About the Pennsylvania Gaming Control Board:

The Pennsylvania Gaming Control Board is tasked to oversee all aspects of the state's casino industry, including sports wagering offered currently at eight locations and online by one casino. The oversight also includes other new gaming initiatives, expected to be launched in the coming months, which were created through Act 42 of 2017, an amendment to the Race Horse Development and Gaming Act.

The Commonwealth's casino industry currently consists of 10 stand-alone and racetrack casinos in operation, along with the two smaller resort casinos. These facilities collectively employ over 16,000 people and annually generate approximately \$1.4 billion in tax revenue from slot machine and table games play. The largest portion of that money is used for property tax reduction to Pennsylvania homeowners.
