(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 665a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Double Attack Blackjack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 665a.4(d) (relating to opening of the table for gaming) and this section shall be completed.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 665a.6. Wagers.
(a) Wagers at Double Attack Blackjack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Double Attack Blackjack layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(b) After the cards have been shuffled as required under § 665a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

1. The certificate holder chooses to permit the player to begin wagering again.
2. A reshuffle of the cards has occurred.

(c) A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) To participate in a round of play, a player shall place a Bet Wager.

(e) A player who has placed a Bet Wager may then place a Double Attack Wager as provided in § 665a.7(e) (relating to procedure for dealing the cards; completion of each round of play), in an amount equal to or less than the player's Bet Wager.

(f) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Bet Wager in accordance with subsection (d) the option of placing an additional Bust It Wager, in an amount equal to or less than the player's Bet Wager.

(g) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Bet Wager in one round of play.

§ 665a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 665a.5 (relating to shuffle and cut of the cards) have been completed, the dealer or automated card shuffling device shall place the stacked cards in the dealing shoe.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.
(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then collect and reshuffle the cards in accordance with § 665a.5.

(e) At the commencement of each round of play and after all players have been afforded the opportunity to make a Bet and Bust It Wager, one card shall be dealt face up to the dealer. After examining the dealer's up card, a player who placed a Bet Wager may place an optional Double Attack Wager in accordance with § 665a.6(e) (relating to wagers).

(f) After all players have been afforded an opportunity to place a Double Attack Wager, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal the cards as follows:

1. One card face up to each box on the layout in which a Bet Wager is contained.

2. A second card face up to each box on the layout in which a Bet Wager is contained.

3. A second card face down to the dealer.

(g) Immediately after the second card is dealt to each player and the dealer, if the dealer's first card is an ace, the dealer shall offer the Insurance Wager in accordance with § 665a.8 (relating to Insurance Wager). If the dealer's first card is an ace, king, queen or jack, the dealer shall then determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and each player's Bet, Double Attack, Bust It and Insurance Wagers, if applicable, shall be settled in accordance with this section and § 665a.8.

(h) After the procedures in subsection (g) have been completed, if necessary, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and if the player:

1. Has Blackjack, the dealer shall announce and pay the Bet and Double Attack Wagers in accordance with subsection (o) and remove the player's cards. If a player also placed a Bust It Wager, the wager shall remain on the layout until subsection (m) is completed.

2. Does not have Blackjack, the player shall indicate whether he wishes to surrender, as permitted under § 665a.9 (relating to surrender), double down as permitted under §
665a.10 (relating to Double Down Wager), split pairs as permitted under § 665a.11 (relating to splitting pairs), stand or draw additional cards.

(i) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(j) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having Blackjack or a hard or soft total of 21 may not draw additional cards.

(2) A player electing to make a Double Down Wager may draw only one additional card.

(k) Prior to the dealer exposing his hole card, if player has less than 21 after drawing additional cards, the player may surrender in accordance with § 665a.9.

(l) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hole card face up.

(m) If the first two cards of the dealer's hand:

(1) Equal a total point count of 17 or higher, the dealer shall collect all losing Bust It Wagers before settling the player's Bet or Double Attack Wagers in accordance with subsection (o).

(2) Equal a total point count of less than 17, the dealer shall draw an additional card. If the dealer's three card hand has a total point count:

(i) In excess of 21, the dealer shall pay the winning Bust It Wager in accordance with § 665a.12(c) (relating to payout odds). The payout shall be based on the value of the third card drawn, except that if all three of the dealer's cards are an 8 of the same color or suit, a player shall receive an increased payout based on the three 8s instead of the payout based on the value of the third card drawn.

(ii) Of 21 or less, the dealer shall collect all losing Bust It Wagers.

(n) After settling the player's Bust It Wager, if applicable, if the dealer's first three cards equal a total point count of less than 17, the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21.

(o) After all additional cards have been dealt to the players and the dealer, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle the remaining wagers by collecting all losing wagers and paying all winning wagers as follows:
(1) A Bet Wager shall:

   (i) Win and be paid in accordance with § 665a.12(a) if:

       (A) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 21.

       (B) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

       (C) The player has a Blackjack and the dealer's hand has a total point count of 21 in more than two cards.

   (ii) Lose and be collected if:

       (A) The dealer has a Blackjack and the player does not have a Blackjack.

       (B) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

       (C) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

   (iii) Tie and be returned to the player if the total point count of the player's hand is the same as the dealer's or if both the player and dealer have Blackjack.

(2) A Double Attack Wager shall win, lose or tie in accordance with subsection (o)(1) except that the Double Attack Wager shall be returned to the player if the dealer has a Blackjack and the player does not have a Blackjack.

(p) The dealer shall pay all winning wagers and collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any winning wagers by using value chips collected from a losing wager.

(q) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(r) Players and spectators may not handle, remove or alter any cards used to play Double Attack Blackjack.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen or jack.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's Bet Wager. A player may wager an amount in excess of 1/2 of the initial Bet Wager to the next unit that can be wagered in chips, when, because of the limitation of the value of chip denominations, half the initial wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 665a.12(b) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

§ 665a.9. Surrender.

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering. A player may also elect to surrender after additional cards are dealt to the player, after a hand is split as permitted under § 665a.11 (relating to splitting pairs) and after doubling down as permitted under § 665a.10 (relating to Double Down Wager). A player may not elect to surrender after deciding to stand.

(b) If the player elects to surrender and the first card dealt to the dealer:

(1) Is not an ace, king, queen or jack, the dealer shall immediately collect the cards of the player and 1/2 of the Bet Wager and Double Attack Wager, if applicable, and return the other 1/2 to the player.

(2) Is an ace, king, queen or jack, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device in accordance with § 665a.7(g) (relating to procedure for dealing the cards; completion of each round of play). If the dealer:

(i) Has a Blackjack, the dealer shall collect the entire Bet Wager and the Bust It Wager, if applicable, and return the Double Attack Wager, if applicable, to the player.

(ii) Does not have a Blackjack, the dealer shall immediately collect the cards of the player and 1/2 of the Bet Wager and Double Attack Wager, if applicable, and return the other 1/2 to the player.

(c) If the player has made a Bust It Wager and then elects to surrender, the Bust It Wager must remain on the layout until settled in accordance with § 665a.7(m).
(d) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (b) and § 665a.8 (relating to Insurance Wager).

§ 665a.10. Double Down Wager.

(a) Except when a player has a Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his original Bet and Double Attack Wagers, on two or more cards dealt to that player, including any hands resulting from a split pair, provided that only one additional card shall be dealt to the hand on which the player has elected to double down.

(b) If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall collect only the amount of the original Bet Wager of the player and shall return the Double Down and Double Attack Wagers.

(c) Upon a player's election to make a Double Down Wager, the dealer shall deal the one additional card face up and place it sideways on the layout.

§ 665a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Bet and Double Attack Wagers. For example, if a player has two 7s or a king and a queen, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

(c) After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect that hand. A player may split pairs again if the second card dealt to an incomplete hand is identical in value to the split pair. A player may split pairs a maximum of three times for a total of four hands.

(d) If the dealer obtains Blackjack after a player splits pairs, the dealer shall collect only the amount of the original Bet Wager of the player and return the Double Attack Wager and the additional amount wagered in splitting pairs.

(e) If a player elects to split a pair of aces, each ace shall receive only one card. Aces may not be split more than once and may not be resplit.

(a) The certificate holder shall pay out each winning Bet and Double Attack Wager at odds of 1 to 1.
(b) The certificate holder shall pay out winning Insurance Wagers at odds of 5 to 2.

(c) The certificate holder shall pay out winning Bust It Wagers at the odds in the following paytable:

§ 665a.13. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and the dealer and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 665a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(f) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(g) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer
revealing his hole card or call the player's hand dead and return the player's Bet and Double Attack Blackjack Wagers.

(h) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen or jack, the dealer, after notification to a floorperson or above, shall:

(1) If the particular card reader device in use provides any player with the opportunity to determine the value of the hole card, call all hands dead, collect the cards and return each player's wager.

(2) If the particular card reader device in use does not provide any player with the opportunity to determine the value of the hole card, continue play.

(i) If a card reader device malfunctions, the dealer may not continue dealing the game of Double Attack Blackjack at that table until the card reader device is repaired or replaced.

(j) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(k) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

(b) Props & Hops shall be played with a dice shaker, approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment), which shall be used to shake the two dice to arrive at the winning combinations. The dice shaker shall be designed and constructed to maintain the integrity of the game and must:

(1) Be capable of housing two dice that when not being shaken must be maintained in the shaker. Dice that have been placed in a dice shaker for use in gaming may not remain on a table for more than 24 hours.

(2) Be designed to prevent the dice from being seen while being shaken.

(3) Have the name or logo of the certificate holder imprinted or impressed thereon.

After all Six Eight Shake Wagers have been placed in the designated circles, the dealer shall then place a red lammer button on each two-dice combination of 6 and 8 (1-5, 2-4, 3-3, 2-6, 3-5 and 4-4).

(f) The dealer shall then offer the covered dice shaker to the player farthest to the dealer's left. The player shall shake the covered shaker at least three times to cause a random mixture of the dice. Once the player has shaken the dice, the player shall return the covered shaker to the layout. If the player shaking the dice removes the lid, the shaker shall be recovered and shaken again.

(g) The dealer shall then remove the lid and place the uncovered shaker in the designated circle on the table layout. The shaker shall remain uncovered in the designated area until all wagers have been settled. If the dealer uncovers the shaker and a die falls out of the shaker, the
dealer shall call a “no roll.” The dice shall then be shaken again in accordance with subsection (f).

(h) The dealer shall then announce the numbers on the uppermost or skyward sides of the two dice and place a pointer marker on the corresponding area of the layout. If one die comes to rest on top of the other or if the dice do not land flat on the bottom of the shaker after being tossed, the dealer shall call a “no roll.” The dice shall be shaken again in accordance with subsection (f).

(i) After a valid roll, the dealer shall then collect all losing wagers before paying out winning wagers in accordance with § 668a.4 (relating to payout odds) provided that if any player placed a Six Eight Shake Wager and if the number rolled corresponds to one of the boxes on the table layout that contains a lammer button, the dealer shall remove the lammer button and place it in the Six Eight Shake circle on the table layout furthest to the dealer's right. Each time one of the preselected numbers containing a lammer is rolled, the lammer will be collected and placed on the Six Eight Shake circle next to the previous lammer. If there is a wager in the Six Eight Shake circle, the lammer shall be placed on top of the wager. If all six combinations of dice are thrown and all six lammer buttons are placed on the designated Six Eight Shake circles before a 7 is thrown, the dealer shall pay each winning Six Eight Shake Wager in accordance with § 668a.4.

(j) After all losing wagers have been collected and all winning wagers have been paid, the dealer shall cover and shake the shaker.

(k) The same player who shook the dice shall continue to shake the dice during each subsequent round of play until the player shakes a 7. Once the total of the dice is a 7, the dice shaker will be passed to the next player to the left at the next round of play.

§ 668a.4. Payout odds.

If the information is not inscribed on the layout, a sign that sets forth the required information must be posted at each Raise It Up Stud Poker table.

(c) If a certificate holder offers the Progressive Payout Wager, in accordance with § 669a.7(d)(4), the Raise It Up Stud Poker table must have a progressive table game system, in accordance with § 605a.7 (relating to progressive table games), for the placement of Progressive Payout Wagers. 2. A device that controls or monitors the placement of Progressive Payout Wagers at the gaming table including a mechanism, such as a lock-out button, that prevents the recognition of a Progressive Payout Wager that a player attempts to place after the dealer has announced “no more bets.”

(d) Each Raise It Up Stud Poker table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.
(e) Each Raise It Up Stud Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 669a.3. Cards; number of decks.

§ 669a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 669a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).
(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated card shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 669a.8, § 669a.9 or § 669a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(b) Only players who are seated at the Raise It Up Stud Poker table may place a wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. (c) All Ante, Blind, Pair Plus, Progressive Payout and Six Card Bonus Wagers shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 669a.8, § 669a.9 or § 669a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 669a.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer announces “no more bets” and begins dealing the cards.

(d) The following wagers may be placed in the game of Raise It Up Stud Poker:

(1) To participate in a round of play, a player shall place an Ante Wager and a Blind Wager, equal to the player's Ante Wager, that the three cards dealt to the player and the three community cards will form a pair of 10s or better as described in § 669a.6(b) (relating to Raise It Up Stud Poker hand rankings).

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards, face down, as follows:

(1) Deal one card at a time to each player who placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers) until each player who placed a wager has three cards.

(2) Three cards to the area designated for the placement of the community cards.

(e) After three cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct
number of cards are still present in the deck. The dealer shall determine the number of cards in
the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place
the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the
dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or
less than 3 cards or the area designated for the placement of the community cards has more or
less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be
returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be
returned to the players and the entire deck of cards shall be removed from the table.

§ 669a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be
observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 669a.5 (relating to shuffle and cut of
the cards) have been completed, the dealer shall place the stacked deck of cards in either hand.
After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to
use that hand whenever holding the cards during that round of play. The cards held by the dealer
shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing the cards, the dealer shall announce “no more bets”
and, if the Progressive Payout Wager is being offered, use the progressive table game system to
prevent the placement of additional Progressive Payout Wagers. If any Progressive Payout
Wagers have been made, the dealer shall then collect the wagers and, on the layout in front of the
table inventory container, verify that the number of value chips wagered equals the number of
Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then
place the value chips into the table inventory container.

(b) The dealer shall, starting with the player farthest to the dealer's left and continuing
around the table in a clockwise manner, deal the cards, face down, as follows:

(1) Deal one card at a time to each player who placed Ante and Blind Wagers in
accordance with § 669a.7(d)(1) (relating to wagers) until each player who placed a wager has
three cards.

(2) Three cards to the area designated for the placement of the community cards.

(c) After three cards have been dealt to each player and three cards have been dealt to the
area designated for the community cards, the dealer shall, except as provided in subsection (d),
place the stub in the discard rack without exposing the cards.
(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 669a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealing shoe dispensing any stacks, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of three cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed Ante and Blind Wagers. The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the three community cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used,
the dealer shall count the stub at least once every 5 rounds of play to determine that the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 669a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 669a.8, § 669a.9 or § 669a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

1. Each player who wagers at Raise It Up Stud Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

2. Each player shall keep his cards in full view of the dealer at all times.

3. A player may not exchange or communicate information regarding his hand prior to the dealer revealing all of the community cards. A violation shall result in a forfeiture of all wagers on that round by that person.

(b) After each player has examined his cards and replaced them face down on the layout, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to check or place a Play Wager in an amount equal to one, two or three times the amount of the player's Ante Wager.

(c) Once all players have either checked or placed a Play Wager, the dealer shall turn over and reveal the first community card and place it in the 4th Street box on the layout.

(d) Each player shall then either check or place a Play Wager in an amount equal to one or two times the amount of the player's Ante Wager.

(e) Once all remaining players have either checked or placed a Play Wager, the dealer shall turn over and reveal the second community card and place it in the 5th Street box on the layout.
(f) Each player shall then either place a Play Wager in an amount equal to the amount of the player's Ante Wager or fold. If a player folds, the Ante and Blind Wagers shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout or Six Card Bonus Wager in which case the cards shall be left on the table until the Six Card Bonus Wager and any Envy Bonus is settled in accordance with subsection (i).

(g) If a player has placed a Progressive Payout or Six Card Bonus Wager but does not make a Play Wager, the player shall forfeit the right to receive a Progressive Payout but does not forfeit the eligibility to receive an Envy Bonus under § 669a.12(e)(5) (relating to payout odds; Envy Bonus; rate of progression) or a Six Card Bonus payout under § 669a.12(f).

(h) Once all remaining players have either placed a Play Wager or folded, the dealer shall turn over and reveal the third community card and place it in the 6th Street box on the layout.

(i) Beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn over and reveal the player's three cards and complete the following applicable procedures in succession for each player:

(1) If a player placed a Pair Plus Wager, the dealer shall form the highest possible ranking three-card hand. If the player's three cards form a pair or better, as described in § 669a.6(c) (relating to Raise It Up Stud Poker hand rankings), the dealer shall pay each winning Pairs Plus Wager in accordance with the payout odds in § 669a.12(a).

(2) The dealer shall form the highest possible ranking five-card hand from the player's three cards and the three community cards. If a player's highest ranking five-card hand:

   (ii) Contains a pair of 10s or better, as described in § 669a.6(b), the dealer shall pay each player's winning Ante, Play and Blind Wagers in accordance with § 669a.12(b)—(d).

(3) After settling the player's Pair Plus, Ante, Play and Blind Wagers, the dealer shall settle the Progressive Payout or Six Card Bonus Wager, if offered by the certificate holder, as follows:

       (A) Verify that the hand is a winning hand.

(C) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(D) Pay the winning Progressive Payout Wager in accordance with § 669a.12(e)(1). If a player has won a progressive payout that is 100% of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(E) Pay any Envy Bonus won in accordance with § 669a.12(e)(5). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Raise It Up Stud Poker table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand.

(ii) If a player has placed a Six Card Bonus Wager and the player's three cards and the three community cards form a three-of-a-kind or better, the dealer shall pay the winning Six Card Bonus Wager in accordance with § 669a.12(f).

(j) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 670a.5. Shuffle and cut of the cards; procedures for determining the starting position for dealing cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by the floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, determine the starting position in accordance with subsection (i), then deal the cards in accordance with § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with the procedures in subsections (c)—(e).

(c) Upon completion of a manual shuffle, the dealer shall place the stack of cards on top of one of the cover cards. The dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (d). If no player accepts the cut, the dealer shall cut the cards.

(d) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.
(e) The player or dealer making the cut shall place the second cover card in the stack at least ten cards from the top or the bottom of the deck. Once the second cover card has been inserted, the dealer shall take the second cover card and all the cards on top of the second cover card and place them on the bottom of the stack. The dealer shall then remove the first cover card and place it on the bottom of the stack. The dealer shall remove one of the cover cards and either place it in the discard rack or use it as an additional cover card to be inserted four cards from the bottom of the deck. The dealer shall then determine the starting position in accordance with subsection (i) and deal the cards in accordance with § 670a.8, § 670a.9 or § 670a.10.

(f) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards, or by the next person entitled to cut the cards, as determined under subsection (d).

(g) If there is no gaming activity at a Six-Card Fortune Pai Gow Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards:

(1) If there is no automated shuffling device in use, the cards shall be mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section.

(2) If an automated shuffling device is in use, the cards shall be stacked and placed into the automated shuffling device to be shuffled. The deck of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the deck of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if the automated card shuffling device stores a single deck of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically resuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(i) To determine the starting position for the dealing of cards, the certificate holder shall use one of the following:

(1) A Pai Gow Poker shaker in accordance with the following procedures:

   (i) The dealer shall shake the Pai Gow Poker shaker at least three times to cause a random mixture of the dice.
(ii) The dealer shall then remove the lid covering the Pai Gow Poker shaker and place the uncovered shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total.

(iii) To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice.

(iv) After the dealing procedures required under § 670a.8, § 670a.9 or § 670a.10 have been completed, the dealer shall place the cover on the Pai Gow Poker shaker and shake the shaker once. The Pai Gow Poker shaker shall then be placed to the right of the dealer.

(2) A computerized random number generator to select and display a number from 1 to 7. To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner until the count matches the number displayed by the random number generator.

(j) After the starting position for a round of play has been determined, a certificate holder may mark that position with an additional cover card, flat button or similar object.

(a) The rank of the cards used in Six-Card Fortune Pai Gow Poker, in order of highest to lowest, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: queen, king, ace, 2 and 3). The joker shall be used and ranked as an ace or may be used as any card to complete a straight or a flush.

(b) The permissible five-card high hands at the game of Six-Card Fortune Pai Gow Poker, in order of highest to lowest rank, shall be:

(1) Five aces consisting of four aces and a joker.

(2) A royal flush consisting of an ace, king, queen, jack and 10 of the same suit or a king, queen, jack and 10 of the same suit and a joker.

(3) A straight flush consisting of five cards of the same suit in consecutive ranking, with ace, 2, 3, 4 and 5 being the highest ranking straight flush; king, queen, jack, 10 and 9 being the second highest ranking straight flush; and 2, 3, 4, 5 and 6 being the lowest ranking straight flush.

(4) A four-of-a-kind consisting of four cards of the same rank, with four aces being the highest ranking four-of-a-kind and four 2s being the lowest ranking four-of-a-kind.
(5) A full house consisting of a three-of-a-kind and a pair, with three aces and two kings being the highest ranking full house and three 2s and two 3s being the lowest ranking full house.

(6) A flush consisting of five cards of the same suit. When comparing two flushes, the hand which contains the highest ranking card, as provided in subsection (a), which is not in the other hand, shall be considered the higher ranking hand.

(7) A straight consisting of five cards of consecutive rank, regardless of suit, with an ace, king, queen, jack and 10 being the highest ranking straight; an ace, 2, 3, 4 and 5 being the second highest ranking straight; and a 2, 3, 4, 5 and 6 being the lowest ranking straight.

(8) A three-of-a-kind containing three cards of the same rank, with three aces being the highest ranking three-of-a-kind and three 2s being the lowest ranking three-of-a-kind.

(9) Two pair containing two pairs, with two aces and two kings being the highest ranking two pair hand and two 3s and two 2s being the lowest ranking two pair hand.

(10) A pair consisting of two cards of the same rank, with two aces being the highest ranking pair and two 2s being the lowest ranking pair.

(c) When comparing two high hands or two low hands that are of identical hand rank under subsection (b), or contain none of the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not in the other hand, shall be considered the higher ranking hand. If a player uses a joker as the low hand, the player's hand shall be considered the higher ranking hand. If the two hands are of identical rank after the application of this section, the dealer's hand shall be considered the higher ranking hand.

§ 670a.7. Wagers.

(a) Wagers at Six-Card Fortune Pai Gow Poker shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the Six-Card Fortune Pai Gow Poker layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Six-Card Fortune Pai Gow Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) Except the Double Down Wager, all wagers at Six-Card Fortune Pai Gow Poker shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except the Double Down Wager, a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”
(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place a Six-Card Fortune Pai Gow Poker Wager.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Six-Card Fortune Pai Gow Poker Wager, in accordance with subsection (d), the option of placing the following additional wagers:

(1) A Double Down Wager equal to the Six-Card Fortune Pai Gow Poker Wager that both the player's high and low hands will beat the dealer's high and low hands.

(2) A Fortune Bonus Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a three-of-a-kind or better as described in § 670a.6(b) (relating to Six-Card Fortune Pai Gow Poker rankings).

(3) An Insurance Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a king-high or less.

(4) A Progressive Payout Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a straight or better as described in § 670a.6(b).

(f) If specified in its Rules Submission under § 601a.2, a certificate holder may permit a player to wager on two adjacent betting areas at a Six-Card Fortune Pai Gow Poker table. If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 670a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Fortune Bonus Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout
If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 670a.5(i).

(d) The dealer shall then deal the first card to the starting position as determined in subsection (c) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards. Each card dealt shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(e) After 6 cards have been dealt to each position and the dealer, the dealer shall remove the stub from the manual dealing shoe and determine whether 11 cards are left by spreading them face down on the layout. The cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(f) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than six cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 670a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:
(i) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Fortune Bonus Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall then determine the starting position for dealing the cards using one of the procedures authorized under § 670a.5(i).

(c) The dealer shall then deal the first card to the starting position as determined in subsection (b) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards.

(d) After 6 cards have been dealt to each position and the dealer, the dealer shall determine whether 11 cards are left by spreading them face down on the layout. The 11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than six cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 670a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and:
(i) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Fortune Bonus Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures authorized under § 670a.5(i).

(c) After the starting position for delivering the cards has been determined, the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer.

(d) After 6 cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether 11 cards are left by spreading them face down on the layout. The 11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than six cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 670a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Six-Card Fortune Pai Gow Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the
setting of his hands, the dealer shall inform the player of the manner in which the certificate
holder requires the hands to be set.

(2) Each player shall keep his six cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face
down on the appropriate area of the layout, the player may not touch the cards again.

(b) Each player shall set his hands by arranging the cards into a high hand and a low
hand. When setting the two hands, the five-card high hand must be equal to or higher in rank
than the one-card low hand.

(c) After all players have examined their cards, the dealer shall offer each player the
option to place an additional Double Down Wager equal to the player's Six-Card Fortune Pai
Gow Poker Wager.

(d) After all players have set their hands and placed the cards on the table, the six cards
of the dealer shall be turned over and the dealer shall arrange his cards into a high and low hand
in accordance with the following requirements:

(1) The dealer may not break any sets as described in § 670a.6(b) (relating to Six-
Card Fortune Pai Gow Poker rankings) to play a higher card in the dealer's low hand. Once the
dealer has played the set, the dealer shall use the highest-ranking card in his low hand.
Notwithstanding the following requirements:

(i) If the dealer has two three-of-a-kinds in his hand, the dealer shall play
the lower ranking set as the three-of-a-kind and the higher one as a pair to play the higher card in
the low hand.

(ii) If the dealer has three pairs, the dealer shall play the two lower
ranking pairs as the high hand and the highest ranking card of the third pair as the low hand.

(2) If the dealer has a Six-Card Fortune straight, Six-Card Fortune flush or a Six-
Card Fortune straight flush, the dealer shall play the lowest possible straight, flush or straight
flush and place the highest ranking card in the low hand.

(3) If the dealer has both a straight and a flush, the dealer shall set the flush as the
dealer's high hand.

(4) If the dealer has both a straight and a straight flush, the dealer shall set the
straight flush as the dealer's high hand.

(5) If the dealer has both a Six-Card Fortune flush and a straight flush, the dealer
shall play the straight flush as the high hand and the remaining card as the dealer's low hand.
(6) If the dealer does not have pairs, straights or flushes, the dealer shall play the highest ranking card, in accordance with § 670a.6(a), in the dealer's high hand, the second highest ranking card as the dealer's low hand and the remaining four cards in the dealer's high hand.

(e) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the high and low hand of each player to the high and low hand of the dealer and shall announce if the Six-Card Fortune Pai Gow Poker Wager of that player wins, loses or is a tie.

(f) A Six-Card Fortune Pai Gow Poker Wager shall:

(1) Lose and will immediately be collected if:

   (i) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

   (ii) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is identical in rank to the low hand of the dealer.

   (iii) The high hand of the player is identical in rank to the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

   (iv) The high and low hands of the player are identical in rank to the high and low hands of the dealer.

   (v) The high hand of the player was not set so as to rank equal to or higher than the low hand of that player.

(2) Tie and will be returned to the player if:

   (i) The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is lower in rank than the low hand of the dealer.

   (ii) The high hand of the player is lower in rank than the high hand of the dealer, but the low hand of the player is a joker or is higher in rank than the low hand of the dealer.

(3) Win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is a joker or is higher in rank than the low hand of the dealer. The dealer shall pay the winning Six-Card Fortune Pai Gow Poker Wager in accordance with the payout odds in § 670a.12(a) (relating to payout odds; Envy Bonus; rate of progression).

(g) After settling the player's Six-Card Fortune Pai Gow Poker Wager, the dealer shall settle the player's optional Double Down Wager as follows:
(1) If the dealer's hand contains a pair of eights or better, as described in § 670a.6(b), the Double Down Wager shall win, lose or tie in accordance with subsection (f).

(2) If the dealer's hand does not contain a pair of eights or better, the Double Down Wager shall be returned to the player.

(h) If a player has placed a Fortune Bonus, Insurance or Progressive Payout Wager, the dealer shall rearrange the six cards of any player who placed an optional wager to form the highest ranking hand. If any player at the table has placed a Fortune Bonus or Progressive Payout Wager, the dealer shall rearrange the cards of all players regardless of whether the player placed a Fortune Bonus or Progressive Payout Wager. After rearranging the player's six cards, the dealer shall:

(1) Settle the player's Fortune Bonus Wager as follows:

   (i) If a player:

      (A) Placed a Six-Card Fortune Pai Gow Poker Wager but does not have a three-of-a-kind or higher, as described in § 670a.6(b), the dealer shall collect the Fortune Bonus Wager.

      (B) Placed a Six-Card Fortune Pai Gow Poker Wager and has a three-of-a-kind or higher, the dealer shall pay the winning Fortune Bonus Wager in accordance with § 670a.12(b). If the player has an Envy Bonus Qualifying Hand, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

      (C) Did not place a Fortune Bonus Wager but has an Envy Bonus Qualifying Hand, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

   (ii) After all Fortune Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 670a.12(b) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Six-Card Fortune Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(2) Settle the player's Insurance Wager. If a player has a hand ranked:

(B) Placed a Progressive Payout Wager and has a straight or better, the dealer shall:

(I) Verify that the hand is a winning hand.

(II) Verify that the appropriate light on the progressive table game system has been illuminated.

(III) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(IV) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 670a.12(d)(1). If a player has won a progressive payout that is a percentage of the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory, the cards of that player shall remain on the table until the necessary documentation has been completed.

(C) Has an Envy Bonus Qualifying Hand and any player at the table placed a Progressive Payout Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Progressive Payout Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 670a.12(d)(4) to each player who placed a progressive payout wager. Players are entitled to multiple Envy Bonuses when another player at the same Six-Card Fortune Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(i) The dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

Bet Wager—An additional wager that a player shall make if the player opts to remain in competition against the dealer after the player reviews his hand.

Super Wager—An additional wager that a player shall make to play against a posted paytable.

§ 671a.2. Lunar Poker table physical characteristics.

(a) Lunar Poker shall be played at a table having betting positions for no more than five players on one side of the table and a place for the dealer on the opposite side of the table.
(b) The layout for a Lunar Poker table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) Separate betting areas designated for the placement of the Ante and Bet Wagers for each player.

(3) A separate betting area designated for the placement of the Super Wager for each player and betting areas for the placement of the Super Wager on the dealer's hand and on any other player's hand for each player.

(4) A separate area designated for the placement of the player's Options fees for each player. The Options area must be inscribed with the following:

   (i) Exchange 2-5 cards.

   (ii) Buy a 6th Card.

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Lunar Poker table.

(6) Inscriptions that advise patrons of the following:

   (i) Dealer plays with an ace-king or higher.

   (ii) Instant payout for a royal flush or straight flush on the first five cards dealt to the player.

(7) If the information in paragraph (6) is not on the layout, a sign which sets forth the required information shall be posted at each Lunar Poker table.

(c) Each Lunar Poker table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Lunar Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 671a.3. Cards; number of decks.
(a) Except as provided in subsection (b), Lunar Poker shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Lunar Poker may be played with two decks of cards in accordance with the following requirements:

1. The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.
2. One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.
3. Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.
4. The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Lunar Poker shall be changed at least every:

1. Four hours if the cards are dealt by hand.
2. Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 671a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 671a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 671a.5. Shuffle and cut of the cards.
(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Lunar Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 671a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(a) The rank of the cards used in Lunar Poker, in order of highest to lowest rank, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: queen, king, ace, 2 and 3). All suits shall be equal in rank.

(1) A royal flush, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit.

(6) A straight, which is a hand consisting of five cards of more than one suit and of consecutive rank, with an ace, king, queen, jack and 10 being the highest ranking straight and an ace, 2, 3, 4 and 5 being the lowest ranking straight.

(7) A three-of-a-kind, which is a hand consisting of three cards of the same rank, with three aces being the highest ranking three-of-a-kind and three 2s being the lowest ranking three-of-a-kind.

(8) Two pairs, which is a hand consisting of two pairs, with two aces and two kings being the highest ranking two pair and two 3s and two 2s being the lowest ranking two pair.

(9) A pair, which is a hand consisting of two cards of the same rank, with two aces being the highest ranking pair and two 2s being the lowest ranking pair.

(10) An ace-king, which is a hand consisting of an ace and a king.
(c) When comparing two Poker hands that are of identical rank under subsection (b), or that contain none of the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not in the other hand, shall be considered the higher ranking hand. If the hands are of equal rank after the application of this section, the hands shall be considered a tie.

(d) For the Super Wager, the five-card Poker hands eligible for a payout are:

(1) A four-of-a-kind, which is a hand consisting of four cards of the same rank.

(2) A five picture cards, which is a hand consisting of five cards of any combination of only kings, queens or jacks.

(3) A full house, which is a hand consisting of a three-of-a-kind and a pair.

(5) A straight, which is a hand consisting of five cards of more than one suit and of consecutive rank.

(6) A three-of-a-kind, which is a hand consisting of three cards of the same rank, with three aces being the highest ranking three-of-a-kind and three 2s being the lowest ranking three-of-a-kind.

(7) An ace-king-queen, which is a hand consisting of an ace, king and queen in any suit.

(8) Same colored five, which is a hand consisting of five cards of the same color.

§ 671a.7. Wagers.

(a) Wagers at Lunar Poker shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Lunar Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) The following wagers may be placed in the game of Lunar Poker:

(1) A player shall compete against the dealer's five-card Poker hand by placing both an Ante Wager, then a Bet Wager in accordance with § 671a.11(b) or (d) (relating to procedures for completion of each round of play).
(2) In addition to the Ante and Bet Wagers, a player shall place a Super Wager on
the player's hand equal to or greater than the player's Ante Wager to compete against a posted
paytable.

(3) If specified in its Rules Submission under § 601a.2 (relating to table games
Rules Submissions), a certificate holder may offer to each player at a Lunar Poker table the
option to make an additional Super Wager on the dealer's hand and any other player's hand. After
placing an Ante Wager, a player may make the additional Super Wager by placing a value chip
on the designated betting area prior to the dealer announcing “no more bets.” The additional
Super Wager on the dealer or other player's hand may be made in any amount equal to or greater
than the table minimum and is not required to be equal to or greater than the player's Ante
Wager.

(d) The Ante and Super Wagers shall be placed prior to the dealer announcing “no more
bets” in accordance with the dealing procedures in § 671a.8, § 671a.9 or § 671a.10 (relating to
procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from
the hand; and procedures for dealing the cards from an automated dealing shoe). Except as
provided in § 671a.11(b) and (d), a wager may not be made, increased or withdrawn after the
dealer has announced “no more bets.”

(e) A player may not wager on more than one player position at a Lunar Poker table.

§ 671a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a
location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g)
(relating to approval of table game layouts, signage and equipment). Once the procedures
required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the
stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card
shuffling device.

(b) The dealer shall announce “no more bets” and begin dealing the cards. Each card
shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing
shoe and placed face down on the appropriate area of the layout with the opposite hand.

(c) Starting with the player farthest to the dealer's left and continuing around the table in
a clockwise manner, the dealer shall deal one card at a time face down to each player who placed
an Ante Wager and to the dealer until each player and the dealer have five cards. The last card of
the dealer shall be turned face up on the layout.

§ 671a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be
observed:

(1) An automated shuffling device shall be used to shuffle the cards.
After the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

Prior to dealing any cards, the dealer shall announce “no more bets.”

The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed and Ante Wager and to the dealer until each player and the dealer have five cards. The last card of the dealer shall be turned face up on the layout.

§ 671a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the dealer. The last card of the dealer shall be turned face up on the layout.

§ 671a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Lunar Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.
(3) After the dealer announces “all decisions are locked in” a player may not amend his decision to fold or increase, decrease or place any Bet Wager or Options fee except as provided in subsection (d).

(b) After five cards have been dealt to each player, the player shall examine his cards. If any player's hand is eligible for a Super Wager or an instant payout, the player shall declare the winning hand and place his cards face down in the player's betting area on the layout. Each player shall then elect to:

(1) Fold.

(2) Place a Bet Wager equal to twice the amount of the player's Ante Wager provided that if any player's hand contains a royal flush or a straight flush and is eligible for the instant payout, the player shall not place a Bet Wager.

(3) Place an Options fee, equal to the player's Ante Wager, to buy a sixth card or draw and exchange between two and five of the player's cards.

(c) After all players have made a decision to either fold or place a Bet Wager or Options fee, the dealer shall announce “all decisions are locked in.” Once the dealer has announced “all decisions are locked in” a player may not change his decision. Prior to any additional cards being dealt, the dealer shall, beginning with the player to the dealer's left and continuing clockwise around the table:

(1) If the player did not declare a winning Super Wager, collect the player's losing Super Wager. If any other player placed a Super Wager on that player's hand, the dealer shall collect the player's losing Super Wager first then collect any other player's Super Wager who placed a Super Wager on that player's hand.

(2) If the player declared a winning Super Wager, the dealer shall verify the winning hand and pay the player's winning Super Wager in accordance with § 671a.12(b) (relating to payout odds). If any other player placed a Super Wager on that player's hand, the dealer shall pay out the winning player's hand first then any other player who also placed a Super Wager on that player's hand in accordance with § 671a.12(b).

(3) If any player is eligible for an instant payout, after verifying the player's hand, the dealer shall pay the player's winning Ante Wager in accordance with § 671a.12(a) and place the player's cards in the discard rack.

(4) For any player who did not make a Bet Wager or Options fee and folded, the dealer shall collect the player's Ante Wager and place the player's cards in the discard rack.

(d) Once all player Super Wagers and instant payouts have been settled and any player's cards who folded have been collected, beginning with the player to the dealer's left and moving clockwise around the table, for any player who placed an Options fee equal to the player's Ante Wager:
(1) The dealer shall collect the Options fee and:

(i) If the player elects to buy the sixth card, the dealer shall deal one additional card.

(ii) If the player elects to exchange cards, the player shall discard between two and five cards, which will thereafter be replaced by the dealer with the same number of cards from the deck.

(2) After dealing the additional cards, the player shall create the best possible five-card Poker hand.

(3) The dealer shall then ask the player if the player would like to fold and forfeit the player's Ante Wager or place a Bet Wager equal to twice the amount of the player's Ante Wager.

(4) If the player does not make a Bet Wager and forfeits his Ante Wager, the dealer shall collect the Ante Wager and place the player's cards in the discard rack.

(e) After all players have either folded or placed a Bet Wager, the dealer shall reveal the dealer's cards and form the highest ranking five-card Poker hand. The dealer shall then settle any Super Wagers placed on the dealer's hand. Beginning with the first player to the dealer's left who placed a Super Wager on the dealer's hand and continuing clockwise around the table, if the dealer's hand:

(1) Is not eligible for a Super Wager payout, the dealer shall collect each player's losing Super Wager placed on the dealer's hand.

(2) Is eligible for a Super Wager payout, the dealer shall pay the player's winning Super Wager in accordance with § 671a.12(b).

(f) After settling the Super Wager placed on the dealer's hand, if the dealer's hand:

(1) Does not qualify with an ace-king or better, as provided in § 671a.6(b) (relating to Lunar Poker rankings), the dealer shall return the player's Bet Wager, pay the player's Ante Wager in accordance with § 671a.12(c) and place the player's cards in the discard rack.

(2) Qualifies with an ace-king or better, as provided in § 671a.6(b), starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn the cards of each player who placed a Bet Wager face up on the layout and form the highest ranking five-card Poker hand. If the dealer's highest ranking five-card Poker hand is:

(i) Higher in rank than the player's five-card Poker hand, as provided in § 671a.6(b), the dealer shall collect the player's Ante and Bet Wagers and place the player's cards in the discard rack.
(ii) Lower in rank than the player's five-card Poker hand, as provided in §671a.6(b), the dealer shall return the player's Ante Wager and pay the winning Bet Wager in accordance with §671a.12(d). If a player's winning hand also contains a second Poker combination, where at least one card in the second combination was not included in the winning combination, the dealer shall pay a second winning Bet Wager in accordance with §671a.12(d) for the second Poker combination even if the second combination does not beat the dealer's hand. For example, if a player's winning hand contained two aces, a king, 8 and 9, the player would be paid out for the pair of aces that beat the dealer's hand but would also be paid out for the ace-king. If a player purchased a sixth card, all six cards may be considered for purposes of the second payout.

(iii) Equal in rank with the player's hand, as provided in §671a.6(b), the dealer shall return the player's Ante and Bet Wagers.

(g) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(h) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the cards at least once after every 5 rounds of play to determine if the correct number of cards is still present in the deck. The dealer shall determine the number of cards by counting the cards face down on the layout. If the count indicates:

1. That 52 cards are in the deck, the dealer shall place the cards in the discard rack.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If any player or the dealer is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If any of the dealer's cards that are dealt face down on the layout are inadvertently exposed prior to each player having either folded or placed a Bet Wager as provided under §

§ 672a.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Blackjack—An ace and any card having a value of 10 dealt as the initial two cards to a player or the dealer.

Card reader device—A device which permits the dealer to determine if the hole card will give the dealer a Blackjack.

Hard total—The total point count of a hand which contains no aces or which contains aces that are each counted as 1 in value.

Hole card—The second card dealt face down to the dealer.

Soft total—The total point count of a hand containing an ace when the ace is counted as 11 in value.

§ 672a.2. Free Bet Blackjack table; card reader device; physical characteristics; inspections.
(a) Free Bet Blackjack shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Free Bet Blackjack table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) A separate betting area designated for the placement of the Blackjack Wager for each player.

(3) The following inscriptions:

(i) Blackjack pays 3 to 2.

(ii) Insurance pays 2 to 1.

(iii) Dealer shall draw to 16 and stand on all 17s or other similar language approved by the Executive Director in accordance with § 601a.10(a).

(iv) Blackjack Wagers will push if the dealer's hand has a total point count of 22 or other similar language.

(v) Surrender is not available on a Free Bet Blackjack table or other similar language. If the language is not inscribed on the layout, a sign specifying that surrender is not available shall be posted at each Free Bet Blackjack table.

(4) If the certificate holder offers the Push 22 Wager, a separate area designated for the placement of the wager for each player.

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Free Bet Blackjack table.

(c) Each Free Bet Blackjack table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Free Bet Blackjack table must have a card reader device attached to the top of the dealer's side of the table. The floorperson assigned to the Free Bet Blackjack table shall
inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Free Bet Blackjack table must have a discard rack securely attached to the top of the dealer's side of the table. The height of each discard rack must either:

1. Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

2. Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 672a.3. Cards; number of decks; value of cards.

(a) Except as provided in subsection (b), Free Bet Blackjack shall be played with six or eight deck shoes of cards that are identical in appearance and at least one cover card.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Free Bet Blackjack shall be played with at least two shoes of cards in accordance with the following requirements:

1. The cards shall be separated into two batches with an equal number of decks included in each batch.

2. The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

3. One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

4. Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

5. The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Free Bet Blackjack table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

1. Any card from 2 to 10 shall have its face value.

2. Any jack, queen or king shall have a value of 10.
(3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.

§ 672a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 672a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 672a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.
(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 672a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Free Bet Blackjack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt provided that the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for
testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 672a.6. Wagers.

(a) Wagers at Free Bet Blackjack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Free Bet Blackjack layout.

(b) After the cards have been shuffled as required under § 672a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

(1) The certificate holder chooses to permit the player to begin wagering again.

(2) A reshuffle of the cards has occurred.

(c) All wagers, except an Insurance Wager under § 672a.8 (relating to Insurance Wager), a wager to double down under § 672a.9 (relating to double down) or a wager on split pairs under § 672a.10 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) A player shall place a Blackjack Wager to participate in a round of play and compete against the dealer's hand.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Blackjack Wager in accordance with subsection (d), the option of placing a Push 22 Wager which shall win if the dealer's hand has a total point count of 22.

(f) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Blackjack Wager in one round of play.

§ 672a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 672a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite
hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

   (1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

   (2) Shuffle the cards so that they are randomly intermixed.

(e) After all Blackjack and optional Push 22 Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

   (1) One card face up to each box on the layout in which a Blackjack Wager is contained.

   (2) One card face up to the dealer.

   (3) A second card face up to each box in which a wager is contained.

   (4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, if the dealer's first card is an ace, the dealer shall offer the Insurance Wager or even money in accordance with § 672a.8 (relating to Insurance Wager).

(g) If the dealer's first card is an ace or a 10 value card, after the procedures in subsection (f) have been completed, if applicable, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and if a player:

   (1) Has a Blackjack, the dealer shall return the player's Blackjack Wager, collect the player's Push 22 Wager and pay out any Insurance Wager, if applicable.

   (2) Does not have a Blackjack, the dealer shall collect the player's Blackjack and Push 22 Wagers and pay out any Insurance Wager, if applicable.
(h) If the dealer's up card was not an ace or 10 value card or if the dealer's hole card did not give the dealer Blackjack, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and if the player:

(1) Has Blackjack, the dealer shall announce and pay the Blackjack in accordance with § 672a.11(a) (relating to payout odds) and remove the player's cards. If a player also placed a Push 22 Wager, the dealer shall tuck the player's cards under the player's Push 22 Wager until it is resolved in accordance with subsection (n).

(2) Does not have Blackjack, the player shall indicate whether he wishes to double down as permitted under § 672a.9 (relating to double down), split pairs as permitted under § 672a.10 (relating to splitting pairs), stand or draw additional cards. Players may not surrender in Free Bet Blackjack.

(i) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(j) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having a hard or soft total of 21 may not draw additional cards.

(2) A player electing to double down in accordance with § 672a.9 may draw only one additional card.

(k) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hole card face up.

(l) Except as provided in subsection (m), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21. Any additional cards required to be dealt to the hand of the dealer shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(m) If there are no Push 22 Wagers on the table, a dealer may not draw additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play. If there are Push 22 Wagers still on the table and all player's hands are in excess of 21 or have Blackjack, the dealer shall draw additional cards to settle the Push 22 Wagers.

(n) After all additional cards have been drawn, if the total point count of the dealer's hand:

(1) Is a 22, the dealer shall return all remaining player's Blackjack Wagers, collect any Free Bet lammers, as provided in § 672a.9 and § 672a.10, and pay out any Push 22 Wagers in accordance with § 672a.11(c).
(2) Is not a 22, the dealer shall collect any Push 22 Wagers and settle the player's Blackjack Wagers and Free Bet lammers in accordance with subsections (o)—(q).

(o) A player shall win and be paid in accordance with § 672a.11(a) for the Blackjack Wager and an equivalent amount for each Free Bet lammer, if applicable, if:

(1) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 21 provided that if the total point count of the dealer's hand is 22, the Blackjack Wager shall be returned to the player and any Free Bet lammers shall be collected.

(2) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(p) A Blackjack Wager shall tie and be returned to the player and any Free Bet lammers collected if the total point count of the player's hand is the same as the total point count of the dealer's hand.

(q) A player's Blackjack Wager shall lose and any Free Bet lammers shall be collected if:

(1) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

(2) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(r) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction and then pay off all winning wagers.

(2) Collect each player's losing wagers and pay off each player's winning wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any player's winning wagers by using value chips collected from a losing wager.

(s) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(t) Players and spectators may not handle, remove or alter any cards used to play Free Bet Blackjack.
§ 672a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips when, because of the limitation of the value of chip denominations, 1/2 the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 672a.11(b) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

(e) Notwithstanding the requirements of subsections (a)—(d), if selected in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer a player who has Blackjack the option to be paid even money on the Blackjack Wager instead of making an Insurance Wager. If the player elects to be paid even money, the dealer shall pay out the Blackjack Wager at odds of 1 to 1 and remove the player's cards provided that if the player also placed a Push 22 Wager, the dealer shall tuck the player's cards under the player's Push 22 Wager until it is resolved in accordance with § 672a.7(n) (relating to procedure for dealing the cards; completion of each round of play).

§ 672a.9. Double down.

(a) Except when a player has a Blackjack, a player may elect to double down on the first two cards dealt to him or on the first two cards of any split pair. If the total point count of the player's two cards:

(1) Is a hard 9, 10 or 11, the player may double down without placing an additional wager. If a player is doubling down without placing an additional wager, the dealer shall place a Free Bet lammer next to the player's original Blackjack Wager.

(2) Is not a hard 9, 10 or 11, the player may place an additional wager next to the player's original Blackjack Wager which may not exceed the amount of the player's original Blackjack Wager.

(b) If a player elects to double down after splitting pairs, as provided in § 672a.10 (relating to splitting pairs), the player may double down on split pairs as provided in subsection (a).
(c) Upon a player's election to double down, the dealer shall deal one additional card face up and place it sideways on the layout.

(d) The dealer shall then complete the procedure in § 672a.7(i)—(s) (relating to procedure for dealing the cards; completion of each round of play).

§ 672a.10. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) If a player elects to split pairs and the player has:

(1) A pair of 10 value cards (10, jack, queen or king), the player shall place an amount equal to the original Blackjack Wager for the split pair.

(2) Any pair other than 10 value cards, the player may split pairs without placing an additional wager. If a player is splitting pairs without placing an additional wager:

   (i) The dealer shall place a Free Bet lammer next to the player's original Blackjack Wager.

   (ii) The original Blackjack Wager shall move with the first split hand and the Free Bet lammer shall be the wager for the second split hand.

(c) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand. If the first split hand busts and if the player's hand:

   (1) Does not contain any Free Bet lammers, the dealer shall collect the losing Blackjack Wager and place the player's cards in the discard rack.

   (2) Contains a Free Bet lammer, the player's cards shall be tucked under the original Blackjack Wager until the hand is settled or until the split hand or hands bust as well.

(d) After a second card is dealt to each split pair, the player shall indicate his decision to stand, draw, double down or resplit with respect that hand. A player may resplit any additional pairs, in accordance with subsection (b), for a total of up to four hands.

§ 672a.11. Payout odds.

(a) The certificate holder shall pay each winning Blackjack Wager and any Free Bet lammers at odds of 1 to 1 with the exception of player Blackjack which shall be paid at odds of 3 to 2.
(b) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

(c) The certificate holder shall pay out winning Push 22 Wagers based on the dealer's hand at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

§ 672a.12. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack or in a segregated area of the double shoe.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(f) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 672a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(g) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(h) If after receiving the first two cards the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer
revealing his hole card or call the player's hand dead and return the player's original Blackjack Wager.

(i) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorperson or above, shall continue play.

(j) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(k) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(l) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

Blackjack—An ace and any card having a value of 10 dealt as the initial two cards to a player or the dealer.

Bust—The total point count of a hand that is greater than 21.

Card reader device—A device which permits the dealer to determine if the hole card will give the dealer a Blackjack.

§ 673a.2. Double Back Jack table; card reader device; physical characteristics; inspections.
(a) Double Back Jack shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Double Back Jack table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

1. The name or logo of the certificate holder.
2. A separate betting area designated for the placement of the Blackjack Wager for each player.
3. A separate betting area designated for the placement of the Second Chance Wager for each player.
4. The following inscriptions or other similar language approved by the Executive Director in accordance with § 601a.10(a):
   i. Blackjack and Insurance pays 2 to 1.
   ii. Dealer shall draw to 16 and stand on all 17s.
   iii. Blackjack Wagers will push if the dealer's hand has a total point count of 22, player 21 pays right away, Second Chance pays even money.
5. Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Double Back Jack table.

(c) Each Double Back Jack table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Double Back Jack table must have a card reader device attached to the top of the dealer's side of the table. The floorperson assigned to the Double Back Jack table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Double Back Jack table must have a discard rack securely attached to the top of the dealer's side of the table. The height of each discard rack must either:
(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 673a.3. Cards; number of decks; value of cards.

(a) Except as provided in subsections (b) and (c), Double Back Jack shall be played with at least one deck of cards that are identical in appearance and at least one cover card.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Double Back Jack shall be played with at least two decks of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Double Back Jack table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

(1) Any card from 2 to 10 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.

§ 673a.4. Opening of the table for gaming.
(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 673a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 673a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.
(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 673a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Double Back Jack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section, if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled, if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt if the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 673a.6. Wagers.
(a) Wagers at Double Back Jack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Double Back Jack layout.

(b) After the cards have been shuffled as required under § 673a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

1. The certificate holder chooses to permit the player to begin wagering again.

2. A reshuffle of the cards has occurred.

(c) All wagers, except a Second Chance Wager under § 673a.7(l) (relating to procedure for dealing the cards; completion of each round of play), an Insurance Wager under § 673a.8 (relating to Insurance Wager), a wager to double down under § 673a.10 (relating to double down) or a wager on split pairs under § 673a.11 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) To participate in a round of play and compete against the dealer's hand, a player shall place a Blackjack Wager.

(e) The certificate holder shall specify in its Rules Submission under § 601a.2 (relating to table games Rules Submissions) the number of adjacent boxes on which a player may place a Blackjack Wager in one round of play.

§ 673a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 673a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.
(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

1. Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.
2. Shuffle the cards so that they are randomly intermixed.

(e) After all Blackjack Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

1. One card face up to each box on the layout in which a Blackjack Wager is contained.
2. One card face up to the dealer.
3. A second card face up to each box in which a wager is contained.
4. A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt or before any card reader device is utilized, if any player has a Blackjack, the dealer shall settle the player's Blackjack Wager. Starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall pay the winning Blackjack Wager in accordance with § 673a.12(a) (relating to payout odds) and place the player's cards in the discard rack.

(g) After paying out any winning Blackjack Wagers in accordance with subsection (f), if the dealer's first card is an ace, the dealer shall offer the Insurance Wager in accordance with § 673a.8 (relating to Insurance Wager).

(h) If the dealer's first card is an ace, king, queen, jack or 10, after all Insurance Wagers have been placed, if applicable, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and each player's Blackjack Wager will be collected.

(i) If the dealer's up card was not an ace or 10 value card or if the dealer's hole card did not give the dealer Blackjack, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and each player shall indicate whether he wishes to surrender, as permitted under § 673a.9 (relating to surrender), double down as permitted under § 673a.10 (relating to double down), split pairs as permitted under § 673a.11 (relating to splitting pairs), stand or draw additional cards.
(j) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(k) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having a hard or soft total of 21 may not draw additional cards.

(2) A player electing to double down may draw only one additional card.

(l) After drawing additional cards in accordance with subsection (k), if the player's hand is greater than 21, the dealer shall ask if the player would like to place a Second Chance Wager to draw one additional card, the value of which will be subtracted from the player's hand. To draw an additional card, the player shall place a Second Chance Wager equal to the amount of the player's current Blackjack Wager. The dealer shall deal one additional card face up and place it sideways on the layout. The value of the second chance card shall be subtracted from the total value of the player's hand. For example, if a player elects to place a Second Chance Wager when the player's hand has a total value of 25 after all additional cards are dealt in accordance with subsection (k), and the player receives a second chance card with a value of 5, the 5 shall be subtracted from the player's hand making the total value of the player's hand a 20. For purposes of the Second Chance Wager, an additional ace drawn is counted as a 1. After drawing the additional second chance card, if the player's hand has a total value:

(1) Greater than 21, the dealer shall collect the player's Blackjack and Second Chance Wagers and place the player's cards in the discard rack.

(2) Of 21, the dealer shall pay the player's winning Second Chance Wager in accordance with § 673a.12(b), return the player's Blackjack Wager and place the player's cards in the discard rack.

(3) Less than 21, the round of play shall continue in accordance with subsection (n).

(m) If a player did not place a Second Chance Wager, after all additional cards have been dealt, if any player's hand has a total value of 21, the dealer shall pay the player's winning Blackjack Wager in accordance with § 673a.12(a) and place the player's cards in the discard rack.

(n) After settling any player's hand who had a total value of 21, the dealer shall turn the dealer's hole card face up.

(o) Except as provided in subsection (p), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21. Any additional cards required to be dealt to the hand of the dealer shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.
(p) A dealer shall draw no additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play.

(q) After all additional cards have been dealt to the dealer, if the total point count of the dealer's hand:

1) Is 22, the dealer shall return all remaining player's Blackjack Wagers and Second Chance Wagers, if applicable.

2) Is 21 or less, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle the remaining player's hands in accordance with subsections (r) and (s).

(r) In comparing the total point count of the dealer's hand versus the total point count of the player's hand, a player's hand shall:

1) Win if:

   i) The total point count of the player's hand is less than 21 and the total point count of the dealer's hand is in excess of 21.

   ii) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

2) Tie if the total point count of the player's hand is the same as the total point count of the dealer's hand.

3) Lose if:

   i) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

   ii) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(s) If a player's hand:

1) Is a winning hand, in accordance with subsection (r), and the player:

   i) Placed a Second Chance Wager, the dealer shall return the player's Blackjack Wager and pay out the winning Second Chance Wager in accordance with § 673a.12(b).

   ii) Did not place a Second Chance Wager, the dealer shall pay out the winning Blackjack Wager in accordance with § 673a.12(a).
(2) Ties with the dealer's hand, the dealer shall return the player's Blackjack Wager and Second Chance Wager, if applicable.

(3) Loses against the dealer's hand, the dealer shall collect the player's Blackjack Wager and Second Chance Wager, if applicable.

(i) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction and then pay off all winning wagers.

(2) Collect each player's losing wagers and pay off each player's winning wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any player's winning wagers by using value chips collected from a losing wager.

(u) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(v) Players and spectators may not handle, remove or alter any cards used to play Double Back Jack.

§ 673a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips, when, because of the limitation of the value of chip denominations, half the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 673a.12(c) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.
§ 673a.9. Surrender.

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering 1/2 of his wager. All decisions to surrender shall be made prior to the player indicating whether he wishes to double down as permitted under § 673a.10 (relating to double down), split pairs as permitted under § 673a.11 (relating to splitting pairs), stand or draw. If the first card dealt to the dealer:

(1) Is not an ace or 10 value card, the dealer shall immediately collect 1/2 of the wager and return 1/2 to the player.

(2) Is an ace or 10 value card, the dealer will place the player's wager on top of the player's cards. After the Insurance Wager is offered and the card reader device is utilized, the hand will be settled by immediately collecting the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack.

(b) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (a) and § 673a.8 (relating to Insurance Wager).

§ 673a.10. Double down.

(a) Except when a player has a Blackjack, a player may elect to double down on the first two cards dealt to him or the first two cards of any split pair. To double down, the player shall place an additional wager next to the player's original Blackjack Wager which may not exceed the amount of the player's original Blackjack Wager. Only one additional card shall be dealt to the hand on which the player has elected to double down.

(b) Upon a player's election to double down, the dealer shall deal the one additional card face up and place it sideways on the layout.

(c) A player may double down after splitting pairs as provided in § 673a.11 (relating to splitting pairs).

§ 673a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into a maximum of two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Blackjack Wager. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand. If a player's hand contains an ace and a 10 value card after the
player's hand is split and an additional card is dealt, the player shall be paid out for a 21 not a Blackjack.

(c) After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect that hand.

(a) The certificate holder shall pay each winning Blackjack Wager at odds of 1 to 1 with the exception of a player Blackjack which shall be paid at odds of 2 to 1.

(b) The certificate holder shall pay out winning Second Chance Wagers at odds of 1 to 1.

(c) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

§ 673a.13. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack or in a segregated area of the double shoe.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(f) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 673a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(g) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.
(h) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player's hand dead and return the player's original Blackjack Wager.

(i) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorperson or above, shall continue play.

(j) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(k) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(l) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

Community cards—Cards which are used by all players to form a five-card Poker hand.

§ 674a.2. Criss-Cross Poker table physical characteristics.

(1) The name or logo of the certificate holder.
(2) Five separate betting areas for each player designated for the placement of the Ante Across and Ante Down Wagers required under § 674a.7(d) (relating to wagers) and the Across, Down and Middle Bets as provided in § 674a.11(b), (d) and (f) (relating to procedures for completion of each round of play).

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Criss-Cross Poker table.

(6) If the certificate holder establishes a payout limit per player per round of play as authorized under § 674a.12(d) (relating to payout odds), inscriptions that advise patrons of the payout limit. If the limit is not inscribed on the layout, a sign identifying the payout limit shall be posted at each Criss-Cross Poker table.

(c) Each Criss-Cross Poker table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Criss-Cross Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 674a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Criss-Cross Poker shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Criss-Cross Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.
(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Criss-Cross Poker shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 674a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 674a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 674a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder
may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Criss-Cross Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 674a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 674a.6. Criss-Cross Poker rankings.

(a) The rank of the cards used in Criss-Cross Poker shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example, queen, king, ace, 2 and 3). All suits shall be equal in rank.
(b) The permissible Poker hands in the game of Criss-Cross Poker, in order of highest to lowest rank, shall be:

§ 674a.7. Wagers.

(a) Wagers at Criss-Cross Poker shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Criss-Cross Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante Across and Ante Down Wagers shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe). Except as provided in § 674a.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager may not be made after the dealer has announced “no more bets.”

(d) To participate in a round of play, a player shall place two equal but separate Ante Wagers designated as Ante Across and Ante Down.
(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Criss-Cross Poker table the option to make an additional Five Card Bonus Wager that the five community cards will form a hand with a rank of a pair of 6s or better. After placing the Ante Wagers required under subsection (d), a player may make an additional Five Card Bonus Wager by placing a value chip onto the designated betting area for that player. A Five Card Bonus Wager will not have a bearing on any other wagers made by the player.

(f) Across, Down and Middle Bets shall be made in accordance with § 674a.11(b), (d) and (f).

(g) A player may not wager on more than one player position at a Criss-Cross Poker table.

§ 674a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.”

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers) until each player has two cards.

(e) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.
(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 674a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck. The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers) until each player has two cards.

(c) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.
(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 674a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the area designated for the placement of the community cards. The dealer shall spread the stack within the designated area to form a cross with one card placed in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deliver a stack of two cards face down to each of the players who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers).

(c) After each stack of cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.
§ 674a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Criss-Cross Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his two cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place an Across Bet in an amount equal to one to three times the total amount of the player's Ante Across Wager. If a player does not place an Across Bet, the player's Ante Across and Ante Down Wagers shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(c) After each player has made a decision regarding the Across Bet and any forfeited hands have been collected, the dealer shall then turn the two outside community cards in the horizontal row face up on the layout.

(d) After the first two community cards are exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Down Bet in an amount equal to one to three times the total amount of the player's Ante Down Wager. If a player does not place a Down Bet, the player's Ante Across Wager, Ante Down Wager and Across Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(e) The dealer shall then turn the two outside community cards in the vertical row face up leaving only the middle community card face down on the layout.

(f) After the third and fourth community cards are exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Middle Bet in an amount equal to one to three times the amount of the player's Ante Across or Ante Down Wager. If a player does not place a Middle Bet, the player's Ante Across Wager, Ante Down Wager, Across Bet and Down Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5). After all remaining players have placed a Middle Bet, each player shall place his cards face down on the appropriate area of the layout.
(g) The dealer shall then turn the middle community card face up on the layout. After all five community cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, turn the two cards of the player face up on the layout. The player's two cards and the three community cards in the horizontal line shall form the player's five-card Across Hand while the player's two cards and the three community cards in the vertical line shall form the player's five-card Down Hand.

(h) The dealer shall settle all wagers of that player by collecting losing wagers and paying winning wagers as follows:

(1) If a player's Across Hand:

   (i) Is less than a pair of 6s, the dealer shall collect the losing Ante Across and Across Bet Wagers.

   (ii) Is a pair of 6s or better, as described in § 674a.6(b) (relating to Criss-Cross Poker rankings), the dealer shall return or pay out the winning Ante Across wager in accordance with § 674a.12(a) (relating to payout odds) and the Across Bet in accordance with § 674a.12(b).

   (ii) Is a pair of 6s or better, as described in § 674a.6(b), the dealer shall return or pay out the winning Ante Down Wager in accordance with § 674a.12(a) and the Down Bet in accordance with § 674a.12(b).

(3) If neither of a player's Down or Across Hands contains a pair of 6s or better, the dealer shall collect the losing Middle Bet Wager.

(4) If either of a player's Down or Across Hands contains a pair of 6s or better, as described in § 674a.6(b), the dealer shall pay out the Middle Bet Wager in accordance with § 674a.12(b). The payout shall be based on the higher ranking Across Hand or Down Hand.

(5) After settling the player's other wagers, the dealer shall settle the player's Five Card Bonus Wager, if applicable. If the five community cards form a five-card Poker hand of a pair of 6s or better, as described in § 674a.6(b), the dealer shall pay the winning Five Card Bonus Wager in accordance with § 674a.12(c).

   (i) After all wagers of the player have been settled, the dealer shall remove the player's cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(iv) An inscription advising players that all Pip Street and Like Kind Boulevard Wagers and the purchase of an Extra Roll must be of equal value.

(v) An extra-roll sensor for the placement of an Extra Roll purchased by the player.

(3) The payout odds, in accordance with § 675a.5 (relating to payout odds), for all permissible wagers offered by the certificate holder. If the payout odds are not on the layout, a sign identifying the payout odds shall be posted at each High Roll Dice table.
(4) If the certificate holder establishes a payout limit per player per round of play, as authorized under § 675a.5(l) (relating to payout odds), inscriptions that advise patrons of the payout limit. If the limit is not inscribed on the layout, a sign identifying the payout limit shall be posted at each high roll dice table.

(5) A throw box set into the surface of the High Roll Dice table. The throw box layout must contain an area for the placement of dice labeled “Ace” through “Six” with the “Ace” box farthest to the left of the dealer and the “Two” box farthest to the right of the dealer.

(c) The High Roll Dice table must have an electronic system for the placement of an Extra Roll purchased by the player. The electronic system must include:

(1) A wagering device at each betting position that acknowledges or accepts the placement of the Extra Roll purchased by the player.

(2) A device that controls or monitors the placement of an Extra Roll purchased at the gaming table, including a mechanism, such as a lock-out button, that prevents the recognition of an Extra Roll that a player attempts to purchase after the dealer has announced “no more bets.”

(d) Each High Roll Dice table must have a drop box with a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g).

§ 675a.2. Wagers; die ranking.

(a) All wagers and the purchase of an extra roll shall be made before the dice are shaken by the dealer.

(b) Wagers and the purchase of an extra roll shall be made by placing value chips or plaques on the appropriate areas of the layout. Verbal wagers and the purchase of an extra roll accompanied by cash may not be accepted.

(c) Only players who are seated at a High Roll Dice table may place a wager at the game. Once a player has placed a wager, that player shall remain seated until the completion of the round of play.

(d) For High Roll Dice, a die with a value of 1, or ace, is the highest in rank followed by a 6, 5, 4 and 3, with a 2 being the lowest value die.

(e) The following wagers are authorized in High Roll Dice:

(1) To participate in a round of play, each player shall place a Pip Street Wager on any or all of the depictions of six dice contained at the top of the player's wagering area. For purposes of the Pip Street Wager, the player is wagering on which die face will occur the greatest number of times in the first roll. For example, if a dealer throws:
(i) Three 6s and four 4s, the 4s occurred the most during the first roll.

(ii) Three 6s and three 1s, the 1s occurred the most as an ace has a higher value than a 6 for purposes of High Roll Dice.

(2) After placing a Pip Street Wager, a player may place a Like Kind Boulevard Wager equal to the player's Pip Street Wager on any or all of the numbered circles two through eight. For purposes of the Like Kind Wager, the player is wagering on how many of the most matching dice will be rolled on the first roll. For example, if a dealer throws:

(i) Three 6s and four 1s, the result would be four matching dice, or a four-of-a-kind.

(ii) Five 2s and three 1s, the result would be five matching dice, or a five-of-a-kind.

(3) If a player placed a Like Kind Boulevard Wager, the player may also purchase an extra roll by placing an amount equal to the player's Like Kind Boulevard Wager on the extra-roll sensor. The purchase of an Extra Roll will entitle the player to an additional throw of nonmatching dice. For example, if a dealer threw two 6s and four 1s on the first throw and two additional 1s on the second roll, there would be a total of six matching dice, or a six-of-a-kind.

(4) A player may place a Millionaire Row Wager on either or both of the numbered nine or ten circles. For purposes of the Millionaire Row Wager, the player is wagering that all nine or ten dice will match on the first roll. The Millionaire Row Wager may not be more than $1.

§ 675a.3. Dice; shaker.

(a) High Roll Dice shall be played with ten 19 mm dice. Dice used in the play of the game shall comply with § 603a.12(a)(2)—(10) and (d) (relating to dice; physical characteristics) and the receipt and inspection requirements in § 603a.13 (relating to dice; receipt, storage, inspection and removal from use).

(b) High Roll Dice shall be played with a dice shaker, approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment), which shall be used to shake the ten dice to arrive at the winning combinations. The dice shaker shall be designed and constructed to maintain the integrity of the game and must:

(1) Be capable of effectively shaking ten dice. Dice that have been placed in a dice shaker for use in gaming may not remain on a table for more than 24 hours.

(2) Have the name or logo of the certificate holder imprinted or impressed thereon.
(c) The dice shaker is the responsibility of the dealer and may not be left unattended while at the table.

(d) A shaker and ten dice shall be present at the High Roll Dice table for gaming.

§ 675a.4. Procedure for completion of each round of play.

(a) After all players have placed their wagers, the dealer shall announce “no more bets” and if any player placed an Extra Roll Wager use the electronic device to prevent the placement of additional Extra Roll Wagers. If any Extra Roll Wagers have been made, the dealer shall collect the wagers and place them in the table inventory container.

(b) The dealer shall cover and shake the shaker containing the dice at least three times to cause a random mixture of the dice. The dealer shall then simultaneously throw the dice into the throw box. A roll of the dice shall be invalid if any of the dice go off the table or if one die comes to rest on top of the other.

(c) In the event any of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the side directly opposite the side that is resting on the chips or other object shall be considered uppermost or skyward. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be placed back in the throw cup, shaken and rethrown.

(d) When the dice come to rest from a valid throw, the dealer shall call out which die of the highest value occurs the most.

(e) After the first roll, the dealer shall announce to the players the matching dice of the highest value. After announcing the winning combination, the dealer shall move all matching dice of the highest value into the corresponding box on the throw box layout. For example, if there were four 5s, three 6s and two 1s and one 4, the dealer shall move the four 5s into the box on the throw layout labeled “Five.” To move the dice to the designated area on the throw box layout, the dealer shall leave the dice exposed and may not cover the dice or impede surveillance's ability to view the dice at any time the dice are on the throw box layout.

(f) The dealer shall then settle each player's first roll wagers as follows:

(1) The dealer shall collect the player's losing Pip Street Wagers and pay out all winning Pip Street Wagers in accordance with § 675a.5(a) (relating to payout odds). For example, if a player placed a Pip Street Wager on the 5 die and the 2 die and the dealer threw four 5s, three 6s and two 1s and one 4, the dealer shall collect the losing Pip Street Wager placed on the 2 die and pay out the winning Pip Street Wager placed on the 5 die.

(2) For the Like Kind Wager, if a player:

   (i) Did not purchase an Extra Roll, the dealer shall collect the player's losing Like Kind Boulevard Wagers and pay out any Like Kind Boulevard Wagers in accordance
§ 675a.5(b). For example, if the dealer threw four 5s, three 6s and two 1s and one 4, the
dealear shall collect all Like Kind Wagers that were not placed on the four-of-a-kind circle and
pay out any winning wagers that were placed on the four-of-a-kind circle.

(ii) Also purchased an Extra Roll, the dealer shall pay out any winning
Like Kind Boulevard Wagers in accordance with § 675a.5(b) and collect a player's losing Like
Kind Boulevard Wagers that have no possibility of winning with an extra roll. For example, if a
player wagered on the three-of-a-kind, a four-of-a-kind and a five-of-a-kind and a four-of-a-kind
was thrown on the first throw, the dealer shall pay the winning four-of-a-kind, collect the Like
Kind Wager placed on the three-of-a-kind and leave the player's wager on the five-of-a-kind on
the table layout until it is resolved in accordance with subsection (g).

(3) The dealer shall then settle the player's Millionaire Row Wagers by collecting
any losing wagers and paying out any winning wagers in accordance with § 675a.5(c). For
example, if nine matching dice were thrown on the first throw, the dealer shall collect all
Millionaire Row Wagers that were not placed on the nine-of-a-kind and pay out any winning
Millionaire Row Wagers that were placed on the nine-of-a-kind circle.

(g) If any player purchased an Extra Roll, the dealer shall then collect all dice except
those of the highest value that were placed on a designated number on the throw box layout and
place them in the shaker. For example, if the dealer threw three 6s, three 4s, two 2s and two 1s in
the first throw, the three 6s would be placed on the “Six” in the throw box layout. The dealer
would collect the three 4s, two 2s and the two 1s, place them in the shaker, shake and throw the
remaining dice in accordance with subsections (b) and (c).

(h) When the dice come to rest from a valid throw, the dealer shall call out the number of
additional dice that match the highest number of matched dice thrown in the first throw. For
example, if after the first throw three 6s were placed on the “Six” in the throw box layout and on
the second throw an additional two 6s were thrown, the extra roll would result in a total of a five-
of-a-kind. The dealer shall collect any losing Like Kind Boulevard Wager and pay out any
winning Like Kind Boulevard Wagers on the Extra Roll in accordance with § 675a.5(d),
provided that if a player was paid out on a winning Like Kind Wager after the first roll, the
player may not be paid out on the second roll for the same number. For example, if a player
placed a winning Like Kind Wager on the four-of-a-kind and if no additional matching dice were
thrown on the second roll, the player may not be paid out for the four-of-a-kind for the Extra
Roll.

(e) Notwithstanding the payout odds in subsections (a), (b) and (d), if specified in its Rules Submission form filed in accordance with § 601a.2 (relating to table game Rules Submissions), the certificate holder may establish an aggregate payout limit per player per round of play which may not be less than $50,000 or the maximum amount that one patron could win per round when betting the minimum wager, whichever is greater. The aggregate payout limit established may not include winning Millionaire Row Wagers as provided in subsection (c).

§ 675a.6. High Roll Dice variation.
(a) If selected in its Rules Submission, a certificate holder may offer a variation of High Roll Dice in which only six dice instead of ten dice are used in the play of the game.

(b) The High Roll Dice table must comply with the requirements in § 675a.1(a), (b) and (d) (relating to High Roll Dice table; physical characteristics) provided that each betting position on the layout contains:

1. For Like Kind Boulevard Wagers, five circles with the numbers two of a kind through six of a kind and one circle for no matches.

2. For Pip Street Wagers, a depiction of six dice displaying a value of one through six with the two-spot die farthest to the player's left and the one-spot die farthest to the player's right.

Instead of the optional wagers in § 675a.2(e)(2)—(4), after placing a Pip Street Wager, a player may place a Like Kind Boulevard Wager equal to the player's Pip Street Wager on any or all of the numbered circles two through six or the circle marked no match. For purposes of the Like Kind Wager, the player is wagering on how many of the most matching dice will be rolled on the first roll. For example, if a dealer throws:

1. Two 6s and four 1s, the result would be four matching dice, or a four-of-a-kind.

2. All numbers 1—6, the result would be a no match.

(e) High Roll Dice shall be played with six 19 mm dice. Dice used in the play of the game shall comply with § 603a.12(a)(2)—(10) and (d) (relating to dice; physical characteristics) and the receipt and inspection requirements in § 603a.13 (relating to dice; receipt, storage, inspection and removal from use).

(f) High Roll Dice shall be played with a dice shaker that complies with the requirements in § 675a.3(c) and (d) (relating to dice; shaker).

(g) After all players have placed their wagers, the dealer shall announce “no more bets” and complete the dealing procedures in § 675a.4(b) and (c) (relating to procedure for completion of each round of play).

(h) After the roll, the dealer shall call out which die of the highest value occurs the most then the matching dice of the highest value. After announcing the winning combination, the dealer shall move all matching dice of the highest value into the corresponding box on the throw
box layout. For example, if there were three 5s, two 6s and one 4, the dealer shall move the three 5s into the box on the throw layout labeled “five.” To move the dice to the designated area on the throw box layout, the dealer shall leave the dice exposed and may not cover the dice or impede surveillance's ability to view the dice at any time the dice are on the throw box layout.

(i) The dealer shall collect any losing Pip Street and Like Kind Boulevard Wagers and pay out any winning wagers in accordance with subsections (j) and (k).

§ 676a.2. Go Fore It table physical characteristics.

(a) Go Fore It shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for Go Fore It shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) Separate betting areas designated for the placement of the Skins, Gopher, Front 9 and Back 9 Wagers for each player.

(4) An inscription indicating that the Skins Wager will be lost if the dealer's hand and the player's hand ties. If the information is not inscribed on the layout, a sign which sets forth the required information shall be posted at each Go Fore It table.

(c) Each Go Fore It table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Go Fore It table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 676a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Go Fore It shall be played with one deck of cards that are identical in appearance and one cover card.
(b) If an automated card shuffling device is utilized, Go Fore It may be played with two decks of cards in accordance with the following requirements:

1. The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

2. One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

3. Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

4. The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Go Fore It shall be changed at least every:

1. Four hours if the cards are dealt by hand.

2. Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 676a.4. Opening of the table for gaming.

(a) After receiving one deck or two decks of cards at the table, the dealer shall inspect the cards for defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 676a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 676a.5. Shuffle and cut of the cards.
(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

1. If the cards were shuffled using an automated card shuffling device, deal or deliver the cards in accordance with § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

2. If the cards were shuffled manually, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Go Fore It table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 676a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 676a.6. Go Fore It rankings.
The point value assigned to the cards used in Go Fore It shall be:

<table>
<thead>
<tr>
<th>Card</th>
<th>Point Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ace</td>
<td>1</td>
</tr>
<tr>
<td>Jack, queen, king</td>
<td>10</td>
</tr>
<tr>
<td>2 through 10</td>
<td>Face value</td>
</tr>
</tbody>
</table>

§ 676a.7. Wagers.

(a) Wagers at Go Fore It shall be made by placing value chips or plaques on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Go Fore It table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Back 9 Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 676a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Go Fore It:

(1) A Front 9 Wager, which is required to participate in a round of play.

(2) A Back 9 Wager equal to the player's Front 9 Wager which is required to continue in the round of play after the player views his first to cards.

(3) An optional Skins Wager to compete against the total point count of the dealer's hand.

(4) A Gopher Wager that at least one of the player's four cards will contain an ace.

(e) A player may not wager on more than one player position at a Go Fore It table.

§ 676a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures
required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers) until each player who placed the required Front 9 Wager and the dealer has four cards. The first two cards dealt to the player shall be placed in front of the player. The second two cards dealt to the player shall be dealt behind the front two cards and shall be the player's hole cards. Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) Prior to dealing any cards and after all Ante, Odds, Trips Plus and Pocket Bonus Wagers have been placed, the dealer shall announce “no more bets.” The dealer shall then deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed Ante and Odds Wagers in accordance with § 677a.7(d)(1) (relating to wagers) and to the dealer, until each player who placed Ante and Odds Wagers and the dealer have two cards.

(c) After two cards have been dealt to each player and to the area designated for the placement of the dealer's hand, the dealer shall deal the five community cards in accordance with § 677a.11(c) and (e) (relating to procedure for completion of each round of play). After all community cards have been dealt, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct
number of cards are still present in the deck. The dealer shall determine the number of cards in
the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place
the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the
dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain
in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards
were not misdealt, all hands shall be void, all wagers shall be returned to the players and the
entire deck of cards shall be removed from the table.

§ 677a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements
shall be observed:

(1) After the procedures required under § 677a.5 (relating to shuffle and cut of
the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealer delivering any stacks of cards dispensed from the
automated dealing shoe, the dealer shall announce “no more bets.”

(b) The dealer shall then deliver the first stack of two cards dispensed by the automated
dealing shoe face down to the player farthest to the dealer's left who has placed Ante and Odds
Wagers in accordance with § 677a.7(d)(1) (relating to wagers). As the remaining stacks are
dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around
the table, deliver a stack of two cards face down to each of the other players who has placed Ante
and Odds Wagers. The dealer shall then deliver a stack of two cards face down to the area
designated for the dealer's cards.

(c) After each stack of two cards has been dispensed and delivered in accordance with
subsection (b), the dealer shall remove the remaining cards from the automated dealing shoe and,
following the procedures in § 677a.9(a)(2) (relating to procedure for dealing the cards from the
hand), deal from his hand the five community cards in accordance with § 677a.11(c) and (e)
(relating to procedure for completion of each round of play). After all five community cards have
been dealt, the dealer shall, except as provided in subsection (d), place the stub in the discard
rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck
after the completion of each shuffle and indicates whether 52 cards are present, is not being used,
the dealer shall count the stub at least once every 5 rounds of play to determine if the correct
number of cards are still present in the deck. The dealer shall determine the number of cards in
the stub by counting the cards face down on the layout.
If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe which automatically reshuffles the cards, the five community cards may be dispensed before the two cards are dispensed to each player and to the dealer. The community cards shall then be revealed in accordance with § 677a.11(c), (e) and (f).

§ 677a.11. Procedure for completion of each round of play.

(a) After the dealing procedures required under § 677a.8, § 677a.9 or § 677a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at World Poker Tour Heads-Up Hold 'Em shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Raise Wager prior to the dealing of the Flop. The player may either check and remain in the game or place a Raise Wager up to three times the amount of the player's Ante Wager.

(c) After each player has either placed a Raise Wager or checked, the dealer shall burn the next card. The dealer shall then deal the three-card Flop face up on the layout in the designated area for the community cards.

(d) After the Flop has been exposed, the dealer shall, beginning with the player farthest to the dealer's left who has not placed a Raise Wager and moving clockwise around the table, ask each player who has not placed a Raise Wager if he wishes to place a Raise Wager prior to the dealing of the Turn and River cards. The player may either check and remain in the game or place a Raise Wager in an amount up to two times the player's Ante Wager.

(e) Once all remaining players have either placed a Raise Wager or checked, the dealer shall burn the next card. The dealer shall then deal the Turn and River cards face up on the layout in the designated area for the community cards.
After the Turn and River cards have been exposed, the dealer shall, beginning with the player farthest to the dealer's left who has not placed a Raise Wager and moving clockwise around the table, ask each player if he wishes to place a Raise Wager in an amount equal to the player's Ante Wager or fold. If a player folds, the dealer shall collect the player's Ante and Odds Wagers and place the player's cards in the discard rack, provided that if any player placed a Trips Plus or Pocket Bonus Wager, the dealer shall tuck the player's cards under the player's Trips Plus or Pocket Bonus Wager until the optional wagers are settled in accordance with subsection (i).

Once all remaining players have either placed a Raise Wager or folded, the dealer shall turn his two cards face up on the layout. The dealer shall then select five cards using the dealer's two cards and the five community cards to form the highest ranking five-card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right who has placed a Raise Wager and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

1. The dealer shall turn the two cards of each player who has placed a Raise Wager face up on the layout.

2. The dealer shall examine the cards of the player and select the five cards using the player's two cards and the five community cards to form the highest ranking five-card Poker hand. The wagers of each player shall be resolved one player at a time regardless of outcome.

If the dealer's hand:

1. Does not contain a pair or better, as defined in § 677a.6 (relating to World Poker Tour Heads-Up Hold 'Em rankings), each player's Ante Wager shall push and be returned to the player. If the player's hand:

   i. Is higher in rank than the dealer's hand, the player's Raise Wager shall be paid out at the odds in § 677a.12(a) (relating to payout odds; payout limitation) and the player's Odds Wager shall be paid out in accordance with the payout odds in § 677a.12(b).

   ii. Is equal in rank to the dealer's hand, the player's Raise and Odds Wagers shall push and be returned to the player.

   iii. Is lower in rank to the dealer's hand, the player's Raise and Odds Wagers shall lose and be collected.

2. Contains a pair or better, as defined in § 677a.6, and if the player's hand:

   i. Is higher in rank than the dealer's hand, the player's Ante and Raise Wagers shall be paid out at the odds in § 677a.12(a) and the player's Odds Wager shall be paid out in accordance with the payout odds in § 677a.12(b).
(ii) Is equal in rank to the dealer's hand, the player's Ante, Raise and Odds Wagers shall push and be returned to the player.

(iii) Is lower in rank to the dealer's hand, the Ante Wager shall lose and be collected and if the player's hand:

(A) Was not a straight or higher, the player's Raise and Odds Wagers shall lose and be collected.

(B) Was a straight or higher, the player's Raise Wager shall lose and be collected and the player's Odds Wager shall be eligible for a Bad Beat payout as provided in § 677a.12(c).

(i) After settling the player's Ante, Raise and Odds Wagers, the dealer shall settle the player's optional Pocket Bonus and Trips Plus Wagers, if applicable, as follows:

(1) If a player placed a Pocket Bonus Wager and the player's two cards:

(i) Contain a pair or an ace and a king, queen or jack, the winning hand shall be paid out as provided in § 677a.12(d).

(ii) Do not contain a pair or an ace and a king, queen or jack, the dealer shall collect the player's losing Pocket Bonus Wager.

(2) If a player placed a Trips Plus Wager and the player's two cards and the five community cards:

(i) Contain a three-of-a-kind or better, the winning hand shall be paid out as provided in § 677a.12(e).

(ii) Does not contain a three-of-a-kind or better, the dealer shall collect the losing Trips Plus Wager.

(j) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 677a.12. Payout odds; payout limitation.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

Once the cards have been stacked, the cards shall be shuffled in accordance with § 678a.5 (relating to shuffle and cut of the cards).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 678a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is being used, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a High Card Flush table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 678a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(c) When comparing two hands that are of identical rank under subsection (b), or that contain none of the hands in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered the higher ranking hand. If the hands are of identical rank after the application of this subsection, the hands shall be considered a tie.

(b) Only players who are seated at the High Card Flush table may place a wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante, Flush Bonus, Straight Flush Bonus and Progressive Jackpot Wagers shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 678a.8, § 678a.9 or § 678a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe). Except as provided in § 678a.11(b) (relating to procedure for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”
(d) The following wagers may be placed in the game of High Card Flush:

(1) A player shall compete against the dealer's seven-card hand by placing an Ante Wager then a Raise Wager in accordance with § 678a.11(b).

(2) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a High Card Flush table the option to make an additional Flush Bonus Wager that the player's seven cards will form a four-card flush or higher as described in § 678a.6(b) (relating to High Card Flush rankings). A Flush Bonus Wager does not have a bearing on any other wager made by the player.

(3) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a High Card Flush table the option to make an additional Straight Flush Bonus Wager that the player's seven cards will form a three-card straight flush or higher as described in § 678a.6(d). A Straight Flush Bonus Wager does not have a bearing on any other wager made by the player.

(4) If specified in its Rules Submission under § 601a.2, certificate holder may offer to each player at a High Card Flush table the option to make an additional Progressive Jackpot Wager that the player's seven cards will form a three-card straight flush or a four-card straight flush or higher, depending on the payout table selected by the certificate holder. After placing the Ante Wager, a player may make the additional Progressive Jackpot Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

(e) A player may not wager on more than one player position at a High Card Flush table.

§ 678a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 678a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards and after all Ante Wagers and optional wagers have been placed, the dealer shall announce “no more bets” and, if the Progressive Jackpot Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Jackpot Wagers. If Progressive Jackpot Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Jackpot Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.
(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is
the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite
hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing
around the table in a clockwise manner, deal one card at a time, face down, to each player who
placed an Ante Wager in accordance with § 678a.7(d)(1) (relating to wagers) and to the dealer,
under a cover card, until each player who placed an Ante Wager and the dealer have seven cards.

(e) After seven cards have been dealt to each player and to the area designated for the
placement of the dealer's hand, the dealer shall remove the stub from the manual dealing shoe
and, except as provided in subsection (f), place the stub in the discard rack without exposing the
cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck
after the completion of each shuffle and indicates whether 52 cards are present, is not being used,
the dealer shall count the stub at least once every 5 rounds of play to determine if the correct
number of cards are still present in the deck. The dealer shall determine the number of cards in
the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place
the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the
dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain
in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards
were not misdealt, all hands shall be void, all wagers shall be returned to the players and the
entire deck of cards shall be removed from the table.

§ 678a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be
observed:

1) An automated shuffling device shall be used to shuffle the cards.

2) After the procedures required under § 678a.5 (relating to shuffle and cut of
the cards) have been completed, the dealer shall place the stacked deck of cards in either hand.
After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to
use that hand whenever holding the cards during that round of play. The cards held by the dealer
shall be kept over the table inventory container and in front of the dealer at all times.

(b) The dealer shall announce “no more bets” and, if the Progressive Jackpot Wager is
being offered, use the progressive table game system to prevent the placement of any additional
Progressive Jackpot Wagers. If any Progressive Jackpot Wagers have been made, the dealer shall
collect the wagers and, on the layout in front of the table inventory container, verify that the
number of value chips wagered equals the number of Progressive Jackpot Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container. The dealer shall then deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager in accordance with § 678a.7(d)(1) (relating to wagers) and to the dealer, under a cover card, until each player who placed an Ante Wager and the dealer have seven cards.

(c) After seven cards have been dealt to each player and to the area designated for the placement of the dealer's hand, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 678a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 678a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Jackpot Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Jackpot Wagers. If Progressive Jackpot Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Jackpot Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.
(b) The dealer shall deliver the first stack of seven cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 678a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack of seven cards face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of seven cards face down under a cover card to the area designated for the dealer's cards.

(c) After each stack of seven cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the remaining cards from the automated dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 678a.11. Procedure for completion of each round of play.

(a) After the dealing procedures required under § 678a.8, § 678a.9 or § 678a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at High Card Flush shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(b) After each player has examined his cards, beginning with the player farthest to the dealer's left and moving clockwise around the table, the dealer shall ask each player if he wishes to fold or place a Raise Wager. If a player has:
(1) A two-card, three-card or four-card flush, the player may place a Raise Wager equal to the player's Ante Wager.

(2) A five-card flush, a player may place a Raise Wager up to two times the amount of the player's Ante Wager.

(3) A six-card or seven-card flush, a player may place a Raise Wager up to three times the amount of the player's Ante Wager.

(c) If a player:

(1) Places a Raise Wager, the wager shall be placed in the area designated for the Raise Wager.

(2) Folds, the player's Ante Wager shall be collected by the dealer and placed in the table inventory container. If the player:

(i) Has also placed a Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager, the dealer shall place the cards of the player face down underneath the optional wagers pending their resolution at the conclusion of the round of play.

(ii) Has not placed a Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager, the dealer shall immediately collect the player's cards and place them in the discard rack.

(d) After each player has either placed a Raise Wager or folded, the dealer shall turn his seven cards face up on the layout. The dealer shall then form the highest ranking flush. If the dealer's hand:

(1) Does not contain at least a three-card flush, nine high, beginning with the player farthest to the dealer's right who has placed a Raise Wager and continuing around the table in a counterclockwise direction, the dealer shall pay each player's winning Ante Wager in accordance with § 678a.12(a) (relating to payout odds; payout limitation) and return the player's Raise Wager. If a player:

(i) Also placed a Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn the cards of each player face up on the layout and form the highest ranking flush. The dealer shall then settle the player's Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager in accordance with subsection (e).

(ii) Did not place a Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager, the dealer shall collect the player's cards and place them in the discard rack.
(2) Contains at least a three-card flush, nine high, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall then complete the following applicable procedures in succession for each player:

(i) The dealer shall turn the cards of each player face up on the layout and form the highest ranking flush.

(ii) The dealer shall then compare the rank of the dealer's hand to the rank of the player's hand. If the player's hand:

(A) Is higher in rank than the dealer's hand, the player's Ante and Raise Wagers shall be paid out at the odds in § 678a.12(a).

(B) Is equal in rank to the dealer's hand, the player's Ante and Raise Wagers shall push and be returned to the player.

(C) Is lower in rank to the dealer's hand, the player's Ante and Raise Wagers shall lose and be collected.

(e) After settling the player's Ante and Raise Wagers, the dealer shall settle the player's Flush Bonus, Straight Flush Bonus and Progressive Jackpot Wagers as follows:

(1) For the Flush Bonus Wager, if a player's hand:

(i) Contains a three-card flush or less, the dealer shall collect the player's losing Flush Bonus Wager.

(ii) Contains a four-card flush or better as provided in § 678a.6(b) (relating to High Card Flush rankings), the dealer shall pay the winning Flush Bonus Wager in accordance with § 678a.12(b).

(2) For the Straight Flush Bonus Wager, after settling the player's Ante, Raise and Flush Bonus Wagers, if applicable, the dealer shall configure the player's cards so as to form the highest ranking straight flush as provided in § 678a.6(d). If a player's hand:

(i) Contains a two-card straight flush or less, the dealer shall collect the player's losing Straight Flush Bonus Wager.

(ii) Contains a three-card straight flush or higher, as provided in § 678a.6(d), the dealer shall pay the winning Straight Flush Bonus Wager in accordance with § 678a.12(c).

(3) For the Progressive Jackpot Wager, after configuring the player's cards so as to form the highest ranking straight flush, if the player has a three-card straight flush or a four-card straight flush, depending on the paytable selected by the certificate holder, or higher and has won a progressive payout, the dealer shall:
(i) Verify that the hand is a winning hand.

(ii) Verify that the appropriate light on the progressive table game system has been illuminated.

(iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder’s approved internal control procedures.

(iv) Pay the winning Progressive Jackpot Wager in accordance with the payout odds in § 678a.12(d). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.

(f) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 678a.12. Payout odds; payout limitation.

(a) A certificate holder shall pay each winning Ante Wager and Raise Wager at odds of 1 to 1.

(b) A certificate holder shall pay each winning Flush Bonus Wager at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

(2) A player shall receive the payout for only the highest straight flush hand formed.

(3) The rate of progression for the meter used for the progressive payout in paragraph (1) must be in the certificate holder's Rules Submission filed in accordance with § 601a.2. The initial and reset amount must also be in the certificate holder's Rules Submission and be at least $30,000.

(4) Winning Progressive Jackpot Wagers shall be paid in accordance with the amount on the meter when it is the player's turn to be paid in accordance with § 678a.11(e)(3) (relating to procedure for completion of each round of play).

(e) Notwithstanding the payout odds in subsections (a)—(c), if specified in its Rules Submission form filed in accordance with § 601a.2, the certificate holder may establish an aggregate payout limit per player per round of play which may not be less than $50,000 or the maximum amount that one patron could win per round when betting the minimum wager, whichever is greater. The aggregate payout limit established may not include winning progressive jackpot wagers.

§ 678a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. (b) A card drawn in error without its face being exposed shall be used as though it were
the next card from the shoe or the deck.

void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If any of the cards dealt to the dealer in High Card Flush is inadvertently exposed

§ 679a.2. Three Card Prime table physical characteristics.

(a) Three Card Prime shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Three Card Prime table shall be submitted to the Bureau of Gaming Operations in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) Two separate betting areas designated for the placement of Ante and Play Wagers for each player.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Three Card Prime shall be changed at least every:

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 679a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 679a.5 (relating to shuffle and cut of the cards).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.
§ 679a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 679a.8, § 679a.9 or § 679a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Three Card Prime table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 679a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(6) A pair, which is a hand consisting of two cards of the same rank, with two aces being the highest ranking pair and two 2s being the lowest ranking pair.

c) When comparing two Poker hands that are of identical rank under subsection (b), or that contain none of the hands in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered the higher ranking hand. If the hands are of equal rank after the application of this section, the hands shall be considered a tie.

§ 679a.7. Wagers.

(a) Wagers at Three Card Prime shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Three Card Prime table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Play Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 679a.8, § 679a.9 or § 679a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 679a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Three Card Prime:

(1) A player may compete solely against the dealer's Three Card Prime hand by placing an Ante Wager then a Play Wager, in an amount equal to the player's Ante Wager, in accordance with § 679a.11(b).

(3) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Three Card Prime table the option to make an additional Pair Bonus Wager, which shall win if the player's hand contains a pair or better as provided in § 679a.6(b) (relating to Three Card Prime rankings).

(4) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Three Card Prime table the option to make an additional All-Six Bonus Wager, which shall win if the player's three cards and the dealer's three cards form a three-of-a-kind or better as provided in § 679a.6(d).

(e) A certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 679a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 679a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.” To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) Starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 679a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have three cards. If a player has placed a Pair Bonus Wager, the dealer shall deal an additional card to the area of the layout for the player's fourth card. All cards shall be dealt face down.

(d) After three cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(e) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.
(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 679a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 679a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed an Ante Wager in accordance with § 679a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have three cards. If a player has placed a Pair Bonus Wager, the dealer shall deal an additional card to the area of the layout for the player's fourth card. All cards shall be dealt face down.

(c) After three cards have been dealt to each player and the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards
were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 679a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 679a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of three cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 679a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards. If a player has placed a Pair Bonus Wager, after removing the stub from the automated dealing shoe, the dealer shall deal an additional card face down to the area of the layout for the player's fourth card. Except as provided in subsection (d), the dealer shall then place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.
(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe that automatically reshuffles the cards, the dealer may distribute four cards to each player and the dealer provided that as the cards are dispensed and distributed to each player:

(1) The top card of a stack dealt to a player who placed a Pair Bonus Wager shall be moved off the top of the stack and placed face down on the table layout until it is revealed by the dealer in accordance with § 679a.11(d)(2) (relating to procedures for completion of each round of play).

(2) The top card of a stack dealt to a player who did not place a Pair Bonus Wager and to the dealer shall be collected and placed face down in the discard rack.

§ 679a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 679a.8, § 679a.9 or § 679a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Three Card Prime shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his three cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Play Wager in an amount equal to the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player has placed an Ante Wager and an optional Prime, Pair Bonus or All-Six Bonus Wager but does not make a Play Wager, the player shall forfeit the Ante Wager but does not forfeit the Prime, Pair Bonus or All-Six Bonus Wager.

(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Prime, Pair Bonus or All-Six Bonus Wager, and place the cards in the discard rack. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking Three Card Prime hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the three cards of each player face up on the layout.
(2) The dealer shall examine the cards of the player and form the highest possible ranking Three Card Prime hand for each player.

(3) If the dealer's highest ranking Three Card Prime hand:

   (i) Does not qualify, the dealer shall return each player's Ante Wager and pay the player's Play Wager in accordance with § 679a.12(a) (relating to payout odds; Bad Beat Bonus).

   (ii) Qualifies, and the player's highest ranking Three Card Prime hand is higher than or equal to the dealer's hand, the dealer shall pay the winning Ante Wager in accordance with § 679a.12(a) and the player's winning Play Wager in accordance with § 679a.12(b).

   (iii) Qualifies, and the player's hand contains a flush or lower or a pair or lower, depending on the payout table selected by the certificate holder, and is lower than the dealer's hand, the dealer shall collect the player's losing Ante and Play Wagers.

   (iv) Qualifies, and the player's hand contains a straight or better or a flush or better, depending on the payout table selected by the certificate holder, and is lower than the dealer's hand, the dealer shall collect the player's losing Ante Wager and pay the player a Bad Beat Bonus on the player's Play Wager in accordance with § 679a.12(c).

(d) After settling the player's Ante and Play Wagers, the dealer shall settle any optional wagers as follows:

   (1) For the Prime Wager, if all three of the player's cards:

      (i) Are not the same color, the dealer shall collect the losing Prime Wager.

      (ii) Are of the same color, or if all three of the player's cards are the same color and all three of the dealer's cards are the same color as the player's three cards, the winning Prime Wager shall be paid out in accordance with § 679a.12(d).

   (2) For the Pair Bonus Wager, if the player's hand:

      (i) Does not contain a pair or better, the dealer shall collect the losing Pair Bonus Wager.

      (ii) Contains a pair or better, the dealer shall reveal the fourth card dealt to the player. If the fourth card dealt to the player:

             (A) Is not a 2, the dealer shall pay the winning Pair Bonus Wager in accordance with § 679a.12(e).
(B) Is a 2, the dealer shall pay the winning Pair Bonus Wager in accordance with § 679a.12(f).

(3) For the All-Six Bonus Wager, the dealer shall combine the player's three cards and the dealer's three cards to form the highest ranking six-card hand as provided in § 679a.6(d) (relating to Three Card Prime rankings). If the hand:

(i) Does not contain a three-of-a-kind or better, the dealer shall collect the losing All-Six Bonus Wager.

(ii) Contains a three-of-a-kind or better, the dealer shall pay the winning All-Six Bonus Wager in accordance with § 679a.12(g).

(e) After all wagers of the player have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 679a.12. Payout odds; Bad Beat Bonus.

(a) A certificate holder shall pay winning Ante Wagers at odds of 1 to 1 and shall pay Play Wagers when a dealer does not qualify at odds of 1 to 1.

(h) Notwithstanding the payout odds in subsections (a)—(g), if specified in its Rules Submission form filed in accordance with § 601a.2, the certificate holder may establish an aggregate payout limit per player per round of play which may not be less than $50,000 or the maximum amount that one patron could win per round when betting the minimum wager, whichever is greater. However, if a certificate holder is offering the All-Six Bonus Wager and selects paytable E, the aggregate payout limit established may not include the payout for the six-card royal flush.

§ 679a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If a player or the dealer is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If one or more of the dealer's cards is inadvertently exposed prior to the dealer revealing his cards in accordance with § 679a.11(c) (relating to procedures for completion of each round of play), all hands shall be void, all Ante and Play Wagers shall be returned to the players and the cards shall be reshuffled, provided that if any player placed a Prime, Pair Bonus or All-Six Bonus Wager, those wagers shall be settled in accordance with § 679a.11(d).

(e) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.
(f) If an automated dealing shoe is being used and the device jams, stops dealing cards or fails to deal all cards during a round of play, the round of play shall be void, all wagers shall be returned to the players and the cards shall be removed from the device and reshuffled with any cards already dealt.

(g) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe must be covered or have a sign indicating that the automated card shuffling device or automated dealing shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.

_Showdown hand_—The two-card hand of the player or the dealer made from the five cards dealt to the player or the dealer.

§ 680a.2. Saigon 5 Card table physical characteristics.

(a) Saigon 5 Card shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Saigon 5 Card table shall be submitted to the Bureau of Gaming Operations in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:
(1) The name or logo of the certificate holder.

(2) A separate betting area designated for the placement of the Ante Wager for each player.

(3) Two separate areas for each player for the placement of the player's three-card qualifying hand and the player's two-card showdown hand.

(4) If the certificate holder offers the optional Bonus Wager authorized under § 680a.7(d)(2) (relating to wagers), a separate area designated for the placement of the Bonus Wager for each player.

(5) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder. If payout odds are not inscribed on the layout, a sign indicating the payout odds for all permissible wagers shall be posted at each Saigon 5 Card table.

(6) If the certificate holder establishes a payout limit per player, per round of play, as authorized under § 680a.12(d) (relating to payout odds; Envy Bonus; rate of progression), inscriptions that advise patrons of the payout limit. If the payout limit is not inscribed on the layout, a sign identifying the payout limit shall be posted at each Saigon 5 Card table.

(c) Each Saigon 5 Card table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Saigon 5 Card table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 680a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Saigon 5 Card shall be played with one deck of cards that are identical in appearance and one cover card. The deck of cards used to play Saigon 5 Card must include one joker. A certificate holder may use decks that are manufactured with two jokers provided that only one joker is used for the play of the game.

(b) If an automated card shuffling device is utilized, Saigon 5 Card may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.
(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Saigon 5 Card shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 680a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 680a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 680a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.
(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 680a.8, § 680a.9 or § 680a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Saigon 5 Card table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 680a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically resuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(a) The value of the cards in each deck shall be as follows:

(1) Any card from 2 to 9 shall have its face value.

(2) Any 10, jack, queen or king shall have a value of 10.

(3) Any ace shall have a value of 1.
(4) A joker has a value of 3, 6 or 9.

(b) The Point Count of a showdown hand shall be a number from 1 to 10, with 10 being the highest rank and 1 being the lowest rank, determined by totaling the value of the cards in the hand. If the total value of the cards in a showdown hand is greater than 10, 10 will be subtracted from the number. For example:

(1) A showdown hand composed of an ace and 4 has a Point Count of 5.

(2) A showdown hand composed of a 10 and a jack has a value of 20 but a Point Count of only 10 since 10 is subtracted from 20.

(c) For purposes of the Bonus Wager, a joker may be used as an ace in any hand, other than the royal flush with no joker, or may be used to complete a royal flush with a joker, straight flush, flush or a straight. An ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example, a queen, king, ace, 2 and 3). The permissible Poker hands shall be:

(1) Five aces, which is a hand consisting of four aces and a joker.

(2) A royal flush with no joker, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit.

(3) A royal flush with a joker, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit, with a joker used as one of the cards.

(4) A straight flush, which is a hand, other than a royal flush, consisting of five cards of the same suit in consecutive ranking.

(5) A four-of-a-kind, which is a hand consisting of four cards of the same rank.

(6) A full house, which is a hand consisting of a three-of-a-kind and a pair.

(7) A flush, which is a hand consisting of five cards of the same suit, not in consecutive order.

(8) A straight, which is a hand consisting of five cards of more than one suit and of consecutive rank.

(9) A three-of-a-kind, which is a hand consisting of three cards of the same rank.

(10) Two pair, which is a hand containing two pairs.

§ 680a.7. Wagers.
(a) Wagers at Saigon 5 Card shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Saigon 5 Card table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 680a.8, § 680a.9 or § 680a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) and may not be increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Saigon 5 Card:

1. A player may compete solely against the dealer by placing an Ante Wager.

2. If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Saigon 5 Card table the option to make an additional Bonus Wager which shall win if the player's five cards contain two pair or better as described in § 680a.6(c) (relating to Saigon 5 Card rankings).

(e) A certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 680a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.” To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) Starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 680a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have five cards. All cards shall be dealt face down.
(d) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(e) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 53 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 680a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 680a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed an Ante Wager in accordance with § 680a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have five cards. All cards shall be dealt face down.

(c) After five cards have been dealt to each player and the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present is not being used,
the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 53 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 680a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 680a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 680a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 53 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.
(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 680a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 680a.8, § 680a.9 or § 680a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Saigon 5 Card shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) Each player shall examine his cards and shall set them into two hands. If any three of the player's five cards:

(1) Have a combined total value of 10, 20 or 30, the player's hand qualifies and the player shall set those three cards as the player's three-card hand. The remaining two cards shall be set as the player's two-card showdown hand. For example, if a player's hand contains a joker, 8, 6, 5 and 2, the player's three-card hand would contain the joker (used as a 9 value card), the 5 and the 6 for a total value of 20, which would qualify, and the 8 and 2 would compose the player's showdown hand with a Point Count of 10.

(2) Does not have a combined total value of 10, 20 or 30, the player's hand does not qualify and the player may place any three cards as the player's three-card hand and the remaining two cards in the player's two-card showdown hand.

(c) After each player has set his two hands, the dealer shall then reveal and arrange the dealer's cards. If any three of the dealer's five cards:

(1) Have a combined total value of 10, 20 or 30, the dealer's hand qualifies and the dealer shall set those three cards as the three-card hand. The remaining two cards shall be set as the dealer's two-card showdown hand.

(2) Does not have a combined total value of 10, 20 or 30, the dealer's hand does not qualify.

(d) After the dealer's cards are turned face up and set, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player. The dealer
shall turn the player's three-card hand face up on the layout and compare the dealer's three-card hand to the player's three-card hand. If the dealer's three-card hand:

(1) Does not qualify and the player's three-card hand:

   (i) Does not qualify, the dealer shall return the player's Ante Wager.

   (ii) Qualifies, the dealer shall reveal the player's showdown hand. If the player's two-card showdown hand:

       (A) Has a Point Count of 1—4 or 6—10, the dealer shall pay the winning Ante Wager in accordance with § 680a.12(a) (relating to payout odds; Envy Bonus; rate of progression).

       (B) Has a Point Count of 5, the dealer shall pay the winning Ante Wager in accordance with § 680a.12(b).

(2) Qualifies, and the player's three-card hand:

   (i) Does not qualify, the dealer shall collect the player's losing Ante Wager.

   (ii) Qualifies, the dealer shall reveal the player's showdown hand and compare it to the dealer's showdown hand. If the dealer's showdown hand:

       (A) Is higher in Point Count than the Point Count of the player's showdown hand, the dealer shall collect the player's losing Ante Wager.

       (B) Is lower in Point Count than the Point Count of the player's showdown hand, the dealer shall pay the winning Ante Wager in accordance with §680a.12(a) if the player's showdown hand had a Point Count of 1—4 or 6—10 and in accordance with § 680a.12(b) if the player's showdown hand had a Point Count of 5.

       (C) Is equal in Point Count with the Point Count of the player's showdown hand, the dealer shall return the player's Ante Wager.

(e) After settling the player's Ante Wager, the dealer shall settle any optional Bonus Wager by reconfiguring the player's five cards to form the highest ranking Poker hand. If the player's hand:

   (1) Does not contain two pair or better, as provided in § 680a.6(c) (relating to Saigon 5 Card rankings), the dealer shall collect the losing Bonus Wager.

   (2) Contains two pair or better, the dealer shall pay the winning Bonus Wager in accordance with § 680a.12(c).
(f) After all wagers of the player have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 680a.12. Payout odds; Envy Bonus; rate of progression.

(a) A certificate holder shall pay winning Ante Wagers at odds of 1 to 1 if the player's showdown hand had a Point Count of 1—4 or 6—10.

(b) A certificate holder shall pay winning Ante Wagers at odds of 1 to 2 if the player's showdown hand had a Point Count of 5.

(c) A certificate holder shall pay out winning Bonus Wagers as provided in the following payout table:

(d) Notwithstanding the payout odds in subsections (a)—(c), if specified in its Rules Submission form filed in accordance with § 601a.2 (relating to table games Rules Submissions), the certificate holder may establish an aggregate payout limit per player per round of play which may not be less than $50,000 or the maximum amount that one patron could win per round when betting the minimum wager, whichever is greater.

§ 680a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.
(c) If a player or the dealer is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(e) If an automated dealing shoe is being used and the device jams, stops dealing cards or fails to deal all cards during a round of play, the round of play shall be void, all wagers shall be returned to the players and the cards shall be removed from the device and reshuffled with any cards already dealt.

(f) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe must be covered or have a sign indicating that the automated card shuffling device or automated dealing shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.

(c) Each 21 Baccarat table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each 21 Baccarat table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 681a.3. Cards; number of decks; value of cards.

(a) 21 Baccarat shall be played with four or eight decks of cards.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, 21 Baccarat shall be played with two batches of four or eight decks of cards in accordance with the following requirements:

(1) An equal number of decks shall be included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.
(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a 21 Baccarat table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

(1) Any card from 2 to 10 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give the Player's Hand or Banker's Hand a score in excess of 21, in which case the ace shall have a value of 1.

(e) For purposes of the Bonus Wager, the hands eligible for a payout shall be:

(1) Three 7s, which is a hand containing three 7s.

(2) A three-of-a-kind, which is a hand containing three cards of the same rank.

(3) A three-card straight, which is a hand with three cards in consecutive rank regardless of suit. For example: a 5, 7 and 6.

(4) A three-card 21, which is a hand containing three cards that total 21. For example: a 6, 6 and 9.

(5) A pair, which is a hand containing two cards of the same rank regardless of suit (such as two 10s or two queens), provided that only the initial two cards dealt to the hand shall be considered for purposes of a payout for a pair. For example, if a player receives a 5 and a 9 in the first two cards, then receives another 5, the player would not be eligible for the payout.

§ 681a.4. Opening of the table for gaming.

(a) After receiving one or more batches of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 681a.5 (relating to shuffle and cut of the cards).
(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the batches of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 681a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled, the dealer shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table and, working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least ten cards above the bottom of the stack.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be reshuffled or recut if the floorperson or above determines that the shuffle or cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe and the round of play is completed, as provided in § 681a.7 (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a 21 Baccarat table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first
player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt provided that the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(a) Wagers at 21 Baccarat shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the 21 Baccarat layout.

(b) All wagers shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(c) To participate in a round of play, a player shall place a wager on either the Player's Hand or Banker's Hand. A wager on:

(1) The Player's Hand shall win if the total value of the cards dealt to the Player's Hand:

   (i) Is 21 or less and is greater than the total value of the cards dealt to the Banker's Hand.

   (ii) Is over 21 but is lower than the total value of the cards dealt to the Banker's Hand.

(2) The Banker's Hand shall win if the total value of the cards dealt to the Banker's Hand:

   (i) Is 21 or less and is greater than the total value of the cards dealt to the Player's Hand.
(ii) Is over 21 but is lower than the total value of the cards dealt to the Player's Hand.

(d) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a wager in accordance with subsection (c) the option of placing any of the following optional wagers:

1. A Tie Wager which shall win if the Banker's Hand and the Player's Hand are equal in value.

2. A Bonus Wager on the Player's Hand which shall win if the Player's Hand contains a pair or better as described in § 681a.3(e) (relating to cards; number of decks; value of cards).

3. A Bonus Wager on the Banker's Hand which shall win if the Banker's Hand contains a pair or better as described in § 681a.3(e).

Once the procedures under § 681a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand shall be completed. The dealer shall then:

1. Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

2. Shuffle the cards so that they are randomly intermixed.

(e) After all Player and Banker Wagers and optional Tie and Bonus Wagers have been placed, the dealer shall deal the cards as follows:

(f) If either the Player's Hand or Banker's Hand is a natural and if:

(1) There were no Bonus Wagers placed, no additional cards may be dealt to either hand. All Player and Banker Wagers shall then be settled in accordance with subsections (h)—(j).

(2) Any player placed a Bonus Wager, one additional card shall be drawn face up to the Player's Hand or Banker's Hand if the Player's Hand or Banker's Hand has a total value of less than a soft or hard 17. The additional card shall count only for purposes of the Bonus Wager but may not count for purposes of the player's Player or Banker Wager. The player's Player or Banker Wager shall be settled in accordance with subsections (h)—(j) and the player's Bonus Wager shall be settled in accordance with subsection (k).

(g) If neither the Player's Hand nor Banker's Hand is a natural, the dealer shall draw one additional card face up to the Player's or Banker's Hand if either the Player's Hand or Banker's Hand has a total value of less than a soft or hard 17.

(h) After all cards have been dealt, the dealer shall compare the total value of the Player's Hand to the total value of the Banker's Hand. Starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction the dealer shall then settle all Player and Banker Wagers as provided in subsections (i) and (j).

(i) For players who wagered on the Player's Hand, if the Player's Hand:

(1) Is 21 or less and the total value of the Banker's Hand is over 21, the dealer shall pay each player who wagered on the Player's Hand in accordance with § 681a.8(a) (relating to payout odds).

§ 682a.7. Wagers.
(a) Wagers at Four Card Prime shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Four Card Prime table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Raise Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 682a.8, § 682a.9 or § 682a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 682a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Four Card Prime:

1. A player may compete solely against the dealer's Four Card Prime hand by placing an Ante Wager then a Raise Wager, in an amount equal to one, two or three times the player's Ante Wager, in accordance with § 682a.11(b).

2. If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Four Card Prime table the option to make an additional Prime Wager which shall win if at least four of player's five cards are of the same color.

3. If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Four Card Prime table the option to make an additional Aces Bonus Wager, which shall win if the player's five cards contains a pair of aces or better as provided in § 682a.6(d) (relating to Four Card Prime rankings).

4. If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Four Card Prime table the option to make an additional All-Six Bonus Wager, which shall win if the player's five cards and the additional All-Six Bonus card forms a three-of-a-kind or better as provided in § 682a.6(e).

(e) A certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 682a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g)
(relating to approval of table game layouts, signage and equipment). Once the procedures required under § 682a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.” To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) If a player has placed an All-Six Bonus Wager, the dealer shall deal the first card face down to the area of the layout designated for the All-Six Bonus card. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 682a.7(d)(1) (relating to wagers) and to the dealer until each player who placed an Ante Wager has five cards and the dealer has six cards. All cards shall be dealt face down.

(d) After five cards have been dealt to each player and six cards to the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(e) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 682a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 682a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use
that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If a player has placed an All-Six Bonus Wager, the dealer shall deal the first card face down to the area of the layout designated for the All-Six Bonus card. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 682a.7(d)(1) (relating to wagers) and to the dealer until each player who placed an Ante Wager has five cards and the dealer has six cards. All cards shall be dealt face down.

(c) After five cards have been dealt to each player and six cards to the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 682a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 682a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”
(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 682a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards. The dealer shall then remove the next stack of five cards dispensed by the automated dealing shoe and if any player placed an All-Six Bonus Wager, the dealer shall deal the top card of the stack face down to the area of the layout designated for the All-Six Bonus card. The dealer shall then deal a sixth card face down to the dealer's hand and place the remaining cards in the discard rack.

(c) After all cards have been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 682a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 682a.8, § 682a.9 or § 682a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Four Card Prime shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an
Ante Wager if he wishes to make a Raise Wager in an amount equal to one, two or three times the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player has placed an Ante Wager and an optional Prime, Aces Bonus or All-Six Bonus Wager but does not make a Raise Wager, the player shall forfeit the Ante Wager but does not forfeit the Prime, Aces Bonus or All-Six Bonus Wagers.

(c) After each player who has placed an Ante Wager has either placed a Raise Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Prime, Aces Bonus or All-Six Bonus Wager, and place the cards in the discard rack.

(d) The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking four card hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

1. The dealer shall turn the cards of each player face up on the layout and compare the player's four card hand to the dealer's four card hand.

2. If the player's highest ranking four card hand is:

   (i) Higher than or equal to the dealer's hand, as described in § 682a.6(b) (relating to Four Card Prime rankings), the dealer shall pay the winning Ante and Raise Wagers in accordance with § 682a.12(a) (relating to payout odds; Bad Beat Bonus; payout limitation). Additionally, after paying the player's winning Ante and Raise Wagers, if the player's hand is a three-of-a-kind or better, the dealer shall pay a Win Bonus, based on the value of the player's Ante Wager, in accordance with § 682a.12(b).

   (ii) Lower than the dealer's hand, and the player's losing hand:

      (A) Is not a three-of-a-kind or better, the dealer shall collect the player's losing Ante and Raise Wagers.

      (B) Is a three-of-a-kind or better, the dealer shall collect the player's losing Raise Wager, return the player's Ante Wager and pay the player a Bad Beat Bonus on the player's Ante Wager, in accordance with § 682a.12(c).

(e) After settling the player's Ante and Raise Wagers, the dealer shall settle any optional wagers as follows:

1. For the Prime Wager, if four or more of the player's five cards:

   (i) Are not the same color, the dealer shall collect the losing Prime Wager.
(ii) Are of the same color, the dealer shall pay the winning Prime Wager in accordance with § 682a.12(d).

(2) For the Aces Bonus Wager, if the player's five card hand:

(i) Does not contain a pair of aces or better, as described in § 682a.6(d), the dealer shall collect the losing Aces Bonus Wager.

(ii) Contains a pair of aces or better, as described in § 682a.6(d), the dealer shall pay the winning Aces Bonus Wager in accordance with § 682a.12(e).

(3) For the All-Six Bonus Wager, the dealer shall expose the All-Six Bonus card and combine it with the player's five cards to form the highest ranking six-card hand as provided in § 682a.6(e). If the hand:

(i) Does not contain a three-of-a-kind or better, as described in § 682a.6(e), the dealer shall collect the losing All-Six Bonus Wager.

(ii) Contains a three-of-a-kind or better, as described in § 682a.6(e), the dealer shall pay the winning All-Six Bonus Wager in accordance with § 682a.12(f).

(f) After all wagers of the player have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

1. The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

2. One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

3. Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

§ 683a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 683a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 683a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal
from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 683a.8, § 683a.9 or § 683a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Cajun Stud table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. (g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.” To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) If a player has placed an All-Six Bonus Wager, the dealer shall deal the first four cards face down to the area of the layout designated for the All-Six Bonus cards. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 683a.7(d)(1) (relating to wagers) until each player who placed an Ante Wager has two cards. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 683a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If a player has placed an All-Six Bonus Wager, the dealer shall deal the first four cards face down to the area of the layout designated for the All-Six Bonus cards. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 683a.7(d)(1) (relating to wagers) until each player who placed an ante wager has two cards. All cards shall be dealt face down to the players.

(c) After two cards have been dealt to each player, three cards shall be dealt face down to the area designated for the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 683a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 683a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.
(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of two cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 683a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager.

(c) After each stack of two cards has been dispensed and delivered in accordance with this section, the dealer shall remove the remaining cards from the automated dealing shoe and follow the procedures in § 683a.9(a)(2) (relating to procedures for dealing the cards from the hand) and deal the remaining cards as follows:

(1) If any player placed an All-Six Bonus Wager, deal four cards face down to the area of the layout designated for the placement of the All-Six Bonus Wager.

(2) Deal the three community cards. Except as provided in subsection (d), after all three community cards have been dealt, the dealer shall place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 683a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 683a.8, § 683a.9 or § 683a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:
(1) Each player who wagers at Cajun Stud shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his two cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Raise Wager in an amount equal to one, two or three times the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player has placed an Ante Wager and an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager but does not make a Raise Wager, the player shall forfeit the Ante Wager but does not forfeit the Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wagers. After each player who has placed an Ante Wager has either placed a Raise Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager, and place the cards in the discard rack.

(c) Once all players have either placed a Raise Wager or folded, the dealer shall turn over and reveal the first community card.

(d) Each player shall then make a second Raise Wager, in an amount equal to one, two or three times the player's Ante Wager or forfeit the Ante Wager and the first Raise Wager and end his participation in the round of play. If a player has placed an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager but does not make a Raise Wager, the player shall forfeit the Ante Wager and the first Raise Wager but does not forfeit the Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wagers. After each player who has placed an Ante Wager has either placed a second Raise Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager, and place the cards in the discard rack.

(e) Once all remaining players have either placed a second Raise Wager or folded, the dealer shall turn over and reveal the second community card.

(f) Each player shall then make a third Raise Wager, in an amount equal to one, two or three times the player's Ante Wager or forfeit the Ante Wager and the first and second Raise Wagers and end his participation in the round of play. If a player has placed an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager but does not make a Raise Wager, the player shall forfeit the Ante Wager and the first and second Raise Wagers but does not forfeit the Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wagers. After each player who has placed an Ante Wager has either placed a third Raise Wager on the designated area of the layout or forfeited, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager, and place the cards in the discard rack.
(g) Once all remaining players have either placed a third Raise Wager or folded, the dealer shall turn over and reveal the third community card.

(h) Beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn over and reveal the player's cards. The dealer shall then evaluate and announce the best possible five-card Poker hand that can be formed using the player's two cards and the three community cards. The wagers of each remaining player shall be resolved one player at a time regardless of outcome. All Ante and Raise wagers shall be settled as follows:

1. If a player's highest ranking five card hand is a pair of sixes or higher, as provided in § 683a.6(b) (relating to Cajun Stud hand rankings), the dealer shall pay the winning Ante and Raise Wagers in accordance with § 683a.12(a) (relating to payout odds; payout limitation).

2. If a player's highest ranking five card hand is lower than a pair of sixes, as provided in § 683a.6(b), the dealer shall collect the player's losing Ante and Raise Wagers.

(i) After settling the player's Ante and Raise Wagers, the dealer shall settle any optional wagers as follows:

(ii) Contains a three-of-a-kind or better, as provided in § 683a.6(e), the dealer shall pay the winning All-Six Bonus Wager in accordance with § 683a.12(e).

(f) Notwithstanding the payout odds in subsection (a), if specified in its Rules Submission form filed in accordance with § 601a.2, the certificate holder may establish an aggregate payout limit per player per round of play which may not be less than $50,000 or the maximum amount that one patron could win per round when betting the minimum Ante and Raise Wager, whichever is greater.

§ 683a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If a player or the area designated for the placement of the community cards is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If any of the community cards are exposed prior to the dealer revealing the community cards in accordance with § 683a.11(c), (e) and (g) (relating to procedures for completion of each round of play), all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled, provided that if any player placed a Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager, those wagers shall be settled in accordance with § 683a.11(i).

(e) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(f) If an automated dealing shoe is being used and the device jams, stops dealing cards or fails to deal all cards during a round of play, the round of play shall be void, all wagers shall be returned to the players and the cards shall be removed from the device and reshuffled with any cards already dealt.

(g) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe must be covered or have a sign indicating that the automated card shuffling device or automated dealing shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.
