About the Pennsylvania Gaming Control Board:

The Pennsylvania Gaming Control Board is tasked to oversee all aspects of gambling legalized under 2004's Race Horse Development and Gaming Act and the Gaming Expansion Act of 2017. In addition to slot machine and table games gambling at casinos, the expansion includes online casino games available to date on three sites; sports wagering offered through retail sportsbooks at nine locations and through four online outlets; fantasy sports contests, and; video gaming terminals (VGTs) at truck stops and online games at airports, both expected to be launched in the coming months.

The mature casino industry in Pennsylvania currently consists of 10 stand-alone and racetrack casinos in operation, along with the two smaller resort casinos. These facilities collectively employ over 16,000 people and annually generate over \$1.3 billion in tax revenue from slot machine and table games play. Construction of a 13th casino is currently underway along with a number of new "mini-casinos" that are expected to begin operation over the next couple of years.
