

PGCB RFP clarification:

In the Questions and Answers that were sent out via eMarketplace or on our website, there is an inconsistency that needs to be clarified for the purposes of cost submittal:

Question 29 incorrectly said you should provide a price for a 5 year check AND per employer. You are free to place a per employer price in your cost submittal – and a per employer check may very well be something that will be part of the final agreement - but for the purposes of scoring costs, **we will only consider the prices given for a 5 year check**, not the price per employer.
