Gaming Control Board Reports June Revenue

HARRISBURG, PA: The Pennsylvania Gaming Control Board posted reports today on its website that show that the combined total revenue in June 2021 generated from all forms of gaming regulated by the Board along with fantasy contests was \$388,892,795.

In releasing the June figures, the Board again noted that due to Covid-19 restrictions all casinos in operation at the time were closed for a portion of, and in the case of Rivers Casino Philadelphia, the entirety of June 2020. Therefore, in order to provide a fairer comparison of this month's revenue figures of those types of gaming, the Board is once again providing, where appropriate, in this release a comparison of this year's revenue against that of June 2019 when Covid-19 restrictions were not in place and casinos operated for the entirety of the month. Using that comparison, this month's total revenue was 43.34% above that of June 2019 when the total revenue was \$271,299,166.

Sources of gaming revenue regulated by the Pennsylvania Gaming Control Board include slot machines, table games, internet casino-type gaming (iGaming), sports wagering, fantasy contests and video gaming terminals (VGTs). The Board has posted separate reports for these types of gaming on its website, <https://gamingcontrolboard.pa.gov/>.

The following chart compiles all revenue generated in June 2021 by casinos along with fantasy contests and video gaming terminals operated by other vendors and includes a comparison to total revenue generated last June.
